Rafferty Capital Markets, LLC
Notes to Financial Statements
December 31, 2010

Note 1 – Organization and Nature of Business

Rafferty Capital Markets, LLC (the “Company”) was formed as a New York Limited Liability Company on October 16, 2000. The Company is a registered broker-dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934, as amended. The Company also provides mutual fund distribution and underwriting services in fifty states, and is a member of the FundServ System of the National Securities Clearing Corp.

Note 2 – Summary of Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the period. Actual events and results could differ from those estimates.

Securities Transactions

Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers’ securities and commodities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with maturity of three months or less to be cash equivalents. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments. The Company maintains its cash in accounts that at times may exceed federally insured limits. The Company had approximately \$9,696,000 of uninsured cash balances at December 31, 2010.

Rafferty Capital Markets, LLC
Notes to Financial Statements (continued)

Note 2 – Summary of Significant Accounting Policies (continued)

Allowance for Doubtful Accounts

The Company provides for estimated losses on accounts receivable, using the allowance method, based on prior bad debt experience and a review of existing receivables. The Company has evaluated its accounts receivable at December 31, 2010 and has written off all accounts deemed to be uncollectible. Accordingly, there is no allowance for doubtful accounts at December 31, 2010.

Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Note 3 – Securities Owned, at Market

Marketable securities owned are considered trading securities by management. At December 31, 2010 marketable securities consisted of equity securities in the amount of \$3,400,046 and fixed income securities in the amount of \$5,675,469.

Note 4 – Fair Value

Fair Value Measurement

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Rafferty Capital Markets, LLC
Notes to Financial Statements (continued)
December 31, 2010

Note 4 – Fair Value (continued)

- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management’s own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The following table represents the Company’s fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2010:

Rafferty Capital Markets, LLC
Notes to Financial Statements (continued)

Note 7 – Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2010, the Company had net capital of \$10,201,799, which was \$9,599,836 in excess of its required net capital (the greater of 6 2/3% of aggregate indebtedness or \$150,000). The Company's aggregate indebtedness to net capital ratio as of December 31, 2010 was 0.885 to 1.

Note 8 – Employee Benefit Plan

The Company has a qualified retirement savings plan covering eligible full-time employees.

In the event the customer or other party to a securities transaction is unable to fulfill its contracted obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to satisfy its customer-related obligations. Securities owned by customers are held as collateral against related receivables from customers.

To the Member of
Rafferty Capital Markets, LLC:

In planning and performing our audit of the financial statements of Rafferty Capital Markets, LLC (the Company), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

To the Member of
Rafferty Capital Markets, LLC
Page 2

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17-a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
