## Independent Auditor's Report

To the Members  
Fixed Income Capital Partners LLC  
Itasca, Illinois

We have audited the accompanying statement of financial condition of Fixed Income Capital Partners LLC (the Company) as of December 31, 2010, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Fixed Income Capital Partners LLC as of December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

## Fixed Income Capital Partners LLC

### Notes to Statement of Financial Condition

---

#### Note 1. Nature of Operations and Significant Accounting Policies

**Nature of operations:** Fixed Income Capital Partners LLC (the Company) buys and sells fixed income securities on a principal basis for institutional customers located throughout the United States, and clears all transactions through a clearing broker on a fully disclosed basis. The Company is registered as a broker-dealer with the Securities and Exchange Commission (SEC) and is also a member of the Financial Industry Regulatory Authority (FINRA). The Company was formed as an Illinois limited liability company in August 2002, and commenced operations in February 2003.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on a fully disclosed basis with a clearing broker-dealer, and promptly transmit all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

**Accounting policies:** The Company follows the accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles (GAAP) that the Company follows to ensure consistent reporting of financial condition, results of operations, and cash flows.

**Use of estimates:** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Cash equivalents:** Highly liquid investments with original maturity of three months or less at the date of acquisition are considered cash equivalents.

**Securities owned and income recognition:** Securities transactions and the related revenue and expenses, and revenue from principal transactions are recorded on a trade-date basis. Securities owned are stated at fair value with the related changes in unrealized appreciation or depreciation reflected in principal transactions, net.

**Furniture and equipment:** Furniture and equipment are recorded at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

**Income taxes:** The Company is a limited liability company and is treated as a disregarded entity for federal and state purposes. No provision has been made for income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

## Fixed Income Capital Partners LLC

### Notes to Statement of Financial Condition

---

#### **Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. Management has determined that there are no material uncertain income tax positions through December 31, 2010. The Company is generally not subject to examination by United States federal and state tax authorities for the tax years before 2007.

#### **Note 2. Receivable from Clearing Broker**

At December 31, 2010, the Company has cash deposits and net amounts due from unsettled trades with the clearing broker of \$2,323,385. Amounts receivable from the clearing broker may serve to collateralize amounts due and may serve to satisfy margin requirements.

#### **Note 3. Fair Value of Financial Instruments**

FASB defines fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and provides for disclosure requirements for fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or, in the absence of a principal market, the most advantageous market. The Company utilizes valuation techniques, consistent with the market, to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets and liabilities recorded at fair value are categorized based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into these broad levels:

Level 1. Inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2. Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3. Inputs are unobservable for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data).

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. The following section describes the valuation techniques used by the Company to measure different financial instruments at fair value and includes the level within the fair value hierarchy in which the financial instrument is categorized.

## Fixed Income Capital Partners LLC

### Notes to Statement of Financial Condition

---

#### Note 3. Fair Value of Financial Instruments (Continued)

The Company's investment in the money market fund is valued using quoted market prices and is classified within Level 1. The Company's investment in the municipal bond is valued using quoted active market prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency and classified within Level 2 of the fair value hierarchy. The following summarizes the Company's assets and liabilities measured at fair value on a recurring basis at December 31, 2010, using the fair value hierarchy:

Description	Fair Value Measurements on a Recurring Basis as of December 31, 2010			
	Total	(Level 1)	(Level 2)	(Level 3)
Assets:				
Cash equivalent				
Money market fund	\$ 24,086	\$ 24,086	\$ -	\$ -
Securities owned:				
Municipal bond	4,727,979	-	4,727,979	-
	<u>\$ 4,752,065</u>	<u>\$ 24,086</u>	<u>\$ 4,727,979</u>	<u>\$ -</u>

#### Note 4. Profit Sharing Plan

The Company has a profit sharing plan that covers all employees. Under the provisions of the plan, the Company may elect to make discretionary contributions to the plan.

#### Note 5. Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. Management of the Company expects the risk of loss to be remote.

#### Note 6. Market and Credit Risk

The Company buys and sells fixed income securities on a principal basis for institutional customers and, from time to time, may be exposed to market risk. This risk is generally controlled by monitoring the market and entering into offsetting positions when appropriate. Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers and counterparties in meeting contracted obligations. Any potential contingent liability under the clearing agreement cannot be estimated. The Company has not recorded any contingent liability associated with the guarantee of customers' or counterparties' performance in the financial statements and management believes that any potential requirement to make payments under this guarantee is remote.

## Fixed Income Capital Partners LLC

### Notes to Statement of Financial Condition

---

#### **Note 6. Market and Credit Risk (Continued)**

In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral or reduce positions where necessary.

Amounts due from the clearing broker represent a concentration of credit risk and primarily relate to revenue receivable on securities transactions and deposits. Amounts due from and securities on deposit with the clearing broker collateralizes short positions and amounts due, if any. The Company also maintains deposit accounts at a bank that at times exceed federally insured limits. The Company does not anticipate nonperformance by customers, its clearing broker, or its bank. In addition, the Company has a policy of reviewing, as considered necessary, the creditworthiness of these counterparties.

#### **Note 7. Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. Under this rule, the Company is required to maintain "net capital" of 6-2/3 percent of "aggregate indebtedness" or \$100,000, whichever is greater, as these terms are defined.

Net capital and aggregate indebtedness change from day to day, but at December 31, 2010, the Company had net capital of \$6,603,300, which was \$6,503,300 in excess of its required capital of \$100,000. The Company's net capital ratio was 0.03 to 1.
