These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the Company's sole source of revenue is from a revenue sharing agreement with affiliated companies. NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business—Campbell Lutyens & Co. Inc. (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company is incorporated in the State of Delaware and is a wholly-owned subsidiary of Campbell Lutyens Holdings Limited (the “Parent”). The Company assists the Parent in a single line of business as a broker-dealer raising capital for private equity firms and investment managers and providing related specialized financial services. An affiliated company pays the Company fees which reflect value the Company provides to the affiliated company in the normal course of business. The Company does not conduct any retail securities business, offer or hold customer accounts, nor does it hold or receive client or investor funds or securities. The Company is not a party to agreements between an investor and its private fund clients, does not make a market in any security, nor does it trade for its own account or for the account of any client (or investor) in any security.

Basis of Presentation—The financial statements are presented in accordance with accounting principles generally accepted in the United States of America. The financial statements are presented in U.S. Dollars.

Use of Estimates—The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition—The Company earns revenue through a revenue sharing arrangement with affiliated companies which charges a fee for raising capital for private equity firms and investment managers and provides related specialized financial services to third party clients. The revenue sharing arrangement with these entities provides for payment at a specified percentage of all costs incurred by the Company excluding income taxes for its assistance in providing the above mentioned services.

Property and Equipment—Comprises furniture and computer equipment which are reported at cost, net of accumulated depreciation. Depreciation is provided for furniture and computer equipment on a straight-line basis over the estimated useful life of the assets.

Income Taxes—The amount of current taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred income tax assets and liabilities are recognized for the estimated future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. These assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to reverse.
