INDEPENDENT AUDITORS' REPORT

Harold Oshima
D/B/A Oshima & Associates
Boston, Massachusetts

We have audited the accompanying statements of financial condition of Oshima & Associates (a proprietorship)(the "Company") as of December 31, 2010 and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidenced supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oshima & Associates as of December 31, 2010 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the schedule presented on pages 8 and 10 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

OSHIMA & ASSOCIATES (A PROPRIETORSHIP)

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

Note 1 – Summary of Significant Accounting Policies

Nature of Business

Oshima & Associates (the "Company") is a proprietorship of Harold Oshima, and is registered with the Securities Exchange Commission ("SEC"), a member of the Financial Industry Regulatory Authority ("FINRA"), and a member of the Securities Investor Protection Corporation ("SIPC"). The Company's brokerage activity is transacted on a fully disclosed basis through a clearing broker.

The Company's commission income is derived from purchases and sales of securities on behalf of customers and from advisory fees. The Company does not engage in proprietary trading activities. Fees are also charged for tax and financial advisory services.

As is typical in the industry, the Company engages in activities with various financial institutions and brokers. In the event these counter parties do not fulfill their obligations, the Company may be exposed to risks.

Cash and Cash Equivalents

For purposes of reporting the statement of cash flows, the Company considers all cash accounts, which are not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash balances in excess of FDIC and similar insurance coverage are subject to the usual banking risks associated with funds in excess of those limits. At December 31, 2010, the Company had no uninsured cash balances.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

As a proprietorship, all income of the Company is taxed to Harold Oshima. Therefore, no provision is shown for federal or state income taxes in the financial statements.

Fair Value of Financial Instruments

All of the Company's financial assets and liabilities are carried at market value or at amounts, which, because of their short-term nature, approximate current fair value.

OSHIMA & ASSOCIATES (A PROPRIETORSHIP)

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

Note 2 – Net Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital at amount equal to the greater of \$5,000 or 6 2/3% of aggregate indebtedness, and requires that the ratio of aggregate indebtedness to net capital not to exceed 15 to 1.

At December 31, 2010, the Company's had excess net capital of \$16,572 and a net capital ratio of .236 to 1.

Note 3 – Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company's Clearing Broker extends credit to the customer, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customer's account. As a result of guaranteeing customer margin balances carried by the Clearing Broker, the Company may be exposed to off-balance sheet risk in the event margin requirements are not sufficient to fully cover losses the customer may incur. At December 31, 2010, margin accounts guaranteed by the Company were not material.

The Company is also exposed to off-balance sheet risk of loss on transactions during the period from the trade date to the settlement date, which is generally three business days. If the customer fails to satisfy its contractual obligations to the Clearing Broker, the Company may have to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations. Settlement of these transactions is not expected to have a material effect on the Company's financial position.

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and the Clearing Broker's guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, require customers to deposit additional collateral, or to reduce positions, when necessary.

The Company maintains cash and other deposits with banks and brokers, and, at times, such deposits exceed applicable insurance limits. The Company reduces its exposure to credit risk by maintaining such deposits with high quality financial institutions.

Note 4 – Related Party Transaction

Office space has been provided under a tenancy-at-will. Rent has been charged at the rate of \$4,000 per month through April of 2010 and thereafter \$5,000 per month, plus special assessments and utilities.

Note 5 – Investment in Marketable Security

The Company's investments in marketable securities were held for an indefinite period and thus were classified as available-for-sale. Available-for-sale securities were recorded at fair value in investments and other assets on the balance sheet, with the change in fair value during the period included in other comprehensive income for the period.

Note 4 - Subsequent Events

In accordance with the *Subsequent Events* Topic of the FASB Accounting Standards Codification No. 855 ("FASB ASC 855"), the Company has evaluated those events and transactions that occurred from January 1, 2011 through February 18, 2011, the date the financial statements were available to be issued. No material events or transactions have occurred during this period which would render these financial statements to be misleading.

REPORT ON INTERNAL CONTROL STRUCTURE REQUIRED BY SEC RULE 17a-5 FOR A BROKER-DEALER CLAIMING EXEMPTION FROM SEC RULE 15c3-3

Harold Oshima
Oshima & Associates (a proprietorship)
Boston, Massachusetts

In planning and performing our audit of the financial statements of Oshima & Associates (a proprietorship as of and for the year ended December 31, 2010 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting ("internal control") as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of the internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2010 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Ohav and Company, PA

Maitland, Florida
