BROCK SECURITIES LLC  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2011

NOTE 1. ORGANIZATION AND OPERATIONS

Brock Securities, LLC (the "Company") is a Delaware limited liability company formed on July 12, 2002. The Company is a securities broker-dealer, registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which require the use of estimates by management.

The Company was organized as a sole member LLC and as such, no provision for federal and state income taxes has been made since the Company is not a taxable entity. The member is liable for the taxes on the Company's income or loss.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

For purposes of the statement of cash flows, the company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fair Value Measurement – Definition and Hierarchy

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures (formerly FASB Statement 157, Fair Value measurements) establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels explained below:

Level 1 Valuations based on quoted prices available in active markets for identical investments.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

BROCK SECURITIES LLC  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2011  
(continued)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurement – Definition and Hierarchy (continued)

The availability of observable inputs can vary from instrument to instrument and is affected by a wide variety of factors. This includes the type of instrument, whether the instrument is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the instrument is reported in the lowest level that has a significant input. Even when inputs are not observable, the Company's own assumptions and methodologies are established to reflect those that market participants would use in pricing the asset or liability at the measurement date. In addition, during periods of market dislocation, the observability of inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified to a lower level within the fair value hierarchy.

NOTE 3. NET CAPITAL REQUIREMENT

The Company is subject to SEC Uniform Net Capital Rule 15c3-1 which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 times net capital. At December 31, 2011, the Company had net capital of \$146,427, which was \$46,427 in excess of its required net capital of \$100,000.

NOTE 4. SIGNIFICANT GROUP CONCENTRATION OF RISK

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in the market (market risk) or failures of the other parties to the transaction to perform (counterparty risk) exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to the market and counterparty risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the customers and/or other counterparties with which it conducts business.

BROCK SECURITIES LLC  
NOTES TO FINANCIAL STATEMENT  
DECEMBER 31, 2011  
(continued)

NOTE 4.      SIGNIFICANT GROUP CONCENTRATION OF RISK (continued)

As of December 31, 2011, there were no customer accounts having debit balances which presented any risks nor was there any exposure with any other transaction conducted with any other broker.

NOTE 5.      RELATED PARTY TRANSACTIONS

The Company shares office space with an affiliate that has elected to waive the rent and certain other overhead expenses that would otherwise be charged to the Company for the use of office space. The affiliate has adequate resources independent of the Company to pay these expenses, and the Company has no additional obligation, either direct or indirect, to compensate a third party for these expenses.

NOTE 6.      SUBSEQUENT EVENTS

Subsequent events have been evaluated and no events have been identified which require disclosure.
