D/B/A MARQUIS FINANCIAL SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS**

1 - ORGANIZATION

Marquis Financial Services of Indiana, Inc. (the "Company" formerly known as Benchmark Capital Management) was incorporated in the State of Wisconsin on June 6, 1985. The Company is registered as a broker-dealer with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority (the "FINRA"), and the Securities Investor Protection Corporation (the "SIPC"). The Company operated out of two locations: Encino, California and Spring Hill, Florida. The Company is owned by Wall Street at Home.Com, Inc.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company does not hold funds or securities for, nor owe funds or securities to customers. Any funds or securities received by the Company are promptly transmitted to the clearing broker.

The Company operates primarily as an introducing broker and engages in the business of providing brokerage services for customers. As a matter of normal business practice, the Company does not assume positions in securities.

The Company executes all of its customer trades through a New York Stock Exchange member firm as an introducing broker that earns commissions on its introduced customers. The Company has an agreement with a clearing broker to clear securities transactions, carry customers' accounts on a fully disclosed basis and perform certain recordkeeping functions. Accordingly, the Company operates under the exemptive provisions of Securities and Exchange Commission Rule 15c3-3(k)(2)(ii).

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used when accounting for amortization, depreciation and contingencies.

Cash and Cash Equivalents

Cash and cash equivalents consist of highly liquid debt investments with maturity of three months or less when purchased.

**MARQUIS FINANCIAL SERVICES OF INDIANA, INC.
D/B/A MARQUIS FINANCIAL SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS**

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D).

Cash and Cash Equivalents (cont'd).

The Company maintains cash and cash equivalent balances at several financial institutions which are insured by the Federal Deposit Insurance Corporation up to \$250,000. At March 31, 2011, the Company did not have cash or cash equivalent balances in excess of FDIC insurance limits.

Securities Transactions and Valuation of Investments

Customer securities transactions are reported on a settlement date basis, while securities transactions and related commission revenues and expenses are recorded on a trade date basis. Securities listed on a national exchange are valued at the last sales price on the date of valuation. Securities not listed on a national exchange are valued at the last sales price on the date of valuation, or if such price is not available, at the bid price for securities owned and the ask price for securities sold but not yet purchased at the close of business. Invested cash is valued at cost which is its estimated fair value.

Property and Equipment

Property and equipment is stated at cost. The costs of additions and betterments are capitalized and expenditures for repairs and maintenance are expensed in the period incurred. When items of property and equipment are sold or retired, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is included in income.

Depreciation and amortization of property and equipment is provided utilizing both the straight-line and accelerated methods over the estimated useful lives of the respective assets as follows:

Office equipment	5 years
Furniture and fixtures	7 years

Fair Value of Financial Instruments

The carrying amount reported in the statement of financial condition for accounts payable and accrued expenses approximate fair value because of the immediate or short-term maturity of these financial instruments.

MARQUIS FINANCIAL SERVICES OF INDIANA, INC.
D/B/A MARQUIS FINANCIAL SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D).

Commissions

Commissions and related clearing expenses are recorded on a trade date basis as securities transactions occur.

Advertising Expense

All costs of advertising are expensed as incurred.

Income Taxes

The Company accounts for income taxes under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 740 *Income Taxes*, which requires that the Company follow the liability method of accounting for income taxes. The liability method provides that deferred tax assets and liabilities are recorded based on the difference between the tax basis of assets and liabilities and their carrying amounts for financial reporting purposes referred to as "temporary differences". A valuation allowance is recorded when it is more likely than not that some or all of the deferred tax assets will not be realized.

The principal temporary differences between the tax basis of assets and liabilities and their carrying amounts for financial reporting are as follows:

The basis of property and equipment for financial reporting exceeds their tax basis by the cumulative amount that accelerated depreciation exceeds straight-line depreciation. The excess will be taxable in future periods through reduced depreciation deductions for tax purposes.

The basis of prepaid expenses for financial reporting exceeds their tax basis since the Company has elected to expense these costs, which are de minimus and/or under twelve months long, in the year incurred. The excess will be taxable in future periods through reduced expense deduction for tax purposes.

Subsequent Events

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through May 27, 2011, the date the financial statements were issued. There were no significant subsequent events or transactions which required recognition or disclosure in the financial statements.

The following amounts are due from the Company's clearing brokers as reflected on the statement of financial condition as of March 31, 2011:

Commissions receivable	\$ 28,567
Good faith deposits	<u>25,011</u>
	<u>\$ 53,578</u>

4 - PROPERTY AND EQUIPMENT

Office equipment	\$ 7,418
Furniture and fixtures	<u>4,206</u>
	11,614
Less: Accumulated depreciation and amortization	<u>11,143</u>

5 - REGULATORY NET CAPITAL REQUIREMENTS

The Company is subject to the SEC's Uniform Net Capital Rule (15c3-1) which requires the maintenance of minimum regulatory net capital, as defined, and requires that the ratio of aggregate indebtedness to regulatory net capital, both as defined, shall not exceed 15 to 1. At March 31, 2011, the Company had regulatory net capital of \$15,020, which was \$10,020 in excess of its minimum regulatory net capital requirement of \$5,000. The Company's net capital ratio was 3.45 to 1.

**MARQUIS FINANCIAL SERVICES OF INDIANA, INC.
D/B/A MARQUIS FINANCIAL SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS**

6 - CONTINGENCIES

Concentrations of Credit Risk

The Company is contingently liable for losses incurred by its clearing brokers from defaults in payments of funds or delivery of securities by any introduced customer accounts.

In the normal course of business, the Company enters into financial transactions where the risk of potential loss due to changes in market or failures of the other party to the transaction to perform exceeds the amounts recorded for the transactions.

The Company's policy is to continuously monitor its exposure to market and counter-party risk through the use of a variety of financial position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the customer and/or other counter-party with which it conducts its business.

As of March 31, 2011, there were no significant customer accounts having unsecured debit balances that presented any risk.

Financial instruments that potentially subject the Company to significant concentrations of credit risk and off balance sheet risk consist principally of commissions receivable from the Clearing Broker. The Company clears its transactions through a broker-dealer on a fully disclosed basis. A substantial portion of the Company's assets are represented by a receivable from the Clearing Broker.

Contingencies and Settlements

An action commenced in August 2005 in the Associate Circuit Court of St. Louis County, Missouri, against the Company, alleging that the Company is the successor-in-interest to another broker/dealer and responsible for a NASD Arbitration Judgment ordered against the other broker/dealer. The Company had a judgment awarded against it with regards to the above action for \$90,000 for which the Company posted an escrow deposit. The court enforced the judgment and the Company paid \$90,000 from the escrow account during the year, which is reflected in statement of operations.

MARQUIS FINANCIAL SERVICES OF INDIANA, INC.
D/B/A MARQUIS FINANCIAL SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS

6 - CONTINGENCIES (CONT'D).

Contingencies and Settlements (cont'd).

The Company had filed a countersuit against the plaintiff who was awarded the judgment. The countersuit claims that the Company was inappropriately represented to the court and was not successor-in-interest to the other broker/dealer as represented to the court. The Company has won its countersuit and has received a judgment in the amount of \$969,827. The Company will owe an attorney contingency fee of approximately 50% of any judgment collected. Management and counsel are attempting to collect the judgment. However, collectability is uncertain; accordingly, the Company has not reflected this amount in the statement of operations.

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

Per management and counsel, the Company intends on vigorously defending against these claims and believes it has meritorious defenses available. Management of the Company, after consultation with outside legal counsel, is not in a position to evaluate the likelihood of an unfavorable outcome to the Company on some of the actions, nor to estimate the amount or range of any potential losses to the Company, if any. However, management is of the opinion that the ultimate liability which might result from such actions would not have a material effect on the Company's financial position or net capital. Accordingly, no provision has been made in these financial statements. The Company has issued counterclaims on some of these actions and has other action pending seeking damages.

7 - COMMITMENTS

Operating Leases

The Company leases its office space in Los Angeles under a lease agreement for thirty-nine months.

The lease has escalation for real estate taxes and operating expenses.

**MARQUIS FINANCIAL SERVICES OF INDIANA, INC.

REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5

To the Stockholder and Board of Directors of
Marquis Financial Services of Indiana, Inc.
d/b/a Marquis Financial Services, Inc.
Encino, California

In planning and performing our audit of the financial statements of Marquis Financial Services of Indiana, Inc., d/b/a Marquis Financial Services, Inc. ("The Company") as of and for the year ended March 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(1)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to

permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or fraud may occur and may not be detected. Also, protection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

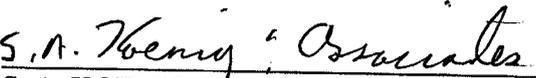

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at March 31, 2011 to meet the Commission's objectives.

This report is intended solely for the use of Board of Directors, management, the Securities and Exchange Commission, Financial Industry Regulatory Authority, and other regulatory agencies which rely on Rule 17a(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
