INDEPENDENT AUDITORS' REPORT

To the Members of
Panos Trading LLC

We have audited the accompanying statement of financial condition of Panos Trading LLC (the "Company") as of December 31, 2010, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Panos Trading LLC as of December 31, 2010, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

A handwritten signature in cursive script that reads "Ryan & Juraska".

	\$	<u><u>45,128,199</u></u>

See accompanying notes.

PANOS TRADING LLC

Notes to Statement of Financial Condition December 31, 2010

1. Organization and Business

Panos Trading LLC (the "Company"), formerly Panos Trading Limited Partnership, an Illinois limited liability company, was organized on April 21, 1992. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of the Chicago Board Options Exchange ("CBOE"). The Company engages primarily in the proprietary trading of exchange-traded equity securities, equity options, index options and financial futures contracts.

2. Summary of Significant Accounting Policies

Revenue Recognition and Securities Valuation

Securities transactions and related revenue and expenses are recorded on a trade date basis and, accordingly gains and losses are recorded on unsettled transactions. Futures gains and losses are recorded when contracts are liquidated.

All financial instruments are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification (ASC) 820 - Fair Value Measurement and Disclosures (see Note 6).

Open trade equity in futures is recorded as a payable to broker-dealer.

Realized and unrealized gains or losses from securities and futures trading are included in trading gains in the statement of operations.

Depreciation

Furniture is being depreciated over the estimated useful lives of the assets using the straight-line method.

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

Use of Estimates

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

3. Credit Concentration

At December 31, 2010, a significant credit concentration consisted of approximately \$3.4 million, representing the fair value of the Company's trading accounts carried by its clearing broker, Goldman Sachs Execution & Clearing, L.P. Management does not consider any credit risk associated with this receivable to be significant.

PANOS TRADING LLC

Notes to Statement of Financial Condition, Continued December 31, 2010

4. Clearing Agreement

The Company has a Joint Back Office ("JBO") clearing agreement with Goldman Sachs Execution & Clearing, L.P. ("GSEC"). The agreement allows JBO participants to receive favorable margin treatment as compared to the full customer margin requirements of Regulation T. As part of this agreement, the Company has invested \$10,000 in a Class C limited partnership interest in GSEC. The Company's investment in GSEC is reflected in other assets in the statement of financial condition. Under the most restrictive rules of the Chicago Board Options Exchange and GSEC, the Company is required to maintain a minimum net liquidating equity of \$1 million with GSEC, exclusive of its limited partnership interest.

5. Derivative Financial Instruments and Off-Balance Sheet Risk

In the normal course of business the Company enters into transactions in derivative financial instruments and other financial instruments with off-balance sheet risk that include exchange-traded futures contracts and options on futures, equity and index options and short stocks. All derivative instruments are held for trading purposes. All positions are reported in the accompanying statement of financial condition at fair value and gains and losses from derivative financial instruments are included in net trading gain in the statement of operations.

Futures contracts provide for the delayed delivery/receipt of securities or money market instruments with the seller/buyer agreeing to make/take delivery at a specified date, at a specified price.

Options grant the purchaser, for the payment of a premium, the right to either purchase from or sell to the writer a specified instrument under agreed terms. As a writer of options, the Company receives a premium in exchange for bearing the risk of unfavorable changes in the price of the financial instruments underlying the options.

Securities sold, not yet purchased, represent obligations of the Company to deliver specified securities and thereby create a liability to repurchase the securities in the market at prevailing prices. These transactions may result in off-balance sheet risk as the Company's ultimate obligation to satisfy its obligation for securities sold, not yet purchased may exceed the amount recognized in the statement of financial condition.

Risk arises from the potential inability of counterparties to perform under the terms of the contracts (credit risk) and from changes in the values of the underlying financial instruments (market risk). The Company is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company attempts to minimize its exposure to credit risk by monitoring brokers with which it conducts investment activities. In management's opinion, market risk is substantially diminished when all financial instruments are aggregated.

PANOS TRADING LLC

Notes to Statement of Financial Condition, Continued December 31, 2010

6. Fair Value Disclosure

ASC 820, Fair Value Measurements and Disclosures requires enhanced disclosures about investments that are measured and reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs Valuation is based on quoted prices in active markets for identical assets or liabilities at the reporting date.

Level 2 Inputs Valuation is based on other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs Valuation is based on unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2010:

	<u>Level 1</u>
Assets	
Securities owned	
Equities	\$ 116,532
Options	<u>44,992,323</u>
Total securities owned	<u>\$ 45,108,855</u>
Open trade equity	<u>\$ 451,838</u>
Liabilities	
Securities sold, not yet purchased	
Equities	\$ 1,925,086
Options	<u>39,062,644</u>
Total securities sold, not yet purchased	<u>\$ 40,987,730</u>

At December 31, 2010, the Company held no Level 2 or Level 3 investments.

PANOS TRADING LLC

Notes to Statement of Financial Condition, Continued December 31, 2010

7. Contingencies

The Company is subject to an arbitration action involving former members. The Company's legal counsel has indicated that three of the Company's former members have disputed profit allocations for 2006, 2007 and 2008 and the related amounts owed to them. In the opinion of management, it is not possible at this time to estimate the effect on the financial position of the Company by these claims.

8. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 and 2/3 % of "aggregate indebtedness", as defined.

At December 31, 2010, the Company had net capital and net capital requirements of \$1,711,700 and \$100,000, respectively.

9. Subsequent Events

The Company's management has evaluated events and transactions through February 28, 2011, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements.

SUPPLEMENTAL SCHEDULES

PANOS TRADING LLC

Computation of Net Capital for Broker and Dealers pursuant to Rule 15c3-1

December 31, 2010

Computation of net capital

Total members' equity		\$	3,458,232
Deductions and /or charges:			
Nonallowable assets:			
Other assets	\$	10,036	
Furniture, at cost		<u>4,303</u>	(14,339)

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL

To the Members of
Panos Trading LLC

In planning and performing our audit of the statement of financial condition of Panos Trading LLC (the "Company") as of December 31, 2010, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the financial statement in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statement will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first, second and third paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities and certain regulated commodity customer and firm assets that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2010 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the Chicago Board Options Exchange, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
