The Board of Directors
MV Securities Group, Inc.:

We have audited the accompanying statements of financial condition of MV Securities Group, Inc. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of MV Securities Group, Inc. at December 31, 2010 and 2009 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

(1) Nature of Business and Summary of Significant Accounting Policies

The nature of business and a summary of the significant accounting policies of MV Securities Group, Inc. is set forth below:

- (a) MV Securities Group, Inc. (The Company) was incorporated in Texas on June 3, 1996, and is a registered broker-dealer under the Securities Exchange Act of 1934 and a member of the Financial Industry Regulatory Authority, Inc.

- (d) The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
- (e) Management has evaluated whether events or transactions which have occurred after December 31, 2010, require recognition or disclosure in the statement of financial condition. The evaluation was conducted through February 25, 2011, which is the date the statement of financial condition was available for issuance.

(1) Nature of Business and Summary of Significant Accounting Policies, continued

(g) The Company maintains its cash in bank deposit accounts which, at times, may exceed Federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

(h) The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S corporation. In lieu of corporation income taxes, the shareholders of an S corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for Federal income taxes has been included in these financial statements.

(i) The State of Texas franchise tax for 2007 and thereafter, is incurred at the tax rate of 1% on gross revenue, less the larger of cost of goods sold, wages and related employee benefits, or a statutory 30% deduction to determine taxable income. The Company is also eligible to utilize a tax rate of .575% on gross revenue, without a deduction, as its gross revenue is not in excess of \$10,000,000 for 2010. The tax is accounted for as an expense during the period the revenue is recognized for financial statement purposes.

(j) Certain reclassifications have been made to 2009 statements to conform with presentations in 2010.

(2) Receivable from Clearing Organization

The Company has an agreement with a clearing organization whereby the organization performs clearing functions for all security transactions with customers and brokers and dealers.

(3) Related Party Transactions

The Monroe Vos Consulting Group, Inc., (Management Company) an affiliated company under common control, provides the Company management services, office facilities and pays various overhead expenses on behalf of MV Securities Group, Inc. Fees for management services included a fixed monthly management fee of \$43,000 in 2010 and \$42,000 in 2009 for incremental overhead expenses. In addition, a proportional management fee may also be charged for an amount up to 60% of monthly gross operating revenue of MV Securities Group, Inc. The fixed management fee will be computed no less than annually and applied on a consistent basis. In addition to the fixed monthly management fee and the proportional management fee, the Management Company may invoice MV Securities Group, Inc. for specific other expenses as determined by Management Company. At December 31, 2010, MV Securities Group, Inc. had prepaid \$250,000 to the Management Company related to 2011 fees.

(4) Minimum Capital Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Retained earnings may be restricted as to payment of dividends if this ratio exceeds 10 to 1. At December 31, 2010, the Company had net capital of \$212,613 which exceeded its required net capital of \$5,000 by \$207,613. Withdrawals of equity capital are restricted from causing the Company's net capital to be less than \$6,000. Furthermore, the Company's agreement with its clearing broker requires net capital of not less than \$150,000 and to maintain restricted cash in the amount of \$50,000. During 2012, the restricted cash will become unrestricted and available for use. However, this will not change the \$150,000 net capital requirement by the clearing broker. The Company's ratio of aggregate indebtedness to net capital was .06 to 1. There were no liabilities subordinated to the claims of general creditors during 2010 or 2009.

(5) Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Information Relating to the Possession or Control
Requirements under Rule 15c3-3

December 31, 2010

The Company is exempt from the reserve requirements and the related computations for the determination thereof under paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934 as the Company carries no margin accounts, promptly transmits all customer funds and delivers all securities received in connection with its activities as a broker or dealer, does not otherwise hold funds or securities for, or owe money or securities to customers and effectuates all financial transactions with customers through unaffiliated clearing organizations.

As of and for the year ended December 31, 2010, the Company has maintained its compliance with the conditions for exemption specified in paragraph (k)(2)(ii) of Rule 15c3-3.

INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5

Board of Directors
MV Securities Group, Inc.:

In planning and performing our audit of the financial statements of MV Securities Group, Inc. (the Company), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above. However, we noted the following matter involving the accounting system and its operation that we consider to be a material weakness as defined above. The condition was considered in determining the nature, timing and extent of procedures to be performed in our audit of the financial statements of MV Securities Group, Inc. for the year ended December 31, 2010, and this report does not affect our report thereon dated February 25, 2011.

The Company does not have segregation of duties in the accounting function. With your small number of employees, an ideal system of internal control may not be possible and/or practical because it is not possible to segregate duties as much as would be required to provide such an ideal system. In situations where an ideal system is not possible, constant surveillance and review by management is the principal means of offsetting the inherent weakness in internal control and of safeguarding the assets of the Company and its customers.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the Financial Industry Regulatory Authority, Inc. and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
