**CBG FINANCIAL GROUP, INC.
NOTES TO FINANCIALS STATEMENTS
YEAR ENDED DECEMBER 31, 2010**

NOTE 1 - DESCRIPTION OF BUSINESS

CBG Financial Group, Inc. (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulation Authority (FINRA). The Company was incorporated in the State of New York on June 17, 1975. The Company is engaged principally in the brokerage of equity securities.

All customer accounts are cleared though Sterne, Agee & Leach.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

Advertising Costs

Advertising costs are expensed when incurred. Advertising expense for the year ended December 31, 2010 was \$10,889.

Revenue Recognition

Customers' securities transactions are recorded on a settlement date basis with related commission income and expenses recorded on a settlement date basis. Securities transactions of the Company are also recorded on a settlement date basis. Generally Accepted Accounting Principles (GAAP) requires revenue to be recorded on a trade basis. As the Company's clearing firm prepares all reports on a settlement date basis, for transparency, matching and lastly convenience the Company chooses to recognize revenue on that basis as well. For the year ending December 31, 2010 the difference in the amount of revenue the Company would have recorded if transactions were recorded on the trade date as opposed to the settlement date is insignificant and not material. The Company feels that settlement date approximates trade date recognition of revenue.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Income Taxes

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S Corporation. In lieu of corporation income taxes, the stockholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for Federal income taxes has been included in these financial statements.

At December 31, 2010, the Company had net capital of \$865,877 which was \$765,877, in excess of its required net capital of \$100,000. NOTE 6 – CONCENTRATIONS OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. **REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3**

To The Shareholder
CBG Financial Group, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of CBG Financial Group, Inc. for the year ended December 31, 2010, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1) Making quarterly securities examinations, counts, verifications and comparisons
- 2) Recordation of differences required by rule 17a-13
- 3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

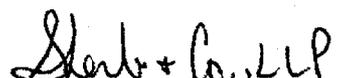

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants.

A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, which we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010 to meet the SEC's objectives.

This report is intended solely for the information and use of the Member, management, the SEC and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
