INDEPENDENT AUDITORS' REPORT

To the Members
Joseph Gunnar & Co., LLC:

We have audited the accompanying statement of financial condition of Joseph Gunnar & Co., LLC (a wholly-owned subsidiary of Joseph Gunnar Holding Co., LLC) as of December 31, 2010. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of the Company as of December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

The Company executes principal and agency transactions in listed and over-the-counter securities and engages in investment banking activity. All customer transactions are cleared on a fully disclosed basis through an independent clearing firm. 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statement has been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and cash equivalents. The Company places its cash with high credit quality financial institutions, which at times may be in excess of FDIC insurance limits. At December 31, 2010, the Company had not exceeded that limit.

Furniture and Equipment

Depreciation of equipment is provided on a straight-line basis over the estimated useful life of the respective assets. Leasehold improvements are amortized on a straight-line basis over the term of the lease.

NOTES TO FINANCIAL STATEMENTS (Continued)

December 31, 2010

Deferred Rent

Deferred rent represents the excess of rent expense on a straight-line basis over the annual rent payable.

Income Taxes

The Company has elected to be treated as a partnership for federal and state tax purposes and is responsible for New York City Unincorporated Business Taxes.

FASB ASC 740-10 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. As of December 31, 2010, the Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statement.

The Company's income tax returns for the years ended December 31, 2007 through 2009 can still be examined by the taxing authorities.

3. Due From Clearing Broker

The Company has a clearing agreement with a brokerage firm to carry its accounts. The clearing broker has custody of the Company's securities and cash balances. These securities and/or cash positions serve as collateral for any amounts due to the clearing broker and as collateral for potential defaults of the Company's customers which are carried on the books and records of the clearing broker. The Company is also subject to credit risk if the clearing broker is unable to repay balances due or deliver securities in their custody.

The clearing agreement requires the Company to maintain a deposit account with the clearing broker equal to 150% of its net capital requirement.

These cases allege violations of various securities rules, and claim damages plus the recovery of legal fees and other costs. While litigation is subject to many uncertainties, and the ultimate resolution, range of loss, and impact on operating results and financial condition cannot be reasonably estimated, management believes, based upon its understanding of the facts and circumstances of each matter in consultation with defense counsel, that it has meritorious defenses in all cases and intends to defend such cases vigorously. The Company has established a reserve of \$250,000 against the settlement of pending litigation.

6. Subordinated Loan

Pursuant to a Subordinated Loan Agreement effective June 23, 2009, the Company borrowed \$300,000 from its clearing broker. As the fully Disclosed Clearing Agreement between the Company and the clearing broker dated April 27, 2007 was not terminated prior to May 15, 2010, one-third of the loan principal was forgiven. An additional one-third will be forgiven if the agreement has not been terminated prior to May 15, 2011, and entire payment obligation otherwise due at April 27, 2012 will be forgiven if the agreement has not been terminated. The loan calls for interest at the federal funds rate plus 4% per annum and is charged monthly against commission and fee income. The Subordinated Loan Agreement requires that the Company meet certain requirements with regard to its ratio of aggregate indebtedness to net capital and requires the continued employment of the Company's Chief Executive Officer and President.

At December 31, 2010, the Company has failed to maintain the maximum asset-to-ownership equity ratio or adequate equity under the terms of the Subordinated Loan Agreement. The agreement calls for an asset-to-ownership equity ratio of less than 4:1 and minimum equity of \$750,000. Under the terms of the agreement, the lender has the right to call for accelerated repayment of the loan balance.

7. Related Party Transaction

If either the customer or a counterparty fail to perform, the Company may be required to discharge the obligations of the non-performing party. In such circumstances, the Company may sustain a loss if the market value of the security is different from the contract value of the transaction.

The Company is engaged in trading and brokerage activities with customers, broker dealers and other counterparties. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company's policy to review, as necessary, the credit standing of each of its counterparties.

The Company places its cash in commercial checking accounts and uninsured money market funds. Bank balances may from time to time exceed federally insured limits.
