Report of Independent Registered Public Accounting Firm

To the Stockholder of
Kashner Davidson Securities Corporation:

We have audited the accompanying statement of financial condition of Kashner Davidson Securities Corporation (the Company) as of December 31, 2010, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kashner Davidson Securities Corporation as of December 31, 2010, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company's ability to continue as a going concern is dependent upon the success of the Company in realizing profits from its trading account. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

KASHNER DAVIDSON SECURITIES CORPORATION

Notes to Financial Statements

December 31, 2010

(1) **Nature of Business**

Kashner Davidson Securities Corporation (Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company was incorporated in Florida in 1977 and is engaged primarily in the securities brokerage business with offices in Sarasota, Florida. The Company transacts business through corresponding brokers and does not handle any customer securities.

The Company has entered into agreements with registered representatives. The registered representatives are employees subject to supervision by the Company. The representatives receive a percentage of the gross dealer commissions paid to the Company on security based sales. The commission percentages paid to the registered representatives range from 40% to 50%.

(2) **Going Concern**

Historically, income from commissions and other customer revenue sources were not sufficient to cover the operating overhead of the Company. The sole stockholder does not have the personal resources necessary to contribute additional capital to the Company. Management has taken steps to reduce its operating overhead costs and improve its revenues. The Company's ability to continue as a going concern is dependent upon the success of the Company in realizing profits from its trading account. The accompanying financial statements do not include any adjustments relating to the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities should the company be unable to continue as a going concern.

(3) **Summary of Significant Accounting Policies**

(a) **Revenue Recognition**

The Company recognizes commissions revenues in the period which the commissions are earned and services are rendered.

Securities transactions are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade-date basis. During 2010, the Company received proceeds of approximately \$30,300,000 for investment sales and had purchases of approximately \$30,500,000.

(b) **Cash and Cash Equivalents**

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents for purposes of the statement of cash flows. The Company maintains its cash accounts at commercial institutions. Accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. At times balances may exceed federally insured limits.

KASHNER DAVIDSON SECURITIES CORPORATION

Notes to Financial Statements - Continued

(3) Summary of Significant Accounting Policies - Continued

(c) Accounts Receivable

The accounts receivable from clearing agency represents commissions and trading profits earned which have not been received. Other receivable represents excess payments made for federal insurance contributions not yet refunded and employee advances. The Company estimates the allowance for doubtful accounts based upon a review of the current collectability of existing receivables. No allowance for doubtful accounts was recorded at December 31, 2010 as management believes all receivables to be fully collectible.

(d) Marketable Securities

Marketable securities are reported at fair value based on quoted market prices with realized and unrealized gains and losses included in the statement of operations. All transactions entered into are for the account of and risk of the Company and are recorded on a trade date basis.

(e) Property and Equipment, net

Property and equipment, net is recorded at depreciated cost. Depreciation is provided for in amounts sufficient to relate the cost of assets to operations over estimated useful lives ranging from three to ten years principally on the straight-line and accelerated methods. Major renewals, betterments and replacements are capitalized. Maintenance and repairs are charged to expense as incurred.

(f) Income Taxes

Income taxes on net earnings are payable personally by the stockholder pursuant to an election under Subchapter S of the Internal Revenue Code. Therefore, no provision or liability for income taxes has been included in the financial statements.

The Company adopted Accounting Standards Codification Topic 740, Income Taxes (ASC Topic 740). This Standard prescribes a recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. There was no impact on the Company's financial condition or results of operations as a result of the adoption of this Standard.

(g) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect various reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

KASHNER DAVIDSON SECURITIES CORPORATION

Notes to Financial Statements - Continued

(4) Deposits with Clearing Agency

As of December 31, 2010, the Company had cash deposits of \$50,169 in various firm accounts with a clearing agency. These accounts were not insured by the FDIC.

(5) Fair Value of Financial Instruments

The Company has adopted the provisions of ASC 820, Fair Value Measurements and Disclosures (ASC 820). ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. ASC 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

- Level 1* Observable inputs such as quoted prices in active markets;
- Level 2* Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3* Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Company held \$362,406 of marketable securities and \$50,169 of deposits with a clearing agency held in money market accounts at December 31, 2010, which were considered Level 1 assets.

(6) Property and Equipment, Net

A summary of property and equipment as of December 31, 2010 is as follows:

Furniture and equipment	\$	41,533
Leasehold improvements		<u>121,048</u>
		162,581
Less accumulated depreciation		<u>(159,225)</u>
	\$	<u><u>3,356</u></u>

Depreciation expense for the year ended December 31, 2010 was \$645.

(7) Distribution to Stockholder

During 2010, the Company distributed \$19,768 to the sole stockholder. Since the Company does not have retained earnings, the distributions have been accounted for as a reduction of additional paid-in capital.

KASHNER DAVIDSON SECURITIES CORPORATION

Notes to Financial Statements - Continued

(8) Financial Instruments with Off-Balance-Sheet Risk

The Company enters into various transactions involving off-balance-sheet financial instruments. These financial instruments include options and short sales (securities sold, not yet purchased). These financial instruments are used to conduct trading activities and manage market risks and are therefore subject to varying degrees of market and credit risk.

As a writer of options, the Company receives a premium in exchange for giving the counterparty the right to buy or sell the security at a future date at a contracted price. The credit risk for options is limited to the unrealized market valuation gains recorded in the statement of financial condition. Market risk is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates.

In the normal course of business, the Company's activities involve the execution, settlement and financing of various securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the Company has to purchase or sell the financial instrument underlying the contract at a loss. The Company controls such risks by establishing limits and monitoring procedures. As of December 31, 2010, the Company did not have any such contracts.

(9) Operating Lease

The Company leases commercial property for its facility. The lease requires monthly payments of approximately \$2,400 per month. This operating lease expires in October 2011 with a three year renewal option. Future payments under this operating lease are approximately \$21,000 in 2011. Rent expense was \$30,864 for the year ended December 31, 2010.

(10) Retirement Plan

The Company had established a qualified deferred compensation plan covering substantially all employees. The plan was terminated effective December 31, 2009. Plan expense was \$1,450 for the year ended December 31, 2010 for final expenses of the plan.

(11) Indemnifications

In the normal course of business, the Company indemnifies and guarantees the clearing agent and financial operations and compliance management consultant against specified potential losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

(12) Commitments and Contingencies

The Company is involved in a legal matter that arose during the ordinary course of business. Management is of the opinion that the ultimate resolution of this matter will not have a detrimental impact on the Company's financial position or results of operations.

KASHNER DAVIDSON SECURITIES CORPORATION

Notes to Financial Statements - Continued

(13) Net Capital Requirements

The Company is subject to SEC Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum regulatory net capital and a specified ratio of aggregate indebtedness to regulatory net capital. At December 31, 2010, the Company had net capital of \$171,355 which exceeded the capital requirement of \$100,000 by \$71,355. The Company's ratio of aggregate indebtedness to net capital was .94 to 1 at December 31, 2010.

(14) Exemption Under Section (k)(2)(ii)

The Company operates pursuant to the (k)(2)(ii) exemptive provisions of SEC Rule 15c3-3.

(15) Subsequent Events

The Company has evaluated events occurring after the statement of financial condition date through February 17, 2011, the date which the financial statements were available to be issued.

SUPPLEMENTAL SCHEDULE

KASHNER DAVIDSON SECURITIES CORPORATION

**Computation of Net Capital Pursuant to Rule 15c3-1
of the Securities and Exchange Commission**

As of December 31, 2010

Net capital:		
Stockholder's equity	\$	291,247

Report of Independent Registered Public Accounting
Firm on Internal Control Required
By SEC Rule 17a-5

To the Stockholder of
Kashner Davidson Securities Corporation:

In planning and performing our audit of the financial statements and supplementary schedule of Kashner Davidson Securities Corporation, (the Company), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements and supplementary schedule, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practice and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A *material weakness* is a deficiency, or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the stockholder and management of Kashner Davidson Securities Corporation, management, the SEC, the Financial Industry Regulation Authority, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
