To the Members
Global Markets, LLC
Washington, D.C.

We have audited the accompanying statement of financial condition of Global Markets, LLC, (a District of Columbia Limited Liability Company), (the "Company") as of December 31, 2010, and the related statements of income, changes in members' equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Global Markets, LLC as of December 31, 2010, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained on pages 9 through 12 inclusive, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

GLOBAL MARKETS, LLC
(a District of Columbia Limited Liability Company)
Notes to the Financial Statements
For the Year Ended December 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies which have been followed in preparing the accompanying financial statements are set forth below.

Nature of Business: Global Markets, LLC (the "Company") is a District of Columbia Limited Liability Company which is registered with the Commodity Futures Trading Commission ("CFTC") as an independent introducing broker ("IB") and the Securities and Exchange Commission ("SEC") as a broker-dealer. The Company is a member of the National Futures Association ("NFA") and the Financial Industry Regulatory Authority ("FINRA"). The Company has two members.

Revenue Recognition: The Company's primary source of revenue is commissions derived from introducing customer orders for commodity futures and securities interests to futures commission merchants and other broker-dealers which carry the customer accounts, as well as commissions related to the sales of interests in private investment funds.

Income Taxes

The Company is a "Limited Liability Company" which has elected to be taxed as a Partnership for income tax purposes. Accordingly, no federal income taxes are provided by the Company as any taxable income is includable in the members' individual income tax returns.

On July 13, 2006, the FASB released FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN48) which is now codified in ASC 740-10, *Income Taxes*. ASC 740-10 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the footnotes of the financial statements. ASC 740-10 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense or reduction of a tax benefit in the current year. For the year ended December 31, 2010, management has determined there are no uncertain provisions.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities (and disclosures of contingent assets and liabilities) at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Off Balance Sheet Risk and Concentration of Credit Risk

The Company does not hold customer segregated cash or securities balances. Futures transactions and securities transactions are processed by futures commission merchants and other broker-dealers, respectively, on a fully disclosed basis. In conjunction with this arrangement, the Company is contingently liable for any unsecured debit balances in the customer accounts introduced by the Company. These customer activities may expose the Company to off-balance-sheet credit risk in the event the introduced customer is unable to fulfill its contracted obligations.

GLOBAL MARKETS, LLC
(a District of Columbia Limited Liability Company)
Notes to the Financial Statements
For the Year Ended December 31, 2010
(continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Off Balance Sheet Risk and Concentration of Credit Risk, (continued)

The Company seeks to control such credit risks by monitoring its exposure to the risk of loss daily for each account. There were no unsecured customer debit balances for the Company at December 31, 2010.

NOTE 2 - NET CAPITAL REQUIREMENT

The Company is subject to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act ("SEA"), and Regulation §1.17 of the Commodity Exchange Act ("Act"). Under these provisions, the Company must maintain net capital, as defined, of the greater of \$45,000 or 6 2/3% of aggregated indebtedness, as defined in Rule 15c3-1(c) of the SEA. At December 31, 2010, the Company had net capital of \$382,969 or \$337,969 in excess of the minimum net capital requirements. The net capital requirements could effectively restrict the payment of cash distributions, the making of unsecured loans to its Members and the purchase by the Company of its own membership interests.

NOTE 3 – RELATED PARTY

All of the Company's commissions earned are from transactions involving related parties. The Company also earned an investor servicing fee of \$30,000 from the same related party. At December 31, 2010, approximately \$2,800 in commissions and other fees receivable are due to the Company from related parties.

NOTE 4 – SUBSEQUENT EVENTS

Management evaluated all events that occurred from January 1, 2011 through February 17, 2011, the date the financial statements were available to be issued. During the period, the Company did not have any material recognizable subsequent events.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROL
REQUIRED BY SEC RULE 17a-5(g)(1)**

To the Members
Global Markets, LLC

In planning and performing our audit of the financial statements of Global Markets, LLC (the "Company"), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control. Due to the small size of the Company and the limited number of accounts, we placed little reliance on the Company's internal controls and we tested 100% of the accounts.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company including consideration of internal control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in 17a-5(g)(1), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provision of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of the Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previous mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial

statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control structure or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal courser of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

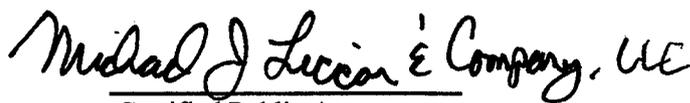

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of the internal control structure was for limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for information and use of members, management, the SEC and the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than the specified parties.
