**VCG SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED MARCH 31, 2011**

NOTE ONE – ORGANIZATION AND OWNERSHIP

VCG Securities LLC (the "Company") is a Florida limited liability company that was formed on March 11, 2008 and from inception until March 31, 2009 was 100% owned by one individual, the Company's chairman of the board of directors. On March 31, 2010, he sold 100% of his membership interests in the Company to VCG Securities Holdings, Inc. ("Holdings"), a Delaware S corporation in exchange for a promissory note from Holdings to him for the entire purchase price. The purchase price of \$1,100,000 was based on an independent appraisal of the Company. Holdings is wholly-owned by The VCG Securities Holdings Inc. Employee Stock Ownership Plan (the "ESOP"), and the participants in the ESOP are the employees of the Company. As of March 31, 2011, the ESOP remained the sole owner of Holdings, and Holding remained the sole owner of the Company.

NOTE TWO – DESCRIPTION OF BUSINESS

The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is primarily engaged in riskless principal trading of a variety of fixed income securities to institutional customers and other broker dealers. The Company is headquartered in Delray Beach, Florida and has an office in New York, NY.

All customer accounts are cleared though Penson Financial Services Inc. ("Penson"). Prior to June 25, 2010, all customer accounts were cleared through Ridge Clearing and Outsourcing Solutions, Inc. ("Ridge"). Penson and Ridge entered a strategic relationship on November 2, 2009 that involved Penson acquiring the clearing contracts of Ridge correspondent clearing and execution business, including those with VCG.

In the prior fiscal year, the Company acquired a percentage ownership in a number of trust certificates originally issued by student loan securitizations. Management of the Company considered these interests to be worthless and accordingly assigned a carrying value of zero to them as of March 31, 2011.

NOTE THREE – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. Cash at times may exceed FDIC insurable limits.

Furniture and equipment

Furniture and equipment are recorded at cost. Depreciation is calculated using the straight-line method based on the estimated useful lives of the related assets, which range from three to eight years. When assets are retired or otherwise disposed of, the costs and related accumulated depreciation or amortization are removed from the accounts and any gain or loss on disposal is recognized.

Revenue Recognition

Proprietary securities transactions are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

VCG SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED MARCH 31, 2011

The Company generates mark-up income, considered gross commission income for net capital reporting, from sales and purchases of bonds between customers and other broker dealers on a riskless principal basis. Mark-ups and commissions are recorded on a trade date basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Marketable Securities

Marketable securities held at year-end consist of trading securities, which are reported at fair value with unrealized gains or losses included in earnings.

Income Taxes

The Company has elected to be taxed as a qualified subchapter S subsidiary for federal and state income tax purposes. No federal or state income taxes are due on the net income of the Company for the fiscal year ended March 31, 2011. A provision for New York City income taxes has been recorded in the accompanying statement of operations for the year ended March 31, 2011. (see Note Thirteen)

Payments to the ESOP

The Company makes payments to the ESOP pursuant to SOP 93-6. Allocations made to the ESOP are recorded as Compensation Expense by the Company. The Company has no obligation to make allocations to the ESOP.

Fair Value of Financial Instruments

We adopted the fair value guidelines issued by the FASB on July 1, 2007. The guidelines defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. This statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is a relevant measurement attribute.

Valuation techniques for fair value are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our best estimate, considering all relevant information. These valuation techniques involve some level of management estimation and judgment. The calculation process to determine fair value also includes making appropriate adjustments to the valuation model outputs to consider risk factors.

The fair value hierarchy or our inputs used in the determination of fair value for assets and liabilities during the current period consists of three levels. Level 1 inputs are comprised of unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs incorporate our own best estimate of what market participants would use in pricing the asset or liability at the measurement date where consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model. If inputs used to measure an asset or liability fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the asset or liability. Our assessment of the

VCG SECURITIES, LLC

FOR THE FISCAL YEAR ENDED MARCH 31, 2011

significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

VCG SECURITIES, LLC
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED MARCH 31, 2011

NOTE EIGHT – NOTE RECEIVABLE

Other receivables consist of the following at March 31, 2011:

<u>Nature of Receivable</u>	<u>Amount</u>

The term of the note is undefined, but reference is made to an April 30, 2011 decision on a potential joint venture agreement. NOTE NINE – CONCENTRATIONS OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, investment advisors, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company’s policy to review, as necessary, the credit standing of each counterparty. Assuming the conditions imposed by Penson are complied with, such a principal guarantee letter operates to make Penson the principal in the trade and as such it assumes the risks of the trade.

The Company maintains its cash in bank accounts at high credit quality financial institutions. The balances at times may exceed federally insured limits.

**REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3**

To The Member
VCG Securities, LLC

In planning and performing our audit of the financial statements and supplemental schedules of VCG Securities, LLC for the year ended March 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report

financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

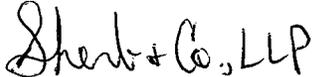

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at March 31, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

("VCG") and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc. and SIPC, solely to assist you and the other specified parties in evaluating VCG's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC 7). VCG's management is responsible for compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries noting no differences;
2. Compared the amounts reported on the audited Form X-17A-5 for the period ended March 31, 2011, as applicable, with the amounts reported in Form SIPC-7 for the period ended March 31, 2011 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences;
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
