AS OF DECEMBER 31, 2011

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION**

(A) Organization

Grandview Capital, Inc. (a wholly owned subsidiary of Grandview Capital Partners, Inc.) was incorporated under the laws of the State of Florida on December 17, 1999.

The Company is a broker-dealer registered with the SEC and is a member of FINRA. The Company is a Florida corporation that is a wholly owned subsidiary of Grandview Capital Partners, Inc. (Parent).

(B) Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Estimates include valuation allowance for deferred tax assets and fair value of marketable securities. Actual results could differ from those estimates.

(C) Cash and Cash Equivalents

For purposes of the cash flow statements, the Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents.

(D) Income Taxes

The Company accounts for income taxes under FASB ASC 740, "Income Taxes". Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The valuation allowance at December 31, 2011 was \$127,812. The net change in the valuation allowance for the year ended December 31, 2011 was a decrease of \$17,223. As of December 31, 2011, the Company has net operating loss carry forward of approximately \$139,171 available to offset future taxable income through 2031. The tax years 2006 to 2011 remaining open to examination by the Internal Revenue Service and State of Florida.

(E) Business Segments

The Company operates in one segment and therefore segment information is not presented.

(F) Property and Equipment

Purchases of property and equipment in excess of \$1,000 are capitalized. Property and equipment is stated at cost for purchased assets. Depreciation on all property and equipment is provided using the straight-line method over the estimated useful lives (5 to 7 years) of the assets.

(G) Fair Value of Financial Instruments

FASB ASC 820 "Fair Value" defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC are used to measure fair value.

GRANDVIEW CAPITAL, INC.
(A WHOLLY OWNED SUBSIDIARY OF GRANDVIEW CAPITAL PARTNERS, INC.)
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2011

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three board levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The Company evaluates assets and liabilities subject to fair value measurements on a recurring and nonrecurring basis to determine the appropriate level to classify them for each reporting period. This determination requires significant judgments to be made by the Company. The following table sets forth the Company's assets and liabilities that were measured at fair value as of December 31, 2011, by level within the fair value hierarchy:

	December 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Investments in common stock	\$ 39,002	\$ -	\$ -	\$ 39,002
Total assets	<u>\$ 39,002</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 39,002</u>

The amortized cost of equity securities as shown in the accompanying statement of financial condition and their estimated market value at December 31, 2010 is as follows:

	2011
Trading securities:	
Cost	\$ 39,002
Unrealized gain or (loss)	(39,002)
Marketable equity securities classified as current	<u>\$ -</u>

The change in unrealized gains (losses) from trading securities for the year ended December 31, 2011 were as follows:

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
REQUIRED BY SEC RULE 17-a-5

To the Board of Directors of:

Grandview Capital, Inc.

(a wholly owned subsidiary of Grandview Capital Partners, Inc.)

In planning and performing our audit of the financial statements and supplementary information of Grandview Capital, Inc. (a wholly owned subsidiary of Grandview Capital Partners, Inc.) as of and for the year ended December 31, 2011 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exceptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatement on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and regulated regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2011, to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, the FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Grandview Capital, Inc.'s management is responsible for the Grandview Capital, Inc.'s compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below for the purpose for which this report has been requested or for any other purpose.
