NOTES TO FINANCIAL STATEMENTS

1. BUSINESS OPERATIONS

Cooper Malone McClain, Inc. (Company) is a broker/dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). The Company is also a member of the Municipal Securities Rulemaking Board (MSRB), which makes rules regulating dealers who deal in municipal bonds, municipal notes, and other municipal securities.

The Company primarily offers investment banking services, which include services related to originating, underwriting, and distributing initial issues of securities, primarily in the state of Kansas. Additionally, the Company also purchases and sells securities in the secondary market.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer and promptly transmit all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition – Securities transactions, including trading commission income, net trading gains/losses, and unrealized gains and losses are recorded on the trade date. Fiscal fees and applicable expenses are recognized when all services are rendered and closing of the bond issue is assured. Interest income is recognized when earned.

Cash Equivalents – For purposes of reporting cash flows, the Company considers all highly liquid debt instruments with a maturity of three months or less at date of purchase to be cash equivalents.

The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Receivables – Commissions and interest receivable are for securities transactions that have reached their settlement date and have not been deposited by the clearing organization into the Company's account. Employees and stockholders receivables consist of amounts due from related parties.

Securities Owned – Securities owned are classified as Company securities, with unrealized gains and losses included in earnings and realized gains and losses computed using the specific identification method. They are carried at fair value. Substantially all the municipal bonds pertain to Kansas issues.

Securities classified as investment inventory are those held by the Company to be sold to its customers. Securities classified as company investments are those held by the Company for income and capital appreciation, and are carried at fair value.

COOPER MALONE MCCLAIN, INC.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Furniture and Equipment – Furniture and equipment are carried at cost. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred, whereas significant renewals and betterments are capitalized. Deduction is made for retirements resulting from the renewals or betterments.

Income Taxes – The Company has elected to be taxed as a small business corporation under Subchapter S of the Internal Revenue Code. Under such provisions, the stockholders are taxed individually on their respective share of the Company's taxable income. The Company generally does not incur income taxes at the company level. As such, there is no tax provision recognized in the financial statements. It is customary for S corporations to make stockholder distributions to be used by stockholders to pay quarterly estimated taxes and annual year-end tax amounts. Such distributions are treated as a reduction of equity when paid.

Effective January 1, 2009, the Company adopted the accounting requirements related to uncertain tax positions. The adoption of the guidance had no effect on the Company's financial statements. Previously, the Company had accounted for tax positions in accordance with guidance on accounting for contingencies. Currently, the Company recognizes the financial statement effects of a tax position only when it believes it can more likely than not sustain the position upon an examination by the relevant tax authority.

Tax years that remain subject to examination in the Company's major tax jurisdictions (Federal and State of Kansas) include fiscal years ending in 2007, 2008, 2009, and 2010.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect: (1) the reported amounts of assets and liabilities, (2) disclosures such as contingencies, and (3) the reported amounts of revenues and expenses included in such financial statements. Actual results could differ from those estimates.

Subsequent Events – Subsequent events have been evaluated through February 17, 2011, which is the date the financial statements were available to be issued.

3. DEPOSIT WITH CLEARING ORGANIZATION

The Company is required to maintain a deposit with its clearing organization equal to the greater of \$30,000 or various percentages of securities owned. There were deposits of \$236,498 and \$301,154 at December 31, 2010 and 2009, respectively.

9. **FAIR VALUE OF FINANCIAL INSTRUMENTS**

Fair value measurements apply to all assets and liabilities that are being measured and reported on a fair value basis. This requires disclosure that establishes a framework for measuring fair value in GAAP, and expands disclosure about fair value measurements. This enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 Inputs – Quoted prices in active markets for identical assets or liabilities. This includes securities owned consisting of corporate bonds, municipal bonds and equity securities.

Level 2 Inputs – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Securities Owned – These instruments are valued in an active market (Level 1) unless required to be discounted based on regulatory requirements (Level 3).

Cash Value of Life Insurance – These instruments are classified as Level 3. The values are determined by the underwriting insurance company's valuation models and represent the guaranteed value the Company would receive upon surrender of the policies as of December 31, 2010 and 2009. These policies are held on the Company's founders.
