NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2011 and 2010

NOTE 1 - Summary of Significant Accounting Policies

Nature of Business

Aethlon Capital, LLC (the Company) was formed in October 1996 as a limited liability company under Chapter 322B of the Minnesota statutes. The Company will continue until October 30, 2026 unless terminated prior to that time.

The Company is a licensed securities broker-dealer and specializes in providing investment banking services for public and private emerging growth companies. Services provided include private placement of equity or debt and general corporate finance advisory services.

The Company is a member of the Securities Investors Protection Corporation (SIPC) and Financial Industry Regulatory Authority (FINRA).

Cash and Cash Equivalents

The Company considers all cash accounts, which are not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash balances in excess of FDIC and similar insurance coverages are subject to the usual banking risks associated with funds in excess of those limits.

Marketable Securities

Marketable securities consist of publicly traded common stock and are classified as trading securities. Trading securities are reported at fair market value with all unrealized gains included in other income on the statements of operations.

	<u>Marketable securities</u>	<u>Aggregate fair value</u>	<u>Cost</u>	<u>Gross unrealized gains</u>
December 31, 2011	\$	97,670	\$ 87,749	\$ 9,921

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2011 and 2010

NOTE 1 - Summary of Significant Accounting Policies (cont.)

Revenue Recognition

The Company's revenues were derived from consulting fees and commissions from private placements. Consulting fees are nonrefundable deposits received during the initial stages of a private placement. Consulting fees may be deductible against the total commissions to be received upon the closing of a placement. Consulting fees are recognized upon receipt. Commission revenue is recognized at the time of the placement's closing.

Income Taxes

The Company is a single member limited liability company classified as a "disregarded entity" for income tax purposes. Accordingly, these financial statements do not include any provision or liability for income taxes since the income and expenses are reported on the individual income tax returns of the sole member and the applicable income taxes, if any, are paid by the member.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by tax authorities for the years before 2008. The Company is not currently under examination by any taxing jurisdiction. In the event of any future tax assessments, the Company has elected to record the income taxes and any related interest and penalties as income tax expense on the Company's statements of operations.

Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net capital and the related net capital ratio fluctuate on a daily basis. At December 31, 2011 and 2010, the Company had net capital of \$22,260 and \$(932) which was \$17,260 and \$(5,932) in excess (below) its required net capital of \$5,000. The Company's net capital ratio was 2.34 to 1 and -19.91 to 1 at December 31, 2011 and 2010.

No material differences exist between the net capital calculated above and the net capital computed and reported in the Company's December 31, 2011 FOCUS filing. Per Rule 15c3-3 of the Securities and Exchange Commission Uniform Net Capital Rule, the Company is exempt under the (k)(2)(i) exemption.

The Company had a net capital deficiency beginning in November 2010 after an audit adjustment for recognition of the deferred rent liability for a lease extension in June 2010. The deficiency was corrected during January 2011 upon receipt of a client retainer.

AETHLON CAPITAL, LLC

NOTES TO FINANCIAL STATEMENTS As of and for the Years Ended December 31, 2011 and 2010

NOTE 3 - Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company values and records all investment securities transactions on a trade date basis. Securities listed on a national or regional securities exchange are valued at their last reported sales price on the last business day of the period. Securities which are not traded on a major exchange or for which no sale was reported on that date are valued at the average of their last quoted "bid" price and "asked" price. Short positions are valued at the last quoted "asked" price. Inputs used in the valuation methods can be either readily observable, market corroborated, or generally unobservable inputs. Whenever possible the Company attempts to utilize valuation methods that maximize the use of observable inputs and minimizes the use of unobservable inputs. Based on the observability of the inputs used in the valuation methods the Company determines fair value based on quoted market prices in active markets for identical assets and liabilities.

**INDEPENDENT AUDITORS' SUPPLEMENTARY REPORT
ON INTERNAL ACCOUNTING CONTROL**

Sole Member
Aethlon Capital, LLC
Minneapolis, Minnesota

In planning and performing our audit of the financial statements of Aethlon Capital, LLC (the Company) as of and for the year ended December 31, 2011 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. Due to the small size of the Company's accounting department, the Company has a lack of segregation of duties. We consider this item to be a *significant deficiency* as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures as described in the second paragraph of this report, were adequate at December 31, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Governors, management, the SEC, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
