**INDEPENDENT AUDITORS' REPORT**

To the Member of  
Voltaire Investments, L.L.C.

We have audited the accompanying statement of financial condition of Voltaire Investments, L.L.C. (the "Company") as of December 31, 2010 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Voltaire Investments, L.L.C. as of December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

## Notes to Statement of Financial Condition

December 31, 2010

---

### 1. Organization and Business

Voltaire Investments, L.L.C. (the "Company"), an Arizona limited liability company, was organized on December 27, 2000. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority. The Company engages in the proprietary trading of exchange-traded equity securities and equity options contracts.

### 2. Summary of Significant Accounting Policies

#### Revenue Recognition and Securities Valuation

The Company records all securities transactions on a trade date basis. Dividends are recorded on the ex-dividend date and interest is recognized on the accrual basis. Investments in securities and securities sold, not yet purchased are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification (ASC) 820 - Fair Value Measurement and Disclosures (see Note 8).

#### Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax return of the member.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determines that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

### 3. Agreement

The Company has a Joint Back Office ("JBO") clearing agreement with ABN AMRO Clearing Chicago LLC ("AACC"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in the preferred interest of AACC. The Company's investment in AACC is reflected as other asset in the statement of financial condition. Under the rules of the Financial Industry Regulatory Authority, the agreement requires that the Company maintain a minimum net liquidating equity of \$1 million with AACC, exclusive of its preferred interest.

### 4. Credit Concentration

At December 31, 2010, a significant credit concentration consisted of approximately \$2.2 million, representing the fair value of the Company's trading accounts carried by its clearing broker, ABN AMRO Clearing Chicago LLC. Management does not consider any credit risk associated with this receivable to be significant.

December 31, 2010

---

**5. Derivative Financial Instruments and Off-Balance Sheet Risk**

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-equity options and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at fair value and gains and losses from derivative financial instruments are included in trading loss in the statement of operations.

Options grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

**6. Commitment**

The Company has entered into an arrangement with an independent contractor that provides consulting services in the form of research and analytical materials with respect to one or more issuers of securities. In the event the Company profits from such services, the Company has agreed to compensate the independent contractor 10% of the net proceeds. For the year ended December 31, 2010, no consulting fees were paid to the independent contractor. The amount, if any, of future payments cannot be reasonably estimated.

**7. Net Capital Requirements**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 and  $\frac{2}{3}$  % of "aggregate indebtedness", as defined.

At December 31, 2010, the Company had net capital and net capital requirements of \$1,728,142 and \$100,000, respectively.

# VOLTAIRE INVESTMENTS, L.L.C.

## Notes to Statement of Financial Condition, Continued

December 31, 2010

### 8. Fair Value Disclosure

FASB ASC Topic 820, previously Statement of Financial Accounting Standards No. 157, "Fair Value Measurements", defines fair value as the price that the Partnership would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FASB ASC Topic 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are as follows:

Level 1 Inputs - Valuation based on quoted (unadjusted) prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs - Valuation based on other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs - Valuation based on unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2010:

	Level 1	
	Assets	Liabilities
	Securities Owned	Securities Sold, Not Yet Purchased
Equities	\$ 1,869,929	\$ -
Equity options	-	(725)
	<u>\$ 1,869,929</u>	<u>\$ (725)</u>

At December 31, 2010, the Company held no level 2 or level 3 investments.

### 9. Subsequent Events

The Company's management has evaluated events and transactions through February 15, 2011, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements.

14.	Excess net capital (line 10 less 13)	\$ <u>1,628,142</u> [3770]
15.	Excess net capital at 1000% (line 10 less 10% of line 19)	\$ <u>1,608,142</u> [3780]

**COMPUTATION OF AGGREGATE INDEBTEDNESS**

16.	Total A.I. liabilities from Statement of Financial Condition	\$ <u>10,000</u> [3790]
17.	Add:	
	A. Drafts for immediate credit	<u>                    </u> [3800]
	B. Market value of securities borrowed for which no equivalent value is paid or credited	<u>                    </u> [3810]
	C. Other unrecorded amounts (List)	<u>                    </u> [3820]
18.	Deduct: Adjustment based on deposits in Special Reserve Bank Accounts (15c3-1(c)(1)(vii))	<u>                    </u> [3838]
19.	Total aggregate indebtedness	\$ <u>10,000</u> [3840]
20.	Percentage of aggregate indebtedness to net capital (line 19 ÷ by line 10)	<u>0.58%</u> [3850]
21.	Percentage of debt to debt-equity total computed in accordance with Rule 15c3-1(d)	<u>                    </u> [3860]

**COMPUTATION OF ALTERNATE NET CAPITAL REQUIREMENT**

<b>Part B</b>		
22.	2% of combined aggregate debit items as shown in Formula for Reserve Requirements pursuant to Rule 15c-3-3 prepared as of the date of the net capital computation including both brokers or dealers and consolidated subsidiaries debits	<u>                    </u> - [3870]
23.	Minimum dollar net capital requirement of reporting broker or dealer and minimum net capital requirement of subsidiaries computed in accordance with Note (A)	\$ <u>                    </u> [3880]
24.	Net capital requirement (greater of line 22 or 23)	\$ <u>                    </u> [3760]
25.	Excess net capital (line 10 less 24)	\$ <u>                    </u> [3910]
26.	Percentage of Net Capital to Aggregate Debits (line 10 ÷ by line 17 page 8)	<u>                    </u> - [3851]
27.	Percentage of Net Capital, <u>after</u> anticipated capital withdrawals, to Aggregate Debits (line 10 less item 4880, page 11 ÷ by line 17 page 8)	<u>                    </u> - [3854]
28.	Net capital in excess of: 5% of combined aggregate debit items or \$300,000	\$ <u>                    </u> - [3920]

**OTHER RATIOS**

<b>Part C</b>		
29.	Percentage of debt to debt-equity total computed in accordance with Rule 15c3-1(d)	<u>                    </u> [3860]
30.	Options deductions/Net Capital ratio (1000% test) total deductions exclusive of liquidating equity under Rule 15c3-1(a)(6), (a)(7) and (c)(2)(x) ÷ Net Capital	<u>                    </u> [3852]

**NOTES:**

- A. The minimum net capital requirement should be computed by adding the minimum dollar net capital requirement of the reporting broker dealer and, for each subsidiary to be consolidated, the greater of:
1. Minimum dollar net capital requirement, or
  2. 6-2/3% of aggregate indebtedness or 2% of aggregate debits if alternative method is used.
- B. Do not deduct the value of securities borrowed under subordination agreements of secured demand notes covered by subordination agreements not in satisfactory form and the market values of memberships in exchanges contributed for use of company (contra to item 1740) and partners securities which were included in non-allowable assets.
- C. For reports filed pursuant to paragraph (d) of Rule 17a-5, respondent should provide a list of material non-allowable assets.

**Note: There are no material differences between the audited computation of net capital and that per the Company's unaudited FOCUS report as filed.**

## **INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL**

To the Member of  
Voltaire Investments, L.L.C.

In planning and performing our audit of the statement of financial condition of Voltaire Investments, L.L.C. (the "Company") as of December 31, 2010, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), (1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e); and (2) in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13. We did not review the practices and procedures followed by the Company in complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
