REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

**To the Shareholders
Empiric Distributors, Inc.
Austin, Texas**

We have audited the accompanying statement of financial condition of Empiric Distributors, Inc. as of December 31, 2010, and the related statements of income (loss), changes in ownership equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Empiric Distributors, Inc. as of December 31, 2010, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Pages 3, 4, 6 and 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

Year ended December 31, 2010

(1) BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF ORGANIZATION

Empiric Distributors, Inc. (the “*Company*”), a fully disclosed introducing broker-dealer located in Austin, Texas, is registered with the Securities and Exchange Commission (“*SEC*”), the State Securities Commissions of Texas and the Financial Industry Regulatory Authority (“*FINRA*”). The Company is engaged primarily in institutional and retail securities brokerage services. The Company began operations August 30, 2002. The Company, formerly Texas Capital, Inc., doing business as First Austin Investments, changed its name in January 2007.

INCOME TAXES

The Company files its taxes with its parent company, Empiric Advisors, Inc. (formerly known as First Austin Capital Management).

Management has analyzed the Company’s tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on federal, state and local income tax returns for open years (2007 – 2009) or expected to be taken on the Company’s 2010 tax return.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

INVESTMENTS

Investments are stated at fair value and unrealized gains and losses are recognized in the statement of income.

FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

EMPIRIC DISTRIBUTORS, INC.

NOTES TO FINANCIAL STATEMENTS – (Continued)

Year ended December 31, 2010

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management’s own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company’s own data.)

The following is a summary of the inputs used as of December 31, 2010 in valuing the Company’s investments:

<u>Valuation Input</u>	<u>Investment in Securities</u>
Level 1	\$121,462
Level 2	-
Level 3	-
	<u>\$121,462</u>

The carrying amounts of cash and cash equivalents, receivables, and accounts payable and accrued expenses approximate fair value because of the short maturity of these items.

SUBSEQUENT EVENTS

Subsequent events after the balance sheet date through the date that the financial statements were available for issuance, February 25, 2011, have been evaluated in the preparation of the financial statements.

OTHER

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers’ securities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

EMPIRIC DISTRIBUTORS, INC.

NOTES TO FINANCIAL STATEMENTS – (Continued)

Year ended December 31, 2010

(2) INVESTMENTS

At December 31, 2010 investments consisted of the following:

	<u>Cost</u>	<u>Fair Value</u>
Mutual Fund	\$79,778	\$121,462

(3) REGULATORY REQUIREMENT

The Company is exempt from the provisions of Rule 15c3-3 of the Securities Exchange Act of 1934 (reserve requirement for brokers and dealers) as covered in Rule 15c3-3(k)(2)(ii) in that it does not hold funds or securities for customers and it promptly transmits all funds and delivers all securities in connection with its activities as a broker or dealer.

The Company, as a registered broker-dealer, is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (SEC Rule 15c3-1). This rule requires that the Company maintain minimum net capital, as defined, of at least the greater of \$5,000 or 6-2/3% of aggregate indebtedness, as defined. Net capital and aggregate indebtedness change from day to day, but as of December 31, 2010, the Company had net capital of \$117,625 which exceeded its net capital requirement of \$5,000 by \$112,625. The Company's ratio was .21 to 1 of aggregate indebtedness to net capital.

(4) CONCENTRATION OF RISK

The Company maintains bank accounts which may exceed federally insured limits. Historically, they have not experienced any credit-related losses.

(5) OFF-BALANCE-SHEET RISK AND CONCENTRATION OF CREDIT RISK

The Company introduces customers' securities transactions on a fully-disclosed basis to its clearing broker/dealer. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

(6) RELATED PARTIES

One of the Company's directors serves on the Board of Directors of Empiric Funds, Inc. from which the Company receives a majority of its revenue.

REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5

**To the Shareholders
Empiric Distributors, Inc.
Austin, Texas**

In planning and performing our audit of the financial statements of Empiric Distributors, Inc. (the "Company"), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13 and complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Page Two**

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
