Independent Auditor's Report

To the General Partners
Lakeshore Securities L.P.
Chicago, Illinois

We have audited the accompanying statement of financial condition of Lakeshore Securities L.P. (the Partnership) as of December 31, 2010 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 and Regulation 1.10 under the Commodity Exchange Act. This financial statement is the responsibility of the Partnership's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Lakeshore Securities L.P. as of December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Total liabilities and partners' capital \$ 9,665,788

See Notes to Statement of Financial Condition.

Notes to Statement of Financial Condition

Note 1. Nature of Operations and Significant Accounting Policies

Nature of operations: Lakeshore Securities L.P. (a limited partnership) (Partnership) is a registered broker-dealer and a member of the Chicago Board Options Exchange, Inc. and Options Clearing Corporation. The Partnership is also registered as an introducing broker with the Commodity Futures Trading Commission (CFTC), and is a member of the National Futures Association (NFA) and the Chicago Futures Exchange. The Partnership provides brokerage and clearing services to customers, primarily broker-dealers, on a national basis.

The following is a summary of the Partnership's significant accounting policies:

Accounting policies: The Partnership follows the accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets generally accepted accounting principles (GAAP) that the Partnership follows to ensure consistent reporting of financial condition, results of operations, and cash flows.

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Partnership's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash equivalents: Cash equivalents are highly liquid investments with original maturities of less than three months at the date of acquisition that are not held for sale in the ordinary course of business.

Revenue recognition and accounts receivable: Brokerage service commissions, order flow income, and clearing fees income are recorded on a trade date basis as securities transactions occur. Receivable from broker-dealers and others primarily represents amounts due from these services. Uncollectible amounts are written off at the time the individual receivable is determined to be uncollectible. Allowances for uncollectible receivables are based primarily on historical collection experience.

Dividends are recorded on an ex-dividend date.

Securities owned: Securities owned are valued at fair value based on quoted market prices.

Income taxes: The financial statements do not reflect any income taxes since the taxable income of the Partnership is includable in the income tax returns of the partners.

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Partnership's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. Management has determined that there are no material uncertain income tax positions through December 31, 2010. The Partnership is generally not subject to U.S. federal and state tax examinations for tax years before 2007.

Notes to Statement of Financial Condition

Note 2. Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Partnership utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1. Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2. Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3. Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Partnership's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The following table presents the Partnership's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2010:

Description	Fair Value Measurements			Total
	Level 1	Level 2	Level 3	
Securities owned:				
U.S. Treasury bills	\$ 599,969	\$ -	\$ -	\$ 599,969
Common stock:				
Stock in exchange	1,505,400	1,516,372	-	3,021,772
Other	4,279	-	-	4,279
Total	<u>\$ 2,109,648</u>	<u>\$ 1,516,372</u>	<u>\$ -</u>	<u>\$ 3,626,020</u>

Investments such as U.S. Treasury bills and securities traded on a national securities exchange are stated at the last reported sales price on the day of valuation. These financial instruments are classified as Level 1 in the fair value hierarchy. For such investments, the Partnership does not adjust the quoted price for such instruments, even in situations where the Partnership may hold a large position and a sale could reasonably impact the quoted price.

Stock in exchange includes common stock that is restricted which is valued based on the last reported sales price of the unrestricted common stock, less a discount for the restriction. This stock is classified as Level 2.

Lakeshore Securities L.P.

Notes to Statement of Financial Condition

Note 3. Securities Owned

The Partnership has U.S. Treasury bills included in securities owned in the statement of financial condition in the amount of \$599,969 with maturity dates through February 24, 2011 that are on deposit with a clearing organization as a guarantee deposit.

Note 4. Receivable from Broker-Dealers and Others

Receivable from broker-dealers and others at December 31, 2010 consists of:

Brokerage commissions receivable	\$ 2,617,543
Cash on deposit at clearing broker	159,851
	<u>\$ 2,777,394</u>

Cash and equity securities held by the clearing broker collateralize amounts due to the clearing broker, if any, and may serve to satisfy margin and regulatory requirements.

Note 5. Commitments and Contingencies

The Partnership entered into a lease for office space expiring January 31, 2016. The minimum rental commitments under this agreement are as follows:

2011	\$ 48,521
2012	49,279
2013	50,757
2014	52,280
2015	53,848
Thereafter	4,498
	<u>\$ 259,183</u>

The partnership agreement provides, among other things, that the Partnership may, under certain circumstances and subject to minimum capital requirements, elect to purchase a partner's interest at a price, as defined.

In the normal course of business, the Partnership may be subject to various claims, litigation, regulatory and arbitration matters. The effect of such claims and matters, if any, cannot be determined and management of the Partnership believes that the resolution of these matters will not result in a material adverse effect on the Partnership's financial position, results of operations, or cash flows. The Partnership also indemnifies and guarantees certain service that provides against specified potential losses in connection with their acting as an agent of, or providing services to the Partnership. The maximum potential amount of future payments that the Partnership could be required to make under these indemnifications cannot be estimated. However, the Partnership believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

Notes to Statement of Financial Condition

Note 6. Customer Concentration and Related Parties

The Partnership leased seats from certain of its partners and an employee on a month-to-month basis, based on the value of the seats.

Note 7. Employee Benefit Plan

The Partnership participates in a 401(k) employee benefit plan covering substantially all of its employees and employees of related entities. Contributions to the plan are at the discretion of the Partnership.

Note 8. Customer Concentration and Concentration of Credit Risk

For the year ended December 31, 2010, the Partnership had two major customers. A customer is considered major when the customer represents more than 10 percent of total receivables from broker-dealers and others as of December 31, 2010, or more than 10 percent of total brokerage commissions revenue for the year ended December 31, 2010,

The receivable from broker-dealers and others represents a concentration of credit risk resulting from the Partnership's brokerage activity. The cash in bank deposit accounts, at times may exceed federally insured limits. The Partnership has a policy of reviewing, as considered necessary, the creditworthiness of the counterparties with which it conducts business and does not anticipate nonperformance by these counterparties.

Note 9. Net Capital Requirements

The Partnership is subject to the minimum net capital requirements of the SEC Uniform Net Capital Rule (SEC Rule 15c3-1) and the CFTC Net Capital Requirements (Regulation 1.17). Under the SEC Rule 15c3-1, the Partnership is required to maintain "net capital" equal to the greater of 2 percent of combined "aggregate debits" or \$250,000, as these terms are defined. Under the Regulation 1.17, the Partnership is required to maintain "adjusted net capital" of \$45,000, as this term is defined.

Net capital and net capital requirements change from day to day, but as of December 31, 2010, under the most restrictive of these requirements, the Partnership had net capital and net capital requirements of \$5,133,905 and \$250,000, respectively. The net capital rule may effectively restrict partner withdrawals.

As a clearing member of the Options Clearing Corporation, the Partnership is required to maintain net capital of \$2,000,000 (Rule 302(a)).

Note 10. Subsequent Events

Subsequent to year-end, the Partnership paid withdrawals in the amount \$1,975,508 primarily to one of its General Partners. The Partnership also received \$1,396,538 in additional partner contributions, subsequent to year-end.
