Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

dba UNITED GLOBAL SECURITIES, INC.

(2) Securities Owned and Fair Value, continued

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the assets or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2010 and 2009, consist of the Company's investment in securities and mutual funds measured at Level 1 inputs.

INDEPENDENT AUDITORS' REPORT  
ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5

Board of Directors  
Wealth Solutions, Inc.  
dba United Global Securities, Inc.:

In planning and performing our audit of the financial statements of Wealth Solutions, Inc. dba United Global Securities, Inc. (the Company), as of and for the year ended December 31, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such as that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above. However, we noted the following matter involving the accounting system and its operation that we consider to be a material weakness as defined above. The condition was considered in determining the nature, timing and extent of procedures to be performed in our audit of the financial statements of Wealth Solutions, Inc. dba United Global Securities, Inc. for the year ended December 31, 2010, and this report does not affect our report thereon dated February 28, 2011.

The Company does not have segregation of duties in the accounting function. With your small number of employees, an ideal system of internal control may not be possible and/or practical because it is not possible to segregate duties as much as would be required to provide such an ideal system. In situations where an ideal system is not possible, constant surveillance and review by management is the principal means of offsetting the inherent weakness in internal control and of safeguarding the assets of the Company and its customers.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010, to meet the SEC's objectives.

This report is intended solely for the information and use of management, the Securities and Exchange Commission, the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

RELATED TO AN ENTITY'S SIPC ASSESSMENT RECONCILIATION**

The Board of Directors

dba United Global Securities, Inc.

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments [General Assessment Reconciliation (Form SIPC-7)] to the Securities Investor Protection Corporation (SIPC) for the year ended December 31, 2010, which were agreed to by Wealth Solutions, Inc. dba United Global Securities, Inc. and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc. and SIPC, solely to assist you and the other specified parties in evaluating Wealth Solutions, Inc. dba United Global Securities, Inc.'s compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). Wealth Solutions, Inc. dba United Global Securities, Inc.'s management is responsible for the Wealth Solutions, Inc. dba United Global Securities, Inc.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries consisting of the check register detail and the general ledger posting of the disbursements, noting no differences;
2. Compared the Total Revenue amounts of the audited Form X-17A-5 for the year ended December 31, 2010, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2010, noting additional revenue of \$227,869 from the sale of variable annuities, from the business of insurance, and from investment advisory services rendered to registered investment companies or insurance company separate accounts;

3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers with the income statement for the period which reflects account balances representing the adjustments, noting additional deductions of \$227,869 from the sale of variable annuities, from the business of insurance, and from investment advisory services rendered to registered investment companies or insurance company separate accounts;
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and the income statement for the period which reflects account supporting adjustments, noting no differences, and noted that the assessment is unchanged by the exceptions noted in items 2 and 3 above as the exceptions offset; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-6 on which it was originally computed, noting no differences.

We are not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
