Report of Independent Auditors

To the Board of Directors of Arvest Bank Group, Inc. and
Stockholder of Arvest Investments, Inc.

In our opinion, the accompanying statement of financial condition and the related statements of operations, changes in stockholder's equity and cash flows present fairly, in all material respects, the financial position of Arvest Investments, Inc. (a wholly-owned subsidiary of Arvest Bank) (the "Company") at December 31, 2011, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As more fully described in Note 7, the Company has significant transactions with its parent. Because of this relationship, it is possible that the terms of these transactions are not the same as those that would result from transactions among unrelated parties.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Supplementary Schedules I, II and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Arvest Investments, Inc.
(A wholly-owned subsidiary of Arvest Bank)
Notes to Financial Statements
December 31, 2011

1. Organization and Nature of Business

Arvest Investments, Inc. (the "Company") is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority, Inc. The Company is an Arkansas corporation that is a wholly-owned subsidiary of Arvest Bank, a wholly-owned indirect subsidiary of Arvest Bank Group, Inc. ("ABG"). The Company primarily acts as an introducing broker-dealer offering a wide range of investment security products to retail customers of Arvest Bank.

The Company executes all of its customers' transactions, on a fully-disclosed basis, through unaffiliated clearing broker-dealers, which carry the accounts and securities of the Company's customers.

2. Summary of Significant Accounting Policies

The significant accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and prevailing practices within the broker-dealer industry. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions which impact the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

The following is a summary of the more significant accounting policies of the Company:

Income Recognition

Commission revenues and mutual fund fees are recorded by the Company on a trade date basis as securities transactions occur. Commission revenues are recorded at the amount charged to the customer which, in many cases, may include varying discounts. Annuity commissions are recognized when the signed contract and premium are submitted to the annuity carrier.

Commissions include certain asset-based fees. These include mutual fund and annuity trailing commissions. Revenues are recorded ratably over the period earned.

Trading Securities

Trading securities and securities sold, not yet purchased are carried at fair value based on quoted market prices.

Income Taxes

The Company's operations are included in the consolidated federal and state income tax returns of ABG. Since the Company generates no taxable income or significant permanent or temporary differences, no income tax provision has been recorded.

Cash and Cash Equivalents

The Company has defined cash equivalents as highly liquid investments with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Statement of Changes in Subordinated Liabilities

The financial statements of the Company do not include a statement of changes in liabilities subordinated to the claims of general creditors as required under Rule 17a-5 of the SEC since no such liabilities existed at December 31, 2011 or during the year then ended.

Arvest Investments, Inc.
(A wholly-owned subsidiary of Arvest Bank)
Notes to Financial Statements
December 31, 2011

Fair Values of Financial Instruments

The Company uses fair value measurements to record fair value adjustments to certain financial instruments and to determine fair value disclosures. Trading securities are recorded at fair value on a recurring basis. Information about the extent to which fair value is used to measure assets and liabilities, the valuation methodologies used and its effect on earnings is included in Note 9 "Fair Value Measurements."

3. Recently Issued Accounting Standards

Disclosures about Offsetting Assets and Liabilities.

In December 2011, the Financial Accounting Standards Board (FASB) issued disclosure requirements that are intended to help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on an entity's financial position. Entities are required to disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position as well as instruments and transactions subject to an agreement similar to a master netting arrangement. In addition, entities are required to disclose collateral received and posted in connection with master netting agreements or similar arrangements. This guidance is effective for interim and annual periods beginning on or after January 1, 2013 and will be applied retrospectively for all comparative periods presented. The adoption of this guidance will result in increased disclosures, but will have no effect on the Company's financial condition or results of operations.

Presentation of Comprehensive Income.

In June 2011, the FASB issued amended guidance that eliminates the option to report other comprehensive income and its components in the statement of change in equity. The main provisions of this amended guidance provide that an entity that reports items of other comprehensive income present comprehensive income in either: (1) a single financial statement that presents the components of net income and total net income, the components of other comprehensive income and total other comprehensive income, and total comprehensive income; or (2) a two-statement approach, where the components of net income and total net income are presented in the first statement, immediately followed by a financial statement that presents the components of other comprehensive income, a total for other comprehensive income, and total comprehensive income. For nonpublic entities, the amendments are effective for fiscal years ending after December 15, 2012, and interim and annual periods thereafter (January 1, 2012 for the Company). Early adoption is permitted. The adoption of this guidance will have no effect on the Company's financial condition or results of operations.

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.

In May 2011, the FASB issued amended guidance to converge fair value measurement and disclosure guidance in GAAP with the fair value measurement guidance concurrently issued by the International Accounting Standards Board for International Financial Reporting Standards (IFRS). The amended guidance does not extend the use of fair value but, rather, provides guidance about how fair value should be applied where it already is required or permitted under GAAP. While many of the changes are clarifications of existing guidance or wording changes to align with IFRS, the amended guidance changes some fair value measurement principles and disclosure requirements. For nonpublic entities, the amendments are effective for annual periods beginning after December 15, 2011 (January 1, 2012 for the Company). The Company does not believe that the adoption of this guidance will have a material effect on the Company's financial condition or results of operations.

Arvest Investments, Inc.
(A wholly-owned subsidiary of Arvest Bank)
Notes to Financial Statements
December 31, 2011

Reconsideration of Effective Control for Repurchase Agreements.

In April 2011, the FASB issued guidance to improve the accounting for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The new guidance removes certain criteria from the assessment of effective control. This guidance is effective for the Company for interim and annual periods beginning on January 1, 2012. This guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The Company does not believe that the adoption of this guidance will have a material effect on the Company's financial condition or results of operations.

4. Receivables From Broker-Dealers

Amounts receivable from broker-dealers at December 31, 2011 consisted of fees and commissions receivable from the Company's clearing brokers.

5. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule ("SEC Rule 15c3-1"), which requires the maintenance of minimum net capital and establishes a maximum ratio of aggregate indebtedness to net capital, both as defined. At December 31, 2011, the Company had net capital of \$4,494,935 which was \$4,244,935 in excess of its required net capital of \$250,000, and a ratio of aggregate indebtedness to net capital of .83 to 1, which was less than the maximum allowable ratio of 15 to 1.

The Company claims exemption from SEC Rule 15c3-3 of the Securities and Exchange Commission under paragraph (k)(2)(ii) of the Rule.

6. Notes Receivable

Notes receivable consist of loans to registered representatives with maturities ranging from two to five years. The company makes loans to registered representatives as a part of its hiring process. A portion of these loans will be forgiven over a period of time (typically five years) if the registered representative meets certain production levels. Reserves have not been established on these loans as substantially all of the outstanding note balances are collateralized by fund balances in brokerage accounts.

7. Transactions with Arvest Bank

The Company is the exclusive provider of retail brokerage services for Arvest Bank and primarily derives its revenues from these services. Most of the Company's registered representatives are located in banking locations of Arvest Bank and, therefore, Arvest Bank customers have ready access to the registered representatives. In connection with this relationship, the Company is a party to an agreement with Arvest Bank under which all of the Company's revenues, net of the direct expenses incurred in connection with the generation of the revenues, plus an allocation of all of the Company's other expenses are allocated to Arvest Bank. As a result, the Company reports no net income after such allocation, and therefore reports no retained earnings.

Arvest Investments, Inc.
(A wholly-owned subsidiary of Arvest Bank)
Notes to Financial Statements
December 31, 2011

The Company rents office space and equipment and purchases support services, including all personnel services, from Arvest Bank Operations, Inc. Total expenses incurred for the above activities for the year ended December 31, 2011 amounted to \$20,100,265. The amount payable to Arvest Bank Operations, Inc. at December 31, 2011 of \$1,390,681 represents unpaid balances relating to these expenses. Stated financial results may differ if these transactions were conducted with other external parties.

Arvest Bank may, from time to time, provide the Company with capital contributions in order to maintain minimum net capital requirements. During the year ended December 31, 2011, there were no such contributions of capital. The Company also maintained cash on deposit with Arvest Bank at December 31, 2011 totaling \$78,048.

8. Commitments and Contingent Liabilities

In the normal course of business, the Company may become subject to litigation or claims. The Company is not aware of any litigation or claims against the Company which would materially affect its financial position or results of operations.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company's clearing brokers extend credit to the Company's customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the clearing brokers clear customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. In the event the customer fails to satisfy its obligations, the clearing broker may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. Any associated loss incurred by the clearing brokers may be reimbursed by the Company in accordance with the clearing agreements between the clearing brokers and the Company. The Company seeks to control the risks associated with these activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral or to reduce positions, when necessary.

As the right to charge the Company has no maximum amount and may apply to all trades executed through the clearing broker-dealers, the Company believes there is no maximum amount assignable to this right. At December 31, 2011, the Company had recorded no liabilities with regard to this right. The Company has not historically incurred any material losses arising from these activities and does not anticipate future losses, if any, to have a material impact on the financial statements.

In addition, the Company has the right to pursue collection or performance from the counterparties who do not perform under their contractual obligations. The Company monitors the credit standing of the clearing brokers and all counterparties with which it conducts business.

Arvest Investments, Inc.
(A wholly-owned subsidiary of Arvest Bank)
Notes to Financial Statements
December 31, 2011

9. Fair Value Measurements

The Company records trading securities at fair value. Fair value is a market-based measurement and is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. A fair value hierarchy for disclosure of fair value measurements is used to maximize the use of observable inputs, that is, inputs that reflect the assumption market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets. The types of instruments valued based on quoted market prices in active markets include active listed equities, if any, and money market securities. The Company held no Level 1 assets at December 31, 2011.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. The types of instruments that valued based on quoted prices for similar assets with reasonable levels of price transparency include state and municipal obligations. At December 31, 2011, the Company held municipal obligations classified as trading securities with a fair value of \$596,286.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Company held no Level 3 assets during the year ended December 31, 2011.

The following table presents the assets and liabilities that are measured at fair value on a recurring basis at December 31, 2011 for each of the fair value hierarchy levels:

Financial Assets and Liabilities at Fair Value as of December 31, 2011					
	Level 1	Level 2	Level 3	Total	Gains/ (Losses)
Assets					
Municipal Obligations	\$ -	\$ 596,286	\$ -	\$ 596,286	6,198
Total financial assets at fair value	\$ -	\$ 596,286	\$ -	\$ 596,286	\$ 6,198

The Company held no financial instruments measured at fair value on a nonrecurring basis as of December 31, 2011. Other financial instruments held by the company are not measured at fair value. The company believes that the stated amount of these instruments closely approximates fair value. These instruments include cash and cash equivalents, receivables from broker-dealers, notes receivable and payables to broker-dealers.

10. Subsequent Events

The Company has evaluated subsequent events and has determined there are none requiring disclosure through February 24, 2012, which is the date the financial statements were issued.

**Report of Independent Auditors
on Internal Control Required by SEC Rule 17a-5**

To the Board of Directors of Arvest Bank Group, Inc. and
Stockholder of Arvest Investments, Inc.

In planning and performing our audit of the financial statements of Arvest Investments, Inc. (the "Company") as of and for the year ended December 31, 2011 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), including the following:

1. Making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11)
2. Determining compliance with the exemptive provisions of Rule 15c3-3
3. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13

Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company related to the following:

1. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The Management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial

statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first, second and third paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second and third paragraphs of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second and third paragraphs of this report, were adequate at December 31, 2011 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

**Report of Independent Auditors
on Agreed Upon Procedures Required by SEC Rule 17a-5(e)(4)**

To the Board of Directors of Arvest Bank Group, Inc. and
Stockholder of Arvest Investments, Inc.

In accordance with Rule 17a-5(e)(4) of the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Transitional Assessment Reconciliation (Form SIPC-7T) of the Securities Investor Protection Corporation (SIPC) of Arvest Investments, Inc. for the period from January 1, 2011 through December 31, 2011, which were agreed to by Arvest Investments, Inc., the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and the Securities Investor Protection Corporation (collectively, the "specified parties") solely to assist the specified parties in evaluating Arvest Investments, Inc.'s compliance with the applicable instructions of Form SIPC-7T during the year ended December 31, 2011. Management is responsible for Arvest Investments, Inc.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments on page 1, items 2B and 2F of Form SIPC-7T with the respective cash disbursement records entries, as follows: Payment dated July 28, 2011 in the amount of \$5,564 compared to wire transfer number 62315902 obtained from Jeff Kinard, Financial and Operational Principal. No differences noted.
2. Compared the Total Revenue amount reported on page 3 of the audited Form X-17A-5 for the year ended December 31, 2011 with the Total Revenue amount of \$24,276,310 reported on page 2, item 2a of Form SIPC-7 for the year ended December 31, 2011. A difference of \$303,101 was noted due to a reconciling item in revenue between the audited Form X-17A-5 and the FOCUS report amount reported on Form SIPC-7.
3. Compared any adjustments reported on page 2, items 2b and 2c of Form SIPC-7T with the supporting schedules and working papers, as follows:
 - a. Compared deductions on line 2, revenues from the distribution of shares of registered open end investment company or unit investment trust, from the sale of variable annuities, from the business of insurance, from investment advisory services rendered to registered investment companies or insurance company separate accounts, and from transaction in security futures

contracts of \$19,219,920 to supporting schedules and working papers provided by Jeff Kinard, Financial and Operational Principal. No differences noted.

- b. Compared deductions on line 2, commissions, floor brokerage and clearance paid to other SIPC members in connection with securities transactions of \$708,330 to supporting schedules and working papers provided by Jeff Kinard, Financial and Operational Principal. No differences noted.
 - c. Compared deduction on line 2c, other revenue not related either directly or indirectly to the securities business of \$2,864,030 to supporting schedules and working papers provided by Jeff Kinard, Financial and Operational Principal. No differences noted.
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7T and in the related schedules and working papers obtained in procedure 3, as follows:
- a. Recalculated the mathematical accuracy of the SIPC Net Operating Revenues on page 2, line 2d and the General Assessment @ .0025 on page 2, line 2e of \$1,482,194 and \$3,705, respectively of the Form SIPC-7. No differences noted.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the Company's preparation of Form SIPC-7T in accordance with the applicable instructions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of management and the board of directors of Arvest Investments, Inc., the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and the Securities Investor Protection Corporation and is not intended to be and should not be used by anyone other than these specified parties.
