We have audited the accompanying balance sheet of H. Kawano & Co., Inc. as of April 30, 2011, and the related statements of income and retained earnings, cash flows and changes in stockholders' equity for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of H. Kawano & Co., Inc. and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules 1 through 3 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

April 30, 2011

Nature of Business Activity

The Company operates as a mutual fund retailer on an application-way basis.

Note 1: Accounting Policies

Marketable Securities

Marketable securities are carried at market value. At April 30, 2011 the securities had a cost and market value of \$64,122 and \$98,790 respectively.

Depreciation

Depreciation on furniture and equipment is computed on the straight-line method using estimated useful lives of 5-7 years and the accelerated cost recovery method.

Note 2: Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

We have examined the financial statements of H. Kawano & Co., Inc. for the period ended April 30, 2011, and have issued our report thereon dated June 13, 2011. As part of our examination, we made a study and evaluation of the system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards and Rule 17a-5 of the Securities and Exchange Commission. This study and evaluation included the accounting system, the procedures for safeguarding securities, and the practices and procedures followed by the client (i) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e); (ii) in making the quarterly securities examinations, counts verifications and comparisons, and the recordation of differences required by Rule 17a-13; (iii) in complying with the requirements for prompt payment for securities of Section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System; and (iv) in obtaining and maintaining physical possession or control of all fully paid securities of customers as required by Rule 15c3-3. Rule 17a-5 states that the scope of the study and evaluation should be sufficient to provide reasonable assurance that any material weakness existing at the date of our examination would be disclosed. Under generally accepted auditing standards and Rule 17a-5, the purposes of such study and evaluation are to establish a basis for reliance thereon in determining the nature, timing, and extent of other auditing procedures necessary for expressing an opinion on the financial statements and to provide a basis for reporting material weaknesses in internal accounting control.

Board of Directors
H. Kawano & Co., Inc.
Page 2
June 13, 2011

The objective of internal accounting control is to provide reasonable, but not absolute, assurance concerning the safeguarding of assets against loss from unauthorized use or disposition and concerning the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgments by management. However, for the purposes of this report under Rule 17a-5, the determination of weaknesses to be reported was made without considering the practicability of corrective action by management within the framework of a cost/benefit relationship.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, or other personal factors. Control procedures whose effectiveness depends on segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management either with respect to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the system of internal accounting control for the year ended April 30, 2010, which was made for the purposes set forth in the first paragraph and would not necessarily disclose all weaknesses in the system that may have existed during the period, disclosed no weaknesses that we believe to be material.
