INDEPENDENT AUDITORS' REPORT

Board of Directors and Shareholder
Quantitative Analysis Service, Inc.

We have audited the accompanying statement of financial condition of Quantitative Analysis Service, Inc. (the "Company") as of December 31, 2010. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Quantitative Analysis Service, Inc. as of December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

QUANTITATIVE ANALYSIS SERVICE, INC.

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies

Nature of Business

Quantitative Analysis Service, Inc. (the "Company") is a corporation organized under the laws of the state of New Jersey on October 20, 1978. The Company's operations consist primarily of providing technical market research.

The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA").

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Cash Equivalents

The Company considers its investments in short-term money market accounts to be cash equivalents.

Valuation of Investments in Securities and Securities at Fair Value - Definition and Hierarchy

In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

QUANTITATIVE ANALYSIS SERVICE, INC.

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies (continued)

Valuation of Investments in Securities and Securities at Fair Value - Definition and Hierarchy (continued)

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Valuation Techniques

The Company values investments in securities and securities sold short that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

Revenue and Expense Recognition from Securities Transactions

Securities transactions and the related revenues and expenses are recorded on the trade-date basis and unrealized gains and losses are reflected in revenues.

Revenue Recognition from Market Research Analysis Services

The Company recognizes revenues when it has completed its obligations and the amount earned is fully determinable and realizable, and collectability is reasonably assured.

Deferred Revenue

Amounts billed and or received prior to satisfying the revenue recognition criteria for technical market research services are recorded as deferred revenue and grouped within liabilities on the accompanying statement of financial condition. Deferred revenue is recognized into revenue on a straight-line basis over the service term.

QUANTITATIVE ANALYSIS SERVICE, INC.

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies (continued)

Receivables Due from Customers

The Company carries its receivables due from customers at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts, based on a history of past write-offs and collections and current credit conditions. At December 31, 2010 there was no allowance for doubtful accounts.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets. As of December 31, 2010, all of the Company's property and equipment was fully depreciated.

Income Taxes

The shareholder of the Company has elected to be treated as an "S" corporation under Subchapter S of the Internal Revenue Code. Accordingly, no provision has been made for federal and state income taxes since the income or loss of the Company is allocated to the individual shareholder for inclusion in their personal income tax return.

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce stockholder's. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in the U.S. federal and various state and local jurisdictions. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for years before 2007. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

QUANTITATIVE ANALYSIS SERVICE, INC.

NOTES TO FINANCIAL STATEMENT

1. Nature of business and summary of significant accounting policies (continued)

Securities Owned

Securities owned are valued at market and unrealized gains and losses are reflected in the statement of operations. At December 31, 2010, securities owned were comprised of equity securities which are level 1 in the fair value hierarchy.

2. Net capital requirement

The Company, as a member of FINRA, is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2010, the Company's net capital was approximately \$1,661,000, which was approximately \$1,611,000 in excess of its minimum requirement of \$50,000.

3. Off-balance sheet risk

Pursuant to clearance agreements, the Company introduces all of its securities transactions to clearing brokers on a fully-disclosed basis. All of the customers' money balances and long and short security positions are carried on the books of the clearing brokers. In accordance with the clearance agreements, the Company has agreed to indemnify the clearing brokers for losses, if any, which the clearing brokers may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing brokers monitor collateral on the customers' accounts.

In addition, the receivables from the clearing brokers are pursuant to these clearance agreements.

4. Exemption from Rule 15c3-3

The Company is exempt from the Securities and Exchange Commission Rule 15c3-3 and, therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers".

5. Concentrations of credit risk

The Company maintains its cash balances in various financial institutions. These balances are insured by the Federal Deposit Insurance Corporation up to \$250,000 per institution.

QUANTITATIVE ANALYSIS SERVICE, INC.

NOTES TO FINANCIAL STATEMENT

6. Commitments and contingencies

The Company leases its office facilities under an operating lease which expires in November 2012. The lease requires the Company to pay additional rent for storage and parking spaces as well as real estate tax escalations and other costs associated with the facility. Rent expense under this agreement for the year ended December 31, 2010 was approximately \$281,000.

Aggregate future minimum lease payments of office space subsequent to December 31, 2010 are as follows:

Year Ending December 31,	
2011	\$ 281,301
2012	<u>257,859</u>
	<u>\$ 539,160</u>

7. Employee benefit plan

The Company maintains a retirement plan (the "Plan"), pursuant to Section 401(k) of the Internal Revenue Code, for eligible participants to make voluntary contributions of a portion of their annual compensation, on a deferred basis, subject to limitations provided by the Internal Revenue Code. This plan is for the benefit of all eligible employees, who may have a percentage of their salary withheld, not to exceed limits provided by the Internal Revenue Code. The Company's annual contribution is discretionary as determined by management. For the year ended December 31, 2010, the Company contributed approximately \$69,000 to the Plan.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES RELATED TO THE SIPC ASSESSMENT RECONCILIATION REQUIRED BY SEC RULE 17a-5

To the Board of Directors and Shareholder of Quantitative Analysis, Inc.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments (Form SIPC-7) to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2010, which were agreed to by Quantitative Analysis, Inc. ("the Company") and the Securities and Exchange Commission, the Financial Industry Regulatory Authority, Inc., and SIPC, solely to assist you and the other specified parties in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records noting no differences;
2. Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2010 with the amounts reported in Form SIPC-7 for the year ended December 31, 2010 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences; and
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences; and

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
