INDEPENDENT AUDITORS' REPORT

Board of Directors
Krambo Corporation
San Francisco, California

We have audited the accompanying statements of financial condition of Krambo Corporation as of June 30, 2011 and 2010 and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Krambo Corporation as of June 30, 2011 and 2010 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information contained in the schedule presented on page 10 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

KRAMBO CORPORATION

NOTES TO FINANCIAL STATEMENTS

June 30, 2011 and 2010

NOTE 1 - Summary of Significant Accounting Policies

Company's Activities and Operating Cycle

Krambo Corporation (the Company) functions primarily as an investment broker in the private placement of debt securities with institutional investors.

The Company recognizes the initial nonrefundable portion of its financing fees upon commitment of the loan by the institutional investors. The remaining portion is recognized following the closing of the transaction (usually approximately three months later). The Company also records consulting revenues as services are provided.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

The Company maintains its cash balances in two financial institutions. The balances, at times, may exceed federally insured limits.

Fees Receivable

Fees receivable are unsecured and no allowance for doubtful accounts is considered necessary by management at June 30, 2011 and 2010.

Office Furniture and Equipment, Net

Office furniture and equipment are stated at cost. Major expenditures for office furniture and equipment are capitalized. Maintenance, repairs, and minor renewals are expensed as incurred. When assets are retired or otherwise disposed of, their costs and related accumulated depreciation are removed from the accounts and resulting gains or losses are included in income.

Office furniture and equipment are being depreciated for financial reporting purposes using straight-line and accelerated methods over estimated useful lives of three years.

Income Taxes

The Company is an S Corporation for federal income tax reporting purposes. Substantially all income and income tax credits are passed directly to the stockholders. Consequently, no provision for federal income taxes is included in the accompanying financial statements.

For state tax purposes, the Company has elected to be taxed under the California Bank and Corporation Tax Fairness, Simplification and Conformity Act of 1987, which imposes a tax at the corporation level at the greater of 2.5 percent of income before taxes or a minimum tax.

KRAMBO CORPORATION

NOTES TO FINANCIAL STATEMENTS June 30, 2011 and 2010

NOTE 1 - Summary of Significant Accounting Policies (cont.)

The Company applies the standard related to the accounting for uncertainty in income taxes. The measurement and disclosure principles of this standard normally does not affect the financial statements of an entity that is not subject to income tax. As it relates to the Company, additional federal income taxes due to an adjustment to income or disallowed deductions generally would be imposed on the stockholders rather than the Company itself. However, there are certain exceptions where the Company could bear the burden of an uncertain federal income tax position.

The tax effects from an uncertain state income tax position can be recognized in the financial statements, only if the position is more likely than not to be sustained on audit, based on the technical merits of the position. The Company recognizes the financial statement benefit of a state income tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For state income tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized, upon ultimate settlement with the relevant state income tax authority.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for the fiscal years before 2008. The Company is not currently under examination by any taxing jurisdiction. In the event of any future tax assessments, the Company has elected to record the income taxes and any related interest and penalties as income tax expense on the Company's statements of operations.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - Office Furniture and Equipment, Net

The major categories of office furniture and equipment at June 30 are summarized as follows:

	<u>2011</u>	<u>2010</u>
Office equipment	\$ 603	\$ 603
Computer equipment	<u>10,955</u>	<u>8,813</u>
Total office furniture and equipment	11,558	9,416
Less: accumulated depreciation	<u>(4,105)</u>	<u>(907)</u>
Office furniture and equipment, net	<u>\$ 7,453</u>	<u>\$ 8,509</u>

Depreciation expense for the years ended June 30, 2011 and 2010 was \$3,198 and \$835.

KRAMBO CORPORATION

NOTES TO FINANCIAL STATEMENTS

June 30, 2011 and 2010

NOTE 3 - Lease

The Company entered into an operating lease for storage space in February 2010. The lease is on a month-to-month basis and rental payments of \$179 are payable monthly. Rent expense was \$2,076 and \$3,220 for the years ended June 30, 2011 and 2010.

NOTE 4 - Concentrations

Five customers accounted for 27%, 26%, 19%, 13% and 13% of total revenues for the year ended June 30, 2011. Three customers accounted for 61%, 21% and 13% of total revenues for the year ended June 30, 2010.

Accounts receivable consisted of two customers at June 30, 2010.

NOTE 5 - Notes Receivable

Prior to June 30, 2010, the Company loaned monies to an unrelated party through two notes receivable. During the year ended June 30, 2010, the borrower of the notes went through bankruptcy proceedings and the debt was discharged. The Company wrote off the principal and accrued interest of \$15,351 as bad debt expense on the statement of operations. Following the discharge period, the Company loaned an additional \$1,750 to the borrower. The additional note receivable had been fully reserved for at June 30, 2010 and was subsequently written off.

The Company also entered into a Convertible Promissory Bridge Note receivable for up to \$12,000 with an unrelated party. The Company advanced \$6,000 prior to June 30, 2010. During the year ended June 30, 2010, the borrower of the Convertible Promissory Bridge Note defaulted and the Company determined the note to be uncollectible. The Company wrote off the \$6,000 as bad debt expense on the statement of operations for the year ended June 30, 2010.

NOTE 6 - Net Capital Requirements

The Company is required to maintain a minimum net capital, as defined in Rule 15c3-1 under the Securities Exchange Act of 1934 (as amended), equivalent to the greater of \$5,000 or 1/15 of aggregate indebtedness. Net capital and aggregate indebtedness may vary from day to day. At June 30, 2011 and 2010, the Company had net capital of \$16,771 and \$12,176 which was \$11,771 and \$7,176 in excess of its required net capital of \$5,000. The Company's net capital ratio was .15 to 1 and .68 to 1 at June 30, 2011 and 2010.

No material differences exist between the net capital calculated above and the net capital computed and reported in the Company's June 30, 2011 amended FOCUS filing. Per Rule 15c3-3 of the Securities and Exchange Commission Uniform Net Capital Rule, the Company is exempt under the (k)(2)(i) exemption.

KRAMBO CORPORATION

NOTES TO FINANCIAL STATEMENTS

June 30, 2011 and 2010

NOTE 7 - Subsequent Events

On July 29, 2011, the Company received a \$15,000 contribution of capital from a stockholder.

The Company had no other subsequent events through August 15, 2011, which is the date the financial statements were available to be issued for events requiring recording or disclosure in the financial statements for the year ended June 30, 2011.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

Board of Directors
Krambo Corporation
San Francisco, California

In planning and performing our audit of the financial statements of Krambo Corporation (the "Company") as of and for the year ended June 30, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any material weaknesses. Due to the small size of the Company's accounting department, the Company has a lack of segregation of duties. We consider this item to be a significant deficiency as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at June 30, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Governors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
