The Woodlands

FEBRUARY 29, 2012

TO THE SHAREHOLDERS OF
THE HOWARD HUGHES CORPORATION
FROM THE CHIEF EXECUTIVE OFFICER:

In our first full year as a company, The Howard Hughes Corporation made important strides in moving our assets closer to the point at which they can generate maximum potential value. We hired talented people, formed strategic joint ventures and made a substantial acquisition. These initiatives have positioned our company to create meaningful long-term value for our shareholders and our financial statements are beginning to reflect these efforts.

We started 2011 with the foundation of a great team, and have since hired a few more key professionals in order to complete our executive roster. It was critical to find experienced talent who shared our core values. Our people are passionate, committed to excellence, and immersed in a culture that treats the company's money as if it were their own. We found these values and more in our Chief Financial Officer, Andy Richardson, our General Counsel, Peter Riley, and in the development executives who joined our team this past year. These industry veterans bring decades of experience and a track record of success working for prominent real estate companies across the country.

In 2011, we formed joint venture partnerships on three assets: Ala Moana Tower, Parcel D at Columbia Town Center and The Bridges at Mint Hill. In each case, we partnered with local developers who have strong reputations and a history of successful projects. Leveraging each group's local knowledge and development expertise has already helped to accelerate our business plans for these assets.

The highlight of 2011, which I will discuss in greater detail below, was completing our acquisition of Morgan Stanley's 47.5% economic interest in The Woodlands Master Planned Community ("MPC") located in Houston, TX. The Woodlands is one of the most successful large-scale MPC's in the U.S, comprising over 28,000 acres, 97,000 residents and 1,700 employees. To learn more about this vibrant community visit www.thewoodlands.com. The Woodlands is now a wholly owned subsidiary of The Howard Hughes Corporation, and we are confident that this acquisition will create significant short and long-term value for our shareholders.

SETTING THE TABLE

Before telling you about our class of 2011 executive hires, I wanted to reiterate the outstanding job the entire Howard Hughes team has done to advance the company's goals in 2011. I am personally grateful for all of their hard work and inspired by the way they have embraced the opportunity and challenges of being a new company.

Grant Herlitz, President of the company and my partner for the past 12 years, has worked by my side to provide exceptional leadership in bringing together the diverse talent within the company and in driving results. Grant's analytical skills and detailed knowledge of all our assets has been invaluable in guiding our development and asset management teams as they move forward with pre-development activities. Among his responsibilities, he is working closely with The Woodlands leadership team to harvest the many opportunities on the horizon from this strategic investment. Grant's passion for our company, our people and the example he sets for excellence in everything he does embodies the core values of our company.

Our Chief Financial Officer, Andy Richardson, has done an exceptional job of leading the accounting team since joining us in March of 2011. Andy also fully embraced our owner's mentality by making a substantial, long-term personal investment in the company. Andy was formerly CFO and Treasurer of NorthStar Realty Finance Corp. (NYSE: NRF), a publicly traded commercial real estate finance company focused on investment in real estate loans, fixed income securities and net-leased real estate properties. Andy's track record and public company experience are great assets to our growing company.

Peter Riley joined us as General Counsel in May. However, his involvement with the company dates back to its inception where he was outside counsel representing our interests during the company's formation and emergence. Peter brings with him over 30 years of experience working in both the public and private sector. A partner at K&L Gates LLP since 2004, Peter placed a significant focus on the tax aspects of fund formation, joint ventures and the acquisition, disposition, operation and financing of real estate assets. Prior to earning his law degree, Mr. Riley worked for Amerada Hess Corporation (NYSE:AHC) where he became Chief Financial Officer of its Abu Dhabi subsidiary.

Andy and Peter played critical roles in executing our acquisition and transition of The Woodlands. They also work alongside Grant and me in negotiating and forming our joint venture partnerships. They have shown an ability to execute on difficult tasks in short time frames and we are excited about the chemistry of our senior executive team.

RIVERWALK NEW ORLEANS, LA

ELK GROVE PROMENADE, SACRAMENTO, CA

On the development side of the business, we began expanding our bench in May when we hired John Dewolf to run the Northeast region. John brings over 30 years of real estate experience to the team, which includes time spent with The Limited, The Disney Stores, Inc., Woolworth Corporation, New York & Company, and New England Development. John is responsible for our projects in Columbia, Maryland, Alexandria, Virginia, and Princeton, New Jersey. He is also playing a critical role in the redevelopment of the South Street Seaport. Beyond these specific assets, John's unique blend of retail and development expertise has brought valuable perspective to our portfolio of strategic developments.

Mark Bulmash also joined the company in May, and is overseeing the Central and Southeast region, which includes projects in Charlotte, Miami, Birmingham, New Orleans and Dallas. Mark is an impressive retail veteran who spent time at the Taubman Company, Related Companies, and most recently Forest City Enterprises where he oversaw all commercial development east of the Mississippi. Mark brings an analytical perspective and experience steering large projects through the entire development cycle.

The third member of our development triumvirate, Chris Curry, is not a new hire, but an established member of the team who played a vital role in guiding the company into existence. Chris oversees our Western region, which currently spans Salt Lake City, Phoenix, Las Vegas, Sacramento and Honolulu. Chris has over twenty years of retail and mixed-use development experience, including time spent at Westfield and Forest City Enterprises where he oversaw the redevelopment of regional shopping centers as well as ground up development of projects throughout the West. Chris is based in our Los Angeles office and epitomizes the passion of the Howard Hughes culture.

Our most recent addition to this seasoned group of developers is John Simon, Executive Vice President of Strategic Planning. John has over 35 years of experience in virtually every aspect of real estate development, spending a majority of that time at the Taubman Company. At Taubman, John was Senior Vice President and Managing Director and, for 10 years, he oversaw all development activities. John worked on over 40 major projects including overseeing the unprecedented task of opening four regional centers in the same year totaling over \$1 billion in project costs. All projects were opened on time and within budget.

I have great confidence that John, Mark, Chris and John will accelerate our development pipeline, from New York to Hawaii, and create meaningful value across the portfolio.

While on the topic of people, I want to thank our Board of Directors. Their involvement as a resource to management in strategic decisions has led to a collaborative environment where we engage in spirited debates and ultimately determine how to best optimize the value of our assets.

They act like owners because they are owners, and you can take great comfort in knowing your money is in the hands of people whose interests are aligned with yours.

This past year also brought changes to the make-up of our board. David Arthur moved on to focus on his role as President and Chief Executive Officer of Brookfield Real Estate Opportunity Fund. We thank David for his wise counsel during the vital launch phase of the company. Concurrently, we welcomed two new members to our board: Mary Ann Tighe, currently Chief Executive Officer of CBRE's New York Tri-State Region and Burton M. Tansky, currently Non-Executive Chairman of The Neiman Marcus Group and its former Chief Executive Officer.

Mary Ann has been credited with transforming New York's skyline during her 26 years in the real estate industry. She has been responsible for over 77 million square feet of commercial transactions, and her deals have anchored more than 9.2 million square feet of new construction in the New York region. Burt was Chief Executive Officer and President of The Neiman Marcus Group Inc. from May 2004 to October 2010. Prior to May 2004, Mr. Tansky served in several executive roles at Neiman Marcus and served as the Chairman and Chief Executive Officer of Bergdorf Goodman from 1990 to 1994. Previously, Burt served as the President of Saks Fifth Avenue. We will benefit tremendously from Mary Ann's and Burt's expertise as we fine tune the strategic plans for the company and work to maximize the value of our assets.

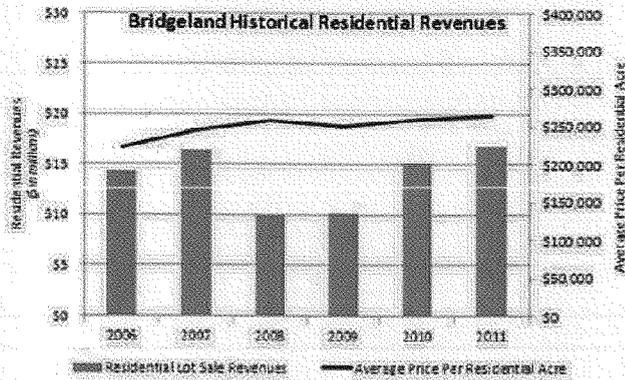

MASTER PLANNED COMMUNITIES

Our master planned community business consists of the ownership, development and sale of property at four MPC's: Bridgeland in Houston, Summerlin in Las Vegas, various MPC's in the Maryland region and The Woodlands in Houston. Nationally housing statistics show a slow recovery, but these statistics fail to show the divergent directions of local housing markets. In this regard, our company benefits from a diversity of geography that mitigates our exposure to the health of any one local economy.

In Houston, the energy industry continues to fuel economic growth, making it one of the strongest housing markets in the country. Our Bridgeland MPC had a record year and finished the year ranked 4th in Houston and 13th nationally in MPC residential land sales. Since construction started in 2004, our predecessors invested over \$300 million into this asset. We are poised to begin harvesting those investments as major competitors run out of residential lots to sell and our on-site team, led by Peter Houghton, continues to deliver a great community to our customers. If you are

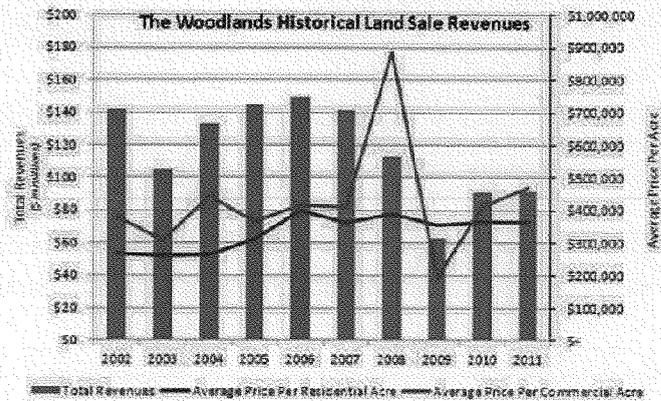

SUMMERLIN MASTER PLANNED COMMUNITY, LAS VEGAS, NV

looking for a home in western Houston then please visit www.bridgeland.com.

Further fueling Bridgeland's growth, a new beltway, commonly known as Grand Parkway, is under construction and is scheduled to be complete by 2014. This freeway will link Interstate 10 to Interstate 45, bisect Bridgeland and open up opportunities to develop commercial

land in our planned Town Center. It will also create a direct link from Bridgeland to The Woodlands, shortening a sixty-minute drive to twenty-five minutes. Near term, we expect 2012 to be another year of record sales, after our 2011 revenues and average price per acre exceeded the 2007 "top of the market levels" previously established at Bridgeland. The following graph demonstrates steady performance of land sales revenue over the last six years. We will continue to look for ways to enhance the performance of Bridgeland through its association with The Woodlands brand and leverage our resources at The Woodlands to help guide the strategic direction of the asset.

In Las Vegas, the housing market is lagging the national recovery, but the economy is seeing continuing improvement especially in the leisure and hospitality sector. The local housing market continues to suffer from substantial distressed inventory, tight lender underwriting, underwater borrowers unable to trade up or down and weakened demand for new homes. In 2011, the total number of new home closings was the lowest in 23 years at 3,894 units. Our Summerlin MPC has not been immune to these impacts, and as expected, certain home builders did not close on lot takedowns.

Through this challenging year, Kevin Orrock and his team have done a commendable job of managing this MPC for the company. Kevin is currently the Chairman of the Las Vegas Chamber of Commerce. This position within the Las Vegas community brings additional gravitas to our efforts. We do not know when this market will recover, but recognize that we control the largest piece of land in a land constrained market, with virtually no debt. We will continue to stay the course until the market returns, and long term, we believe that Summerlin's future is very bright. Go to www.summerlin.com for more information on this dynamic community.

Within Summerlin, we are focused on one of our key strategic projects, Summerlin Centre. This project is widely acknowledged in the industry as one of the best regional shopping center sites

in the country. It is also an opportunity to launch the downtown development for our Summerlin MPC, which will spur demand, grow market share and enhance the value of the 7,000 acres of land remaining to be sold in Summerlin. During 2011, we spent a considerable amount of time re-planning the 400 acre downtown. We expect that during 2012, we will be in a position to announce a date on which construction should start and a targeted opening date for the center.

In Columbia, Maryland we are transitioning from a traditional master planned community to focus on the redevelopment of Columbia Town Center. This November we took an important step in launching the Town Center redevelopment when we announced a joint venture agreement with Kettler and Orchard Development to develop the first phase of the Columbia Town Center Master Plan, which at full build out will include up to 13 million square feet of mixed-use development. This first phase includes approximately 375 units and is targeted to be completed by the end of 2013. Our partners, Kettler and Orchard are highly regarded in the greater Washington D.C. metro region with a successful history in developing high-end residential products.

Columbia Town Center has strong potential for continued multifamily development, which we plan to pursue as we build a new high-density urban neighborhood in the heart of Jim Rouse's original master planned community. In this process, John Dewolf will continue working with the local community to deliver a vision that will make us proud.

As mentioned above, the headline of 2011 for our master planned community business was our acquisition of Morgan Stanley's 47.5% economic interest in The Woodlands for \$117.5 million, including the assumption of \$297 million in debt. A simple analysis of this investment based solely on The Woodland's history of land sales builds a convincing case that this acquisition will be very profitable for the company. The chart that follows shows actual residential and commercial land sale revenues and average price per acre in The Woodlands over the last ten years.

This ten year track record of steady revenues through one of the worst recessions of the last century demonstrates the stability of Houston and The Woodlands' submarket. Furthermore, average residential lot selling prices are above 2005 levels and increasing. As of December 31, 2011, The Woodlands had approximately 1,164 acres of unsold residential land, representing approximately 3,669 lots, and approximately 961 acres of unsold land for commercial use, of which 36 acres are categorized as institutional land. Assuming land sales alone and no vertical development, we anticipate that we will run out of residential lots for sale in 2017 and commercial land in 2022.

The following paragraphs outline the value proposition for the acquisition of The Woodlands. This is important for two reasons. First, it outlines to you the future potential profitability of the asset.

HOWARD HUGHES DURING A TICKER TAPE PARADE UP BROADWAY, NEW YORK, NY, 1938

Second, it allows you a glimpse into the way we view our investments and the reasons for this acquisition and potentially others. The value proposition is a sum of the part's value but does not take into account the following: (i) future vertical development opportunities, (ii) existing and future joint venture agreements, (iii) a change in density of uses and (iv) the time value of money.

Based on an average 2011 residential lot price of \$88,987 and an average uninflated cost to deliver of \$23,848 per lot, we anticipate \$65,139 in average net cash per lot on the remaining 3,669 lots, for total proceeds from residential lot sales alone of \$239.0 million. With respect to the commercial land, we have three classes: 69 acres in The Woodlands Town Center, 856 acres outside of the Town Center and 36 acres of institutional land. Obviously, there is a wide divergence in land values given their proximity to The Town Center, which is the most valuable land. Without giving away too much competitive information, suffice it to say that average land prices for the remaining commercial land approximates \$13.66 per square foot or \$572 million. Based on the above land pricing, the total gross proceeds to be derived from the sale of the remaining residential and commercial land in The Woodlands is expected to be approximately \$811 million in the aggregate.

Our income-producing operating properties, including our newest office building 3 Waterway have a current NOI of approximately \$16.3 million and a stabilized NOI estimated to be \$29.2 million. Valuing the operating properties using stabilized NOI and a cap rate of 7% yields a value net of completion costs of \$365 million, which brings the combined gross asset value of the acquired land and operating properties to approximately \$1.176 billion.

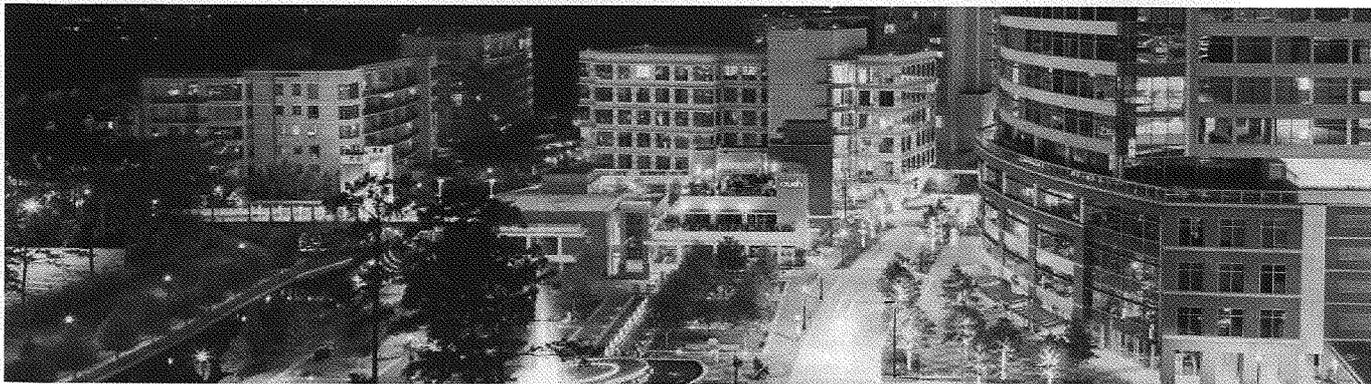

As mentioned above, an example of the additional value potential not included in the analysis is value created through vertical development. While this is harder to price than land sales, The Woodlands has an established history of developing commercial assets in its Town Center. As of the fourth quarter of 2011, the vacancy rates for Class A office and multifamily were at less than five percent.

We will break ground on 3 Waterway Square, a 232,774 square foot office building in The Woodlands Town Center in March 2012. The total project cost will be approximately \$50 million (exclusive of the land cost and existing parking garage). It is currently 67% pre-leased, with another 15% of the space in active discussions. It will take approximately 15 months to deliver, and is anticipated to have a stabilized NOI of approximately \$6.0 million. At a 7% cap rate, the value of this building is worth approximately \$85.7 million, creating \$35.7 million of value for the company. 3 Waterway is a great example of how a change in density can increase value. Originally designed as a nine story office building, we quickly realized that demand was outpacing supply. We subsequently increased the size of the building by two floors representing 45,000 square feet. At stabilization, this will create an additional \$7 million in value net of completion costs. If we extrapolate this across the entire commercial land available for sale, you can quickly see how a change in density can magnify the outcome.

In the coming 18 months we plan to break ground on 800 multi-family units. Following that, we have plans for nearly 2.1 million square feet of Class A office space, another 150 multi-family units, 900 condominium units, 328,000 square feet of retail space and 300 hotel rooms.

It is important to recognize that this total does not account for the time value of money. This is dependent on determining an appropriate discount rate, which is directly correlated with risk. The greatest risk for any MPC is at inception where hundreds of millions of dollars are expended prior to collecting any revenue. When looking at an MPC from inception, a 15% to 20% discount rate range would be appropriate; however, once initial infrastructure is invested and a track record of performance has been established, as is the case with The Woodlands, a much lower discount rate is justified. In addition, as we sell land, it stands to reason that in a growing vibrant community, the remaining land will continue to appreciate in value. As we continue to build in the legacy communities of Summerlin, Bridgeland and The Woodlands, it is clear that our remaining land holdings will increase in value. This is a cyclical business and we know we cannot count on linear growth. However, we are confident that staying the course will deliver meaningful value both in current operating income and in the residual value of our assets.

I hope by this point I have communicated the magnitude of this acquisition, but I'm not done yet! In studying this investment it was clear that we would also be acquiring an established team of professionals who were underutilized in the former ownership structure. Co-Presidents Alex Sutton and Tim Welbes have 18 and 27 years respectively at The Woodlands, and we have already begun to see the impact that their experience and vision will have on the balance of our portfolio. As mentioned above, we believe the association of The Woodlands brand with Bridgeland and the ability to tap into The Woodlands team for strategic planning will create additional upside at Bridgeland. Finally, the construction of a new 385-acre ExxonMobil campus immediately south of The Woodlands Town Center is anticipated to hold a total of approximately 8,000 employees by the end of 2015, and an undetermined number of additional employees at full build-out, which will only further supplement strong demand for office, retail and residential product in The Woodlands and Bridgeland.

WATERWAY SQUARE, THE WOODLANDS, HOUSTON, TX

OPERATING ASSETS

The requirement to maintain flexibility for future redevelopment of our major assets like Ward Centers, South Street Seaport and Landmark Mall constrains our ability to execute long-term leases and is causing these properties to perform below their potential. In the face of these constraints, we still managed to deliver \$51.1 million of NOI in 2011 from our operating assets. This was accomplished with hard work from our asset management, leasing and operations teams who preserved income by aggressively managing costs and increasing specialty income revenues.

We took advantage of capital market opportunities to extend existing debt, lower borrowing costs and fund additional development by completing approximately \$377 million of financings in 2011. This included a \$250 million financing for Ward Centers that will save the company approximately \$3.6 million in annual interest charges, create flexibility for phased development of the master plan and fund up to \$38 million of future development expenditures. We also closed a \$29 million refinancing of our mortgage debt on 110 N. Wacker, which matched our new debt maturity with the lease expiration date. At The Woodlands we completed a \$55 million financing for 4 Waterway and 9303 New Trails office buildings and in January 2012 closed a \$43.3 million construction financing of 3 Waterway Square, the 232,774 square foot office building mentioned earlier.

As a company it is our philosophy to be disciplined about the way we use leverage. From the outset, both Grant and I knew that managing this company would require low leverage, and it is with this in mind that we structure the various components of debt at the company. We believe that each development must stand on its own. We have therefore to date ensured that the leverage we have be in silos and that to the extent possible, we maintain its non-recourse nature.

STRATEGIC DEVELOPMENTS

Senior management has spent the last year assessing the feasibility of each strategic development and prioritizing those opportunities with the greatest potential. We entered into joint venture partnerships with strong local developers at Ala Moana Tower, Bridges at Mint Hill and, as discussed above, Parcel D at Columbia Town Center.

In Honolulu, we partnered with local developers The MacNaughton Group and Kobayashi Group to pursue the development of Ala Moana Tower, a luxury condo tower above the Nordstrom parking garage at Ala Moana Center. In recent years, MacNaughton and Kobayashi teamed up to develop Hokua, a luxury condo tower directly adjacent to Victoria Ward. Completed in 2006, Hokua is widely recognized as the best high-rise condo address in Honolulu with units currently reselling for \$1,200 - \$1,300 per square foot. With their strong knowledge of the Hawaii market and experience developing first-class condominium towers, MacNaughton and Kobayashi are ideal partners to work with to maximize the value of this development opportunity.

In Charlotte, we teamed with local developer Childress Klein Properties to pursue development opportunities for The Bridges at Mint Hill. This 210-acre parcel is currently zoned for approximately 1.3 million square feet of retail, hotel and commercial development, and is positioned in the

COLUMBIA PARCEL D, COLUMBIA, MD

underserved southeast corner of the Charlotte metropolitan area. Partnering with Childress Klein enables us to build from their knowledge in the local market, joins two properties that each company separately owned, aligns our interests and positions the project to be the most attractive retail development site in the Charlotte area. Childress Klein Properties is one of the largest real estate development, investment and management companies in the Southeastern U.S. with owned real estate assets in excess of \$1 billion.

During 2011, we leveraged the resources of the company by entering into these joint ventures. We expect that we will continue to use these arrangements where appropriate. Before making this decision, each development is viewed by assessing our available resources, the regulatory environment in that market, the leverage required to move forward and our experience with that product type. Joint venture structures provide the following advantages. First, the partners we choose will be able to navigate the local markets with expediency. Second, we mitigate our risk and preserve cash by essentially selling our land at the fair market value and contributing it to the venture. Third, the debt that is taken on by the joint venture insulates the balance sheet of the company. By doing all of this, we reduce risk, accelerate the business plan and still maintain upside potential. Granted, we no longer have all of the pie. However, in such cases we believe the gain on the upside is not worth the risk for continuing to go it alone.

While classified as operating properties, Ward Centers and the South Street Seaport represent substantial redevelopment opportunities that are at the top of our priority list. At Ward Centers, we continue to make progress with our master plan strategy. The opportunity for residential and retail development at Ward is the most exciting development opportunity in the state of Hawaii. However, developing over 9 million square feet of potential mixed-use development requires thoughtful planning to maximize the long-term value of this asset while preserving in-place income that supports the company today. We expect to make substantial progress in 2012 as details of our phasing strategy crystallize and we begin implementing our plan to commence the redevelopment.

At South Street Seaport, in lower Manhattan, we reached a critical milestone in December 2011 when we executed a non-binding Letter of Intent with the New York City Economic Development Corporation that will enable us to pursue redevelopment plans. The letter of intent describes the terms of future amendments to the lease, which must be finalized by June 30, 2012. We believe the redevelopment of Pier 17 holds significant potential to create a dynamic destination in lower Manhattan for both local residents and tourists that will reshape the identity of the area and significantly enhance the value of this currently underutilized property.

THE FUTURE OF HOWARD HUGHES

In assessing the potential of each property, it is clear that a majority of the company's value lies in a handful of assets. Accordingly, our team is sharply focused on maximizing the potential value of these key assets while monitoring opportunities to selectively monetize those less impactful assets at appropriate timing and pricing.

We recognize that we will never be able to fully predict what might go wrong or when another recession might strike. We also recognize that down markets don't last forever. Our asset base is

THE SEAPORT, NEW YORK, NY

geographically diverse, but concentrated in some of the nation's most desirable markets. We also own a broad range of property types and an unmatched pipeline with over 20 million square feet of vertical development opportunities not including the millions of square feet of potential vertical opportunities in our MPC's. This diversity of location and asset class affords us valuable flexibility to focus on those market and product specific opportunities that make sense at any given time in an economic cycle.

As opportunities materialize, we expect capital requirements to be substantial. Where appropriate, we will seek joint venture capital or operating partners. In my experience there is no shortage of capital for a great opportunity, and our portfolio is full of unique real estate opportunities in the best markets in the country.

In the year ahead, you can expect us to balance the need for thoughtful planning with a sense of urgency to move projects forward as fast as possible. We are driven and inspired by our belief in a common purpose to create timeless places and memorable experiences. Delivering superior results in this regard will maximize long-term value for our shareholders.

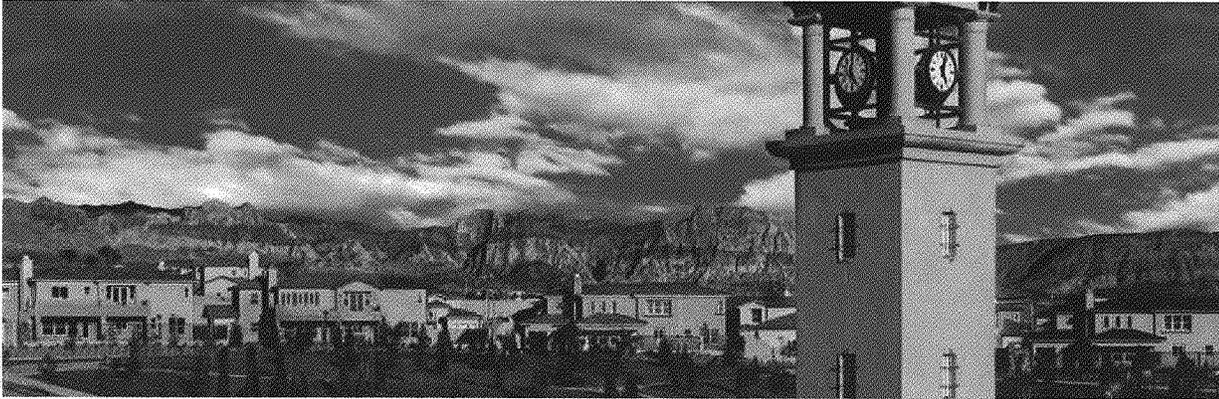

The Howard Hughes name is synonymous with the relentless pursuit of achievement. We are inspired by that legacy and are systematically and strategically positioning our portfolio. While we are at the start of a long journey together, we look forward to continuing to earn your trust as we confront the many challenges ahead. I stated this in last year's shareholder letter, and I believe that it is still an authentic description of the character of our growing organization. With exceptional people, irreplaceable assets, and a collective commitment to excellence, The Howard Hughes Corporation is well positioned for success.

DAVID R. WEINREB
CHIEF EXECUTIVE OFFICER

HOWARD HUGHES | PROPERTY COLLECTION

MASTER PLANNED COMMUNITIES

Summerlin Las Vegas, NV

Total Acres	22,500
Remaining Acres	6,771
Current Population	100,000
Anticipated Completion Date	2039

Summerlin is a 22,500-acre master-planned community located approximately eight miles west of downtown Las Vegas. The community is home to nine golf courses, 26 public and private schools, numerous houses of worship, 150 parks, over 150 miles of trails, business centers, shopping centers and medical facilities.

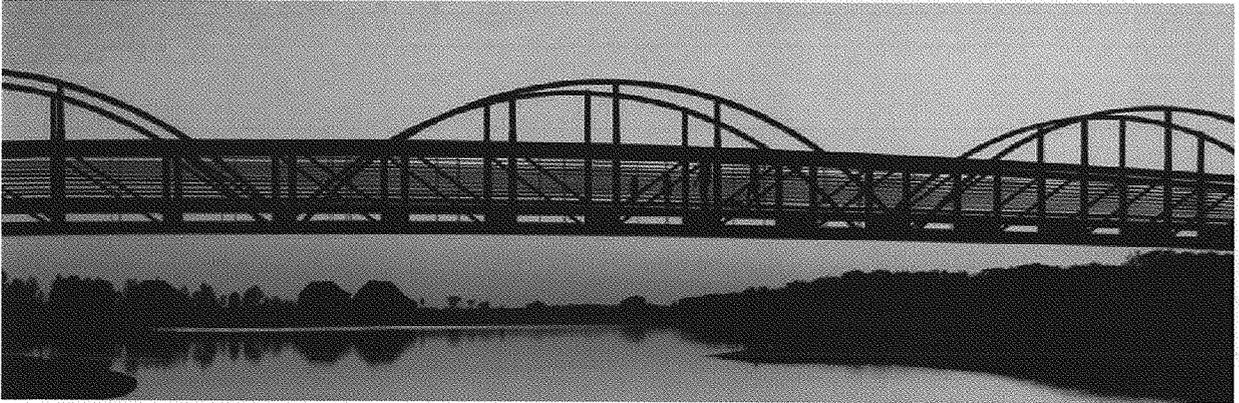

Planned for 80,000+ homes and 200,000+ residents, Summerlin is currently home to 100,000 residents living in 40,000 homes, ranging from apartments to multi-million dollar custom homes. With nearly 7,000 remaining saleable acres, Summerlin is projected to have a 30-year remaining build-out.

Summerlin has received numerous awards throughout its two-decade history. The community consistently ranks as one of the country's top 10 best-selling master planned communities.

- Summerlin is adjacent to Red Rock Canyon National Conservation Area, the most treasured natural landmark in southern Nevada and world-renowned as a hiking and rock-climbing destination.
- Summerlin is a multi-generational and fully integrated community. Since its inception in the early 1990s, Summerlin has consistently ranked in the Robert Charles Lesser annual poll of Top Ten Master Planned Communities.
- Both an early prototype as well as a template for future master planned communities, Summerlin is on the western rim of the Las Vegas Valley offering the best of two worlds: suburban living with all the amenities that create a superior quality of life; and accessibility to world-class dining, shopping and dazzling entertainment on the Las Vegas Strip.

70 Forward

80,000 ACRES
300,000+ RESIDENTS
14,000+ UNDEVELOPED ACRES

Bridgeland is an 11,400-acre master-planned community located approximately 27 miles west of downtown Houston. The master plan includes four residential villages, a 900-acre town center and over 3,000 acres dedicated to lakes, trails, parks and open spaces.

Planned for 20,000+ homes and 65,000+ residents, Bridgeland is currently home to 5,000 residents living in 1,500 homes, ranging in price from \$180,000 to \$750,000. With more than 5,000 acres remaining, Bridgeland is projected to have a 25-year build-out.

Bridgeland has received numerous accolades throughout its short history including, most recently, The National Association of Home Builder's 2009 "Master Planned Community of the Year" award. Bridgeland ranks #4 in total annual homes started among Houston MPCs and 13th in the country.

- The Grand Parkway, a four-lane road linking Bridgeland to I-10 and US 290 began construction last year and is scheduled for completion in 2014.
- Multiple recreation facilities will be located throughout the community including swimming pools, community centers, ball fields, tennis courts and 60 miles of trails for pedestrian and bicycle connectivity.
- Bridgeland has made a commitment to providing lifelong learning facilities and is one of only a few communities in the nation to develop a comprehensive education plan for its residents.

MASTER PLANNED COMMUNITIES

Maryland Columbia, MD

The Maryland Master Planned Communities (MPC) are comprised of 16,450 acres southwest of the Washington-Baltimore Area. The land holdings include four projects: Emerson, Gateway, Columbia Town Center and Fairwood.

Total Acres	16,450
Remaining Acres	202
Current Population	104,700
Anticipated Completion Date	2035

Much of the future value and densities are concentrated in Columbia Town Center, where income for one in five households exceeds \$150,000, more than triple the national average. The Columbia Town Center Master Plan allows for up to 13 million square feet of mixed-use development, including up to 5,500 residential units, one million square feet of retail, five million square feet of commercial office space, and 640 hotel rooms.

- Columbia is located within Howard County, which in 2011 was ranked as the nation's fifth richest county by Forbes Magazine.
- Howard County has been one of Maryland's fastest growing regions, increasing in population by 34% in the last decade; currently at 293,000 residents.
- Fort Meade/NSA located within 10 miles of Columbia Town Center now has nearly 62,000 base-related jobs, which represents an increase of 16,000 jobs since 2007 driven primarily by BRAC and the location of the U.S. Cyber Command on Fort Meade, with another 22,000 jobs projected in the near term.

Howard

80,000 ACRES
300,000+ RESIDENTS
14,000+ UNDEVELOPED ACRES

Located north of Houston, The Woodlands comprises over 28,000 acres, 97,000 residents, and 1,700 employers. The Woodlands is one of the most successful large-scale master planned communities in the U.S. Currently, The Woodlands is the 2nd ranked MPC by home starts in the nation and 1st in Houston.

As of December 31, 2011, The Woodlands had approximately 1,164 acres of unsold residential land, representing approximately 3,669 lots, and approximately 961 acres of unsold land designated for commercial use.

The Woodlands also has full or partial ownership interests in commercial properties which total approximately 434,328 square feet of office space, 203,282 square feet of retail and service space, and 865 rental apartment units. In addition, The Woodlands owns and operates a 440-room resort and conference center, and two golf courses with full clubhouse amenities.

- Scattered throughout The Woodlands are many sparkling lakes and ponds. Lake Woodlands is the largest at 200 acres, and is a favorite of sculling enthusiasts and kayakers.
- The Woodlands was one of the nation's first sustainable communities, with a current total of over 6,000 acres of green space protected in 121 parks, seven golf courses, and plentiful greenbelts and forest preserves.
- The Woodlands Town Center, home of The Woodlands Waterway®, is a downtown in the forest with major shopping, upscale urban residences, entertainment and a thriving 24/7 business environment.

OPERATING PROPERTIES

Ward Centers

Honolulu, HI

Ward Centers is a collection of retail, industrial and office assets of varying age, size and quality on 60 acres of fee simple land located between downtown Honolulu and Waikiki. Anchors include Nordstrom Rack, Consolidated Theaters, Sports Authority and Ross. In June 2011, a 714-stall parking structure was completed along with a retail shell at Ward Village Shops with a new TJ Maxx. On September 29, 2011, the property was refinanced. The loan provides \$38 million of additional capital for the initial development of Victoria Ward. In January 2009, the Hawaii Community Development Authority approved a 15-year master plan, which includes a mixed-use development encompassing up to 9.3 million square feet with flexibility to develop a maximum of 7.6 million square feet of residential, five million square feet of retail and four million square feet of office, commercial and other uses.

The Seaport

New York, NY

The Seaport is comprised of three historic buildings and one pavilion shopping building on the East River in Lower Manhattan. The vision is to revitalize Pier 17 balancing the pier's iconic waterfront location with its unique ability to provide a much needed community anchor for the rapidly growing residential population in Lower Manhattan. The ultimate objective is to create an unparalleled New York experience that is compelling to residents, local workers and visitors. The development plan features the complete transformation of Pier 17, including enhanced and increased open space on the pier as well as the building's roof, and retail space filled with destination stores, restaurants and neighborhood shops. The design is contemporary yet draws from the site's history as a bustling marketplace and renowned maritime port.

The Columbia Office Properties portfolio is comprised of five office buildings, two parking decks, and a music venue in the heart of downtown Columbia, MD. The office portfolio includes The Columbia Association Building, The Columbia Exhibit Building, The Ridgley Building, The Columbia Regional Office Building, and The American City Building (Master Leasehold). The portfolio has a vacancy of approximately 11% and represents a range of office product, most of which have exceeded their useful lives. The previously mentioned music venue, Merriweather Post Pavilion, is located at the center of the Downtown Columbia redevelopment and is to be renovated as a part of the overall rezoning plan.

Cottonwood Square is a 77,000 square foot grocery-anchored shopping center located within the Salt Lake City MSA. The 41,612 square foot anchor is subleased via Super Valu/Albertsons. The in-line space is 52.5% occupied. The property sits on a ground lease, which has been extended for an additional five years, through January 2017. Eight additional ground lease options remain for a total of 40 years.

OPERATING PROPERTIES

Rio West Gallup, NM

Rio West Mall is a two anchor, 330,000 square foot enclosed mall located in Gallup, NM. Anchors include JCPenney and Bealls. In-line tenancy totals 151,944 square feet and is 79% occupied with national, regional and local tenants catering to middle-income consumers. Rio West also includes approximately 170,000 square feet of outparcels and is subject to a ground lease, which expires in 2079. Gallup, NM is located approximately two hours west of Albuquerque and two hours east of Flagstaff, AZ. Rio West is the only mall in the trade area, which is surrounded by several Native American reservations with a population of over 190,000 people.

Riverwalk New Orleans, LA

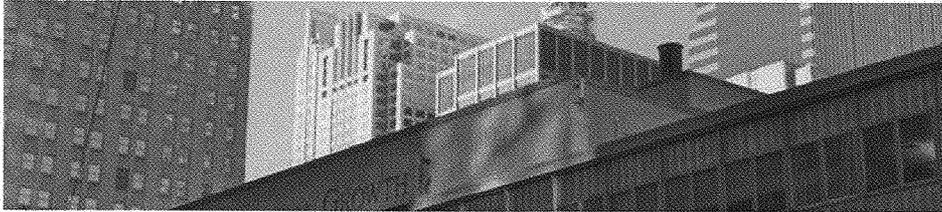

Riverwalk Marketplace is a three-level tourist-driven enclosed mall with a tenant base comprised largely of local businesses selling New Orleans themed products to tourists and conventioners. Opened in 1986, the property is well located, directly adjacent to the 1,600-room Hilton Riverside Hotel, New Orleans Convention Center, and the newly expanded Julia Street Cruise Terminal. New Orleans hosted 8.75 million visitors spending \$5.5 billion during 2011. Tourist activity is now approaching pre-Katrina levels. Riverwalk captures the nearby cruise ship city visitors, projected to be one million passengers in 2012, providing a captive market for retailers.

Landmark Mall is located at the intersection of Interstate 395 and Duke Street, just across the Potomac River from Washington, D.C. The Property is anchored by Sears and Macy's. In February 2009, the Alexandria City Council approved the Landmark/Van Dorn Corridor Small Area Plan, allowing for up to 5.5 million square feet of new mixed-use density to be located on the site. Landmark Mall is well situated on I-395, between The Pentagon and Fort Belvoir, immediately across from Mark Center, a newly developed 2 million SF office complex occupied by Washington Headquarters Service (a component of DOD reorganization).

Landmark Mall
Alexandria, VA

Located in downtown Chicago, 110 N. Wacker has served as GGP's headquarters since the mid-1990's. HHC owns 99% of the building and a leasehold interest in the land with a joint venture partner. The ground lease has a fixed rent per year for the entire 99-year term and expires on March 31, 2055.

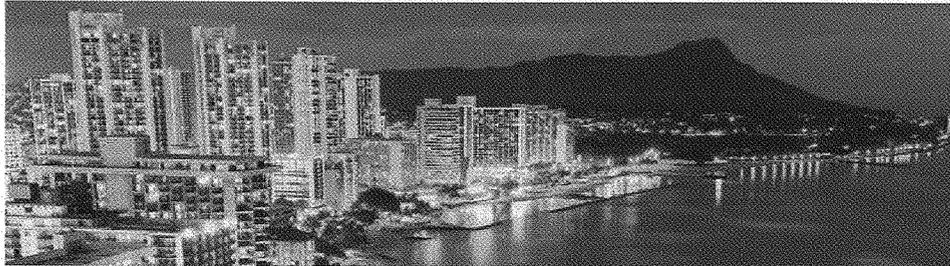

110 N. Wacker
Chicago, IL

Park West is a 250,000 square foot open-air lifestyle center located at Loop 101 and Northern Ave. in the Phoenix suburb of Peoria, AZ. Anchored by a 64,129 square foot Harkins Theater, Park West includes 162,250 square feet of in-line shopping (47% occupied) and 22,789 square feet of outparcel restaurants (100% occupied). Park West is located in a strong middle-income trade area approximately one mile northwest of the Arizona Cardinals football stadium and the Phoenix Coyote's hockey arena.

Peoria, AZ

STRATEGIC DEVELOPMENTS

Ala Moana Tower Condo Project Honolulu, HI

HHC owns the air rights above the Nordstrom parking structure at GGP's Ala Moana Center. The structure was engineered to accommodate a residential tower above it and includes 469 dedicated parking stalls to serve the proposed tower. On May 20, 2011, HHC executed a letter of intent with local developers, The MacNaughton Group and Kobayashi Group, to jointly develop the residential tower. The parties executed joint venture documents on October 11, 2011. Recently, the JV selected an architecture firm with substantial high-rise residential experience to redesign the tower.

Cottonwood Mall Salt Lake City, UT

The original mall was built in 1962 and largely demolished in early 2008 with a 200,000 square foot Macy's remaining. The proposed mixed-use development includes 617,000 square feet of retail, 226,000 square feet of office and 614 residential units. The property lies within an approved redevelopment area and the tax increment financing that was previously approved has been extended. Leasing efforts are underway to procure anchor tenants in order to determine feasibility of moving forward with redevelopment of the site.

Forward

21,000,000+ SF OF FUTURE DEVELOPMENT
AN UNPARALLELED DEVELOPMENT PIPELINE

The Shops at Summerlin is located at the intersection of Interstate 215 and W. Sahara Avenue, 9 miles west of the Las Vegas Strip. Original plans called for a 1.5 million square foot shopping center anchored by Nordstrom, Dillard's and Macy's. A grading permit was issued in April 2008 and construction stopped in late October 2008. HHC spent 2011 focusing on strategic planning initiatives with the objective of maximizing the long-term value of both The Shops at Summerlin and remaining residential land totaling 7,000 acres at the Summerlin MPC. This included analyzing the long-term market demand for residential and commercial development within the MPC, a focused retail market demand study and a review of master planning options for The Shops at Summerlin. The retail market demand study for the shopping center concluded that the local population is currently being under served. As a result, over \$1.5 billion of retail sales are currently "leaking" out of Summerlin. Additionally, the study estimated that building the regional shopping center would add between a 5-10% premium to the remaining single-family lots to be sold within the MPC.

**The Shops at
Summerlin**
Las Vegas, NV

Elk Grove Promenade is located 17 miles southeast of downtown Sacramento. The 1.1 million square foot, partially constructed lifestyle center has been dormant since construction halted in 2008. The mall was to be anchored by a cinema and three department stores; Macy's, JC Penney's and Target. Elk Grove was once one of the U.S.'s fastest growing cities, but its growth stalled during the recession with the collapse of the housing market. In May 2011, the City of Elk Grove and Sacramento County accepted the Major Roads Improvement project. The project included the completion of major roadways, a sewer lift station and miles of utility lines. Other key milestones completed in 2011 include the extension of building permits and the Development Agreement.

Sacramento, CA

STRATEGIC DEVELOPMENTS

Bridges at Mint Hill Charlotte, NC

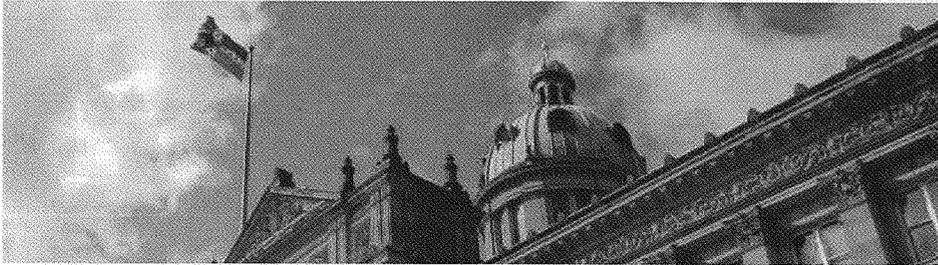

The Bridges at Mint Hill is located at the intersection of Interstate 485 and Lawyers Rd., which is prime placement in the underserved southeast corner of the thriving Charlotte metropolitan area. The parcel is approximately 210 acres and is currently zoned for approximately 1,300,000 square feet of retail, hotel and commercial development. Construction at the Bridges at Mint Hill began in 2008, but was delayed due to changing market conditions. In September 2011, HHC announced it was partnering with Childress Klein to pursue development opportunities for the Bridges at Mint Hill and to realize the potential of the development.

Fashion Show Air Rights Las Vegas, NV

HHC owns the air rights above The Fashion Show Mall in Las Vegas. The Fashion Show Mall is located at the heart of The Strip across the street from The Wynn Las Vegas and the Encore. Anchored by Nordstrom, Neiman Marcus, Saks Fifth Avenue, Macy's, Bloomingdale's Home and Dillard's, the Fashion Show Mall features nearly 1.9 million square feet. Conceptual plans exist for a Fashion Show Resort Casino, which include a 2,650-room hotel with over 300,000 square feet of convention/banquet space and a second boutique hotel with 700 luxury suites. The project also includes the construction of over 5,000 parking spaces to support the new project and the mall.

AN UNPARALLELED DEVELOPMENT PIPELINE

Century Plaza is located on the eastern side of Birmingham, AL, on U.S. Route 78 near Interstate 20, across from the Eastwood Village (formerly Eastwood Mall). Situated on 62.73 acres, the mall opened in 1975 and over the years was anchored by Sears, Rich's/Macy's, Belk, and JCPenney. In May 2009, the mall was closed. The only active uses on the site are a 16,000 square foot Aldi grocery store that is operating on an outparcel and a BMW motorcycle sales and service center that Sears is subleasing in their former auto care building. Although a regional mall is no longer the highest and best use, the site enjoys a convenient location adjacent to Interstate 20. The redevelopment of neighboring Eastwood Mall into a Wal-Mart anchored center indicates that Century Plaza may still be a viable retail location for big box retailers.

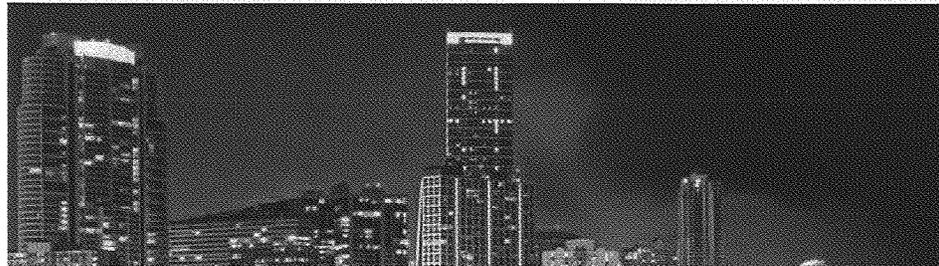

Century Plaza
Birmingham, AL

West Windsor is a former Wyeth Agricultural Research & Development Campus on Quakerbridge Road and U.S. Route One near Princeton, New Jersey. The land is comprised of two large parcels on Quakerbridge Road that are bisected by Clarksville Meadows Road and a third smaller parcel. The approximate 352 acres north of Clarksville holds the former Wyeth Campus and the 300 acres south of Clarksville is largely vacant land. The third parcel (approximately six acres) is separated from the balance of the land by an adjacent rail line. Across Quakerbridge Road is the Quaker Bridge Mall, a two-level, 1.1 million square foot regional shopping center. The mall is anchored by JCP, Macy's, Lord & Taylor, and Sears. The property opened in 1975 and has over 120 stores.

Princeton, NJ

STRATEGIC DEVELOPMENTS

Kendall Town Center Kendall, FL

Kendall Town Center is part of a 158 acre site located approximately 18 miles southwest of downtown Miami. A portion of the land was sold to Baptist Hospital for the development of a 282,000 square foot hospital and 62,600 square foot medical office building, which opened in April 2011. Other parcels were sold and are expected to include the development of a 120 room hotel with ancillary office and retail and a senior housing component. The remaining 70-acre parcel is entitled for 621,300 square feet of retail, 60,000 square feet of office and 50,000 square feet of community center. All current infrastructure requirements, including a pump station, transit center and private drive have been funded and are nearly complete.

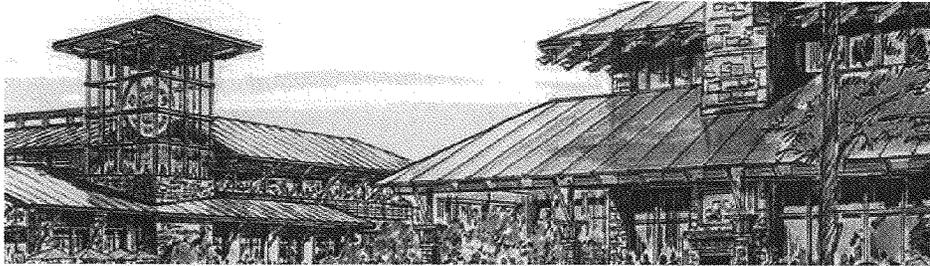

Redlands Mall and Promenade Redlands, CA

Redlands Promenade is a development site located in the Inland Empire at the intersection of Eureka Street and Interstate 10, less than a mile from the Redlands Mall. The Redlands Promenade is entitled as a two phased, 160,000 square foot development. Construction drawings have been submitted to the city.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact included in this Annual Report on Form 10-K are forward-looking statements. Forward-looking statements give our current expectations relating to our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to current or historical facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “forecast,” “plan,” “intend,” “believe,” “may,” “should,” “would,” “likely” and other words of similar expression. Forward-looking statements should not be relied upon. They give our expectations about the future and are not guarantees. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance and achievements to materially differ from any future results, performance and achievements expressed or implied by such forward-looking statements. These forward-looking statements present our estimates and assumptions only as of the date of this Annual Report on Form 10-K. Except as may be required by law, we undertake no obligation to modify or revise any forward-looking statements to reflect events or circumstances occurring after the date of this report.

Factors that could cause actual results to differ materially from those expressed or implied by forward-looking statements include:

- our history of losses;
- our inability to obtain operating and development capital;
- a prolonged recession in the national economy and adverse economic conditions in the retail sector;
- our inability to compete effectively;
- our directors may be involved or have interests in other businesses, including real estate activities and investments;
- our inability to control certain of our properties due to the joint ownership of such property and our inability to successfully attract desirable strategic partners;
- potential conflicts with GGP (as defined below) arising from agreements with GGP with respect to certain of our assets;
- risks associated with our spin-off from GGP not qualifying as a tax-free distribution for U.S. federal income tax purposes;
- substantial stockholders having influence over us, whose interests may be adverse to ours or other stockholders; and
- the other risks described in Item 1A. “Risk Factors.”

PART I

Throughout this Annual Report on Form 10-K, references to the “Company,” “we” and “our” refer to The Howard Hughes Corporation and its consolidated subsidiaries, unless the context requires otherwise.

ITEM 1. BUSINESS

OVERVIEW

The Howard Hughes Corporation’s mission is to be the preeminent developer and operator of master planned communities and mixed use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities and ownership, management and the redevelopment or repositioning of real estate assets currently generating revenues, also called operating assets as well as other strategic real estate opportunities in the form of entitled and unentitled land and other development rights, also called strategic developments. We are headquartered in Dallas, Texas and our assets are located across the United States.

Unlike most real estate companies which are limited in their activities because they have elected to be taxed as a real estate investment trust, we have no restrictions on our operating activities or types of services that we can offer. We believe our structure provides the greatest flexibility for maximizing the value of our real estate portfolio. As of December 31, 2011, our consolidated debt equaled approximately 17.9% of our total assets and we had \$227.6 million of cash on hand.

Our master planned communities have won numerous awards for, among other things, design and community contribution. We expect the competitive position and desirable locations of our assets (which collectively comprise millions of square feet and thousands of acres of developable land), combined with their operations and long-term opportunity through entitlements, land and home site sales and project developments will drive our long-term growth.

We are pursuing development opportunities for a number of our assets that were previously postponed due to lack of liquidity resulting from deteriorating economic conditions, the credit market collapse and the bankruptcy filing of our predecessors, we are also developing plans for other assets for which plans had not yet been developed.

We currently operate our business in three segments: Master Planned Communities, Operating Assets and Strategic Developments. Financial information about each of our segments is presented in Note 15 to our audited financial statements included elsewhere in this Annual Report on Form 10-K.

We were incorporated in Delaware in 2010 to receive certain assets and liabilities of GGP, Inc., formerly known as General Growth Properties, Inc. (“GGP” and collectively with its subsidiaries, our “predecessors”) in connection with our predecessors’ emergence from bankruptcy. We completed our spin-off from GGP on November 9, 2010.

Overview of Business Segments

Master Planned Communities. Our Master Planned Communities segment primarily consists of the development and sale of residential and commercial land, primarily in large-scale projects. After acquiring our partner’s 47.5% economic interest in The Woodlands Operating Company, L.P. and subsidiaries, TWPC Holdings, LP and subsidiaries and TWLDC Holdings, L.P. and subsidiaries (collectively “The Woodlands”) on July 1, 2011, we now wholly own our four master planned communities (The Woodlands, Summerlin, Bridgeland and Maryland). Our master planned community in Maryland includes four separate communities that are collectively referred to as the “Maryland Communities.”

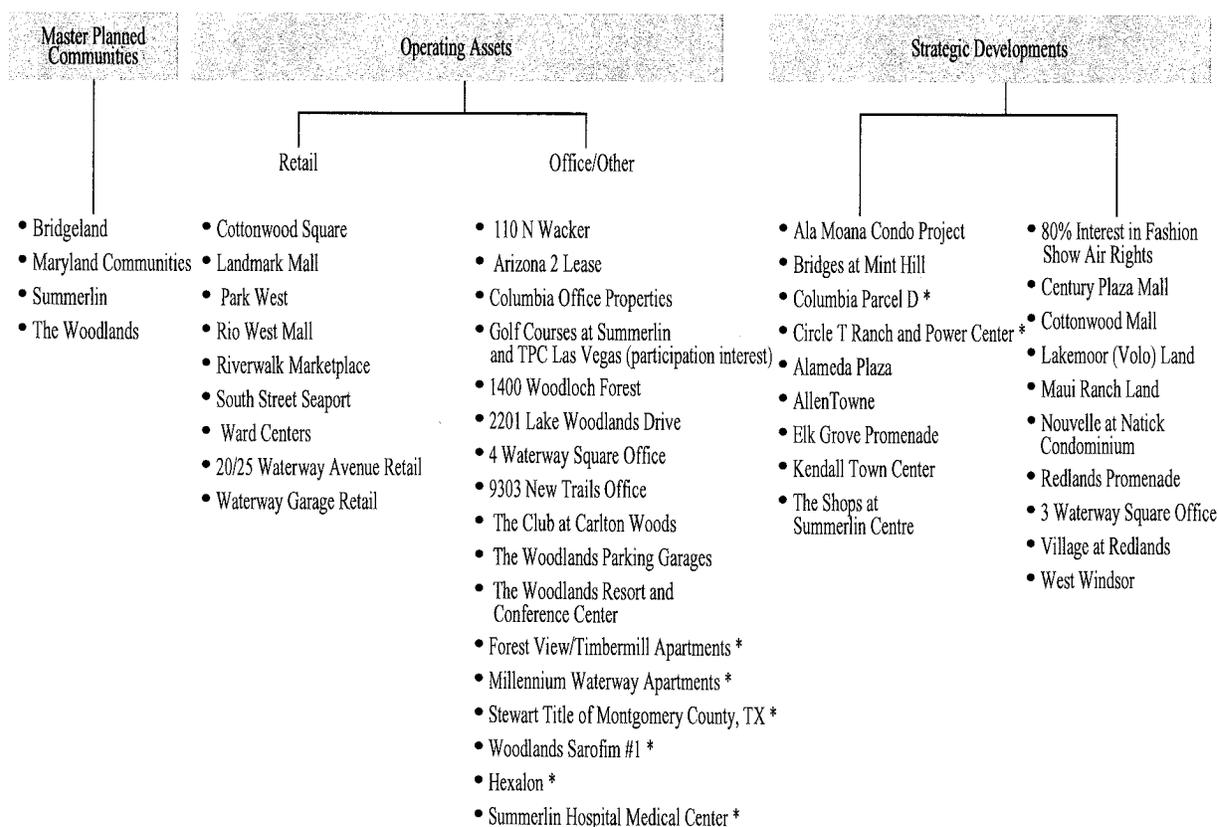

Our Master Planned Communities include over 14,000 acres of land remaining to be sold. Residential sales, which are made primarily to home builders, include standard and custom parcels as well as high density (*e.g.*, condominium, town homes and apartments) parcels designated for detached and attached single- and multi-

family homes, ranging from entry-level to luxury homes. Commercial sales include land parcels designated for retail, office, resort, services and other for-profit activities, as well as those parcels designated for use by government, schools and other not-for-profit entities.

Operating Assets. Our Operating Assets segment contains 26 properties and investments, consisting primarily of commercial mixed-use, retail and office properties that currently are generating revenue. The assets include nine mixed use and retail properties, six office properties (one of which includes several individual buildings), a resort and conference center, a 36-hole golf and country club, six equity investments and three other operating assets. We believe that there are opportunities to redevelop or reposition many of these assets, primarily the retail properties, to increase operating performance. These opportunities will require new capital investment and vary in complexity and scale. The redevelopment opportunities range from minimal disruption to the property to the partial or full demolition of existing structures for new construction. Beginning with the consolidation of The Woodlands in 2011, this segment also includes the commercial properties located at The Woodlands, which consist primarily of newly-constructed or stabilized office, retail and golf properties, and a resort and conference center.

Strategic Developments. Our Strategic Developments segment is made up of near, medium and long-term development projects for 19 of our real estate properties. We believe most of these 19 assets will require substantial future development to achieve their highest and best use. We are in various stages of creating or executing strategic plans for many of these assets based on market conditions and availability of capital. In addition to the permitting and approval process attendant to almost all large-scale real estate developments of this nature, we will likely need to obtain financing to realize a development plan for one or more of these assets.

The chart below presents our assets by reportable segment.

* An equity or cost method investment

Master Planned Communities

Our Master Planned Communities segment consists of the development and sale of residential and commercial land, primarily in large-scale projects in and around Las Vegas, Nevada; Houston, Texas; and Columbia, Maryland. Summerlin and the Maryland Communities are additionally divided into regions or projects as described below in each of the separate community narratives. Revenues are derived primarily from the sale of finished lots and undeveloped pads to both residential and commercial developers. Additional revenues are earned through participations with builders in their sales of finished homes to homebuyers. Revenues and net income are affected by factors such as: (1) the availability to purchasers of construction and permanent mortgage financing at acceptable interest rates; (2) consumer and business confidence; (3) regional economic conditions in the areas surrounding the projects; (4) employment levels; (5) levels of homebuilder inventory; (6) other factors generally affecting the homebuilder business and sales of residential properties; (7) availability of saleable land for particular uses; and (8) our decisions to sell, develop or retain land.

Our Master Planned Communities are located in geographic markets which are experiencing different rates of recovery following the housing market decline that started in 2007. Our communities in Houston, Texas, have benefited from companies relocating to Houston and the expansion of energy sector companies. The Las Vegas, Nevada market is recovering more slowly and our Summerlin master planned community is experiencing more variability in sales pace and volume compared to our Houston communities. As a business venture, development of master planned communities requires expertise in large-scale, long-range land use planning, residential and commercial real estate development, sales and other special skills. The development of our large scale master planned communities requires decades of investment and a continual focus on the changing market dynamics surrounding these communities. We believe that the long-term value of our master planned communities remains strong because of their competitive and dominant positioning, our expertise and flexibility in land use planning and the fact that we have substantially completed the entitlement process within our communities.

The following table summarizes our master planned communities as of December 31, 2011:

Community	Location	Ownership (%)	Total Gross Acres(a)	People Living in Community (Approx. No.)	Remaining Saleable Acres(b)			Other Acres	Remaining Saleable Residential Lots(c)	Projected Community Sell-Out Date
					Residential (c)	Commercial (d)	Total			
Summerlin	Las Vegas, NV	100.0	22,500	100,000	5,880	891	6,771	—	38,684	2039
Bridgeland	Houston, TX	100.0	11,400	4,750	3,797	1,226	5,023	—	18,900	2036
Maryland										
Columbia	Howard County	100.0	14,200	100,000	—	—	—	35(e)	—	2018(g)
Gateway	Howard County	100.0	630	—	—	121	121	—	—	2017
Emerson	Howard County	100.0	520	2,200	2	68	70	—	28	2017
Fairwood	Prince George's County	100.0	1,100	2,500	—	11	11	24	—	2013
The Woodlands	Houston, TX	100.0(f)	28,400	101,000	1,164	961	2,125	—	3,669	2022
Total			<u>78,750</u>	<u>310,450</u>	<u>10,843</u>	<u>3,278</u>	<u>14,121</u>	<u>59</u>	<u>61,281</u>	

(a) Encompasses all of the land located within the borders of the master planned community, including parcels already sold, saleable parcels and non-saleable areas, such as roads, parks and recreation and conservation areas.

(b) Includes only parcels that are intended for sale or joint venture. The mix of intended use, as well as the amount of remaining saleable acres, are primarily based on assumptions regarding entitlements and zoning of the remaining project and are likely to change over time as the master plan is refined. Remaining saleable acres are estimates.

(c) Includes standard, custom and high density residential land parcels. Standard residential lots are designed for detached and attached single- and multi-family homes, of a broad range, from entry-level to luxury homes. At Summerlin and The Woodlands, we have designated certain residential parcels as custom lots as their premium price reflects their larger size and other distinguishing features – such as being within a gated community, having golf course access, or being located at higher elevations. High density residential includes townhomes, apartments and condominiums. Reflected are the remaining residential acres and lots associated with those acres.

(d) Designated for retail, office, resort, services and other for-profit activities, as well as those parcels allocated for use by government, schools, houses of worship and other not-for-profit entities.

- (e) Reflects the number of net developable acres in raw land and subdivided land parcel available for new development, but which we currently intend to hold. During 2011, we contributed approximately 4.2 acres (Columbia Parcel D) to a joint venture to construct an apartment building on the site.
- (f) Prior to July 1, 2011 our economic ownership interest was 52.5%. On July 1, 2011, we acquired the remaining 47.5% of the economic ownership of The Woodlands from our partner.
- (g) We currently intend to develop this land surrounding the Columbia Town Center. The data represents our estimated redevelopment completion date.

Summerlin (Las Vegas, Nevada)

Spanning the western rim of the Las Vegas Valley and located approximately nine miles from downtown Las Vegas, our 22,500 acre Summerlin master planned community is comprised of planned and developed villages and offers suburban living with accessibility to the Las Vegas Strip. For much of its 20-year history, Summerlin has consistently ranked in the Robert Charles Lesser annual poll of Top Ten Master Planned Communities in the nation. With 26 public and private schools, five institutions of higher learning, nine golf courses, and cultural facilities, Summerlin is a fully integrated community. The first residents moved into their homes in 1991. As of December 31, 2011, there were approximately 40,000 homes occupied by approximately 100,000 residents.

Summerlin is comprised of hundreds of neighborhoods located in 19 developed villages with nearly 150 neighborhood and village parks, all connected by a 150-mile long trail system. Summerlin is located adjacent to Red Rock Canyon National Conservation Area, a landmark in southern Nevada, which has become a world-class hiking and rock climbing destination and is in close proximity to our Shops at Summerlin Centre development site. Red Rock Casino Resort & Spa, which is adjacent to our site, receives more than one million visitors annually. Summerlin contains approximately 1.7 million square feet of developed retail space, 3.2 million square feet of developed office space and three hotel properties containing approximately 1,400 hotel rooms, as well as health and medical centers, including Summerlin Hospital and the Nevada Cancer Institute.

Summerlin is divided into three separate regions or projects known as Summerlin North, Summerlin West and Summerlin South. Summerlin North is fully developed. In Summerlin South, we are entitled to develop 740 acres of commercial property with no square footage restrictions, 354 acres of which are owned by third parties or already committed to commercial development. We also have entitlements for an additional 19,000 units yet to be developed in Summerlin South. In Summerlin West, we are entitled to develop 5.85 million square feet of commercial space on up to 508 acres of which 100,000 square feet have already been developed through the construction of a grocery store anchored shopping center. We are also entitled to develop 30,000 residential units in Summerlin West, approximately 25,000 of which remain to be developed. Summerlin does not currently utilize all of its remaining entitlements for residential units. The total residential units reflected in the chart on page 4 represents Summerlin's best estimate of the units that will be developed on its remaining land, based on economic conditions now and expected in the future; however, market forces could change these assumptions. As of December 31, 2011, Summerlin had approximately 5,880 residential acres and 891 commercial acres remaining to be sold. Summerlin's population upon completion of the project is expected to be approximately 220,000 residents.

Bridgeland (Houston, Texas)

Bridgeland is a master planned community near Houston, Texas consisting of approximately 11,400 acres, and was voted by The National Association of Home Builders as the "Master Planned Community of the Year" in 2009. The first residents moved into their homes in June 2006. There were approximately 1,375 homes occupied by approximately 4,750 residents as of December 31, 2011. Bridgeland's conceptual plan includes four villages – Lakeland Village, Parkland Village, Prairieland Village and Creekland Village – plus a town center mixed-use district and a carefully designed network of trails totaling over 60 miles that will provide pedestrian connectivity to distinct residential villages and neighborhoods and recreational, educational, cultural, employment, retail, religious and other offerings. Bridgeland's first five neighborhoods are located in Lakeland Village. These neighborhoods offer a unique home buying experience that includes two convenient model home parks showcasing 18 models by ten of Houston's top builders. Bridgeland has many home sites that enjoy views of

water, buried power lines to maximize the views of open space and water, fiber-optic technology, brick-lined terrace walkways and brick, stone and timber architecture. The prices of the homes range from approximately \$170,000 to more than \$1.0 million. Lakeland Village is approximately 60% completed. The Lakeland Activity Center, the first of several planned activity complexes to be constructed as development progresses and more residents move to Bridgeland, opened in May 2007. The complex is anchored by a 6,000 square foot community center and features a water park with three swimming pools, two lighted tennis courts and a state-of-the-art fitness room. A grand promenade wrapping around Lake Bridgeland offers a boat dock, canoes, kayaks, sailboats and paddleboats. Bridgeland is expected to feature more than 3,000 acres of waterways, lakes, trails, parks and open spaces, as well as an expansive town center with room for employment, retail, educational and entertainment facilities.

Bridgeland's conceptual plan includes a 900-acre town center mixed-use district. The conceptual plan contemplates that the town center will be located adjacent to the expansion of State Highway 99 (the "Grand Parkway"), which is an approved 180 mile circumferential highway traversing seven counties and providing access to southwest, west, northwest, north and northeast Houston. Segment E of the Grand Parkway will be a 15-mile four-lane controlled access toll road with intermittent frontage roads from Interstate 10 to Highway 290 through Harris County. Segment E will provide direct access to the portion of Bridgeland designated for the town center. Construction on Segment E began in October 2011 and is estimated to be completed by the end of 2013 or beginning of 2014.

We anticipate that the Bridgeland community will eventually accommodate more than 20,000 homes and 65,000 residents, and we believe that it is poised to be one of the top master planned communities in the nation. As more fully described below, we are leveraging the 37 years of master planned community development experience of The Woodlands organization to develop and market Bridgeland. As of December 31, 2011, Bridgeland had approximately 3,797 residential acres and 1,226 commercial acres remaining to be sold.

Maryland Communities

Our Maryland communities consist of four distinct projects:

- Columbia;
- Gateway;
- Emerson; and
- Fairwood.

Columbia

Columbia, located in Howard County, Maryland, is an internationally recognized model of a successful master planned community developed in the 1960's. As of December 31, 2011, Columbia was home to approximately 100,000 people. Columbia's full range of housing options is located in ten distinct, self-contained villages. Each village is comprised of several neighborhoods, a shopping center and community and recreational facilities. In Columbia Town Center's downtown, 1.6 million square feet of office space is located close to shopping, restaurants and entertainment venues.

In 2005, the U.S. Government enacted the Base Alignment and Closure Act ("BRAC") resulting in the relocation of governmental agencies to the 5,000 acre Fort Meade military base. Fort Meade is located approximately 11 miles from the Columbia Town Center. According to published reports, Fort Meade is the largest single employer of Howard County residents, with more than 10,000 employed, and directly or indirectly supports approximately 170,000 jobs in the region. Since 2005, Fort Meade's workforce has expanded from 34,000 to 56,000 employees, with BRAC accounting for just 5,800 of the 22,000 new positions. Recent news reports estimate that the relocation of military personnel due to BRAC created demand for 1.3 million square feet of new space to Fort Meade, and some estimates indicate that another 5.6 million square feet of space may be developed

in the future, including growth of the Cyber Command headquarters. By 2015, the overall workforce on the base is expected to exceed 65,000 primarily because of the base's role in cyber security and protecting the U.S.'s information technology assets from foreign threats. Between 2007 and 2015, 8,800 new job holders and 5,500 new households are expected to come into Howard County because of the Fort Meade growth.

We own approximately 35 net acres of land in Columbia which we expect to develop. The land currently consists of raw land and subdivided land parcels readily available for new development. During 2011, we contributed over four acres of land to the Columbia Parcel D joint venture. We are developing a 375 unit apartment building on this land with a local partner as more fully described under Strategic Developments. In addition, we own five office properties comprising 300,000 square feet collectively referred to as the Columbia Office Properties as more fully described under Operating Assets as well as surface and structured parking and dedicated open space. We believe there is a significant opportunity to redevelop this portion of the master planned community in the future. During 2010, we received entitlements to develop up to 5,500 new residential units, approximately one million square feet of retail, approximately five million square feet of commercial office space and 640 hotel rooms.

In November 2010, we entered into development agreements with GGP that provide for the division of properties between our Company and GGP in an area within the mall ring road adjacent to The Mall in Columbia which is owned by GGP. The development agreements contain the key terms, conditions, responsibilities and obligations with respect to the future development of this area within the greater Downtown Columbia Redevelopment District. The agreements designate us as the preferred residential and commercial developer, and provide us with a five-year right of first offer and a subsequent six-month purchase option to acquire seven office buildings and associated parking lots, totaling approximately 22 acres.

Gateway

Gateway is a 630-acre premier master planned corporate community located in a high traffic area in Howard County, Maryland. Gateway offers quality office space in a campus setting with approximately 121 commercial acres remaining to be sold as of December 31, 2011.

Emerson

Emerson is a substantially completed master planned community located in Howard County, Maryland and consists of approximately 520 acres. The first residents moved into their homes in 2002. There were approximately 975 homes occupied by approximately 2,200 residents as of December 31, 2011.

Emerson offers a wide assortment of single-family and townhome housing opportunities by some of the region's top homebuilders, and is located in one of Maryland's top-performing public school districts. As of December 31, 2011, we had approximately two residential acres and 68 commercial acres remaining to be sold. The remaining land is fully entitled for build-out, subject to meeting local requirements for subdivision and land development permits. In addition, 28 of our townhouse lots are under contract for approximately \$3.9 million to builders and scheduled to close in stages through 2012. As of December 31, 2011, we have sold 58 townhouse lots for an aggregate price of \$7.3 million.

Fairwood

Fairwood is a fully developed master planned community located in Prince George's County, Maryland, consisting of approximately 1,100 acres. As of December 31, 2011, 11 commercial acres were available for sale. The first residents moved into their single-family homes in 2002. There were approximately 1,100 homes occupied by approximately 2,500 residents on December 31, 2011. Fairwood consists of single-family and townhouse lots, as well as undedicated open space and two historic houses. In addition to the commercial acres remaining to be sold, we own a few undedicated open space parcels, and 24 acres of unsubdivided land which cannot be developed as long as the nearby airport is operating.

The Woodlands (Houston, Texas)

The Woodlands is a mixed-use master planned community situated 27 miles north of Houston and consists of 28,400 acres. The Woodlands is a self-contained community that integrates recreational amenities, residential neighborhoods, commercial office space, retail shops and entertainment venues. Home site sales began in 1974. As of December 31, 2011, we estimated that there were approximately 38,000 homes occupied by approximately 101,000 residents and more than 1,755 businesses providing employment for approximately 49,960 people.

Approximately 28% of The Woodlands is dedicated to green space, including parks, pathways, open spaces, golf courses and forest preserves. The population of The Woodlands is projected to be approximately 130,000 by 2020. The Woodlands has full or partial ownership interests in commercial properties totaling 434,328 square feet of office space, 203,282 square feet of retail and service space and 865 rental apartment units. We also own and operate a 440 room resort and conference center facility and a 36-hole golf and country club. These commercial properties are more fully described under Operating Assets. As of December 31, 2011, The Woodlands had approximately 1,164 acres of unsold residential land, representing approximately 3,669 lots, and approximately 961 acres of unsold land for commercial use.

The Woodlands includes a waterway, outdoor art and an open-air performance pavilion, a resort and conference center, a luxury hotel and convention center, educational opportunities for all ages, hospitals and health care facilities and office space. The Fountains at Waterway Square located on The Woodlands Waterway connects the projects to the community via a water taxi system serving The Woodlands Town Center area.

On July 1, 2011, we acquired our former partner's 47.5% economic interest in The Woodlands and now own 100% of the master planned community. After the acquisition of our partner's interest, we consolidated management of Bridgeland and The Woodlands. Our strategy is to leverage The Woodlands' 37-plus years of master planned community development experience to replicate the success of The Woodlands at Bridgeland, which is in the early stages of its development life cycle.

Operating Assets

We own 26 assets consisting of nine retail properties, six office properties, a resort and conference center, an exclusive golf and country club, six equity investments in commercial properties and three other assets currently generating revenues. We believe, based on a variety of factors, that there are opportunities to redevelop or reposition several of these assets, primarily the retail properties, to improve their operating performance. These factors include, but are not limited to the following: (1) existing and forecasted demographics surrounding the property; (2) competition related to existing and/or alternative uses; (3) existing entitlements of the property and our ability to change them, compatibility of the physical site with proposed uses; and (4) environmental considerations, traffic patterns and access to the properties. We believe that, subject to obtaining all necessary consents and approvals, these assets have the potential for future growth by means of an improved tenant mix, additional gross leasable area ("GLA"), or repositioning of the asset for alternative use. Our retail operating assets include approximately 2.7 million total square feet of GLA in the aggregate. Redevelopment plans for these assets may include office, retail or residential space, shopping centers, movie theaters, parking complexes and open space. Any future redevelopment will require the receipt of permits, licenses, consents and waivers from various parties and may include a reclassification of the asset to the Strategic Developments segment.

Retail Operating Assets

Ward Centers (Honolulu, Hawaii)

Ward Centers is comprised of approximately 60 acres situated along Ala Moana Beach Park and is within one mile of Waikiki and downtown Honolulu. It is also a ten minute walk from Ala Moana Center, Hawaii's largest shopping center. Ward Centers currently includes a 630,000 square foot shopping district containing six specialty centers and over 135 unique shops, a variety of restaurants and an entertainment center which includes a 16

screen movie theater. In January 2009, the Hawaii Community Development Authority (“HCDA”) approved a 15-year master plan, which entitles us to develop a mixed-use development encompassing a maximum of 9.3 million square feet, including up to 7.6 million square feet of residential. In January 2011, we executed a development agreement with the HCDA.

During 2011, we completed a 722 stall parking deck that is expected to facilitate the leasing of additional space at Ward Centers and restarted construction of approximately 65,000 square feet of retail space adjacent to the garage. A tenant has already leased and taken possession of approximately 36,000 square feet of this new space. Ward Centers also includes approximately 374,000 square foot of industrial and office properties.

In September 2011, we entered into a \$250.0 million credit facility to support the redevelopment plan for Ward Centers. The loan initially funded \$212.5 million to refinance three existing mortgage loans and for closing costs. Prior to December 31, 2011, we borrowed an additional \$7.5 million to fund capital expenditures at the property.

South Street Seaport (New York, New York)

South Street Seaport is comprised of two landmarked historic buildings, one non-historic structure and one pavilion shopping mall located on Pier 17 on the East River in Manhattan. We also lease 24,000 square feet for sublet to retailers at the base of an adjacent 1.1 million square foot office tower. All of the property except the office tower retail space is subject to a lease with the City of New York. The total property includes 301,086 square feet of space, substantially all of which is retail.

During December 2011, we entered into a letter of intent with the New York City Economic Development Corporation which enables us to pursue redevelopment plans for the South Street Seaport. The City of New York is the lessor and the letter of intent describes the business terms of future amendments to the lease, the first of which must be finalized by June 30, 2012. The amendments to the lease will be effective upon achievement of certain development milestones, but generally become effective after all approvals have been obtained to begin construction. Once they are finalized, lease amendments will, among other things, eliminate any supplemental or participation rent the City of New York would be entitled to under the existing lease. Certain of the amendments also will permit us, subject to obtaining necessary approvals from other constituencies, to renovate the Pier 17 building. We will assume all Pier 17 maintenance obligations as part of the amendment to permit the Pier 17 renovation. The letter of intent also sets several milestones for the Pier 17 renovation, including a construction commencement date for Pier 17 no later than June 30, 2013. We agreed to pay approximately \$1.1 million of the maintenance costs for the East River Esplanade maintenance, which is part of the South Street Seaport, over a five-year period as consideration for entering into the letter of intent. This obligation will continue to exist regardless of whether the lease is amended. Please refer to Note 14 of the audited financial statements for more information regarding the letter of intent.

Landmark Mall (Alexandria, Virginia)

Currently anchored by Macy’s and Sears, Landmark Mall is an 879,262 square foot shopping mall located in affluent Alexandria, Virginia. This mall is located just nine miles west of Washington, D.C. and the Pentagon, and is within approximately one mile of public rail service on D.C.’s metro blue line. Following a re-zoning effort that allows for the development of up to 5.5 million square feet, Landmark Mall has the potential to be developed into a dynamic destination for shopping, dining, working and living. Any redevelopment of Landmark Mall will be dependent upon the Company reaching agreements with existing anchor tenants.

Park West (Peoria, Arizona)

Park West is a 249,168 square foot open-air shopping, dining and entertainment destination in Peoria, Arizona. Park West is approximately one mile northwest of the Arizona Cardinals’ football stadium and the Phoenix Coyote’s hockey arena. Park West has an additional 100,000 square feet of available development rights as permitted for retail, restaurant and hotel uses.

Rio West Mall (Gallup, New Mexico)

Rio West Mall is located in Gallup, New Mexico. This 514,023 square foot shopping center is the only enclosed regional shopping center within a 125 mile radius, and is easily accessed from I-40 and historic Route 66.

Riverwalk Marketplace (New Orleans, Louisiana)

Riverwalk Marketplace is located along the Mississippi River in downtown New Orleans. The 193,874 square foot shopping center is comprised of more than 100 local and national retail shops, restaurants and entertainment venues. It is adjacent to the New Orleans Memorial Convention Center and the Audubon Aquarium of the Americas.

Cottonwood Square (Salt Lake City, Utah)

Cottonwood Square is a 77,079 square foot community center located in Salt Lake City, Utah. The center is located in a high traffic area and sits across from our Cottonwood Mall, providing an opportunity for development synergies.

20 & 25 Waterway Avenue (The Woodlands, Texas)

20 & 25 Waterway Avenue are two retail properties located in The Waterway Square commercial district in The Woodlands Town Center. The properties total 49,972 square feet and were completed in 2009 and 2007, respectively.

Waterway Garage Retail (The Woodlands, Texas)

Waterway Garage Retail is attached to The Waterway Square Garage located within The Woodlands Town Center. The property totals 21,260 square feet and was completed in 2011 is currently available for lease.

Office Operating Assets

110 N. Wacker (Chicago, Illinois)

We own a 99% joint venture interest in an entity that has a ground leasehold interest in the land underlying a 226,000 square foot office building located at 110 N. Wacker Drive in downtown Chicago. The ground lease expires in 2055 and the building is 100% leased to a subsidiary of GGP through October 2019. GGP has several options to extend their lease through the duration of the ground lease. We have the right to terminate GGP's lease with six months' notice following the expiration of the initial term in 2019.

We receive 100% of the annual lease payments made by the subsidiary of GGP. The amount totals approximately \$6.1 million. As part of our joint venture agreement, we remit a monthly payment of \$31,250 to our partner through May 1, 2013.

Columbia Office Properties (Columbia, Maryland)

We own four office buildings and are a master tenant of a fifth office building. The office building ground lease has a 2020 initial expiration and a 2060 final expiration date, including market renewal options. The buildings comprise approximately 300,000 square feet in the heart of downtown Columbia including: (1) American City Building (master tenant); (2) the Columbia Association Building; (3) the Columbia Exhibit Building; (4) the Ridgley Building; and (5) the Columbia Regional Building. This group also contains the Merriweather Post Pavilion, an outdoor amphitheater and concert venue. Both the Columbia Regional Building and Merriweather Post Pavilion were designed by Frank Gehry. Columbia, Maryland is located 14 miles from the Baltimore Beltway and 17 miles from the Washington Beltway.

4 Waterway Square (The Woodlands, Texas)

4 Waterway Square is a nine-story Class A office building located within The Woodlands Town Center. The property totals 218,551 square feet and was completed in 2010.

9303 New Trails (The Woodlands, Texas)

9303 New Trails is a four-story Class B office building located within the Research Forest district of The Woodlands. The property totals 97,705 square feet and was completed in 2008.

1400 Woodloch Forest Drive (The Woodlands, Texas)

1400 Woodloch Forest Drive is a five-story Class B office building located at the entrance to The Woodlands Town Center. The property totals 95,667 square feet and was completed in 1981.

2201 Lake Woodlands Drive (The Woodlands, Texas)

2201 Lake Woodlands Drive is a two-story Class C office building located in the East Shore commercial district of The Woodlands. The property totals 24,024 square feet and was completed in 1994.

Resort and Conference Center and Country Club Operating Assets

The Woodlands Resort & Conference Center (The Woodlands, Texas)

The Woodlands Resort and Conference Center is located approximately two miles south of The Woodlands Town Center. The property operates 440 hotel rooms, has 60,000 square feet of meeting space and the latest phase was completed in 2002. For the year ended December 31, 2011, the property generated revenue per available room of \$95.73.

The Club at Carlton Woods (The Woodlands, Texas)

The Club at Carlton Woods is located within one of the most exclusive communities in The Woodlands. It contains an 18-hole Jack Nicklaus Signature Golf Course and an 18-hole Tom Fazio Championship Course, in addition to two clubhouses, spa, tennis, and fitness facilities.

Equity Investments and Other Operating Assets

Waterway Square Garage (The Woodlands, Texas)

The wholly owned Waterway Square Garage, located within The Woodlands Town Center, is a five-story parking garage that contains 1,942 parking spaces and 21,260 square foot of retail space. The garage was completed in 2009 and the retail space is classified under our Operating Assets segment.

The Millennium Waterway Apartments (The Woodlands, Texas)

We have an 83.55% economic interest in a 393-unit apartment building located within The Woodlands Town Center. The property was completed in 2010 as a partnership with The Dinerstein Companies. We account for our interest in The Millennium Waterway Apartments as a non-consolidated investment using the equity method.

Forest View/Timbermill Apartments (The Woodlands, Texas)

Forest View apartments is a 216 unit, multi-family rental community developed in 1994 under the Federal Low-income Housing Tax Credit Program ("FLHTCP"). Timbermill apartments is a 256 unit multi-family rental community developed in 1993 under the FLHTCP. We have 50% cash flow interest in these investments as well as receive a five percent management fee. These investments are under contract for sale, and we expect to receive proceeds in the amount of \$8.6M.

Interest in Head Acquisition (Hexalon)

We own 100% of the ownership interests in Hexalon Real Estate, LLC (“Hexalon”). Hexalon owns a 1.42% interest in Head Acquisition, LP, a joint venture between GGP, Simon Property Group, L.P. and Westfield Group. The partnership owns certain retail mall interests. Hexalon receives a quarterly preferred interest distribution from Head Acquisition, L.P. which totaled approximately \$321,000 in 2011. The entity possesses significant tax attributes that we could utilize to reduce future taxable income. These attributes are expected to reduce our tax liability by approximately \$75.5 million (net of a valuation allowance as of December 31, 2011), subject to potential offset provided in the Tax Matters Agreement between us and GGP. Our annual taxable income will determine how our tax liability is reduced each year. This tax attribute carries over indefinitely until it is fully utilized.

Woodlands Sarofim #1 Limited (The Woodlands, Texas)

We own a 20% interest in three office/industrial buildings located in The Woodlands Research Forest district within The Woodlands. The portfolio contains 132,050 square feet and various phases were constructed between the late 1980’s and 2002.

Interest in Summerlin Hospital Medical Center (Las Vegas, Nevada)

We have an indirect ownership interest of approximately 6.8% in the Summerlin Hospital Medical Center. This property is a 450-bed hospital located on a 32-acre medical campus near Las Vegas. Summerlin Hospital Medical Center is located in our Summerlin master planned community. It is an acute care facility with adjoining outpatient services for surgery, laboratory and radiology, as well as two medical office buildings. The hospital completed a major renovation in 2009 that expanded the hospital to 450 beds (from 281 beds) and added a new six-story patient tower, an expanded emergency room, a four-story, 80,000 square foot medical office building and a 600-space parking garage.

The property’s majority owner and operator is a subsidiary of Universal Health Services, Inc. (“UHS”), one of the largest healthcare management companies in the nation. UHS and our predecessors formed a joint venture to build and manage the hospital. Our predecessors contributed the land and UHS provided the funds to build the hospital. The ownership structure entitles us to a pro rata share of the cumulative undistributed profit in the hospital. We typically receive a distribution one time per year during the first quarter. During 2011, we received a \$3.9 million distribution, of which approximately \$2.0 million was related to 2010 and \$1.9 million was deferred from prior years due to the renovation and expansion of the hospital noted above.

Interest in Stewart Title (The Woodlands, Texas)

We own a 50% interest in Stewart Title, a company located in The Woodlands which handles a majority of the residential and commercial land sale closings for The Woodlands.

Note Approximating Office Lease Payments

We receive payments approximating the capital lease revenue that GGP receives from the Arizona 2 Office in Phoenix, Arizona. These payments total approximately \$6.9 million per year through the end of 2015 and are recorded as interest income and principal amortization. The underlying real property interests in the Arizona 2 Office will continue to be owned by GGP, and we will not own or obtain any real property interest therein or have any rights to receive payments after 2015. The right to receive these payments is in the form of a promissory note issued by a subsidiary of GGP.

Participation Interest in Golf Courses at Summerlin and TPC Las Vegas, located in the Summerlin Master Planned Community (Las Vegas, Nevada)

We are entitled to receive residual payments from the Professional Golfers’ Association of America (the “PGA”) with respect to two golf courses, the TPC Summerlin and the TPC Las Vegas, through October 31, 2021. We

receive 75% of the net operating profits and 90% of all profits from membership sales at TPC Summerlin until such time as the original investment in the courses of \$23.5 million has been recouped, which is projected to occur no sooner than 2015. As of December 31, 2011, the remaining balance on our investment is approximately \$6.6 million, approximately \$4.3 million greater than our \$2.3 million net book value at December 31, 2011. Once we have received payments from the PGA totaling \$23.5 million, we are entitled to receive 20% of all net operating profits from the two courses through October 31, 2021, the termination date of the agreement with the PGA. The TPC Summerlin is an 18-hole private championship course designed by golf course architect Bobby Weed with player consultant Fuzzy Zoeller. TPC Las Vegas is an 18-hole public championship course designed by golf course architect Bobby Weed with player consultant Raymond Floyd. These courses represent the only two golf courses in Nevada that are owned and operated by the PGA Tour.

Strategic Developments

Our Strategic Developments segment is made up of near, medium and long-term real estate properties and development projects. At present, we believe these assets will require substantial future development to achieve their highest and best use. We are in the process of creating strategic plans for each of these assets based on market conditions and availability of capital. The new plans may differ significantly from our predecessors. To be able to realize a development plan for any of these assets, in addition to the permitting and approval process attendant to almost all large-scale real estate developments of this nature, we will likely need to obtain financing.

The following table summarizes our strategic development projects as of December 31, 2011:

Asset	Location	GLA	Size (Acres)	Net Book Value, December 31, 2011 (Millions)	Acquisition Year
Ala Moana Condo Project	Honolulu, HI	—	—	\$ 22.9	2002
Bridges at Mint Hill	Charlotte, NC	—	162	12.6	2007
Columbia Parcel D	Columbia, MD	—	4	3.0	—
3 Waterway Square	Houston, TX	232,774(a)	0.825	0.2	2012
Alameda Plaza	Pocatello, ID	190,341	22	2.3	2002
AllenTowne	Allen, TX	—	238	25.4	2006
Century Plaza	Birmingham, AL	169,072	63	4.5	1997
Circle T Ranch and Power Center	Dallas/Ft. Worth, TX	—	279	18.0	2005
Cottonwood Mall	Holladay, UT	6,600	54	19.6	2002
Elk Grove Promenade	Elk Grove, CA	—	100	5.5	2003
Fashion Show Air Rights	Las Vegas, NV	—	—	—	2004
Kendall Town Center	Kendall, FL	—	75	17.5	2004

Village at Redlands	Redlands, CA	—	5	6.8	2004
West Windsor	West Windsor, NJ	—	658	20.7	2004
Total		598,787	1,827	\$198.0	

- (a) 3 Waterway Square development was announced in October 2011. After the announcement, the building size was increased to 232,774 square feet from 192,000 square feet due to strong market demand. Construction is expected to begin during the first quarter 2012.

Ala Moana Tower Condo Project (Honolulu, Hawaii)

We own the rights to develop a residential condominium tower over a parking structure at Ala Moana Center in Honolulu, Hawaii pursuant to a condominium property regime declaration. The declaration permits the construction of a first-class residential tower with approximately 18 stories, and requires, among other things, that the scope of work for the residential tower project will include certain street-level and sewer improvements. The plans and specifications for the residential tower project will be subject to GGP's review and reasonable approval per the declaration.

During October 2011, our Company and two local developers formed a joint venture to explore the development of the luxury condominium tower. We and an entity jointly owned by the two development partners each own 50% of the venture. Unanimous consent of the partners is required for all major decisions and the partners will equally fund all pre-development costs relating to the project. The venture is responsible for all pre-development activities, as well as for obtaining construction financing for the project. The venture also intends to raise third party capital to fund up to 80% of the equity required for the project. Our partner's joint venture entity has committed to contribute at least 10% of the required equity and we will obtain a 10% equity interest in the venture in exchange for our contribution of the condominium rights. We have retained the right to sell the condominium rights any time prior to obtaining a commitment from third party equity investors to fund up to 80% of the required equity capital. In the event we sell the condominium rights to a third party prior to completing the third-party equity raise, our partners would be entitled to 20% of the net sale proceeds in excess of the sum of \$47.5 million, and the actual amount of pre-development costs incurred prior to such sale. Our book value of the Ala Moana condominium rights was \$22.9 million as of December 31, 2011.

Bridges at Mint Hill (Charlotte, North Carolina)

This property consists of vacant land located southeast of Charlotte, North Carolina, in the middle of some of the fastest growing areas in the Charlotte region. The parcel is approximately 162 acres and consists of 120 developable acres and is currently zoned for approximately 997,000 square feet of retail, hotel and commercial development. The land is divided by a small stream known as Goose Creek. The current zoning plan contemplates connecting the two resulting parcels with two bridges over the creek. Development will require construction of internal roadways, connecting bridges, expansion of roads and an installation of a force main (offsite) and pump station (onsite) for sewer utility. The Mint Hill parcel is adjacent to a 52-acre parcel owned by a Charlotte-based regional developer. The developer's parcel has been approved for up to 270,000 square feet of space and is expected to be anchored by three to five junior box retailers.

During 2011, we entered into a joint venture with the owner of land adjacent to our property to develop a shopping center on our properties. The parties have agreed to contribute their respective properties free of any encumbrances to the venture by October 31, 2012. Our partner's land is currently encumbered by a \$4.5 million mortgage. If the appraised fair market value of our partner's land as of the contribution date is equal to or greater than \$4.5 million and the mortgage has not been repaid, then we will be required to contribute \$4.5 million cash to the venture (in addition to our land) to repay the mortgage. If the appraised fair market value is less than \$4.5 million, then we must contribute the greater of \$3.0 million or the appraised fair market value of the land. Our partner would then be required to contribute cash equal to the difference between the outstanding mortgage amount and our cash contribution, and in no event more than \$1.5 million. Our initial ownership in the venture is 79.0%, and our ownership percentage could increase to 90.5% if we are required to make the \$4.5 million cash contribution. Please refer to Note 6 of our audited financial statements included elsewhere in this Annual Report on Form 10-K for more information regarding this joint venture.

The joint venture entity entered into a development agreement with an affiliate of our partner, and both our partner and the Company will act as leasing agents for the project. We will fund the venture's capital needs for operating expenses and development costs. Such amounts will be senior to the initial contributed capital and will accrue at 12% per annum compounded return.

3 Waterway Square (The Woodlands, Texas)

In late October 2011, we announced the construction of a new nine-story, 192,000 square foot office building that will be located in The Woodlands Town Center adjacent to the 4 Waterway Square office building. Subsequent to the announcement of the 3 Waterway Square office building, due to high demand for Class A office space in The Woodlands, the building size was recently increased to eleven stories and will now total 232,774 square feet. Approximately 67.0% of the space has been leased as of February 17, 2012, and average net base rent for the first year is expected to be in excess of \$26.00 per square foot. The building is expected to cost approximately \$51.4 million to construct (excluding our estimated land value and pre-existing garage allocation). We closed on a \$43.3 million non-recourse construction loan for 3 Waterway Square in the first quarter of 2012.

Alameda Plaza (Pocatello, Idaho)

Alameda Plaza is located in Pocatello, Idaho at the intersection of Yellowstone Park Highway and Alameda Road. The 22-acre site contains 190,341 square feet of mostly vacant retail space. We are exploring a potential sale of this asset.

AllenTowne (Allen, Texas)

AllenTowne consists of 238 acres located at the high-traffic intersection of Highway 121 and U.S. Highway 75 in Allen, Texas, 27 miles northeast of downtown Dallas. We are considering plans to best position the property for the opportunities presented by evolving market conditions.

Century Plaza (Birmingham, Alabama)

Century Plaza is located on the eastern side of Birmingham, Alabama, on U.S. Route 78 (Crestwood Blvd.) near Interstate 20, across from Eastwood Village. In May 2009, the mall was shuttered. The site consists of approximately 63 acres with 750,000 of GLA.

Columbia Parcel D (Columbia, Maryland)

In October 2011, we entered into a joint venture with a local developer to construct an approximate 375 unit Class A apartment building with approximately 10,000 square feet of ground floor retail space in downtown Columbia, Maryland. We contributed its 4.2 acre site, having a \$3.0 million book value, to the joint venture. The transaction values the Company's land at \$53,500 per to-be-constructed unit, or \$20.1 million, based on 375 units. The Company and its partner each own 50% of the venture, and unanimous consent of the partners is required for all major decisions. We are responsible for obtaining certain entitlements for the project, and our partner will provide construction and property management services, including the funding and oversight of pre-development activities and obtaining construction financing. Our partner, with limited exceptions, is required to cover any project cost overruns and to provide all guarantees or other recourse obligations as may be required under the construction financing. At any time after the stabilization of the property, either us or our partner may offer to sell the project to an unrelated third party, subject to the other party's right of first refusal. When the venture closes on the construction loan and upon completion of certain other conditions, including obtaining all of the necessary entitlements, completed site development and construction plans, and an approved project budget, the partner will be required to contribute cash to the venture which, after valuing the our contributed land at \$53,500 per unit and considering total expected project costs less financing proceeds, will enable the venture to make a cash distribution to the us to equalize the partners' capital accounts. We have the right to purchase its partner's equity interest in the venture for \$10.00 if the conditions noted above have not been met by October 27, 2013, so long as such failure was not caused by us.

Circle T Ranch and Circle T Power Center (Dallas-Fort Worth, Texas)

Located at the intersection of Texas highways 114 and 170, Circle T Ranch is 20 miles north of downtown Fort Worth, in Westlake, Texas. The property is approximately 279 total acres on two parcels. The Circle T Ranch parcel contains 128 acres while the Circle T Power Center parcel contains 151 acres. We have a 50% joint venture ownership interest with a local developer.

Cottonwood Mall (Holladay, Utah)

Located 7.5 miles from downtown Salt Lake City, in the city of Holladay, Utah, Cottonwood Mall is a unique infill development opportunity. In 2008, work began on a complete redevelopment of the 54-acre site, but development was delayed due to the changing economic environment. The original mall was completely demolished with the exception of Macy's which continues to operate as a stand-alone store on the site. The project is entitled for 575,000 square feet of retail, 195,000 square feet of office and 614 residential units. We are exploring the feasibility of a mixed-use development and are soliciting retailer interest in the site.

Kendall Town Center (Kendall, Florida)

Kendall Town Center is part of a 158-acre site located at the intersection of North Kendall Drive and SW 158th, approximately 20 miles southwest of downtown Miami. A 31 acre parcel was sold to Baptist Hospital in March 2008, and a 282,000 square foot hospital with 133 beds, along with a 62,000 square foot medical office building, opened in 2011. In 2011, we sold 5 acres and 18 acres in 2009. Those parcels are expected to include a 120 room hotel with ancillary office and retail, office space and a senior housing development. We own the remaining 75 acres, which are currently entitled for 621,300 square feet of retail, 60,000 square feet of office space, and a 50,000 square foot community center.

Elk Grove Promenade (Elk Grove, California)

Elk Grove Promenade was originally planned as a 1.1 million square foot outdoor shopping center on approximately 100 acres. Construction of the site began in 2007, but was delayed due to changing economic conditions. Located approximately 17 miles southeast of Sacramento, the location affords easy access and visibility from State Highway 99 at Grant Line Road. Plans for the site are being evaluated in light of evolving market conditions.

Fashion Show Air Rights (Las Vegas, Nevada)

We entered into a binding set of core principles with GGP pursuant to which we will have the right to acquire for nominal consideration an 80% ownership interest in the air rights above the portions of Fashion Show Mall located on the Las Vegas Strip. This right is contingent upon the satisfaction of a number of conditions and will not become effective unless and until the existing loans and guaranties of Fashion Show Mall and The Shoppes at the Palazzo are satisfied in full, which is currently expected to occur with the scheduled repayment in May 2017.

Lakemoor (Volo) Land (Lakemoor, Illinois)

This 40-acre vacant land parcel is located on Route 12 which is located 50 miles north of Chicago in a growing suburb. The project has no utilities in place, but is located near two planned regional centers.

Maui Ranch Land (Maui, Hawaii)

This site consists of two, non-adjacent, ten-acre undeveloped land-locked parcels located near the Kula Forest Preserve on the island of Maui, Hawaii. The land currently is zoned for native vegetation. There is no ground right of way access to the land and there is no infrastructure or utilities currently in the surrounding area. Accordingly, only a nominal value was ascribed to these parcels when they were acquired by our predecessors in conjunction with the purchase of Ward Centers.

Nouvelle at Natick Condominium (Natick, Massachusetts)

Nouvelle at Natick is a full service luxury condominium community comprised of 215 residences located in the Natick Collection in the Boston suburb of Natick, Massachusetts. Nouvelle at Natick's amenities include a 4,000 square foot private club, a 2,800 square foot fitness center and a 1.2-acre rooftop garden with winding boardwalks, native grasses, flowers and trees. During 2011, 57 units were sold for \$22.1 million. Two units remain for sale as of December 31, 2011.

Redlands Promenade (Redlands, California)

Redlands Promenade is a ten acre site located at Eureka and the I-10 freeway off ramp in Redlands, California. The project is entitled for 125,000 square feet of retail development.

The Shops at Summerlin Centre (Las Vegas, Nevada)

Construction of The Shops at Summerlin Centre began in 2008, but was delayed due to changing market conditions. The development project fronts Interstate 215 between Sahara Drive and Charleston Boulevard approximately nine miles west of the Las Vegas Strip. Originally planned for approximately 1.5 million square feet of retail and office development, the 106 acre parcel is part of a 1,300 acre mixed-use town center for the Summerlin Master Planned Community. The project has the potential to be developed with retail, office, hotel and multifamily residential. We are evaluating alternative designs for a mixed use project on this site that should incorporate many of the infrastructure improvements made by our former parent. We are also soliciting anchor and in-line retailer interest in the project.

Village at Redlands (Redlands, California)

The Redlands Mall is a single-level, 174,787 square foot enclosed shopping center at the intersection of Redlands Boulevard and Orange Street. Currently anchored by CVS, Denny's and Union Bank, the site is located in downtown Redlands two blocks south of the Redlands Promenade site. The interior portion of the mall closed in September 2010. Originally envisioned as a mixed-use retail and residential redevelopment, plans for the future of Redlands Mall are being evaluated in light of evolving market conditions.

West Windsor (West Windsor, New Jersey)

West Windsor is a former Wyeth Agricultural Research & Development Campus on Quakerbridge Road and U.S. Route One near Princeton, New Jersey. The land consists of 658 total acres comprised of two large parcels which are bisected by Clarksville Meadows Road and a third smaller parcel. Zoning, environmental and other development factors are currently being addressed in conjunction with a feasibility study of the site.

Competition

The nature and extent of the competition we face depends on the type of property involved. With respect to our master planned communities, we compete with other landholders and residential and commercial property developers in the development of properties within Las Vegas, Nevada and Houston, Texas and the Baltimore/Washington, D.C. markets. Significant factors which we believe allow us to compete effectively in this business include:

- the size and scope of our master planned communities;
- the recreational and cultural amenities available within the communities;
- the commercial centers in the communities, including those retail properties that we own and/or operate or may develop;
- our relationships with homebuilders;
- our level of debt relative to total assets; and
- the proximity of our developments to major metropolitan areas.

We primarily compete for retail and office tenants within our Operating Assets. We believe the principal factors that retailers consider in making their leasing decisions include: (1) consumer demographics; (2) quality, design and location of properties; (3) neighboring real estate projects that have been developed by our predecessors or that we, in the future, may develop; (4) diversity of retailers and anchor tenants at shopping center locations; (5) management and operational expertise; and (6) rental rates.

With respect to malls and development projects, our direct competitors include other commercial property developers, retail mall development and operating companies and other owners of retail real estate that engage in similar businesses. With respect to our mixed-use development projects, we also will be required to compete for financing.

Environmental Matters

Under various federal, state and local laws and regulations, an owner of real estate is liable for the costs of removal or remediation of certain hazardous or toxic substances on such real estate. These laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous or toxic substances. The costs of remediation or removal of such substances may be substantial, and the presence of such substances, or the failure to promptly remediate such substances, may adversely affect the owner's ability to sell such real estate or to borrow using such real estate as collateral. In connection with our ownership and operation of our properties, we, or the relevant joint venture through which the property is owned, may be potentially liable for such costs.

Substantially all of our properties have been subject to Phase I environmental assessments, which are intended to evaluate the environmental condition of the surveyed and surrounding properties. Phase I environmental assessments typically include a historical review, a public records review, a site visit and interviews, but do not include soil sampling or subsurface investigations. To date, the assessments have not revealed any known environmental liability that we believe would have a material adverse effect on our overall business, financial condition or results of operations. Nevertheless, it is possible that these assessments do not reveal all environmental liabilities or that the conditions have changed since the assessments were prepared (typically at the time the property was purchased or developed). Moreover, no assurances can be given that future laws, ordinances or regulations will not impose any material environmental liability on us, or the current environmental condition of our properties will not be adversely affected by tenants and occupants of the properties, by the condition of properties in the vicinity of our properties (such as the presence on such properties of underground storage tanks) or by third parties unrelated to us.

Future development opportunities may require additional capital and other expenditures to comply with federal, state and local statutes and regulations relating to the protection of the environment. In addition, there is a risk when redeveloping sites, that we might encounter previously unknown issues that require remediation or residual contamination warranting special handling or disposal, which could affect the speed of redevelopment. In addition, where redevelopment involves renovating or demolishing existing facilities, we may be required to undertake abatement and/or the removal and disposal of building materials or other remediation or cleanup activities that contain hazardous materials. We may not have sufficient liquidity to comply with such statutes and regulations or to address such conditions and may be required to halt or defer such development projects. We cannot predict with any certainty the magnitude of any such expenditures or the long-range effect, if any, on our operations. Compliance with such laws has not had a material adverse effect on our predecessors' operating results or competitive position in the past, but could have such an effect on our operating results or competitive position in the future.

Employees

As of December 31, 2011, we had approximately 835 employees.

Available Information

We maintain an internet website at www.howardhughes.com. Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports are available and may be accessed free of charge through the Investors section of our internet website under the SEC Filings subsection, as soon as reasonably practicable after those documents are filed with, or furnished to, the SEC. Our internet website and included or linked information on the website are not intended to be incorporated into this Annual Report on Form 10-K.

ITEM 1A. RISK FACTORS

The risks and uncertainties described below are those that we deem currently to be material, and do not represent all of the risks that we face. Additional risks and uncertainties not presently known to us or that we currently do not consider material may in the future become material and impair our business operations. If any of the following risks actually occur, our business could be materially harmed, and our financial condition and results of operations could be materially and adversely affected. Our business, prospects, financial condition or results of operations could be materially and adversely affected by the following:

Risks Related to our Business

We have a history of losses and may not be profitable in the future.

Prior to November 9, 2010, our historical combined financial data was carved-out from the financial information of GGP. This data shows that had we been a stand-alone company, we would have had a history of losses. We cannot assure you that we will achieve sustained profitability going forward. For the years ended December 31, 2010 and 2009, we incurred losses from continuing operations of \$69.2 million and \$702.9 million, respectively. The losses from continuing operations subsequent to our spin-off from GGP were primarily due to significant impairment losses due to revised operating strategies by the new management team for certain of our assets and warrant liability expenses related to our sponsors and new management team. In addition, for the years ended December 31, 2010 and 2009, net cash used in operating activities was \$67.9 million and \$17.9 million, respectively, whereas for the year ended December 31, 2011, cash provided by operations was \$86.5 million. If we cannot improve our profitability or generate positive cash flow from our operating activities, the trading value of our common stock may decline.

We have minimal operating history as an independent company upon which investors can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any newly independent public company encounters.

We have a limited operating history as an independent public company. There can be no assurance that we will be able to successfully implement our business plan. Further, at this early stage of our operation, we face certain risks and uncertainties frequently encountered by new companies in an intensely competitive industry. Our prospects must be considered in light of these risks.

We may face potential difficulties in obtaining operating and development capital.

The successful execution of our business strategy will require us to obtain substantial amounts of operating and development capital. Sources of such capital could include bank borrowings, public and private offerings of debt or equity, or sale of certain assets and joint ventures with one or more third parties. In recent years, it has been difficult for companies with substantial profitable operating histories to source capital for real estate development and acquisition projects, as well as basic working capital needs. Although the capital markets have shown signs of improving, we may be unable to obtain financing in the future and financing we are able to secure may only be available on unfavorable terms.

A prolonged recession in the national economy, or a further downturn in national or regional economic conditions, could adversely impact our business.

The collapse of the housing market, together with the crisis in the credit markets, have resulted in prolonged high unemployment, a lower gross domestic product and reduced consumer spending. During such times, potential customers often defer or avoid real estate purchases due to the substantial costs involved, causing land and other real estate prices to significantly decline. Significantly tighter lending standards for borrowers are also having a significant negative effect on demand. A record number of homes are in foreclosure and forced sales by homeowners under distressed economic conditions are significantly contributing to the high levels of inventories of lots available for sale in some of our master planned communities.

The housing market and the demand from builders for lots vary depending on location. Projected lot sales used in our feasibility analysis may not be met. In addition, the success of our master planned communities business is heavily dependent on local housing markets in Las Vegas, Nevada, Houston, Texas and Baltimore, Maryland/ Washington, D.C., which in turn are dependent on the health and growth of the economies and availability of credit in these regions.

We do not know how long the downturn in the residential and commercial real estate markets will last or when real estate markets will return to more stable and predictable conditions. High unemployment, lack of consumer confidence and other adverse conditions in the current economic environment could significantly delay a recovery in real estate markets. Our business may suffer until market conditions improve. If market conditions were to worsen, the demand for our real estate products could further decline, negatively impacting our earnings, cash flow and liquidity. A prolonged low growth or recessionary period could have a material adverse effect on our business, results of operations and financial condition.

We may be unable to develop and expand our properties in our Strategic Developments segment.

Our business objective in our Strategic Developments segment is to develop and redevelop our properties, which we may be unable to do if we do not have or cannot obtain sufficient capital to proceed with planned development, redevelopment or expansion activities. In addition, the construction costs of a project, including labor and materials may exceed original estimates or available financings. We may be unable to obtain anchor store, mortgage lender and property partner approvals that are required for any such development, redevelopment or expansion. We may abandon redevelopment or expansion activities already under way that we are unable to complete, which may result in charge-offs of costs previously capitalized. In addition, if redevelopment, expansion or reinvestment projects are unsuccessful, the investment in such projects may not be fully recoverable from future operations or sale resulting in impairment charges.

Development of properties in our Strategic Developments segment entails a lengthy, uncertain and costly entitlement process.

Approval to develop real property entails an extensive entitlement process involving multiple and overlapping regulatory jurisdictions and often requires discretionary action by local governments. This process is often political and uncertain. Real estate projects must generally comply with local land development regulations and may need to comply with state and federal regulations. The process to comply with these regulations is usually lengthy and costly, may not result in the approvals we seek, and can be expected to materially affect our Strategic Developments segment activities.

Our Master Planned Communities segment is highly dependent on homebuilders.

We are highly dependent on our relationships with homebuilders to purchase lots at our master planned communities. Our business will be adversely affected if homebuilders do not view our master planned communities as desirable locations for homebuilding operations. Also, some homebuilders may be unwilling or unable to close on previously committed lot purchases. As a result, we may sell fewer lots and may have lower sales revenues, which could have an adverse effect on our financial position and results of operations.

Our results of operations in our Operating Assets and Strategic Developments segments are subject to significant fluctuation by various factors that are beyond our control.

Our results of operations in our Operating Assets and Strategic Developments segments are subject to significant fluctuations by various factors that are beyond our control. Fluctuations in these factors may decrease or eliminate the income generated by a property, and include:

- the regional and local economy, which may be negatively impacted by plant closings, material relocation by residents industry slowdowns, increased unemployment, lack of availability of consumer credit, levels of consumer debt, housing market conditions, adverse weather conditions, natural disasters and other factors;
- local real estate conditions, such as an oversupply of, or a reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants;
- perceptions by retailers or shoppers of the safety, convenience and attractiveness of the retail property;
- the convenience and quality of competing retail properties and other retailing options such as the internet;
- our ability to lease space, collect rent and attract new tenants; and
- tenant rental rates, which may decline for a variety of reasons, including the impact of co-tenancy provisions in lease agreements with certain tenants.

A decline in our results of operations in our Operating Assets and Strategic Developments segments could have a negative impact on the trading price of our common stock.

The Houston, Texas economy is highly dependent on the energy sector

The greater Houston area is home to a large amount of energy companies. A decline in the prices of oil and natural gas could have a significant negative effect on the performance of energy companies and may lead to layoffs. A decrease in economic activity and increased unemployment levels in Houston may negatively affect The Woodlands and Bridgeland by decreasing demand for housing and commercial space.

Significant competition could have an adverse effect on our business.

The nature and extent of the competition we face depends on the type of property involved. With respect to our master planned communities, we compete with other landholders and residential and commercial property developers in the development of properties within the Las Vegas, Nevada, Houston, Texas and Baltimore/Washington, D.C. markets. A number of residential and commercial developers, some with greater financial and other resources, compete with us in seeking resources for development and prospective purchasers and tenants. Competition from other real estate developers may adversely affect our ability to attract purchasers and sell residential and commercial real estate, sell undeveloped rural land, attract and retain experienced real estate development personnel, or obtain construction materials and labor. These competitive conditions can make it difficult to sell land at desirable prices and can adversely affect operations, financial condition or results of operations.

There are numerous shopping facilities that compete with our operating retail properties in attracting retailers to lease space. In addition, retailers at these properties face continued competition from other retailers, including retailers at other regional shopping centers, outlet malls and other discount shopping centers, discount shopping clubs, catalog companies, internet sales and telemarketing. Competition of this type could adversely affect our results of operations and financial condition.

In addition, we will compete with other major real estate investors with significant capital for attractive investment and development opportunities. These competitors include REITs, investment banking firms and private institutional investors.

Our business model includes entering into joint venture arrangements with strategic partners. This model may not be successful and our business could be adversely affected if we are not able to successfully attract desirable strategic partners or complete agreements with strategic partners or if our strategic partners fail to satisfy their obligations to the joint venture.

We currently have and intend to enter into further joint venture partnerships. These joint venture partners may bring local market knowledge and relationships, development experience, industry expertise, financial resources, financing capabilities, brand recognition and credibility or other competitive assets. In the future, we may not have sufficient resources, experience and/or skills to locate desirable partners. We also may not be able to attract partners who want to conduct business in the locations where our properties are located, and who have the assets, reputation or other characteristics that would optimize our development opportunities.

While we generally participate in making decisions for our jointly owned properties and assets, we might not always have the same objectives as the partner in relation to a particular asset, and we might not be able to formally resolve any issues that arise. In addition, actions by a partner may subject property owned by the joint venture to liabilities greater than those contemplated by the joint venture agreements or have other adverse consequences. We cannot control the ultimate outcome of any decision made, which may be detrimental to our interests. Some of our interests, such as the Summerlin Medical Hospital Center, are controlled entirely by our partners.

The bankruptcy of one of the other investors in any of our properties could materially and adversely affect the relevant property or properties. If this occurred, we would be precluded from taking some actions affecting the estate of the other investor without prior court approval which would, in most cases, entail prior notice to other parties and a hearing. At a minimum, the requirement to obtain court approval may delay the actions we would or might want to take. If the relevant joint venture through which we have invested in a property has incurred recourse obligations, the discharge in bankruptcy of one of the other investors might result in our ultimate liability for a greater portion of those obligations than would otherwise be required.

If the recoverable values of our remaining inventory of real estate assets were to drop below the book value of those properties, we would be required to write-down the book value of those properties, which would have an adverse effect on our balance sheet and our earnings.

Adverse market conditions, in certain circumstances, may require the book value of real estate assets to be decreased, often referred to as a “write-down” or “impairment.” A write-down of an asset would decrease the value of the asset on our balance sheet and would reduce our earnings for the period in which the write-down is recorded.

Although we did not record any impairment charges in 2011, we recorded impairment charges of \$503.4 million and \$680.3 million for the years ended December 31, 2010 and 2009, respectively. If market conditions were to continue to deteriorate, and the recoverable values for our real estate inventory and other project land were to fall below the book value of these assets, we could be required to take additional write-downs of the book value of those assets and such write-downs could be material.

Indebtedness could have an adverse impact on our financial condition and operating flexibility.

As of December 31, 2011, our consolidated debt was approximately \$606.5 million, of which \$7.0 million is recourse. Our share of the debt of our Real Estate Affiliates is \$43.7 million. Our indebtedness, particularly if increased over time, could have important consequences, including:

- limiting our ability to borrow additional amounts for working capital, capital expenditures, debt service requirements, execution of business strategy or other purposes;
- limiting our ability to use operating cash flow in other areas of the business or to pay dividends;
- increasing our vulnerability to general adverse economic and industry conditions, including increases in interest rates, particularly given that certain indebtedness bears interest at variable rates;

- limiting our ability to capitalize on business opportunities, reinvest in and develop their properties, and to react to competitive pressures and adverse changes in government regulation;
- limiting our ability, or increasing the costs, to refinance indebtedness; and
- giving secured lenders the ability to foreclose on assets.

The derivative instruments that we may use to hedge against interest rate fluctuations may not be successful in mitigating our risks associated with interest rates.

We seek to manage our exposure to interest rate volatility by using interest rate hedging arrangements, such as interest rate swap agreements. There cannot be any assurance that our hedging strategy and the derivatives that we use will adequately offset the risk of interest rate volatility or that our hedging of these transactions will not result in losses. Our policy is to use derivatives only to hedge interest rate risks related to our borrowings, not for speculative or trading purposes, and to enter into contracts only with major financial institutions based on their credit ratings and other factors. These hedging arrangements, which could include a number of counterparties, may expose us to additional risks, including failure of any of our counterparties to perform under these contracts, and may involve extensive costs, such as transaction fees or breakage costs, if we terminate them. Failure to hedge effectively against interest rate changes may materially adversely affect our results of operations.

In addition, hedging instruments involve risks because the business failure of a hedging counterparty with whom we entered into a hedging transaction will most likely result in the counterparty's default on its obligation to pay. Further, the credit quality of the counterparty owing money on the hedge may be downgraded to such an extent that it impacts our ability to sell or assign our side of the hedging transaction.

Changes in our income tax estimates could affect our profitability.

In preparing our consolidated financial statements, significant management judgment is required to estimate our income taxes. Our estimates are based on our interpretation of federal and state tax laws. We estimate our actual current tax due and assess temporary differences resulting from differing treatment of items for tax and accounting purposes. The temporary differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheets. Adjustments may be required by a change in assessment of our deferred tax assets and liabilities, changes due to audit adjustments by federal and state tax authorities, and changes in tax laws and rates. To the extent adjustments are required in any given period, we include the adjustments in the tax provision in our financial statements. These adjustments could materially impact our financial position, cash flow and results of operations.

We may not realize the value of our tax assets.

We have tax assets. Certain provisions of the Internal Revenue Code could limit our ability to fully utilize the tax assets if there were to experience a "change of control". If such an event were to occur, the cash flow benefits we might otherwise have would be eliminated.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we collect and store sensitive data, including intellectual property, our proprietary business information and that of our tenants and business partners and personally identifiable information of our employees, in on our networks. The secure processing, maintenance and transmission of this information is critical to our operations. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings and liability under laws that protect the privacy of personal information, which could adversely affect our business.

Some of our directors are involved in other businesses including real estate activities and public and/or private investments and, therefore, may have competing or conflicting interests with us.

Certain of our directors have and may in the future have interests in other real estate business activities, and may have control or influence over these activities or may serve as investment advisors, directors or officers. These interests and activities, and any duties to third parties arising from such interests and activities, could divert the attention of such directors from our operations. Additionally, certain of our directors are engaged in investment and other activities in which they may learn of real estate and other related opportunities in their non-director capacities. Our Code of Business Conduct and Ethics applicable to our directors expressly provides, as permitted by Section 122(17) of the Delaware General Corporation Law (the “DGCL”), that our non-employee directors are not obligated to limit their interests or activities in their non-director capacities or to notify us of any opportunities that may arise in connection therewith, even if the opportunities are complementary to or in competition with our businesses. Accordingly, we have no expectation that we will be able to learn of or participate in such opportunities. If any potential business opportunity is expressly presented to a director exclusively in his or her director capacity, the director will not be permitted to pursue the opportunity, directly or indirectly through a controlled affiliate in which the director has an ownership interest, without the approval of the independent members of our board of directors.

We are a holding company and depend on our subsidiaries for cash.

We are a holding company, with no operations of our own. In general, we rely on our subsidiaries for cash and our operations are conducted almost entirely through our subsidiaries. Our ability to generate cash to pay our operating expenses is dependent on the earnings of and the receipt of funds from subsidiaries through dividends, distributions or intercompany loans. The ability of our subsidiaries to pay dividends or to make distributions or other payments to us will depend on their respective operating results and may be restricted by, among other things, the laws of their respective jurisdiction of organization, regulatory requirements, agreements entered into by those operating subsidiaries and the covenants of any existing or future outstanding indebtedness that we or our subsidiaries may incur. For example, the credit agreements entered into by certain of our subsidiaries for The Woodlands contain restrictions on their ability to pay dividends and make distributions.

We may face potential successor liability.

We may be subject to successor liability based on previous actions of our predecessors. Such liability may arise in a number of circumstances, such as: (1) if a creditor of our predecessors did not receive proper notice of the pendency of the GGP bankruptcy proceedings or the deadline for filing claims; (2) the injury giving rise to, or source of, a creditor’s claim did not manifest itself in time for the creditor to file the creditor’s claim; (3) a creditor did not timely file the creditor’s claim in such bankruptcy case due to excusable neglect; (4) we are found liable for our predecessors’ tax liabilities under a federal and/or state theory of successor liability; or (5) the order of confirmation for the GGP bankruptcy plan is found to be procured by fraud. If we should become subject to such successor liability, it could materially adversely affect our business, financial condition and results of operations.

Ineffective internal controls could impact the Company’s business and results of operations.

Our internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls or fraud. Even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If we fail to maintain the adequacy of its internal controls, including any failure to implement required new or improved controls, or if the Company experiences difficulties in their implementation, the Company’s business and operating results could be harmed and the Company could fail to meet its financial reporting obligations.

Possible terrorist activity or other acts of violence could adversely affect our financial condition and results of operations.

Future terrorist attacks in the United States or other acts of violence may result in declining economic activity, which could harm the demand for goods and services offered by tenants and the value of our properties and might adversely affect the value of an investment in our securities. Such a resulting decrease in retail demand could make it difficult to renew or re-lease properties at lease rates equal to or above historical rates. Terrorist activities or violence also could directly affect the value of our properties through damage, destruction or loss, and the availability of insurance for such acts, or of insurance generally, might be lower or cost more, which could increase our operating expenses and adversely affect our financial condition and results of operations. To the extent that tenants are affected by future attacks, their businesses similarly could be adversely affected, including their ability to continue to meet obligations under their existing leases. These acts might erode business and consumer confidence and spending and might result in increased volatility in national and international financial markets and economies. Any one of these events might decrease demand for real estate, decrease or delay the occupancy of new or redeveloped properties, and limit access to capital or increase the cost of capital.

Some of our properties are subject to potential natural or other disasters.

A number of our properties are located in areas which are subject to natural or other disasters, including hurricanes, floods, earthquakes and oil spills. Some of our properties are located in coastal regions, and would therefore be affected by increases in sea levels, the frequency or severity of hurricanes and tropical storms, or environmental disasters, whether such events are caused by global climate changes or other factors.

Some potential losses are not insured.

We carry comprehensive liability, fire, flood, earthquake, terrorism, extended coverage and rental loss insurance on all of our properties. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are some types of losses, including lease and other contract claims, which generally are not insured. If an uninsured loss or a loss in excess of insured limits occurs, we could lose all or a portion of the capital invested in a property, as well as the anticipated future revenue from the property. If this happens, we might remain obligated for any mortgage debt or other financial obligations related to the property.

We may be subject to potential costs to comply with environmental laws.

Under various federal, state or local laws, ordinances and regulations, a current or previous owner or operator of real estate may be required to investigate and clean up hazardous or toxic substances released at a property and may be held liable to a governmental entity or to third parties for property damage or personal injuries and for investigation and clean-up costs incurred by the parties in connection with the contamination. These laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of the hazardous or toxic substances. The presence of contamination or the failure to remediate contamination may adversely affect the owner's ability to sell or lease real estate or to borrow using the real estate as collateral. Other federal, state and local laws, ordinances and regulations require abatement or removal of asbestos-containing materials in the event of demolition or certain renovations or remodeling, the cost of which may be substantial for certain redevelopments, and also govern emissions of and exposure to asbestos fibers in the air. Federal and state laws also regulate the operation and removal of underground storage tanks. In connection with our ownership, operation and management of certain properties, we could be held liable for the costs of remedial action with respect to these regulated substances or tanks or related claims.

There is a risk of investor influence over our company that may be adverse to our best interests and those of our other stockholders.

M.B. Capital Partners and certain of its affiliates (collectively, "M.B. Capital"), Pershing Square Capital Management, L.P. ("Pershing Square") and Brookfield Retail Holdings LLC ("Brookfield") beneficially own 11.2%, 9.4% and 6.4%, respectively, of our outstanding common stock (excluding shares issuable upon the

exercise of warrants). Under the terms of our stockholder agreements, Pershing Square currently has the ability to designate three members of our board of directors, and Brookfield currently has the ability to designate one member. As of December 31, 2011, there is no Brookfield designee on our board of directors.

Although Pershing Square has entered into a standstill agreement to limit its influence over us, the concentration of ownership of our outstanding common stock held by M.B. Capital, Pershing Square, Brookfield and other substantial stockholders may make some transactions more difficult or impossible without the support of these stockholders, or more likely with the support of these stockholders. The interests of our substantial stockholders could conflict with or differ from the interests of our other stockholders. For example, the concentration of ownership held by M.B. Capital, Pershing Square and Brookfield, even if these stockholders are not acting in a coordinated manner, could allow M.B. Capital, Pershing Square and Brookfield to influence our policies and strategy and could delay, defer or prevent a change of control or impede a merger, takeover or other business combination that may otherwise be favorable to us and our other stockholders.

Certain of our directors have interests in GGP that may be adverse to our interests, limiting how we conduct business with GGP.

Pershing Square holds material economic interests in GGP. Accordingly, we expect that a number of our directors may have, or appear to have, conflicting interests relating to us and GGP. It may be important for us to do business with GGP in the future or to supplement or amend the initial agreements between us and the reorganized GGP as circumstances change. Actual or perceived conflicts of interest may decrease the effectiveness of our board of directors in dealing with GGP. For example, directors with helpful expertise may be required or decide to recuse themselves from deliberation or voting on matters involving GGP, and certain transactions in our best interests may not be pursued at all because of the risk of an appearance of a conflict or other considerations.

Risks Related to Spin-off.

We may be required to pay substantial U.S. federal income taxes related to certain prior sales of assets in our Master Planned Communities segment.

In connection with the spin-off, GGP has agreed to indemnify us from and against 93.75% of any losses, claims, damages, liabilities and reasonable expenses to which we become subject, in each case solely to the extent attributable to certain taxes related to sales of certain assets in our Master Planned Communities segment prior to March 31, 2010, in an amount equal to a maximum of \$303.8 million, plus applicable interest. We will be responsible for the remainder of any such taxes. GGP may not have sufficient cash to reimburse us for its share of these taxes described above. We have ongoing IRS audits related to the foregoing taxes that, whether resolved by litigation or otherwise, could impact the timing of the items subject to indemnification by GGP. In addition, if the IRS were successful in litigation with respect to such audits, we may be required to change our method of tax accounting for certain transactions, which could affect the timing of our future tax payments, increasing our tax payments in the short term relative to our current tax cost projections.

If the spin-off does not qualify as a tax-free distribution under Section 355 of the Internal Revenue Code, then GGP and its subsidiaries may be required to pay substantial U.S. federal income taxes, and we may be obligated to indemnify GGP and its subsidiaries for such taxes.

In connection with our spin-off, GGP received a private letter ruling from the IRS to the effect that the spin-off transactions qualified as tax-free to GGP and its subsidiaries for U.S. federal income tax purposes. A private letter ruling from the IRS generally is binding on the IRS. Such IRS ruling does not establish that the spin-off satisfied every requirement for a tax-free spinoff, and the parties have relied solely on the advice of counsel for comfort that such additional requirements are satisfied.

The IRS ruling is based on, among other things, certain representations and assumptions as to factual matters made by GGP. The failure of any factual representation or assumption to be true, correct and complete in all

material respects could adversely affect the validity of the IRS ruling at the time of and subsequent to the spin-off. In addition, the IRS ruling is based on current law and cannot be relied upon if current law changes with retroactive effect. If the spin-off were to be treated as taxable, GGP and holders of GGP's common stock may be faced with significant tax liability with respect to the spin-off.

We entered into a Tax Matters Agreement with GGP, pursuant to which GGP may be held liable for the cost of the failure of the spin-off to qualify as a tax-free distribution if GGP caused such failure, whether by an action taken before or after the spin-off. If we caused such failure, whether by an action taken before or after the spin-off, we could be liable for such costs. If the cause for the failure cannot be determined or was not caused by a single party, then we and GGP will share such liability based on relative market capitalization. Moreover, although we have agreed to share certain tax liabilities with GGP, we may be liable at law to a taxing authority for some of these tax liabilities and, if GGP were to default on their obligations to us, we would be responsible for the entire amount of these liabilities.

In connection with the spin-off we entered into several agreements with GGP with respect to certain of our assets and we may have conflicts with GGP which could adversely affect our business.

We may have economic or business interests that are divergent from GGPs in relation to a particular asset, and we may have disagreements with GGP with respect to how these assets are managed and developed in the future.

Risks Related to Our Common Stock

The trading price of our common stock may fluctuate widely.

We cannot predict the prices at which our common stock may trade. The market price of our common stock may fluctuate widely, depending upon many factors, some of which may be beyond our control, including:

- our quarterly or annual earnings, or those of other comparable companies;
- actual or anticipated fluctuations in our operating results and other factors related to our business;
- announcements by us or our competitors of significant acquisitions or dispositions;
- the failure of securities analysts to cover our common stock;
- changes in earnings estimates by securities analysts or our ability to meet those estimates;
- the operating and stock price performance of other comparable companies;
- our ability to implement our business strategy;
- our tax payments;
- our ability to raise capital;
- overall market fluctuations; and
- general economic conditions.

Further, M.B. Capital, Pershing Square and Brookfield may hold their investments for an extended period of time, thereby decreasing the number of shares available in the market and creating artificially low supply for, and trading prices of our common stock. If one or more of these principal holders sell a significant amount of our common stock, it could decrease the price of our common stock.

Provisions in our certificate of incorporation, our by-laws, Delaware law, stockholder rights agreement and certain other agreements may prevent or delay an acquisition of us, which could decrease the trading price of our common stock.

Our certificate of incorporation and bylaws contain the following limitations:

- the inability of our stockholders to act by written consent;

- restrictions on the ability of stockholders to call a special meeting without 15% of more of the voting power of the issued and outstanding shares entitled to vote generally in the election of our directors;
- rules regarding how stockholders may present proposals or nominate directors for election at stockholder meetings; and
- the right of our board of directors to issue preferred stock without stockholder approval.

Additionally, our certificate of incorporation imposes certain restrictions on the direct or indirect transferability of our securities to assist in the preservation of our valuable tax attributes (generally consisting of (1) approximately \$400 million of suspended federal income tax deductions and (2) a relatively high federal income tax basis in our assets), including, subject to certain exceptions, that until such time as our board of directors determines that it is no longer in our best interests to continue to impose such restrictions (i) no person or entity may acquire or accumulate the Threshold Percentage (as defined below) or more (as determined under tax law principles governing the application of section 382 of the Internal Revenue Code) of our securities, and (ii) no person owning directly or indirectly (as determined under such tax law principles) on the date of our spin-off, after giving effect to the spin-off plan, the Threshold Percentage or more of our securities may acquire additional securities of ours. Notwithstanding the restrictions in our certificate of incorporation, no assurance can be given regarding our ability to preserve our tax attributes. Threshold Percentage means, in the case of (i) our common stock, 4.99% of the number of outstanding shares of our common stock and (ii) any other class of our equity, 4.99% of each such class.

We have also implemented a so-called poison pill by adopting our stockholders rights agreement. The poison pill assists in the preservation of our valuable tax attributes by significantly increasing the costs that would be incurred by an unwanted third party acquirer if such party owns or announces its intent to commence a tender offer for the Threshold Percentage or more of our securities. The stockholder rights agreement will automatically terminate if not approved by our stockholders at our 2012 Annual Meeting of Stockholders and otherwise expires on March 14, 2015. All of these provisions could limit the price that investors might be willing to pay in the future for shares of our common stock.

There may be dilution of our common stock from the exercise of outstanding warrants, which may materially adversely affect the market price of our common stock and negatively impact a holder's investments.

The exercise of some or all of the outstanding warrants to purchase shares of our common stock would materially dilute the ownership interest of our existing stockholders. Likewise, any additional issuances of common stock, through The Howard Hughes Corporation 2010 Equity Incentive Plan or otherwise, will dilute the ownership interests of our existing stockholders. Any sales in the public market of such additional common stock could adversely affect prevailing market prices of the outstanding shares of our common stock. In addition, the existence of our outstanding warrants may encourage short selling or arbitrage trading activity by market participants because the exercise of our warrants could depress the price of our common stock.

Additional issuances and sales of our capital stock or securities convertible into or exchangeable for our capital stock, or the perception that such issuances and sales could occur, may cause prevailing market prices for our common stock to decline and may adversely affect our ability to raise additional capital in the financial markets at a favorable time and price.

Brookfield is subject to restrictions on its ability to sell our common stock and its warrants to acquire our common stock. After these restrictions expire, shares held by Brookfield may be sold in the public markets. The price of our common stock may drop significantly when such restrictions expire. In addition, certain of our substantial stockholders, including Brookfield and Pershing Square, have the right to purchase the number of our shares as necessary to allow the stockholder to maintain its proportionate ownership interests on a fully diluted basis, for so long as the stockholder beneficially owns at least 5% of our outstanding common stock on a fully-diluted basis.

In most circumstances, stockholders will not be entitled to vote on whether or not additional capital stock or securities convertible into or exchangeable for our capital stock is issued. In addition, depending on the terms and pricing of an additional offering of common stock or securities convertible into or exchangeable for our capital stock, and the value of our properties, stockholders may experience dilution in both the book value and the market value of their shares.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our principal executive offices are located in Dallas, Texas where we lease approximately 21,710 square feet under an arrangement that expires in 2021. We also maintain offices at certain of our properties as well as in Houston, Texas and in Los Angeles, California. We believe our present facilities are sufficient to support our operations.

Our Master Planned Communities and our Strategic Developments assets are described above in Item 1. Business “Overview of Business Segments”. The tables below summarize certain metrics of the properties within our Operating Assets segment as of December 31, 2011. Leases with our tenants at our real property retail operating asset locations within our Operating Assets segment generally include base rent and common area maintenance charges:

Property	Location	Existing Gross Leasable Area	Size (Acres)	Net Book Value, December 31, 2011 (Millions)	Average Annual Tenant Sales per Square Foot(a)	Year Ended December 31, 2011				
						Mall and Other Rental NOI (000)(b)	Average Sum of Rent and Recoverable Common Area Costs per Square Foot(c)	Occupancy Cost(d)	NOI Margin(e)	Acquisition Year
Ward Centers	Honolulu, HI	1,004,781(f)	60	\$348.8	\$542	\$21,481	\$ 62	11.4%	54.1%	2002
South Street Seaport	New York, NY	301,086(g)	11	5.9	530	5,650	68	12.8%	32.5%	2004
Landmark Mall	Alexandria, VA	440,325(h)	22	23.8	276	737	35	12.7%	15.0%	2004
Park West	Peoria, AZ	249,168	48	79.6	291	576	23	7.9%	18.1%	2006
Rio West	Gallup, NM	333,077(g)(i)	50	11.0	169	1,319	20	11.8%	39.0%	1981(j)
Riverwalk										
Marketplace	New Orleans, LA	193,874(g)	11	12.0	252	418	37	14.7%	6.7%	2004
Cottonwood Square	Salt Lake City, UT

Retail	(m)	21,260(n)	—	9.4	n.a.	7	n.a.	n.a.	10.2%	2011
Total		<u>2,670,622</u>	<u>224</u>	<u>\$507.8</u>		<u>\$31,878</u>				

- (a) Average Annual Tenant Sales per Square Foot includes only inline tenants and excludes anchors, outparcels and specialty leasing tenants. The calculation is the sum of all comparable sales for the year ending December 31, 2011 for tenants that are contractually obligated to submit sales data, divided by the comparable square footage for the same period. We include in our calculations of comparable sales and comparable square footage, properties that have been owned and operated for the entire time during the twelve month period and exclude properties at which significant physical or merchandising changes have been made. Inline Tenants are defined as any tenant operating under a lease agreement that is less than 30,000 square feet and whereby the landlord maintains or operates the building for the leasehold premises.
- (b) Mall and Other Rental NOI includes mall and other rental revenue and expenses according to U.S. GAAP, excluding straight-line rent, market lease amortization, depreciation and other amortization expense. (See Operating Asset NOI and EBT table under the Operating Assets Segment in Item 7)
- (c) Average Sum of Rent and Recoverable Common Area Costs per Square Foot is calculated as the sum of total rent and tenant recoveries for the year ending December 31, 2011 for the tenant base used to calculate (h) Average Annual Tenant Sales per Square Foot, divided by the total square footage occupied by the above mentioned tenant base.
- (d) Occupancy Cost is calculated by dividing (c) Average Sum of Rent and Recoverable Common Area Costs per Square Foot by (a) Average Annual Tenant Sales per Square Foot.

- (e) NOI Margin is calculated by dividing NOI by total contractual and other property revenue.
- (f) Excludes 153,928 square feet related to ground leases of which we are the lessor.
- (g) All of the project is on a ground lease where we are the ground lessee.
- (h) Excludes 438,937 square feet in project that is owned and occupied by Sears and Macy's.
- (i) Excludes 180,946 square feet of outparcel improvements in project currently owned by tenant.
- (j) Reflects the year that Rio West Mall opened.
- (k) Cottonwood Square is not required to report tenant sales.
- (l) 41,612 square feet of the Existing Gross Leasable Area is part of a ground lease where we are the ground lessee. This space is currently leased but not occupied. The ground lease payments are paid by the current lessee directly to the ground lessor.
- (m) Property opened July 1, 2011. Property has one retail tenant and is not required to report sales data.
- (n) Ground floor retail space attached to the Waterway Square Garage.

The following table summarizes certain metrics of our Operating Assets other than retail Operating Assets as of December 31, 2011:

Asset	Economic Ownership %	Property Type	Sqr. Feet / Keys	% Leased	Year Complete	Net Book Value, December 31, 2011 (Millions)
4 Waterway Square	100%	Office	218,551	98.8%	2010	\$ 59.0
9303 New Trails	100%	Office	97,705	100.0%	2008	14.5

Total Net Book Value						<u><u>\$259.5</u></u>

- (a) % Leased is computed based on the weighted average square feet of each office building. At December 31, 2011 the occupancies of each building were as follows: American City Building – 99.2%; Columbia Association Building – 100%; Columbia Exhibit Building – 100%; Ridgely Building – 39.4%; Columbia Regional Building – 100%.

The following table sets forth the occupancy rates, for each of the last five years for our wholly owned retail and office Operating Assets:

	Occupancy as of December 31, 2011	Annual Weighted Average Occupancy Rates(a)				
		2011	2010	2009	2008	2007
Retail:						
Ward Centers (b) (c)	83.0%	86.5%	86.6%	85.9%	88.4%	90.7%

n.a. – not available

- (a) Occupancy rates represent the weighted average occupancy for the year divided by total GLA.
- (b) In prior years 871,200 square feet of Maui ranch land had been included in the calculation of Annual Weighted Average Occupancy Rates. The occupancy rates reflected in this table have been adjusted to now exclude the above mentioned Maui ranch land as part of the calculation for all years.
- (c) Excludes 153,928 square feet related to ground leases of which we are the lessor.
- (d) Loss of permanent and specialty tenants in 2010 due to potential redevelopment. Excludes 438,937 square feet of anchor owned improvements as well as 120,000 square feet of anchor space that is leased but not occupied.
- (e) Partially opened in 2007, the 2008 occupancy rate reflects a lower GLA due to the timing of space added on-line. Full GLA was achieved in 2009.
- (f) Includes 41,612 square feet of retail space leased through March 2013 that is currently unoccupied.
- (g) 25 Waterway opened in February 2007 and 20 Waterway opened in May 2009.
- (h) Waterway Garage Retail Opened in July 2011.
- (i) 4 Waterway Square opened in January 2010.
- (j) From January 1, 2010 through October 15, 2011, 9,969 square feet, representing 10.2% of total GLA, was occupied by The Woodlands. From October 15, 2011 through January 2012, when The Woodlands moved out of the space, The Woodlands' occupancy at this property was reduced to 5,914 square feet, or 6.1% of total GLA.
- (k) Average Weighted Average Occupancy Rates are computed based on the weighted average square feet of each office building. At December 31, 2011 the occupancies of each building were as follows: American City Building – 99.2%; Columbia Association Building – 100%; Columbia Exhibit Building – 100%; Ridgely Building – 39.4%; Columbia Regional Building – 100%.
- (l) The Woodlands acquired 2201 Lake Woodlands Drive in late 2008.

ITEM 3. LEGAL PROCEEDINGS

In the ordinary course of our business, we are from time to time involved in legal proceedings related to the ownership and operations of our properties. Neither we nor any of our Real Estate Affiliates is currently involved in any legal or administrative proceedings that we believe are likely to have a materially adverse effect on our business, results of operations or financial condition.

ITEM 4. MINE SAFETY DISCLOSURE

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Prices of Common Stock

The following table shows the high and low sales prices of the Company's common stock on the New York Stock Exchange (the "NYSE"), as reported in the consolidated transaction reporting system for each quarter of fiscal 2011 and the fourth quarter of 2010. Prior to our spin-off in November 2010, there was no public market for our common stock. The Company's common stock is traded on the NYSE under the symbol "HHC".

	Common Stock Price Range		Dividends Per Share
	High	Low	
Year Ended December 31, 2011			
Fourth Quarter	\$49.67	\$35.51	\$—
Third Quarter	\$66.42	\$41.53	\$—
Second Quarter	\$76.83	\$56.86	\$—
First Quarter	\$71.94	\$49.00	\$—
Year Ended December 31, 2010			
Fourth Quarter (Since November 5, 2010)	\$56.25	\$31.00	\$—

Number of Holders of Record

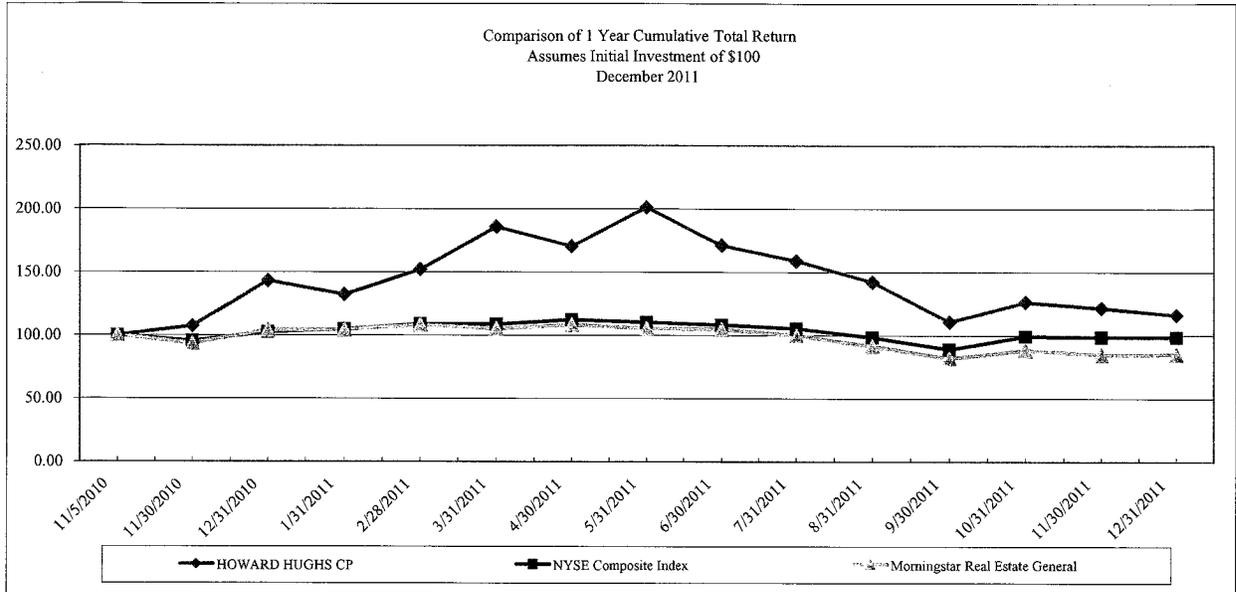

As of February 15, 2012, there were 2,630 shareholders of record of the Company's common stock.

No dividends have been declared or paid in 2011 or 2010. Any future determination related to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, financial condition and future prospects and other factors the board of directors may deem relevant.

Performance Graph

The following performance graph compares the monthly dollar change in the cumulative shareholder return on the Company’s common stock with the cumulative total returns of the NYSE Composite Index and the group of companies in the Morningstar Real Estate – General Index. The graph was prepared on the following assumptions:

- \$100 was invested on November 5, 2010 in the Company’s common stock, the NYSE Composite Index and the Morningstar Real Estate – General Index.
- Dividends have been reinvested subsequent to the initial investment.

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth the selected consolidated and combined financial and other data of our business for the most recent five years. We were formed in 2010 to receive certain assets and liabilities of our predecessors in connection with their emergence from bankruptcy. We did not conduct any business and did not have any material assets or liabilities until our spin-off was completed on November 9, 2010.

Our selected historical data for 2011 presented in accordance with generally accepted accounting principles is not comparable to prior periods due to the acquisition of our partner's 47.5% economic interest in The Woodlands on July 1, 2011. As of the acquisition date, we consolidated The Woodlands' financial results. Prior to the acquisition, we accounted for our investment using the equity method.

The selected historical financial data as of December 31, 2011 and 2010 and for the years ended December 31, 2011, 2010, and 2009 has been derived from our audited consolidated and combined financial statements, which are included elsewhere in this Annual Report on Form 10-K. The selected historical combined financial data as of and for the year ended December 31, 2008 was derived from our audited combined financial statements which are not included in this Annual Report on Form 10-K. The selected historical combined financial statements as of December 31, 2007 and for the year ended December 31, 2007 were derived from our unaudited combined financial statements which are not included in this Annual Report on Form 10-K. Our spin-off did not change the carrying value of our assets and liabilities with the exception of our debt which was recorded at fair value. Operations for 2010 are presented as the aggregation of the combined results from January 1, 2010 to November 9, 2010 and the consolidated results from November 10, 2010 to December 31, 2010.

Prior to the spin-off, our combined financial statements were carved out from the financial books and records of GGP at a carrying value reflective of historical cost in GGP's records. Our historical financial results for these periods reflect allocations for certain corporate costs, and we believe such allocations are reasonable. Such results do not reflect what our expenses would have been had the Company been operating as a separate stand-alone publicly traded company. The historical combined financial information presented for periods prior to our separation from GGP will not be indicative of the results of operations, financial position or cash flows that would have been obtained if we had been an independent, stand-alone entity during such periods.

The historical results set forth below do not indicate results expected for any future periods. The selected financial data set forth below are qualified in their entirety by, and should be read in conjunction with, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our financial statements and related notes thereto included elsewhere in this Annual Report on Form 10-K.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that involve risks, uncertainties, assumptions and other factors, including those described in Part I, “Item 1A. Risk Factors” and elsewhere in this Annual Report on Form 10-K. These factors could cause our actual results in 2012 and beyond to differ materially from those expressed in, or implied by, those forward-looking statements. You are cautioned not to place undue reliance on this information which speaks only as of the date of this report. We are not obligated to update this information, whether as a result of new information, future events or otherwise, except to the extent we are required to do so in connection with our obligation to file periodic reports with the SEC.

All references to numbered Notes are to specific footnotes to our Consolidated and Combined Financial Statements included in this Annual Report on Form 10-K and which descriptions are incorporated into the applicable response by reference. The following discussion should be read in conjunctions with such Consolidated and Combined Financial Statements and related Notes.

Overview

The Howard Hughes Corporation’s mission is to be the preeminent developer and operator of master planned communities and mixed-use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities, the redevelopment or repositioning of real estate assets currently generating revenues, also called operating assets, and other strategic real estate opportunities in the form of entitled and unentitled land and other development rights. Our assets are located across the United States. We expect to drive income and growth through entitlements, land and home site sales and project developments. We are focused on maximizing value from our assets, and we continue to develop and refine business plans to achieve that goal.

We operate our business in three segments: master planned communities (“MPC’s”), Operating Assets and Strategic Developments. Unlike real estate companies that are limited in their activities because they have elected to be taxed as real estate investment trusts, we have no restrictions on our operating activities or types of services that we can offer, which we believe provides us with flexibility for maximizing the value of our real estate portfolio.

Master Planned Community development has a significant impact to our business. The cash flows and earnings from the business can be much more variable than from our operating assets because the MPC business generates revenues from land sales rather than recurring contractual revenues from operating leases.

We believe many of our assets require re-positioning to maximize their value. In addition, we are pursuing development opportunities for a number of our assets that were previously postponed due to lack of liquidity resulting from deteriorating economic conditions, the credit market collapse and the bankruptcy filing of our predecessors. We are also developing plans for other assets for which no formal plans had been previously developed.

The development and re-development process for each specific asset can be complex and take from several months to several years prior to the commencement of actual construction. Each local market must be studied, the highest and best use of the land and improvements determined, entitlements and permits obtained, architectural designs made, construction drawings and plans completed, tenant commitments secured, and sources of capital committed. During this period, these activities generally have very little impact on our financial statements relative to the activity and effort involved in the pre-development process.

During 2011, we assessed our assets to identify the best repositioning opportunities, conducted pre-development activities for many of those opportunities and, in certain cases, partnered with local developers to conduct

development activities for the related asset. We are also in the process of creating development plans for several of our assets, determining how to finance their re-development or completion and how to maximize their long term value potential. In addition, we implemented leasing strategies that preserve the flexibility to re-develop operating assets that currently generate cash flows and are re-development candidates, such as Ward Centers, the South Street Seaport and Riverwalk Marketplace. To preserve flexibility, we frequently do not sign long term leases or we otherwise require provisions allowing us to terminate the leases prior to their expiration. These restrictions are typically unattractive to retailers and may negatively impact our rental revenues during this period.

Significant operating and development milestones achieved during 2011 include the following:

- We generated a \$32.3 million increase in MPC land sales revenue for 2011, a 25% increase compared to 2010 (on a “same store basis” assuming The Woodlands was consolidated by us during both periods);
- We acquired our former partner’s 47.5% economic interest in The Woodlands. The transaction enabled us to internalize and leverage The Woodlands’ well-regarded master planned community development team, access attractive commercial development activities in The Woodlands’ Town Center and control of unsold residential and commercial land and cash flowing commercial real estate assets;
- We accelerated lot sales and realized price increases at Bridgeland. Lot sales and average price per lot for 2011 increased by 10% to 318 lots and 1.9% to \$53,000 per lot, respectively, compared with 2010;
- We closed on new or renewal leases totaling 258,480 square feet of space, excluding leases with terms of one year or less, for certain of our retail operating properties, while maintaining the flexibility to redevelop these properties;
- We completed leasing of 4 Waterway Square, a 218,551 square foot office building in The Woodlands. Average net rent per square foot is \$25.36;
- We pre-leased over 67.0% of 3 Waterway Square, a 232,774 square foot office building that will be constructed in 2012 at average net rents per square foot of \$26.16 and at a total cost to build estimated to be \$51.4 million (exclusive of land value and pre-existing garage allocation);
- We completed a 722 stall parking garage at Ward Centers and delivered a 35,744 square foot adjacent retail shell to a new tenant;
- We entered into a letter of intent with the Economic Development Corporation of the City of New York to modify the ground lease to permit the redevelopment of Pier 17 and the option to pursue a mixed use development of the uplands area of South Street Seaport;
- We partnered with a local development team to explore the construction of an approximately 210 unit condominium tower above the Nordstrom Parking garage at Ala Moana Center in Honolulu, HI. We equally own the venture with our partner. The venture values our condominium rights at \$47.5 million, which is a 107.4% premium to our \$22.9 million book value at December 31, 2011;
- We entered into a joint venture with a local developer to construct an approximate 375 unit Class A apartment building with 10,000 square feet of retail space on a 4.2 acre site we own at the Columbia Town Center. This site is named Columbia Parcel D. We equally own the venture with our partner. The venture values our land at approximately \$20.1 million, which is a 570.0% premium to our aggregate \$3.0 million book value at December 31, 2011;
- We formed a joint venture and entered into a development agreement with the owner of land adjacent to our Bridges at Mint Hill site to explore development of a shopping center on our combined properties. The project is entitled for 1.2 million square feet of retail development; and
- We closed on an aggregate \$334.0 million of non-recourse mortgage financings generating approximately \$73.6 million of liquidity and future borrowing capacity. This amount includes a \$250.0 million financing for Ward Centers which repaid three separate securitized mortgages totaling

approximately \$208.7 million. This new five-year financing will provide flexibility to redevelop Ward Centers in phases and also created \$37.5 million of excess proceeds capacity that can be drawn down and reinvested into the property, subject to cash flow coverage tests. We obtained a \$55.0 million first mortgage loan which refinanced approximately \$13.1 million of mortgage debt and is secured by the 4 Waterway Square and 9303 New Trails office buildings. The excess proceeds were used to repay credit facility debt and for working capital. We also refinanced \$29.0 million of mortgage debt secured by the 110 N. Wacker office building with a \$29.0 million mortgage maturing in 2019.

Results of Operations

Our revenues primarily are derived from the sale of individual lots at our master planned communities to home builders and from tenants at our operating assets in the form of fixed minimum rents, overage rent and recoveries of operating expenses.

The Woodlands operating results for historical periods when this investment was a Real Estate Affiliate are now presented on a consolidated basis for the purposes of this Management Discussion and Analysis and segment reporting, in order to provide comparability between periods for analyzing operating results. We continue to reconcile the segment presentation to reported EBT (as defined below). Our other Real Estate Affiliates, including equity investments owned by The Woodlands, primarily represent entities that are accounted for using the equity or cost method as appropriate.

We use a number of operating measures for assessing operating performance of our communities, assets, properties and projects within our segments, some of which may not be common among all three of our segments. We believe that investors may find some operating measures more useful than others when separately evaluating each segment. One common operating measure used to assess operating results for our business segments is real estate property earnings before taxes (“EBT”). Management believes that EBT provides useful information about our operating performance.

We define EBT as net income (loss) from continuing operations excluding general and administrative expenses, corporate interest income and depreciation expense, investment in real estate basis adjustment, benefit from income taxes, warrant liability gain (loss), reorganization items and the effects of the previously mentioned items within our equity in earnings (loss) from Real Estate Affiliates. We present EBT because we use this measure, among others, internally to assess the core operating performance of our assets. We also present this measure because we believe certain investors use it as a measure of a company’s historical operating performance. We believe that the inclusion of certain adjustments to net income (loss) from continuing operations to calculate EBT is appropriate to provide additional information to investors because EBT therefore excludes certain non-recurring and non-cash items, including reorganization items related to the bankruptcy, which we believe are not indicative of our core operating performance.

EBT should not be considered as an alternative to GAAP net income (loss) attributable to common stockholders or GAAP net income (loss) from continuing operations, as it has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of the limitations of this metric are that it:

- does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- does not reflect income taxes that we may be required to pay;
- does not reflect any cash requirements for replacement of depreciated or amortized assets or that these assets have different useful lives; and
- does not reflect limitations on, or costs related to, transferring earnings from our Real Estate Affiliates to us.

See Note 15 of our audited financial statements for additional information about our segments and a reconciliation of EBT to net income (loss) attributable to common stockholders.

Operating Assets Net Operating Income

We believe that net operating income (“NOI”) is a useful supplemental measure of the performance of our Operating Assets. We define NOI as property specific revenues (rental income, tenant recoveries and other income) less expenses (real estate taxes, repairs and maintenance, marketing and other property expenses) and excluding the operations of properties held for disposition. NOI also excludes straight line rents, market lease amortization, impairments, depreciation, ground rent and other amortization expense.

Because NOI excludes general and administrative expenses, interest expense, impairments, depreciation and amortization, gains and losses from property dispositions, allocations to non-controlling interests, reorganization items, strategic initiatives, provision for income taxes, discontinued operations and extraordinary items, the Company believes that it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating real estate properties and the impact on operations from trends in occupancy rates, rental rates, and operating costs. The Company uses NOI to evaluate its operating performance on a property-by-property basis because NOI allows the Company to evaluate the impact that factors such as lease structure, lease rates and tenant base, which vary by property, have on the Company’s operating results, gross margins and investment returns.

In addition, we believe that NOI provides useful information to the investors about the performance of our Operating Assets. However, due to the exclusions noted above, NOI should only be used as an alternative measure of the financial performance of such assets and not as an alternative to GAAP operating income (loss) or net income (loss) available to common stockholders. For reference, and as an aid in understanding our computation of NOI, a reconciliation of NOI to EBT has been presented in the Operating Assets segment discussion below and a reconciliation of EBT to consolidated operating income (loss) from continuing operations as computed in accordance with GAAP has been presented in Note 15.

Year Ended December 31, 2011, 2010 and 2009

Master Planned Communities Segment

MPC revenues vary between years based on economic conditions and several factors such as location, development density and commercial or residential use, among others. Reported GAAP earnings results may differ significantly from actual cash flows generated principally because cost of sales for GAAP purposes is a reduction from earnings and is derived from margins calculated using carrying values, projected future improvements and other capitalized costs in relation to future land sale revenues. Carrying values generally represent acquisition costs and improvements incurred by us and our predecessors in prior periods and may also have been previously written down through impairment charges. Expenditures for improvements in the current period are capitalized and therefore generally would not be reflected in the income statement in the current year.

MPC Sales Summary

	Land Sales		Acres Sold				Number of Lots/Units				Price per acre				Price per lot			
			Year Ended December 31, 2011															
	2011	2010	2009	2011	2010	2009	2011	2010	2009	2011	2010	2009	2011	2010	2009	2011	2010	2009
Residential Land Sales																		
Columbia	\$ 1,480	\$ 2,400	\$ 500	1.4	1.9	1.0	7	12	4	\$1,040	\$1,275	\$ 531	\$211	\$200	\$125

Less: Real Estate Affiliates land sales revenue	(47,879)	(90,986)	(62,724)															
Total land sales revenue - GAAP basis	\$113,502	\$ 38,058	\$ 34,563															

Total segment land sales have increased to \$161.4 million for the year ended December 31, 2011 from \$129.0 million and \$97.3 million for the years ended December 31, 2010 and 2009, respectively. Revenues for Bridgeland, Summerlin and The Woodlands have increased each year since 2009. Columbia is nearly sold out, and has just 202 remaining saleable acres as of December 31, 2011. Excluding a \$15.0 million land sale transaction during 2009, Columbia's sales have also increased each year since 2009.

In 2011, we sold 364 residential acres compared to 266 and 426 in 2010 and 2009, respectively. Acres sold in 2009 include the bulk sale of 239 acres at our Fairwood project in Columbia. This transaction represented nearly all of the remaining saleable land at Fairwood. These acreage sales represented approximately 1,657 lot sales for 2011, compared to 1,218 and 963 (excluding Fairwood) for the years ended December 31, 2010 and 2009, respectively. Lot sales from The Woodlands and Bridgeland communities from 2009 to 2011 represent 85.1% of all MPC lot sales during that three year time period. During 2011, residential lot sales for The Woodlands and Bridgeland increased 10.5% and 10.0%, respectively, over 2010, while residential lot sales in 2010 increased by 41.7% and 41.6%, respectively, over 2009. In 2011, The Woodlands' average lot prices increased by 4.3% to \$88,986 and Bridgeland's average price per lot increased by 1.9% to \$53,000 over this same period. The Woodlands' average lot price decreased by 8.0% for the year ended December 31, 2010 compared to 2009, and Bridgeland's average lot prices increased by 4.3% during the same period.

Commercial land sales at The Woodlands decreased by 39.0% to \$14.4 million for 2011 compared to 2010 while commercial sales in 2010 increased by 59.7% as compared to 2009. The decrease principally reflects a change in strategy for The Woodlands since we acquired a controlling interest in 2011. In prior years, ownership favored generating cash from commercial land sales to deliver dividends to the parent companies. We believe that the commercial land, especially within and surrounding The Woodlands Town Center, is poised for strategic growth and we may develop and hold properties in this desirable area. We believe that through controlling a greater share of the commercial development within The Woodlands, we can better serve our customers and generate premium rents by doing so.

Bridgeland had no commercial land sales during 2011. We expect minimal commercial sales until new home sales generate a critical mass of demand for local commercial retail, office and lodging properties.

The Houston, Texas area has benefitted from a strong energy sector. According to the Bureau of Labor Statistics ("BLS"), the area's unemployment rate at the end of 2011 was approximately 7.6%, nearly one percentage point lower than the 8.5% national average. ExxonMobil is constructing a large corporate campus on a 400 acre site just south of The Woodlands. The site is expected to include approximately 20 buildings, representing 3 million square feet of space. According to several reports, ExxonMobil expects to begin relocating employees into this new location starting in 2014 and ending in 2015. We believe that the direct and indirect jobs related to this relocation will have a significantly positive impact on The Woodlands and Bridgeland due to increased housing demand, as well as commercial space needs for companies servicing ExxonMobil. As of December 31, 2011 The Woodlands has approximately 3,669 residential lots remaining, which represents approximately six years of expected future sales. Bridgeland, which is in its early stages of development, has approximately 18,900 lots remaining to be developed, representing an estimated 25 years of expected future sales.

Our acquisition of our partner's interest in The Woodlands has allowed us to integrate The Woodland's operations into our company. We also consolidated the management teams of The Woodlands and Bridgeland and expect that we can leverage The Woodlands' 37-plus years of development experience to Bridgeland's benefit.

Residential land sales at our Summerlin community improved to \$30.9 million for the year ended December 31, 2011, compared to \$11.2 million and \$0.6 million for the years ended December 31, 2010 and 2009, respectively. The Las Vegas residential market continues to be challenging. According to the BLS, the Las Vegas, NV area unemployment rate was approximately 12.5% at the end of 2011, four percentage points higher than the national average. New home closings in the overall market were down approximately 30% in 2011 compared to 2010 and

increased 2% in 2010 compared to 2009. The increase from 2009 to 2010 was caused primarily by the federal tax incentive for first-time homebuyers. The housing market has been burdened by foreclosures, short-sales, downward price pressures and a significant percentage of the population in their current homes having negative equity. A total of 3,894 home closings were recorded in 2011, the lowest in 23 years, down from its peak of nearly 39,000 units in 2005. Additionally, the median price for a new home was \$212,250 in 2011, down from over \$330,000 at the top of the market. Due to uncertain local economic conditions and the continued challenging housing market, it remains difficult to predict homebuilder demand. From September to December 2011, we had two builders that did not close on contracts representing \$18.8 million of potential revenues for 212 lots in 2011, and \$4.8 million of potential revenues representing 56 lots in 2012. The builders forfeited approximately \$1.8 million of deposits to us for not closing on the lots.

In early 2012 builder activity at Summerlin has begun to increase. Year to date through February 28, 2012, Summerlin has entered into residential lot sale contracts with four homebuilders for 153 lots and two superpad sites representing approximately \$22.5 million of revenues if all of the sales are completed. Approximately \$21.2 million of the sales are scheduled to occur in 2012, with the remaining \$1.3 million scheduled for 2013.

Major Items of Revenues and Expenses

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
Master Planned Communities (*)			
Land sales	\$161,382	\$ 129,044	\$ 97,287
Builder price participation	4,924	6,901	8,976
Other land sale revenues	17,732	15,186	15,520

Cost of sales - land	94,040	73,133	51,235
Land sales operations	36,505	45,192	47,460
Provisions for impairments	—	405,331	52,766
Depreciation and amortization	48	128	146
Interest, net	(3,562)	(7,094)	(4,522)
Total expenses	127,031	516,690	147,085
Venture partner share of The Woodlands EBT	(6,202)	(14,434)	(8,837)
MPC EBT	\$ 50,805	\$(379,993)	\$(34,139)

(*) Our master planned communities segment includes revenues and expenses related to The Woodlands at 100%. On July 1, 2011, we acquired our partner's equity interest. As a result of the acquisition, we now consolidate The Woodlands operations. Prior to the acquisition, The Woodlands was accounted for using the equity method. For a detailed breakdown of EBT, refer to Note 15.

Land sales increased \$32.3 million for the year ended December 31, 2011 as compared to the year ended December 31, 2010. The increase for the year ended December 31, 2010 as compared to 2009 was \$31.8 million. These year to year increases were due to factors described more fully above.

Builder price participation represents the contractual percentage we collect from builder home settlements. Generally the percentage ranges from one to two percent of the home price, but can vary by contract and by community. Builder price participation has declined in each year as home settlements have slowed in Summerlin and home sales in Bridgeland and Summerlin are at lower price points producing lower builder price participation. The decline is also impacted by a change in strategy at The Woodlands. During 2010 land sales contracts were restructured to eliminate price participation in exchange for a greater fixed lot sale price. Participation amounts collected at lot closing are considered to be a part of land sales revenue.

Other revenue for the year ended December 31, 2011 is \$17.7 million. It is comprised of \$5.2 million of ground maintenance revenue and \$3.2 million of energy easement fees from The Woodlands. Also included are \$2.6 million of home owner's association fees and \$1.8 million of income from contract defaults from Summerlin and

\$0.8 million in revenue recognized as a result of a reduction in a contingent purchase price obligation to a former owner at Bridgeland. The balance is made up of several income items from all of our communities. Some of these items are transfer fees, advertising fees, ground rent and interest income.

Other revenue for the year ended December 31, 2011 increased \$2.5 million as compared to 2010 primarily because of the \$1.8 million collected from contract defaults from Summerlin and \$0.8 million of revenue recognized as a result of a reduction in a contingent purchase price obligation at Bridgeland. These items were not present in 2010. The amount for the year ended December 31, 2010 as compared to 2009 is consistent.

Land sales margins were 41.7%, 43.3% and 47.3% for the periods ended December 31, 2011, 2010 and 2009, respectively. The decrease in the 2011 margin as compared to 2010 was principally caused by higher cost percentage attributed to The Woodlands sales in the third and fourth quarters of 2011. The majority of The Woodlands third and fourth quarter cost of sales reflected the finished lots at the fair value established in connection with our July 1, 2011 acquisition of our partner's interest. Once the approximately 577 acquired finished lots are sold, The Woodlands margins are expected to return to levels approximating 44.0%. Also, Summerlin sales, which have a lower margin than Bridgeland and The Woodlands, comprised a larger portion of total sales for 2011 than in 2010. The decline in the margins from 2009 to 2010 was due to the majority of our sales occurring in Bridgeland, Columbia and The Woodlands in 2009. Summerlin sold one custom lot and one commercial lot in 2009. Costs of land sales is based on carrying values of the lots sold and varies by community based on historical purchase price of the land and improvements made, and to be made, by us, less any impairment charges previously recorded on the land.

Land sales operations costs decreased \$8.7 million for the year ended December 31, 2011 as compared to the year ended December 31, 2010, and decreased \$2.3 million for the year ended December 31, 2010 as compared to 2009. The decrease in 2011 as compared to 2010 is principally due to approximately \$6.6 million of real estate tax savings in our Summerlin project as a result of a successful tax appeal, in addition to approximately \$2.6 million of reduced net legal costs related to development matters in our Summerlin and Bridgeland communities. During 2011, we collected approximately \$0.8 million of settlements which reduced our overall net legal costs. The decrease in land sales operations costs from 2009 to 2010 is primarily related to management efforts to reduce payroll and overhead costs, marketing and other land related costs during a sluggish economy.

Master Planned Communities recorded impairment charges of \$345.9 million for Summerlin South and \$59.4 million for Columbia and Gateway in 2010, and \$52.8 million for Fairwood in 2009. There were no impairment charges in 2011. The detail of these impairment charges are described below.

Interest, net reflects the amount of interest that is capitalized at the project level. The decrease is related to lower company interest costs for the year ended December 31, 2011 due to our current debt structure as compared to our Predecessors for the years ended December 31, 2010 and 2009.

In addition to EBT for the Master Planned Communities, management believes that certain investors measure the value of the assets in this segment based on their annual contribution to liquidity and capital available for investment. Accordingly, the following table sets forth MPC Net Contribution for the years ended 2011, 2010 and 2009. MPC Net Contribution is defined as MPC EBT, plus MPC cost of sales, provisions for impairment and depreciation and amortization, and reduced by MPC development and acquisition expenditures.

MPC Net Contribution

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
MPC EBT (*)	\$50,805	\$(379,993)	\$(34,139)
Plus:			
Cost of sales - land	82,672	49,504	40,163
Provisions for impairments	—	405,331	52,766
Depreciation and amortization	26	75	92
Less:			
MPC land/residential development and acquisitions expenditures	89,169	57,138	61,226
MPC Net Contribution	\$44,334	\$ 17,779	\$ (2,344)

(*) Our master planned communities segment includes revenues and expenses related to The Woodlands Partnerships. On July 2, 2011, we acquired our partner's equity interest. As a result of the acquisition, we now consolidate The Woodlands' operations into our consolidated financial statements. Prior to such acquisitions, we accounted for The Woodlands using the equity method. For a detailed breakdown of EBT, refer to Note 15.

The improvement in MPC Net Contribution during 2011 compared to 2010 and 2009 is primarily attributable to increased land sales and the results of efforts to reduce operational costs. Although MPC Net Contribution can be computed from GAAP elements of income and cash flows, it is not a GAAP based operational metric and should not be used to measure operating performance of the MPC assets as a substitute for GAAP measures of such performance. A reconciliation of EBT to consolidated operating income (loss) from continuing operations as computed in accordance with GAAP has been presented in Note 15.

Operating Assets Segment

We view NOI as an important measure of the operating performance of our Operating Assets. These assets typically generate rental revenues sufficient to cover their operating costs, and variances between years in net operating income typically results from changes in rental rates, occupancy, tenant mix and operating expenses.

- (a) Straight-line ground rent amortization was excluded from 2010 and 2009 amounts to conform to the 2011 presentation and to be consistent with the exclusion of straight-line revenues.
- (b) Includes a provision for bad debt of \$1.2 million related to a single tenant.
- (c) Amounts relating to an operating lease in which we are the lessee and the related sublease income totaling \$0.1 million and less than \$0.1 million for 2010 and 2009, respectively, and which were included in Columbia Operating Properties for 2011, 2010 and 2009, were reclassified to general and administrative expenses to conform to the 2011 presentation.
- (d) Since November 2009, a portion of The Woodlands' staff has occupied from approximately 5,900 square feet to almost 10,000 square feet of this building.
- (e) Adjustments to NOI include straight-line and market lease amortization, depreciation and amortization and non-real estate taxes.

Retail Properties

Ward Centers NOI for 2011 decreased by approximately \$1.5 million compared to 2010 primarily due to lower rental revenue of \$0.6 million (principally as a result of a bankrupt tenant), higher compensation, legal, travel and other non-recoverable costs of \$0.9 million and higher energy costs of \$0.5 million. These negative variances were partially offset by lower bad debt expense of \$0.7 million due to the collection of aged receivables. The \$0.8 million increase in NOI for 2010 compared to 2009 is primarily due to new specialty leasing tenants taking occupancy in late 2009 and early 2010.

South Street Seaport NOI for 2011 increased by \$1.4 million compared to 2010. The increase was primarily the result of new leasing and new kiosk cart rental revenue of approximately \$1.4 million in addition to \$1.2 million of tenant receivable collections for which a reserve was established in prior years, partially offset by approximately \$1.2 million of higher expenses, including \$0.4 million higher professional and legal fees in 2011 as compared to 2010.

Rio West Mall's NOI for 2011 decreased by \$0.6 million as compared to 2010 primarily due to the bankruptcy of two major tenants, as well as increased overhead and property management costs. Some leasing terms were adjusted to a gross rents basis resulting in excess occupancy costs being absorbed by the property and not passed on to the tenants.

Riverwalk Marketplace's NOI for 2011 decreased by \$0.2 million compared to 2010 primarily due to a one-time tenant settlement of \$0.4 million received during 2010. This decrease was partially offset by higher specialty leasing revenues and higher tenant recoveries in 2011.

Landmark Mall's NOI for 2011 decreased by \$0.9 million primarily because of increased vacancies and a change from base minimum rents to percent lieu for certain tenants who are having financial difficulties. Occupancy costs for tenants on percent in lieu of rents leases are generally not recoverable, resulting in our absorbing a greater percentage of the property's operating costs. The \$0.9 million decrease in NOI for the year ended December 31, 2010 compared to 2009 resulted from one of the mall's anchor tenants vacating.

Park West's NOI for 2011 improved by \$0.2 million over 2010 principally as a result of lower property taxes from lower assessed property values in 2011. This operating asset continues to suffer from a weak market and its occupancy was 64.9% at December 31, 2011. We are focused on attracting tenants who can drive increased traffic during the day and evening, such as entertainment concepts. If we are unsuccessful at increasing occupancy and traffic, many of our existing tenants may be unable to continue to occupy their leased spaces because their sales volumes will likely be inadequate to support their operating costs.

20 and 25 Waterway Avenue and Waterway Garage Retail were completed in 2007 and 2009, respectively and are located at The Woodlands. As of December 31, 2011, 20 and 25 Waterway Avenue are 100% leased and are expected to reach stabilized annual NOI of approximately \$1.6 million in the first quarter of 2012.

Waterway Garage Retail is 19.3% leased. Before retail properties are fully leased and have stabilized, we do not think yearly comparisons are informative.

Office Properties

All of the office properties listed in the NOI schedule, except for 110 N. Wacker and the Columbia Office Properties, are located in The Woodlands.

110 N. Wacker NOI increased in 2010 primarily due to an increase in the tenant's rental rate effective in November 2009.

4 Waterway Square was completed in 2010 and is 98.9% leased as of December 31, 2011. The asset is expected to reach stabilized annual NOI of \$5.5 million in the second quarter of 2012. Before office properties are fully leased and have stabilized, we do not think yearly comparisons are informative.

9303 New Trails is 100% leased as of December 31, 2011. The asset is expected to reach stabilized annual NOI of \$1.8 million in the second quarter 2012. From November 2009 through January 2012, we occupied a portion of the office space ranging from 5,914 square feet to 9,969 square feet, which represents 6.1% and 10.2% respectively, of the total building square footage; however, we moved into another third party owned asset in January 2012.

Other

The Woodlands Resort and Conference Center's \$3.3 million increase in NOI for 2011 compared to 2010 is due primarily to higher overall revenue per available room (which is the average daily room rate multiplied by average occupancy), which increased 16.0% to \$95.73 compared to \$82.52 for the same period in the prior year. Increased business activity and improving economic conditions at The Woodlands and surrounding areas, including higher commercial occupancies, are driving increased revenue and NOI as compared to 2010. Revenue per available room also increased by 6.9% in 2010 from \$77.16 in 2009, but the increased revenues were more than offset by higher fixed costs in 2010.

The Club at Carlton Woods (the "Club") is a 36-hole golf and country club at The Woodlands with 565 total members as of December 31, 2011. We estimate the Club requires approximately 800 members to achieve break-even NOI, and therefore we expect to incur NOI losses into the foreseeable future. The Club's NOI loss increased by \$1.2 million to \$5.1 million for the year ended December 31, 2011, however, 2010 NOI includes approximately \$1.6 million of income relating to inactive lot incentives. The incentives were built into the total sales price of the lots and purchasers of homes at the Club, and the purchasers of such lots receive credit toward membership initiation fees at the Club. They have 60 days after closing on the home purchase to do so. The inactive lot incentive amount represents unused credits that had accumulated over the years. Excluding these credits, 2010 NOI loss would have been \$5.4 million.

The Club's revenues and expenses are included in other property and rental revenues, and other property operating costs. Such amounts were \$11.4 million and \$16.5 million, respectively, for the year ended December 31, 2011, \$9.4 million and \$14.9 million, respectively, for the years ended December 31, 2010, and \$9.4 million and \$14.7 million, respectively, for the year ended December 31, 2009.

The Woodlands Parking Garages comprise nearly 3,000 parking spaces in two separate parking structures. The Waterway Square Garage (1,942 spaces) is located in The Woodlands Town Center and has excess parking

capacity for future commercial development. Woodloch Forest garage has approximately 1,000 total spaces with 300 spaces available for future adjacent office development. Until such development is undertaken, we anticipate the excess capacity to generate losses. NOI decreased by \$0.9 million for the year ended December 31, 2010 compared to 2009 primarily because the Waterway Square Garage was put into service in the fourth quarter of 2009. Prior to being put into service no costs would have been expensed.

Partially Owned

The Millennium Waterway Avenue Apartments are approximately 95.4% leased as of December 31, 2011, and had an average occupancy of 74.6% for 2011. The apartments were in their initial lease-up period during 2011 and we expect these apartments to reach annual NOI of approximately \$4.6 million during 2012.

Major Items of Revenues and Expenses

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
Operating Assets (*)			
Minimum rents	\$ 72,405	\$ 69,937	\$ 70,267
Resort and conference center revenues	34,850	28,850	29,314
Other rental and property revenues	41,318	41,874	39,281
Total revenues	148,573	140,661	138,862
Rental property real estate taxes	11,924	12,148	11,267
Rental property maintenance costs	6,758	7,225	5,827
Resort and conference center operations	27,012	24,471	23,842
Other property operating costs	54,748	47,491	51,213
Provisions for doubtful accounts	—	1,760	2,296
Provisions for impairment	—	80,923	50,964
Depreciation and amortization	20,309	23,461	26,482
Interest, net	10,850	17,183	14,146
Early Extinguishment of debt	11,305	—	—
Equity in Earnings from Real Estate Affiliates	(3,926)	338	(2,172)
Total expenses	138,980	215,000	183,865
Venture partner share of The Woodlands EBT	(91)	1,945	2,864
Operating Assets EBT	\$ 9,502	\$ (72,394)	\$ (42,139)

(*) For a detailed breakdown of our Operating Assets segment EBT, refer to Note 15. Such amounts include The Woodlands at 100%.

Minimum rents increased \$2.5 million in 2011 compared to 2010 primarily due to 4 Waterway Square reaching full stabilization in 2011.

Resort and conference center revenues for 2011 are up as discussed above due to a 4.4% increase in the average daily room rate as well as an 11.1% increase in occupancy as compared to 2010. Resort and conference center operations expenses increased as a result of higher occupancy.

Other property operating costs increased \$7.3 million to \$54.7 million for the year ended December 31, 2011 compared to 2010, and decreased by \$3.7 million in 2010 compared to the year ended December 31, 2009. These costs generally include recoverable and non-recoverable costs relating to our properties, with the exception of real estate taxes and maintenance costs which are shown separately. The principal reasons for the increase in

2011 compared to 2010 were, a \$0.5 million increase related to certain insurance costs \$0.5 million of increased legal costs recorded at our properties, \$0.8 million of higher utilities costs, and \$1.5 million related to increased operating costs at the Club. The \$3.7 million decrease in other property operating costs from 2009 to 2010 was primarily attributable to lower building lease back rent for The Woodlands of 2.5 million which expired in 2009.

Depreciation expense decreased \$1.8 million at Riverwalk and \$1.1 million at Landmark as a result of impairment charges in prior years offset somewhat by increased depreciation expense at Ward Centers of \$1.3 million, principally relating to putting the new parking garage in service during 2011. Depreciation expense for The Woodlands' operating assets decreased by \$1.4 million due to the assets being remeasured at fair value as of the date of acquisition. The \$3.0 million decrease in depreciation expense from 2009 to 2010 is primarily a result of impairment taken during 2009 and 2010.

The provision for bad debts in 2010 included \$1.2 million relating to a single tenant at South Street Seaport. In 2011, the tenant agreed to a payment plan which requires payment of current amounts when due and payment of past due balances. As of December 31, 2011 the tenant has substantially complied with the agreement resulting in a favorable variance for 2011 as compared to 2010.

In 2011, interest expense decreased from prior year primarily due to the refinancing at Ward Centers. In 2010, GGP allocated interest expense of \$2.7 million to Ward Centers as part of their corporate allocations. Additionally, the early extinguishment of debt amount of \$11.3 million in 2011 resulted from the debt refinancing at Ward Centers in the third quarter.

We received distributions of \$3.9 million from our Summerlin Hospital cost investment in the first quarter of 2011. We did not receive a distribution in 2010. Dividends by Summerlin Hospital are typically made one time per year; however, no dividends were paid in 2010 principally due to a capital project at the hospital. Approximately \$2.0 million of the amount received in the first quarter of 2011 relates to calendar year 2010. The remaining \$1.9 million relates to periods prior to 2010 which were deferred pending completion of the capital project.

Strategic Developments Segment

Our Strategic Development assets generally require substantial future development to achieve their highest and best use. Most of the properties in this segment generate no revenues. Our expenses relating to these assets are primarily related to carrying costs, such as property taxes and insurance, and other ongoing costs relating to maintaining the assets in their current condition. If we decide to redevelop a Strategic Development asset, we would expect that, upon completion of redevelopment, the asset would be reclassified to the Operating Assets segment and NOI would become an important measure of its operating performance.

Major Items of Revenues and Expenses

	Year Ended December 31,		
	2011	2010	2009
	(In thousands)		
Strategic Developments (*)			
Minimum rents	\$ 917	\$ 1,015	\$ 1,902
Condominium unit sales	22,067	1,139	—
Other rental and property revenues	1,877	363	(2,262)
Total revenues	24,861	2,517	(360)
Condominium unit cost of sales	14,465	1,000	—

Total expenses	21,550	28,887	603,443
Strategic Developments EBT	\$ 3,311	\$(26,370)	\$(603,803)

(*) For a detailed breakdown of our Strategic Developments segment of EBT, refer to Note 15.

During 2011, Nouvelle at Natick sold 57 condominium units and there are two remaining for sale as of December 31, 2011. These sales were a significant source of cash flow for 2011 which will not be replicated in 2012.

The increase in other rental and property revenues for 2011 as compared to 2010 is primarily due to the sale of two ancillary parcels of land, aggregating approximately 4.6 acres, at the Kendall Town Center property which occurred in the third quarter of 2011. In 2009, Kendall Town Center sold land parcels at a \$3.9 million loss. This loss was partially offset by other income from various Strategic Development properties.

Rental and other property operations decreased in 2011 as compared to 2010 primarily due to a \$1.3 million property tax refund resulting from a tax protest associated with our Elk Grove development which occurred in the first quarter of 2011. Rental property operations increased \$2.1 million in 2010 as compared to 2009, as certain costs such as overhead that were previously capitalized were expensed as development efforts on all of the properties in our Strategic Developments segment were postponed.

Certain Significant Consolidated and Combined Expenses

The following table contains certain significant expenses on a consolidated and combined basis that are not otherwise included within the segment analyses. Variances related to income and expenses included in NOI or EBT are explained within the segment variance discussion contained within this Item 7 using the combined consolidated and proportionate share of our non-consolidated Real Estate Affiliates revenues and expenses associated with the related segment. Significant variances for combined expenses not included in NOI or EBT are described below.

(In thousands)	Year Ended December 31,		
	2011	2010	2009
General and administrative	\$ (35,182)	\$ (21,538)	\$ (23,023)

Benefit for income taxes	18,325	633,459	23,969
Equity in earnings from Real Estate Affiliates	8,578	9,413	(28,209)
Reorganization items	—	(57,282)	(6,674)

We did not become a public company and did not operate as an entity separate from GGP until November 9, 2010; therefore, our 2010 and 2009 financial results reflect allocations made by GGP for general and administrative expenses based on actual costs incurred, or are based upon our percentage of GGP's total assets and revenues. Since our separation from GGP, we have been operating as an independent public company and have been building our organization to analyze, create and implement development plans for our assets. On July 1, 2011, we consolidated the operations of The Woodlands, increasing our employee base from 190 employees to 835 employees at December 31, 2011. For these reasons, we do not believe that current year general and administrative expenses are comparable to prior year amounts.

Our general and administrative costs for 2011 totaled \$35.2 million, of which \$5.7 million was attributable to The Woodlands. General and administrative expenses of \$29.5 million, excluding The Woodlands, increased by \$8.0 million over 2010, principally due to infrastructure growth and our becoming an independent public company on November 9, 2010. Non-equity based compensation costs totaled approximately \$18.1 million and non-cash stock compensation costs totaled \$3.2 million for the year ended December 31, 2011. If all corporate personnel employed as of December 31, 2011 and whose compensation is included in general & administrative expenses had been employed as of January 1, 2011, we estimate our cash compensation costs would have been approximately \$22.6 million for 2011. For 2011, our consulting, transitional services, recruiting and temporary staffing costs were approximately \$3.0 million. Many of these costs relate to our transition to an independent public company and the building of infrastructure. We expect these costs to be significantly lower in 2012. Legal, accounting, internal audit and other professional services totaled \$5.7 million for 2011. The remaining \$5.2 million of costs primarily represent occupancy, travel, IT infrastructure and public company costs.

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized as a result of the bankruptcy filings under Chapter 11. These items include professional fees and similar types of expenses incurred directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the debtors. Due to the consummation of the reorganization plan in November 2010, no items were classified as reorganization items in 2011. See Note 1 – Reorganization items for additional detail.

Emergence initiatives, included in general and administrative costs, for the year ended December 31, 2009 consist of professional fees for restructuring that were incurred prior to the filing for protection under the Bankruptcy Code of certain of our subsidiaries. Similar costs incurred after filing for protection under the Bankruptcy Code are recorded as reorganization items.

Impairments

We evaluate our real estate assets for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. Recoverability in this context means that the expected cumulative undiscounted future cash flows of an asset are less than its carrying value. The recoverability analysis, as an accounting concept, considers hold periods, but ignores when the future cash flows are expected to be received within that hold period and whether we currently expect to receive an above or below market rate of return over our anticipated holding period. If expected cumulative undiscounted cash flows are less than carrying value, then we are required to record the asset at the lower of its carrying value or fair value. The process for deriving fair value involves discounting the expected future cash flows at a rate of return that we believe an investor would require based on the risk profile of the cash flows and returns available in the market for other investments having similar risk. We may also use other inputs such as appraisals and recent transactions for comparable properties, if appropriate. Book value for assets that have been recently impaired from an accounting perspective may more likely reflect market value than book values of assets that have not been impaired; consequently, unimpaired assets may be expected to generate above or below market returns relative to their respective book values. The lower book basis resulting from an impairment charge increases reported profitability from the asset in future periods, but has no impact on cash flow. As of December 31, 2011 we evaluated whether impairment indicators existed at all of our assets. In most instances, we concluded no impairment indicators were present. When indicators of impairment were present, we reconsidered expected cash flows and concluded that there were no impairments. We recorded \$503.4 million and \$680.3 million of impairment charges for the years ended December 31, 2010 and 2009, respectively.

We are focused on maximizing value for stockholders. To achieve this, we seek to implement strategies that increase the value of an asset, not necessarily the aggregate of its future undiscounted cash flows. As such, a given strategy may result in an accounting impairment charge even though we believe that such strategy will maximize the value of the asset.

Master Planned Communities Impairments

Impairment charges to our master planned communities totaled \$405.3 million and \$52.8 million for the years ended December 31, 2010 and 2009, respectively. There were no impairments recorded for the year ended December 31, 2011. Large master planned community assets by their nature have characteristics that may create a wider range of outcomes in an impairment analysis compared to other types of real estate such as office, retail and industrial facilities. Unlike operating real estate, master planned community assets have extended life cycles that may last 20 to 40 years and have few long-term contractual cash flows (such as operating lease revenue). Further, the majority of the master planned community assets generally have minimal to no residual values because of their liquidating characteristics and development periods often occur through several economic cycles. Subjective factors such as the expected timing of property development and sales, optimal development density and sales strategy impact the timing and amount of expected future cash flows and fair value.

Our master planned communities comprise thousands of acres that include distinct communities. Our management team may implement development strategies for those communities that are different than those planned by our predecessors. Such strategies vary from those of our predecessors and may warrant separate impairment evaluation for regions or projects within a single master planned community if we believe the cash flows for those assets are independent from other regions or projects within the community. Separating master planned communities into multiple entities for impairment testing may result in a different accounting conclusion than if the community was evaluated as a whole; however, the accounting has no impact on economic value or fair value.

Our two remaining developable Summerlin regions (South and West) are separated for impairment testing because their characteristics and future business plans are distinct. In December 2010, we modified our business plans for Summerlin South based on our expectation to: (1) replace high density product with low density product; (2) change the strategy from developing and selling finished lots to the sale of undeveloped pads; and (3) reduce saleable acre assumptions for a high-end village having significant topography and development challenges. As a result, projected undiscounted future cash flows for Summerlin South were less than its then carrying value and this asset was impaired as of December 31, 2010. We recorded a \$345.9 million pre-tax charge to write down Summerlin South to its estimated \$203.3 million fair value at December 31, 2010.

At December 31, 2010, we also recorded \$56.8 million and \$2.6 million pre-tax impairment charges for the Columbia and Gateway, Maryland properties, respectively. Columbia was written down to a \$34.8 million fair value based on a ten-year land sale program for the future mixed-use development of 4.9 million square feet. For the year ended December 31, 2009, we recorded a \$52.8 million pre-tax impairment charge for the Fairway, Maryland property.

Operating Assets Impairments

There were no impairments recorded for the year ended December 31, 2011. Operating property pre-tax impairments within our Operating Assets segment totaled \$80.4 million and \$51.0 million for the years ended December 31, 2010 and 2009, respectively. Riverwalk Marketplace and Landmark properties were impaired by \$56.0 million and \$24.4 million, respectively, and their estimated fair values were \$10.2 million and \$23.8 million, respectively, as of December 31, 2010. Riverwalk was evaluated based on our current plan to reposition and hold the asset for an 11-year period, and we applied an 8.5% discount rate to the estimated future cash flows and derived a residual value on the leasehold interest using a 8.5% capitalization rate. The Landmark property impairment is based on an appraisal which incorporates many factors including, but not limited to, physical condition, location, demographics and retail market condition. For the year ended December 31, 2009, we took a \$27.3 million pre-tax impairment charge relating to the Landmark property. We have not yet created a specific re-development plan for this asset.

Strategic Developments Impairments

There were no impairments recorded for the year ended December 31, 2011. Strategic Developments properties pre-tax impairments totaled \$17.0 million and \$600.3 million for the year ended December 31, 2010 and 2009, respectively. Century Plaza Mall (Birmingham, AL) and Nouvelle at Natick (Natick, MA) properties were impaired by \$12.9 million and \$4.1 million, respectively, and their estimated fair values are \$4.5 million and \$13.4 million, respectively, as of December 31, 2010. Century Plaza Mall is a vacant property for which we do not currently have a re-development plan, and the impairment is based upon our best estimates utilizing, among other things, a broker's opinion of value. Nouvelle is a condominium development for which the estimated fair value is based on discounted cash flow analysis of the remaining units available for sale. The impairments for the year ended December 31, 2009 relate to ten Strategic Development assets. Elk Grove Promenade and The Shops at Summerlin Centre were the largest two impairments at \$175.3 million and \$176.1 million, respectively.

Two regions within our Master Planned Communities had impairment indicators and carrying values in excess of estimated fair value at December 31, 2011. Aggregate undiscounted cash flows for such master planned communities projects significantly exceeded their respective aggregate book values and therefore no impairment provisions were required with respect to such projects at December 31, 2011. The significant assumptions in our Master Planned Communities segment relate to future sales prices of land and future development costs needed to prepare land for sale, over the planned life of the project, which are based, in part, on assumptions regarding sales pace, timing of related development costs, and the impact of inflation and other market factors. With respect to operating properties within our Operating Assets segment at December 31, 2011, there were three operating properties which had impairment indicators. The estimated undiscounted cash flows for such operating properties exceeded their book values by 109%. A significant assumption for these operating properties is our

future revenue assumption. The combined book value of the three properties is \$115.8 million. A reduction of the estimated undiscounted cash by 10% would result in the impairment of Park West.

The decrease in depreciation and amortization for the years ended December 31, 2011 and 2010, primarily resulted from the decrease in the carrying amount of buildings and equipment due to the impairment charges recorded in 2010 and 2009.

All interest expense for 2011 was capitalized as part of the development costs within the Master Planned Community and Strategic Developments segments in accordance with our capitalized interest policy. We recognized a loss of \$11.3 million during the third quarter of 2011 related to the debt refinancing at Ward Centers. The \$11.3 million represented the unamortized market rate adjustment as of the date of refinancing. Interest expense increased during the year ended December 31, 2010 primarily due to a \$1.9 million increase in the amortization of debt market rate adjustments, partially offset by a \$0.4 million decrease in the amortization of deferred finance costs.

The increase in the benefit for income taxes for the year ended December 31, 2010 was primarily attributable to the creation of certain deferred tax assets prior to separation from GGP as a result of the transfer of certain of our predecessors' REIT assets to taxable entities (for more information see Note 9) and a decrease in deferred tax liabilities due to our impairments, partially offset by a significant increase in valuation allowances compared to the year ended December 31, 2009.

The \$37.6 million increase in our equity in income (loss) of Real Estate Affiliates in 2010 was primarily due to the 2009 recognition of \$10.6 million of impairment on our investment in Circle T as well as the recognition in 2009 by the Circle T venture of impairment of \$38.1 million, of which our share was \$19.0 million. See Note 6 for additional information on our Real Estate Affiliates.

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized by our predecessors as a result of their bankruptcy. These items include professional fees and similar types of expenses incurred directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the our predecessors. See Note 2 – Reorganization Items for additional detail.

Our net loss in 2010 reflects our operations prior to and subsequent to the spin-off from GGP. Income for the period prior to the spin-off, as detailed in the accompanying Statement of Equity, was attributable to GGP and reflects significant income tax benefits from restructuring. For more information see Note 9. The loss subsequent to the spin-off of \$528.5 million is primarily attributable to the impairment charges and warrant liability expense described above.

Liquidity and Capital Resources

Our primary sources of cash for 2011 include cash flow from land sales in our Master Planned Communities segment, cash generated from our operating assets, condominium sales proceeds, net proceeds from asset sales and first mortgage financings secured by our assets. Our primary uses of cash include working capital, overhead, debt repayment, property improvements, pre-development and development costs. We believe that our sources of cash, including existing cash on hand and available credit, will provide sufficient liquidity to meet our existing contracted obligations, and anticipated ordinary course operating expenses for at least the next twelve months. The pursuit of development and re-development opportunities in our Operating Assets and Strategic Developments segments are capital intensive and will require significant additional funding. We intend to raise this additional funding with a mix of construction, bridge and long-term financings, by entering into joint venture arrangements and the sale of non-core assets at the appropriate time.

The negative operating cash flows prior to 2011 presented in this Annual Report on Form 10-K primarily were the result of reorganization items of \$60.0 million and \$2.4 million for the years ended December 31, 2010 and 2009, respectively, as well as costs associated with land/residential development and acquisitions expenditures in our Master Planned Communities segment of \$57.1 million and \$61.2 million for the years ended December 31, 2010 and 2009, respectively. The funds for these expenditures came from GGP and are reflected in our consolidated and combined statement of cash flows in change in GGP investment, net.

As of December 31, 2011, our consolidated debt was approximately \$606.5 million of which approximately \$7.0 million is recourse. We have \$52.2 million of required amortization or initial debt maturities in 2012, of which approximately \$36.1 million may be extended beyond 2012. In addition, as of December 31, 2011, our share of the debt of our Real Estate Affiliates was approximately \$43.7 million.

On December 5, 2011, we secured a \$55.0 million loan for 4 Waterway Square and 9303 New Trails. Proceeds from the loan were partially used to refinance a \$13.1 million mortgage secured by 9303 New Trails. The excess proceeds were used to partially repay the credit facility at The Woodlands and to increase cash. The loan matures on December 11, 2023 and has a fixed interest rate of 4.88%.

On September 29, 2011, we closed on a \$250.0 million first mortgage financing secured by the Ward Centers in Honolulu, Hawaii, which bears interest at LIBOR plus 2.50%. The loan matures on September 29, 2016, and we entered into an interest rate swap pursuant to which \$143.0 million of the principal balance was fixed at a 3.81% interest rate for the term of the loan. Initial loan proceeds of approximately \$212.5 million were used to repay approximately \$209.5 million of mortgage debt and to fund closing costs. We were advanced an additional \$7.5 million in the fourth quarter of 2011. Also, the loan may be drawn to a maximum \$250.0 million to fund capital expenditures at the property, provided that maximum leverage cannot exceed the lesser of 65% of the property's appraised value and a 10.0% debt yield. At December 31, 2011, the loan had a \$220.0 million outstanding balance.

In March 2011, The Woodlands refinanced a portion of its debt by entering into a \$270.0 million credit facility which matures in 2015 and a \$36.1 million financing which has an initial maturity in 2012. At December 31, 2011, there was approximately \$34.2 million of undrawn borrowing availability under the credit facility.

The following table summarizes our Net Debt on a segment basis. Net Debt is defined as our share of mortgages, notes and loans payable, at our ownership share, reduced by short-term liquidity sources to satisfy obligations such as our ownership share of cash and cash equivalents and Special Improvement District receivables. Although Net Debt is not a recognized GAAP financial measure, it is readily computable from existing GAAP information and we believe, as with our other non-GAAP measures, that such information is useful to our investors and other users of our financial statements.

<u>Segment Basis (a)</u> (In thousands)	<u>Master Planned Communities</u>	<u>Operating Assets</u>	<u>Strategic Developments</u>	<u>Segment Totals</u>	<u>Non- Segment Amounts</u>	<u>Total December 31, 2011</u>

Municipal Utility District receivables	(83,407)	—	—	(83,407)	—	(83,407)
Net debt	<u>\$125,800</u>	<u>\$309,233</u>	<u>\$4,541</u>	<u>\$439,574</u>	<u>\$(144,251)</u>	<u>\$ 295,323</u>

(a) Refer to Note 15 – Segments in the Notes to the Consolidated Financial Statements.

(b) Includes \$183.0 million Master Credit Facility outstanding balance.

- (c) Includes our \$43.7 million share of debt of our Real Estate Affiliates.
- (d) Includes our \$3.3 million share of cash and cash equivalents of our Real Estate Affiliates.

Cash flow for the period July 1, 2011 through December 31, 2011 includes the consolidated cash flow of The Woodlands.

Cash Flows from Operating Activities

Net cash provided by operating activities was \$86.5 million for the year ended December 31, 2011, compared to net cash used in operating activities of \$67.9 million for the year ended December 31, 2010, and \$17.9 million for the year ended December 31, 2009.

The approximate \$145.5 million increase in cash provided by operating activities for the year ended December 31, 2011 compared to 2010 is primarily a result of a \$75.4 million increase in master planned community land sales and a \$20.9 million increase in Natick condominium sales for 2011, as well as approximately \$57.3 million of reorganization items in 2010 which were not incurred in 2011. These items were partially offset by an additional \$32.0 million of real estate acquisition and development expenditures in 2011 compared to 2010. The remaining \$24.0 million of the increase in 2011 compared to 2010 is primarily the result of having six months of commercial property income from The Woodlands in 2011 and several other miscellaneous working capital items.

Cash used in operating activities increased by \$50.0 million for the year ended December 31, 2010 compared to 2009. The principal cause of the increase in cash used relates to a \$50.6 million increase in reorganization costs during 2010 compared to 2009.

Cash used for real estate acquisition and development expenditures was \$90.1 million for the year ended December 31, 2011, \$57.1 million for the year ended December 31, 2010, and \$61.2 million for the year ended December 31, 2009.

Net cash provided by certain assets and liabilities, including accounts and notes receivable, prepaid expense and other assets, deferred expenses, and accounts payable and accrued expenses totaled \$34.2 million, \$17.2 million and \$22.5 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Cash Flows from Investing Activities

Net cash used in investing activities was \$39.7 million, \$111.8 million and \$21.4 million for the years ended December 31, 2011, 2010 and 2009, respectively. Cash used for development of real estate and property expenditures was \$44.4 million, \$111.8 million and \$27.7 million for the years ended December 31, 2011, 2010 and 2009, respectively. The 2011 expenditures primarily relate to the 722-space structured garage and land improvements placed in service in the third quarter. Also, in the third quarter of 2011, we received reimbursements from a municipality of \$5.6 million related to our infrastructure improvements for the Elk Grove Promenade strategic development.

Cash Flows from Financing Activities

Net cash used in financing activities was \$103.9 million for the year ended December 31, 2011. Cash used in financing activities for 2011 includes repayment of a \$96.5 million acquisition note relating to the acquisition of our partner's interest in The Woodlands. Net cash provided by financing activities was \$461.2 million for the year ended December 31, 2010 and to \$37.5 million for the year ended December 31, 2009.

Cash provided by financing activities in 2011 of \$304.9 million resulted primarily from \$220.0 million of borrowings relating to the Ward Centers mortgage financing, the \$55.0 million loan for 4 Waterway Square and 9303 New Trails and \$29.0 million for the 110 N. Wacker Drive office building mortgage financing (See Note 7).

Principal payments on mortgages, notes and loans payable were \$407.0 million, \$22.1 million and \$10.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. We received contributions from GGP of \$216.5 million for the year ended December 31, 2010 and \$50.9 million for the year ended December 31, 2009. In addition, we issued 5.25 million shares of our common stock and warrants to purchase an additional 8.0 million shares of our common stock for an aggregate price of \$250 million.

Contractual Cash Obligations and Commitments

The following table aggregates our contractual cash obligations and commitments as of December 31, 2011:

	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>Subsequent / Other</u>	<u>Total</u>
Long-term debt-principal	\$52,166	\$31,896	\$35,553	\$126,670	\$232,639	\$127,553	\$ 606,477
Interest payments (a)	27,306	24,096	21,760	17,142	13,240	43,689	147,233
Ground lease payments	5,197	5,187	5,205	5,241	4,965	179,235	205,030
Uncertainty in income taxes, including interest (b)	—	—	—	—	—	129,939	129,939
Total	<u>\$84,669</u>	<u>\$61,179</u>	<u>\$62,518</u>	<u>\$149,053</u>	<u>\$250,844</u>	<u>\$480,416</u>	<u>\$1,088,679</u>

- (a) Excludes interest expense related to interest payments on special improvements district bonds. Includes obligations under our \$270.0 million credit facility, \$250.0 million credit facility at The Woodlands, \$250.0 million first mortgage on Ward Centers, \$55.0 million secured loan for 4 Water Way Square and 9303 New Trails and \$43.7 million share of debt of our Real Estate Affiliates.
- (b) The remaining uncertainty in income tax liability for which reasonable estimates about timing of payments cannot be made is disclosed within the Subsequent / Other column.

We lease land or buildings at certain properties from third parties. The leases generally provide us with a right of first refusal in the event of a proposed sale of the property by the landlord. Rental payments are expensed as incurred and have been, to the extent applicable, straight-lined over the term of the lease. Contractual rental expense, including participation rent, was \$3.9 million, \$3.5 million and \$3.5 million for 2011, 2010 and 2009, respectively. The amortization of above and below-market ground leases and straight-line rents included in the contractual rent amount, was not significant.

Off-Balance Sheet Financing Arrangements

We do not have any off-balance sheet financing arrangements. We have interests in property owning non-consolidated ventures which have mortgage financing. The financings are non-recourse to us and totaled \$60.0 million at December 31, 2011.

REIT Requirements

In order for Victoria Ward, Limited to remain qualified as a REIT for federal and state income tax purposes, Victoria Ward must distribute or pay tax on 100% of its capital gains and distribute at least 90% of its ordinary taxable income to its stockholders, including us. See Note 9 for more detail on this entity's ability to remain qualified as a REIT.

Seasonality

Revenues from development, redevelopment or sale of property in our Master Planned Communities segment and Strategic Developments segment are not subject to seasonal variations. Rental income recognized, including overage rent, is higher during the second half of the year for some of our operating assets. As a result, rental revenue production in the Operating Assets segment is generally highest in the fourth quarter of each year. Additionally, some of the retail properties in our Operating Assets segment are subject to seasonal variations, with a significant portion of their sales and earnings occurring during the last two months of the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. For example, significant estimates and assumptions have been made with respect to the fair value of assets for measuring impairment; valuation of debt of emerged entities; useful lives of assets; capitalization of development and leasing costs; provision for income taxes; recoverable amounts of receivables and deferred taxes; initial valuations and related amortization periods of deferred costs and intangibles; and cost ratios and completion percentages used for land sales. Actual results could differ from those estimates.

Critical Accounting Policies

Critical accounting policies are those that are both significant to the overall presentation of our financial condition and results of operations and require management to make difficult, complex or subjective judgments. Our critical accounting policies are those applicable to the following:

Impairment – Properties, developments in progress and Master Planned Communities Assets

We review our real estate assets, including Operating Assets, land held for development and sale and developments in progress, for potential impairment indicators whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions have been made with respect to impairment of long-lived assets. Actual results could differ from these assumptions and estimates.

Impairment indicators for our Master Planned Communities segment are assessed separately for each community and in certain circumstances, regions or projects within the community, and include, but are not limited to, significant decreases in sales pace and decreasing average selling prices. We also monitor local economic conditions and other factors that may relieve demand expectation.

Impairment indicators for pre-development costs, which are typically costs incurred during the beginning stages of a potential development, and developments in progress are assessed by project and include, but are not limited to, significant changes in projected completion dates, revenues or cash flows, development costs, market factors and the feasibility of development projects.

Impairment indicators for our Operating Assets segment are assessed separately for each property and include, but are not limited to, significant decreases net operating income, significant decreases in occupancy or low occupancy and significant net operating losses.

Impairment indicators for our Strategic Developments segment are assessed separately for each property and include, but are not limited to, significant decreases in comparable property sale prices.

If an indicator of potential impairment exists, the asset is tested for recoverability by comparing its carrying amount to the estimated future undiscounted cash flow. Significant assumptions used in the estimation of future undiscounted cash flow include, for the master planned communities, estimates of future lot sales, costs to complete and sales pace, and for properties in our Operating Assets segment and Strategic Developments segment, future market rents, renewals and capital expenditures. Historical experience in such matters and future economic projections were used to establish such factors. These factors are subject to uncertainty. A real estate asset is considered to be impaired when its carrying amount cannot be recovered through estimated future

undiscounted cash flows and the carrying value is less than the fair value. To the extent an impairment provision is necessary, the excess of the carrying amount of the asset over its estimated fair value is charged to operations. In addition, the impairment is allocated proportionately to adjust the carrying amount of the asset. The adjusted carrying amount for operating assets, which represents the new cost basis of the asset, is depreciated over the remaining useful life of the asset. The adjusted carrying amount for master planned communities is recovered through future land sales.

Recoverable amounts of receivables and deferred tax assets

We make periodic assessments of the collectability of receivables (including those resulting from the difference between rental revenue recognized and rents currently due from tenants) and the recoverability of deferred taxes based on a specific review of the risk of loss on specific accounts or amounts. The receivable analysis places particular emphasis on past-due accounts and considers the nature and age of the receivables, the payment history and financial condition of the payee, the basis for any disputes or negotiations with the payee and other information which may impact collectability. For straight-line rents receivable, the analysis considers the probability of collection of the unbilled deferred rent receivable given our experience regarding such amounts. For deferred tax assets, an assessment of the recoverability of the tax asset considers the current expiration periods of the prior net operating loss carry-forwards or other tax attributes and our estimated future taxable income generated by deferred tax liabilities. The resulting estimates of any allowance or reserve related to the recovery of these items is subject to revision as these factors change and is sensitive to the effects of economic and market conditions on such payees.

Capitalization of development and leasing costs

We capitalize the costs of development and leasing activities of our properties. These costs are incurred both at the property location and at the regional and corporate office levels. The amount of capitalization depends, in part, on the identification and justifiable allocation of certain activities to specific projects and leases. Differences in methodologies of cost identification and documentation, as well as differing assumptions as to the time incurred on projects, can yield significant differences in the amounts capitalized and, as a result, the amount of depreciation recognized.

Revenue recognition and related matters

Revenues from land sales are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and our subsequent involvement with the land sold are met. Revenues relating to transactions that do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods, as appropriate, in the circumstances. In addition, in certain land sale transactions, we also share in a percentage of the builders' finished home sales revenue, which we term builder's price participation. For land sale transactions in which we are required to perform additional services and incur significant costs after title has passed, revenues and cost of sales are recognized on a percentage of completion basis.

Cost ratios for land sales are determined as a specified percentage of land sales revenues recognized for each master planned community project. The cost ratios used are based on actual costs incurred and estimates of development costs and sales revenues through completion of each project. The ratios are reviewed regularly and revised for changes in sales and cost estimates or development plans. Significant changes in these estimates or development plans, whether due to changes in market conditions or other factors, could result in changes to the cost ratio used for a specific project. The specific identification method is used to determine cost of sales for certain parcels of land, including acquired parcels we do not intend to develop or for which development is complete at the date of acquisition.

Minimum rent revenues are recognized on a straight-line basis over the terms of the related leases. Minimum rent revenues also include amounts collected from tenants to allow the termination of their leases prior to their

scheduled termination dates and accretion related to above and below-market tenant leases on acquired properties. Straight-line rents receivable represent the current net cumulative rents recognized prior to when billed and collectible as provided by the terms of the leases. Overage rent is recognized on an accrual basis once tenant sales exceed contractual tenant lease thresholds. Recoveries from tenants are established in the leases or computed based upon a formula related to real estate taxes, insurance and other shopping center operating expenses and are generally recognized as revenues in the period the related costs are incurred.

Purchase Price Allocation

Upon the acquisition of real estate properties, we recognize the assets acquired, the liabilities assumed, and any noncontrolling interest as of the acquisition date, measured at their fair values. In allocating the purchase price of each of our properties, management makes assumptions and uses various estimates, including, but not limited to, the estimated useful lives of the assets, the cost of replacing certain assets, discount rates used to determine present values, market rental rates per square foot and the period required to lease the property up to its occupancy at acquisition if it were vacant. Many of these estimates are obtained from independent third party appraisals. However, management is responsible for the source and use of these estimates. A change in these estimates and assumptions could result in the various categories of our real estate assets and/or related intangibles being overstated or understated which could result in an overstatement or understatement of depreciation and/or amortization expense and/or rental revenue. These variances could be material to our financial statements.

Recently Issued Accounting Pronouncements and Developments

New accounting pronouncements have been issued which impact or could impact the prior, current or subsequent years. See Note 2 for additional information about new accounting pronouncements.

Inflation

Revenue from our Operating Assets may be impacted by inflation. In addition, materials and labor costs relating to our development activities may significantly increase in an inflationary environment. Finally, inflation poses a risk to us due to the possibility of future increases in interest rates in the context of loan refinancings.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to interest rate risk with respect to our fixed-rate financing in that changes in interest rates will impact the fair value of our fixed-rate financing and with respect to our floating rate financings in that increases in interest rates could adversely affect cash flow. As of December 31, 2011, we had \$468.1 million of variable-rate debt outstanding of which \$172.0 million has been swapped to a fixed-rate. Annual interest expense would increase approximately \$3.0 million for every 1% increase in interest rates on this balance. Generally, our interest expense is capitalizable; therefore, the impact on our Statement of Income (Loss) is expected to be minimal. For additional information concerning our debt, and management's estimation process to arrive at a fair value of our debt as required by GAAP, reference is made to Item 7, the Liquidity and Capital Resources discussion above and to Notes 2 and 7. We seek to manage a portion of our floating rate interest exposure by using interest rates swaps and caps.

The following table summarizes principal cash flows on our debt obligations and related weighted-average interest rates by expected maturity dates as of December 31, 2011:

	Contractual Maturity Date						Total
	2012	2013	2014	2015	2016	Thereafter	
(In thousands)							
Mortgages, notes and loans payable	\$52,166	\$31,896	\$35,553	\$126,670	\$232,639	\$127,553	\$606,477
Weighted - average interest rate	4.61%	4.57%	4.52%	4.33%	5.72%	5.74%	

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Information with respect to this Item is set forth beginning page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed in our reports to the SEC is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and our principal financial and accounting officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by SEC rules, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and our principal financial and accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2011, the end of the period covered by this report. Based on the foregoing, our principal executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures were effective as of December 31, 2011.

Internal Controls over Financial Reporting

There have been no changes in our internal controls during our most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

In making its assessment of the changes in internal controls over financial reporting as of December 31, 2011, our management excluded the evaluation of the disclosure controls and procedures at The Woodlands due to our acquisition of the remaining interest from our former partner on July 1, 2011.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining a system of internal control over financial reporting designed to provide reasonable assurance that transactions are executed in accordance with management authorization and that such transactions are properly recorded and reported in the financial statements, and that records are maintained so as to permit preparation of the financial statements in accordance with U.S. generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Our evaluation of and conclusion on the effectiveness of internal control over financial reporting as of December 31, 2011 did not include the internal controls for the acquisition of The Woodlands, because of the timing of the acquisition, which was completed in July 2011. As of December 31, 2011, this entity constituted approximately \$581.1 million of total assets, \$84.6 million of revenues and \$2.1 million of pre-tax income for the year then ended. In 2012, we will expand our evaluation of the effectiveness of the internal controls over financial reporting to include The Woodlands. Management has assessed the effectiveness of the Company's internal control over financial reporting utilizing the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control – Integrated Framework. Management concluded, based on its assessment, that The Howard Hughes Corporation's internal control over financial reporting was effective as of December 31, 2011. Deloitte & Touche LLP, an independent registered public accounting firm, has audited the Company's internal control over financial reporting as of December 31, 2011, as stated in their report which is included in this Annual Report on Form 10-K.

Attestation Report of the Independent Registered Public Accounting Firm
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
The Howard Hughes Corporation

We have audited the internal control over financial reporting of The Howard Hughes Corporation and subsidiaries (the “Company”) as of December 31, 2011, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. As described in Management’s Report on Internal Control over Financial Reporting, management excluded from its assessment the internal control over financial reporting at The Woodlands Operating Company, L.P. and subsidiaries, TWCPC Holdings, LP and subsidiaries and TWLDC Holdings, L.P. and subsidiaries (collectively “The Woodlands”), which were acquired on July 1, 2011 and whose financial statements constitute 18.8% and 17.1% of net and total assets, respectively, 30.7% of revenues, and 1.6% of pre-tax income of the consolidated financial statement amounts as of and for the year ended December 31, 2011. Accordingly, our audit did not include the internal control over financial reporting at The Woodlands. The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2011 of the Company and our report dated February 29, 2012 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph regarding the allocations of certain operating expenses from General Growth properties, Inc included in the Company’s combined financial statements prior to November 9, 2010.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
The Howard Hughes Corporation

We have audited the accompanying consolidated balance sheets of The Howard Hughes Corporation and subsidiaries (the "Company") as of December 31, 2011 and 2010, and the related consolidated and combined statements of income (loss) and comprehensive income (loss), equity, and cash flows for each of the three years in the period ended December 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated and combined financial statements present fairly, in all material respects, the financial position of The Howard Hughes Corporation and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated and combined financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 2 to the financial statements, the combined financial statements of certain entities that were transferred from General Growth Properties, Inc. to the Company on November 9, 2010 (the "HHC Businesses") include allocations of certain operating expenses from General Growth Properties, Inc. until the entities were transferred to the Company on November 9, 2010. These costs may not be reflective of the actual level of costs which would have been incurred had the HHC Businesses operated as an independent, stand-alone entity separate from General Growth Properties, Inc.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 29, 2012 expressed an unqualified opinion on the Company's internal control over financial reporting.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 1 ORGANIZATION

General

The Howard Hughes Corporation's ("HHC" or the "Company") mission is to be the preeminent developer and operator of Master Planned Communities and mixed-use properties. We create timeless places and memorable experiences that inspire people while driving sustainable, long-term growth and value for our shareholders. We specialize in the development of master planned communities, and ownership, management, and the development or repositioning of real estate assets currently generating revenues, also called operating assets, as well as other strategic real estate opportunities in the form of entitled and unentitled land and other development rights, also called strategic developments. We are a Delaware corporation that was formed on July 1, 2010 to hold, after receipt via a tax-free distribution, certain assets of General Growth Properties, Inc. ("GGP") and certain of its subsidiaries (collectively, the "Predecessors") pursuant to their plans of reorganization (the "Plan") under Chapter 11 of the United States Code ("Chapter 11"). Pursuant to the Plan, certain of the assets and liabilities of the Predecessors (the "HHC Businesses") were transferred to us and our common stock was distributed to the holders of GGP's common stock and common units (the "Separation") on a pro-rata basis (approximately 32.5 million shares of our common stock) on GGP's date of emergence from bankruptcy, November 9, 2010 (the "Effective Date"). Also as part of the Plan, approximately 5.25 million shares of our common stock and 8.0 million warrants were purchased by certain of the investors sponsoring the Plan for \$250.0 million. Unless the context otherwise requires, references to "we," "us" and "our" refer to HHC and its subsidiaries.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Combination and Basis of Presentation

The accompanying financial statements for the year ended December 31, 2011 and the balance sheet as of December 31, 2010 reflects the consolidation of the HHC Businesses with HHC, as of such date, with all intercompany balances and transactions between the HHC Businesses eliminated. The accompanying combined financial statements for the periods prior to the Separation have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") on a carve-out basis from the consolidated financial statements of GGP using the historical results of operations and basis of the assets and liabilities of the transferred businesses and including allocations from GGP. This presentation incorporates the same principles used when preparing consolidated financial statements, including elimination of intercompany transactions. The presentation also includes the accounts of the HHC Businesses in which we have a controlling interest. The noncontrolling equity holders' share of the assets, liabilities and operations are reflected in noncontrolling interests within permanent equity. All intercompany balances and transactions between the HHC Businesses have been eliminated. Accordingly, the statements of income (loss) and comprehensive income (loss), equity and cash flows presented for the year ended December 31, 2010 reflect the aggregate of operations, changes in cash flows and equity on a carved-out basis for the period from January 1, 2010 through November 9, 2010 and on a consolidated basis for the period from November 10, 2010 through December 31, 2010.

We were formed for the purpose of receiving, via a tax-free distribution, certain assets and assuming certain liabilities of our predecessors pursuant to the Plan. We conducted no business and had no separate material assets or liabilities until the Separation was consummated. No previous historical financial statements for the HHC Businesses have been prepared and, accordingly, our combined financial statements for periods prior to November 9, 2010 are derived from the books and records of GGP and were carved-out from GGP at a carrying value reflective of the historical cost in GGP records. Our historical financial results reflect allocations for certain corporate expenses which include, but are not limited to, costs related to property management, human resources, security, payroll and benefits, legal, corporate communications, information services and restructuring and reorganizations. Costs of the services, which were approximately \$8.4 million and \$9.9 million for 2010 and

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

2009, respectively that were allocated or charged to us were based on either actual costs incurred or a proportion of costs estimated to be applicable to us based on a number of factors, most significantly our percentage of GGP's adjusted revenue and assets and the number of properties. We believe these allocations are reasonable; however, these results do not reflect what our expenses would have been had we been operating as a separate, stand-alone public company. In addition, the HHC Businesses were operated as subsidiaries of GGP, which operates as a real estate investment trust ("REIT"). We operate as a taxable corporation. The carved out combined financial information included in the 2010 and the 2009 financial statements are not indicative of the results of operations, financial position or cash flows that would have been obtained if we had been an independent, stand-alone entity during the periods shown or of our future performance as an independent, stand-alone entity.

On July 1, 2011, we acquired our partner's economic interest in TWCPH Holdings, L.P., ("The Woodlands Commercial"), The Woodlands Operating Company, L.P. ("The Woodlands Operating") and The Woodlands Land Development Company, L.P. ("The Woodlands MPC", and together with The Woodlands Commercial and The Woodlands Operating, "The Woodlands"), located near Houston, Texas. As a result of the acquisition, we now consolidate The Woodlands' operations in our consolidated financial statements. Prior to such acquisition, we accounted for The Woodlands using the equity method.

In 2011, certain amounts in the December 31, 2010 consolidated balance sheet were reclassified to conform to the current period presentation. We reclassified our Municipal Utility Districts receivables of \$28.1 million to a separate line item from prepaid expenses and other assets. We also reclassified the cost of in-place leases of \$6.1 million from buildings and equipment as well as the related in-place lease accumulated amortization of \$4.5 million from accumulated depreciation to prepaid expenses and other assets.

Management has evaluated all material events occurring subsequent to the date of the consolidated financial statements up to the date and time this Annual Report is filed.

Investment in Real Estate

Real estate assets are stated at cost less any provisions for impairments. Construction and improvement costs incurred in connection with the development of new properties or the redevelopment of existing properties are capitalized. Real estate taxes and interest costs incurred during development and construction periods are also capitalized. Capitalized interest costs are based on qualified expenditures and interest rates in place during the construction period.

Pre-development costs, that generally include legal and professional fees and other directly-related third-party costs associated with specific development properties, are capitalized as part of the property being developed. In the event that management no longer has the ability or intent to complete a development, the costs previously capitalized are expensed (see also our impairment policies below).

Tenant improvements relating to our operating assets, either paid directly or in the form of construction allowances paid to tenants, are capitalized and depreciated over the shorter of their economic lives or the lease term. Maintenance and repairs are charged to expense when incurred. Expenditures for significant improvements are capitalized.

Depreciation or amortization expense is computed using the straight-line method based upon the following estimated useful lives:

<u>Asset Type</u>	<u>Years</u>
Buildings and improvements	40-45
Equipment, tenant improvements and fixtures	5-10

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Acquisitions of Properties

We account for business combinations in accordance with Accounting Standards Codification (“ASC”) 805, Business Combinations. The acquisition method of accounting requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business combination. Our consolidated financial statements and results of operations reflect an acquired business from the completion date of an acquisition. On July 1, 2011, we completed the acquisition of The Woodlands (See Note 3).

Investments in Real Estate Affiliates

We account for investments in joint ventures where we own a non-controlling participating interest using the equity method and investments in joint ventures where we have virtually no influence on the joint venture’s operating and financial policies, on the cost method. Under the equity method, the cost of our investment is adjusted for our share of the equity in earnings (losses) of such Real Estate Affiliates from the date of acquisition and reduced by distributions received. Generally, the operating agreements with respect to our Real Estate Affiliates provide that assets, liabilities and funding obligations are shared in accordance with our ownership percentages. We generally also share in the profit and losses, cash flows and other matters relating to our Real Estate Affiliates in accordance with our respective ownership percentages. Differences between the carrying amount of our investment in the Real Estate Affiliates and our share of the underlying equity of such Real Estate Affiliates are amortized over lives ranging from five to forty-five years. For cost method investments, we recognize earnings to the extent of distributions received from such investments.

Impairment

The generally accepted accounting principles related to accounting for the impairment or disposal of long-lived assets require that if impairment indicators exist and the undiscounted cash flows expected to be generated by an asset are less than its carrying amount, an impairment provision should be recorded to write down the carrying amount of such asset to its fair value. The impairment analysis does not consider the timing of future cash flows and whether the asset is expected to earn an above or below market rate of return. We review our real estate assets (including those held by our Real Estate Affiliates) for potential impairment indicators whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Impairment indicators for our assets, regions or projects within our Master Planned Communities segment are assessed separately and include, but are not limited to, significant decreases in sales pace or average selling prices, significant increases in expected land development and construction costs or cancellation rates, and projected losses on expected future sales. Master Planned Community assets have extended life cycles that may last 20 to 40 years and have few long-term contractual cash flows. Further for sale portions of master planned community assets generally have minimal to no residual values because of their liquidating characteristics. Master planned community development periods often occur through several economic cycles. Subjective factors such as the expected timing of property development and sales, optimal development density and sales strategy impact the timing and amount of expected future cash flows and fair value.

Impairment indicators for our Operating Assets segment are assessed separately for each property and include, but are not limited to, significant decreases in net operating income, significant decreases in occupancy or low occupancy and significant net operating losses.

Impairment indicators for our Strategic Developments segment are assessed separately for each property and include, but are not limited to, significant decreases in comparable property sale prices.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Impairment indicators for pre-development costs, which are typically costs incurred during the beginning stages of a potential development, and developments in progress are assessed by project and include, but are not limited to, significant changes in projected completion dates, revenues or cash flows, development costs, market factors and sustainability of development projects.

If an indicator of potential impairment exists, the asset is tested for recoverability by comparing its carrying amount to the estimated future undiscounted cash flow. The cash flow estimates used both for determining recoverability and estimating fair value are inherently judgmental and reflect current and projected trends in rental, occupancy, pricing, development costs, sales pace and capitalization rates, and estimated holding periods for the applicable assets. Although the estimated fair value of certain assets may be exceeded by the carrying amount, a real estate asset is only considered to be impaired when its carrying amount is not expected to be recovered through estimated future undiscounted cash flows. To the extent an impairment provision is necessary, the excess of the carrying amount of the asset over its estimated fair value is expensed to operations. In addition, the impairment provision is allocated proportionately to adjust the carrying amount of the asset. The adjusted carrying amount, which represents the new cost basis of the asset, is depreciated over the remaining useful life of the asset or, for Master Planned Communities, is expensed as a cost of sales when land is sold. Assets that have been impaired will in the future have lower depreciation and cost of sale expenses, but the impairment will have no impact on cash flow.

With respect to our investment in the Real Estate Affiliates, a series of operating losses of an asset or other factors may indicate that a decrease in value has occurred which is other-than-temporary. The investment in each of the Real Estate Affiliates is evaluated periodically and as deemed necessary for recoverability and valuation declines that are other-than-temporary. If the decrease in value of our investment in a Real Estate Affiliate is deemed to be other-than-temporary, our investment in such Real Estate Affiliate is reduced to its estimated fair value. Accordingly, in addition to the property-specific impairment analysis that we perform on the investment properties, land held for development and sale and developments in progress owned by such joint ventures (as part of our investment property impairment process described above), we also considered the ownership and distribution preferences and limitations and rights to sell and repurchase our ownership interests.

Cash and Cash Equivalents

Highly-liquid investments with maturities at dates of purchase of three months or less are classified as cash equivalents.

Notes Receivable

Notes receivable includes amounts due from builders for previous sold lots, primarily at our Maryland master planned community and a note from GGP received at the Effective Date in connection with the Plan. This GGP note, also known as the Arizona II lease, has a balance of \$25.2 million as of December 31, 2011. The GGP note carries an interest rate of 4.41%, and cash payments under the note are approximately \$6.9 million per year through the end of 2015.

Deferred Expenses

Deferred expenses consist principally of financing fees and leasing costs and commissions. Deferred financing fees are amortized to interest expense using the effective interest method (or other methods which approximate the effective interest method) over the terms of the respective financing agreements. Deferred leasing costs and commissions are amortized using the straight-line method over periods that approximate the related lease terms.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Deferred expenses in our consolidated balance sheets are shown at cost, net of accumulated amortization, of \$5.7 million as of December 31, 2011 and \$6.6 million as of December 31, 2010.

Sponsor and Management Warrants

On the Effective Date, we issued warrants to purchase 8.0 million shares of our common stock to certain of the sponsors of the Plan (the "Sponsors Warrants") with an estimated initial value of approximately \$69.5 million. The initial exercise price for the warrants of \$50.00 per share is subject to adjustment for future stock dividends, splits or reverse splits of our common stock or certain other events. Approximately 6.1 million warrants are currently exercisable without restriction and approximately 1.9 million warrants are exercisable upon 90 days prior notice for the first 6.5 years after issuance and are subsequently exercisable without notice any time thereafter. The Sponsors Warrants expire on November 9, 2017.

In November 2010 and February 2011, we entered into certain warrant agreements (the "Management Warrants") with David R. Weinreb, our Chief Executive Officer, Grant Herlitz, our President, and Andrew C. Richardson, our Chief Financial Officer, in each case prior to his appointment to such position. The Management Warrants representing 2,862,687 underlying shares were issued pursuant to such agreements at fair value in exchange for a combined total of approximately \$19.0 million in cash from such executives at the commencement of their respective employment. Mr. Weinreb and Mr. Herlitz's warrants have exercise prices of \$42.23 per share and Mr. Richardson's warrant has an exercise price of \$54.50 per share. Generally, the Management Warrants become exercisable in November 2016 and expire by February 2018.

The estimated \$102.6 million fair value for the Sponsors Warrants and estimated \$25.2 million fair value for the Management Warrants as of December 31, 2011, have been recorded as a liability because the holders of these warrants could require HHC to settle such warrants in cash upon a change of control. The fair values were estimated using an option pricing model and level 3 inputs due to the unavailability of comparable market data. Changes in the fair value of the Sponsors Warrants and the Management Warrants are recognized in earnings and, accordingly, warrant liability gains reflecting decreases in value of approximately \$101.6 million were recognized for the year ended December 31, 2011.

Revenue Recognition and Related Matters

Rental Revenue

Operating property revenue consists of minimum rent, percentage rent in lieu of fixed minimum rent, overage rent and tenant recoveries.

Minimum rent revenues are recognized on a straight-line basis over the terms of the related leases and include base minimum rent and percentage rent in lieu of fixed minimum rent. Percentage rent in lieu of fixed minimum rent recognized from tenants for the years ended December 31, 2011, 2010 and 2009 was \$3.9 million, \$3.9 million and \$3.0 million, respectively, and is included in minimum rents in our financial statements. Minimum rent revenues also include amortization related to above and below-market tenant leases on acquired properties.

Straight-line rent receivables, which represent the current net cumulative rents recognized prior to when billed and collectible as provided by the terms of the leases, of \$3.3 million as of December 31, 2011 and \$2.0 million as of December 31, 2010, are included in Accounts receivable, net in our financial statements.

Overage rent is recognized on an accrual basis once tenant sales exceed contractual thresholds contained in the lease and is calculated by multiplying the tenant sales in excess of the minimum amount by a percentage defined

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

in the lease. Overage rent of approximately \$3.0 million, \$3.4 million, and \$2.7 million for 2011, 2010 and 2009, respectively is included in other rental and property revenues.

Recoveries from tenants are stipulated in the leases and are generally computed based upon a formula related to real estate taxes, insurance and other real estate operating expenses and are generally recognized as revenues in the period the related costs are incurred.

We provide an allowance for doubtful accounts against the portion of accounts receivable, including straight-line rents, which is estimated to be uncollectible. Such allowances are reviewed periodically based on our recovery experience. This analysis considers the long-term nature of our leases, as a certain portion of the straight-line rent currently recognizable will not be billed to the tenant until future periods. Our experience relative to unbilled deferred rent receivable is that a certain portion of the amounts recorded as straight-line rental revenue are never collected from (or billed to) tenants due to early lease terminations. For that portion of the otherwise recognizable deferred rent that is not deemed to be probable of collection, an allowance for doubtful accounts has been provided. Accounts receivable in our consolidated and combined balance sheets are shown net of an allowance for doubtful accounts of \$14.4 million as of December 31, 2011 and \$16.3 million as of December 31, 2010. The following table summarizes the changes in allowance for doubtful accounts:

	2011	2010	2009
	(In thousands)		
Balance as of January 1	\$16,277	\$16,812	\$21,712
Provision*	—	1,782	2,539
Write-offs	(1,829)	(2,317)	(7,439)
Balance as of December 31	\$14,448	\$16,277	\$16,812

* Collection of significantly aged receivables previously reserved resulted in no provision in 2011.

Resort and Conference Center Revenue

Revenue for the resort and conference center is recognized as services are performed and primarily represents room rentals and food and beverage sales.

Land and Condominium Sales Revenue

Revenues from land sales are recognized using the full accrual method if various criteria provided by GAAP relating to the terms of the transactions and our subsequent involvement with the land sold are met. Revenues relating to transactions that do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods. Revenue related to builder participation rights is recognized when collected.

Cost of land sales is determined as a specified percentage of land sales revenues recognized for each community development project. These cost ratios are based on actual costs incurred and estimates of future development costs and sales revenues to completion of each project. The ratios are reviewed regularly and revised for changes in sales and cost estimates or development plans. Significant changes in these estimates or development plans, whether due to changes in market conditions or other factors, could result in changes to the cost ratio used for a specific project. For certain parcels of land, however, the specific identification method is used to determine the cost of sales including acquired parcels that we do not intend to develop or for which development was complete at the date of acquisition. Expenditures in our MPC business to develop land for sale are classified as an

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

operating activity under real estate acquisition and development expenditures in our consolidated and combined statements of cash flows.

Nouvelle at Natick is a 215 unit residential condominium project, located in Natick, Massachusetts. Pursuant to the Plan, only the unsold units at Nouvelle at Natick on the Effective Date were distributed to us and no deferred revenue or sales proceeds from unit closings prior to the Effective Date were allocated to us. As of December 31, 2011, two units were unsold at Nouvelle at Natick. Income related to unit sales subsequent to the Effective Date is accounted for on a unit-by-unit full accrual method.

Income Taxes

Deferred income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred income taxes also reflect the impact of operating loss and tax credit carryforwards. A valuation allowance is provided if we believe it is more likely than not that all or some portion of the deferred tax asset will not be realized. An increase or decrease in the valuation allowance that results from a change in circumstances, and which causes a change in our judgment about the realizability of the related deferred tax asset, is included in the deferred tax provision. There are events or circumstances that could occur in the future that could limit the benefit of deferred tax assets. In addition, we recognize and report interest and penalties, if necessary, related to uncertain tax positions within our provision for income tax expense.

In many of our Master Planned Communities, gains with respect to sales of land for commercial use are reported for tax purposes on the percentage of completion method. Under the percentage of completion method, a gain is recognized for tax purposes as costs are incurred in satisfaction of contractual obligations. The method used for determining the percentage complete for income tax purposes is different than that used for financial statement purposes. In addition, gains with respect to sales of land for single family residences are reported for tax purposes under the completed contract method. Under the completed contract method, a gain is recognized for tax purposes when 95% of the costs of our contractual obligations are incurred or the contractual obligation is transferred.

Earnings Per Share

Basic earnings per share ("EPS") is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding. Diluted EPS is computed after adjusting the numerator and denominator of the basic EPS computation for the effects of all potentially dilutive common shares. The dilutive effect of options and nonvested stock issued under stock-based compensation plans is computed using the "treasury stock" method. The dilutive effect of the Sponsors Warrants and Management Warrants is computed using the if-converted method. Gains associated with the Sponsors Warrants and Management Warrants are excluded from the numerator in computing diluted earnings per share because inclusion of such gains in the computation would be anti-dilutive.

In connection with the Separation on November 9, 2010, GGP distributed to its stockholders 32.5 million shares of our common stock and approximately 5.25 million shares were purchased by certain investors sponsoring the Plan. This share amount is used in the calculation of basic and diluted EPS for the year ended December 31, 2010 and 2009 as our common stock was not traded prior to November 9, 2010 and there were no dilutive securities in the prior periods.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Information related to our EPS calculations is summarized as follows:

	Years Ended December 31,		
	2011	2010	2009
(In thousands, except per share amounts)			
Basic EPS:			
Numerator:			
Income (loss) from continuing operations	\$148,470	\$(69,230)	\$(702,877)

Net income (loss) attributable to common stockholders	\$ 3.88	\$ (1.84)	\$ (18.66)
Diluted Earnings (Loss) Per Share			
Income (loss) from continuing operations attributable to common stockholders	\$ 1.17	\$ (1.84)	\$ (18.64)
Discontinued operations attributable to common stockholders	—	—	(0.02)
Net income (loss) attributable to common stockholders	\$ 1.17	\$ (1.84)	\$ (18.66)

Stock options of 715,137 and restricted stock of 42,553 as of December 31, 2011 and 10,683,726 sponsor and management warrants outstanding as of December 31, 2010 were not included in the computation of diluted EPS above because to do so would have been anti-dilutive.

Stock Plans

We apply the provisions ASC 718 (“Stock Compensation”) in our accounting and reporting for stock-based compensation. ASC 718 requires all share-based payments to employees, including grants of employee stock

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

options, to be recognized in the income statement based on their fair values. All unvested options outstanding under our option plans have grant prices equal to the market price of the Company's stock on the dates of grant. Compensation cost for restricted stock is determined based on the fair market value of the our stock at the date of grant.

Fair Value Measurements

The following table presents, for each of the fair value hierarchy levels required under ASC 820, "Fair Value Measurement," our assets and liabilities that are measured at fair value on a recurring basis.

	December 31, 2011				December 31, 2010			
	Fair Value Measurements Using				Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
	(In thousands)				(In thousands)			
Assets:								
Interest rate swap	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Liabilities								
Warrants	127,764	—	—	127,764	227,348	—	—	227,348
Interest rate swaps	4,367	—	4,367	—	—	—	—	—

The valuation of warrants is based on an option pricing valuation model. The inputs to the model include the fair value of the stock related to the warrants, exercise price of the warrants, term, expected volatility, risk-free interest rate and dividend yield.

The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates derived from observable market interest rate curves.

The following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3):

	December 31	
	2011	2010
	(In thousands)	
Beginning of year	\$ 227,348	\$ —

- (a) As more fully described in Note 7, \$172.0 million of variable-rate debt entered into during 2011 has been swapped to a fixed rate for the term of the related debt.
- (b) Due to the uncertain repayment terms of special improvement district "SID" bonds, the carrying value approximates fair value.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

The fair value of debt in the table above was estimated based on quoted market prices for publicly traded debt, recent financing transactions, estimates of the fair value of the property that serves as collateral for such debt, historical risk premiums for loans of comparable quality, the current London Interbank Offered Rate (“LIBOR”), a widely quoted market interest rate which is frequently the index used to determine the rate at which we borrow funds, U.S. Treasury obligation interest rates and on the discounted estimated future cash payments to be made on such debt. The discount rates reflect our judgment as to what the approximate current lending rates for loans or groups of loans with similar maturities and credit quality would be if credit markets were operating efficiently and assume that the debt is outstanding through maturity. We have utilized available market information or present value techniques to estimate the amounts required to be disclosed. Since such amounts are estimates that are based on limited available market information for similar transactions and do not acknowledge transfer or other repayment restrictions that may exist in specific loans, it is unlikely that the estimated fair value of any of such debt could be realized by immediate settlement of the obligation.

The carrying amounts of cash and cash equivalents and accounts receivable approximate fair value because of the short-term maturity of these instruments. The carrying amounts of notes and Municipal Utility Districts receivables are carried at net realizable value which approximates fair value because of their short-term nature.

Municipal Utility Districts (“MUD”)

In Houston, Texas, certain development costs are reimbursable through the creation of MUDs (and Water Control and Improvement Districts), which are separate political subdivisions authorized by Article 16, Section 59 of the Texas Constitution and governed by the Texas Commission on Environmental Quality (“TCEQ”). MUDs are formed to provide municipal water, waste water, drainage services, recreational facilities and roads to those areas where they are currently unavailable through the regular city services. Typically, the developer advances funds for the creation of the facilities, which must be designed, bid and constructed in accordance with the City of Houston and TCEQ requirements. The developer initiates the MUD process by filing the applications for the formation of the MUD, and once the applications have been approved, a board of directors is elected for the MUD and given the authority to issue ad valorem tax bonds and the authority to tax residents. The MUD Board authorizes and approves all MUD development contracts and pay estimates. MUD bond sale proceeds are used to reimburse the developer for its construction costs, including interest, and MUD taxes are used to pay the debt service on the bonds and the operating expenses of the MUD. We estimate the costs we believe will be eligible for reimbursement (MUD receivable), and we have not incurred any debt relating to the MUDs.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Estimates and assumptions have been made with respect to useful lives of assets, capitalization of development and leasing costs, provision for income taxes, recoverable amounts of receivables and deferred taxes, initial valuations and related amortization periods of deferred costs and intangibles, particularly with respect to acquisitions, impairment of long-lived assets and goodwill, fair value of warrants and debt and cost ratios and completion percentages used for land sales. Actual results could differ from these and other estimates.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Reorganization Items

Reorganization items are expense or income items that were incurred or realized by certain of our subsidiaries as a result of the Chapter 11 Cases and are presented separately in the Consolidated and Combined Statements of Income (Loss) and Comprehensive Income (Loss). These items include professional fees and similar types of expenses and gains and interest earned on cash accumulated by certain of our subsidiaries, all as a result of the Chapter 11 Cases. Reorganization items specific to the HHC Businesses were allocated to us and reflected in our combined financial statements and in the table presented below.

The key employee incentive program (the “KEIP”) was intended to retain certain key employees of GGP during the pendency of the Chapter 11 Cases and provided for payment (in two installments) to these GGP employees upon successful emergence from bankruptcy. The first KEIP payment was made by GGP on November 12, 2010. As certain of these employees became our employees on the Effective Date, a portion of the KEIP was deemed to relate to us and therefore, we recognized our KEIP expense in the period from the date the KEIP was approved by the Bankruptcy Court (October 2009) to the Effective Date, in reorganization items on the Combined Statements of Income (Loss) and Comprehensive Income (Loss) in the amount of \$13.5 million for the year ended December 31, 2010.

Reorganization items are as follows:

<u>Reorganization Items</u>	<u>December 31,</u>	
	<u>2010</u>	<u>2009</u>
	(In thousands)	
Gains on liabilities subject to compromise - vendors (a)	\$ (791)	\$ (99)
Gains on liabilities subject to compromise, net - mortgage debt (b)	(2,749)	(11,723)
Interest income (c)	(16)	(4)
U.S. Trustee fees	571	226
Restructuring costs (d)	<u>60,267</u>	<u>18,274</u>
Total reorganization items	<u>\$57,282</u>	<u>\$ 6,674</u>

- (a) This amount includes gains from repudiation, rejection or termination of contracts or guarantee of obligations. Such gains reflect agreements reached with certain critical vendors, which were authorized by the Bankruptcy Court and for which payments on an installment basis began in July 2009.
- (b) Such net gains include the Fair Value adjustments of mortgage debt relating to entities that emerged from bankruptcy.
- (c) Interest income primarily reflects amounts earned on cash accumulated as a result of our Chapter 11 Cases.
- (d) Restructuring costs primarily include professional fees incurred related to the bankruptcy filings, our allocated share of the KEIP payment, finance costs incurred by debtors upon emergence from bankruptcy and any associated write-off of unamortized deferred finance costs.

Recently Issued Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (“FASB”) issued a new standard which changes the requirements for presenting comprehensive income in the financial statements. The new standard eliminates the option to present other comprehensive income (“OCI”) in the statement of stockholders’ equity and instead requires net income, components of OCI, and total comprehensive income to be presented in one continuous

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

statement or two separate but consecutive statements. HHC had elected to present OCI in one continuous statement in its previous filings and accordingly, the effective date of this standard will not have an effect on our results of operations, financial position, or cash flows in our consolidated financial statements.

In May 2011, the FASB issued "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." The standard revises guidance for fair value measurement and expands the disclosure requirements. It is effective for fiscal years beginning after December 15, 2011. We are currently evaluating the impact that the adoption of this standard will have on our Consolidated Financial Statements.

NOTE 3 ACQUISITION

On July 1, 2011, we acquired for \$117.5 million our partner's 47.5% economic interest (represented by a 57.5% legal interest) in The Woodlands. We made the acquisition so that we can control attractive residential and commercial assets and to internalize The Woodlands platform to benefit our MPC business. As a result of the acquisition, we now consolidate The Woodlands operations and our consolidated financial statements are therefore not comparable to prior periods. Please refer to Note 16 Segments, for a presentation of the results as if we owned 100% of The Woodlands, for all periods presented.

On the acquisition date, The Woodlands had approximately 1,324 acres of unsold residential land, representing approximately 4,395 lots, and approximately 962 acres of unsold land for commercial use. The Woodlands also had full or partial ownership interests in commercial properties totaling approximately 434,328 square feet of office space, 203,282 square feet of retail and service space, 865 rental apartment units, and also owns and operates a 440-room resort and conference center facility and a 36-hole golf and country club. We paid \$20.0 million in cash at closing and the remaining \$97.5 million of the purchase price was represented by a non-interest bearing promissory note which we repaid from available cash on hand on December 1, 2011. There was no contingent consideration related to this acquisition.

The assets and liabilities of The Woodlands were consolidated into our financial statements at fair value as of the acquisition date according to the following methodologies:

- The fair value of the Master Planned Community assets which consists of residential and commercial land held for development and sale was determined using a discounted cash flow analysis;
- The fair value of the commercial properties acquired, consisting of land and buildings, was determined by valuing the property as if it were vacant, and the "as-if-vacant" value was then allocated between land and buildings. The "as-if-vacant" values were derived from several sources which primarily included a discounted cash flow analysis using discount and capitalization rates based on recent comparable market transactions, where available. The buildings are depreciated over the estimated useful life of 40 years using the straight-line method;
- The value of above-market and below-market in-place leases for The Woodlands operating assets was based on the present value (using a discount rate that reflects the risks associated with the leases acquired) of the difference between (1) the contractual amounts to be paid pursuant to the in-place leases and (2) management's estimate of current market lease rates, measured over the remaining non-cancelable lease term. We record the fair value of above-market and below-market leases as intangible assets or intangible liabilities, respectively, and amortize them as an adjustment to minimum rents over the lease term;
- The estimated fair value for in-place leases included an estimate of carrying costs during the expected lease-up periods. In estimating the carrying costs that would have otherwise been incurred had the

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

leases not been in place, we included such items as real estate taxes, insurance and other operating expenses as well as lost rental revenue during the expected lease-up period based on current market conditions;

- The fair value for working capital items such as cash, Municipal Utility District receivables, prepaid expenses, accounts payable and accrued expenses was determined based on the carrying value due to the short term nature of these items; and
- The debt assumed was primarily variable rate debt and fixed rate debt with short term maturities; therefore, the fair value was assumed to be the carrying value.

On the acquisition date, we consolidated \$587.6 million of assets and \$338.6 million of liabilities relating to The Woodlands. Consolidation of The Woodlands net assets resulted in a \$3.9 million after-tax loss on the remeasurement of the carrying value of our existing 52.5% economic interest which had a \$134.8 million net book value at June 30, 2011. The loss is recorded in the Investment in real estate affiliate basis adjustment line on our consolidated and combined statements of Income (Loss) and Comprehensive Income (Loss). For periods prior to July 1, 2011, our investment in The Woodlands was accounted for using the equity method. This business combination did not represent a significant acquisition of assets under the SEC rules.

The following table summarizes amounts recorded for the assets acquired and liabilities assumed at the acquisition date:

	(In thousands)
Master Planned Community Assets	\$ 264,889
Land	44,597
Buildings and Equipment	116,061
Investments in Real Estate Affiliates	42,932
Cash	25,492
Accounts receivable	7,548
Notes receivable	3,189
Municipal Utility District receivables	61,700
Other assets	21,150
Total assets	<u>587,558</u>
Mortgages, notes and loans payable	(296,695)
Accounts payable and accrued expenses	(41,900)
Noncontrolling interests	(3,700)
Total liabilities and noncontrolling interests	<u>(342,295)</u>
Total identifiable net assets	<u>\$ 245,263</u>

Included in the consolidated statements of income (loss) and comprehensive income (loss) since the acquisition date are revenues of \$84.6 million and net income of \$0.5 million for the six months ended December 31, 2011. The net income includes the impact of purchase accounting adjustments, including a \$6.1 million increase in cost of sales to reflect the step-up in basis of finished lot inventory sold during the six months ended December 31, 2011.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Pro Forma Information

The following pro forma information for the years ended December 31, 2011 and 2010 was prepared as if The Woodlands acquisition had occurred as of the beginning of such period:

	<u>Year Ended December 31,</u>	
	<u>2011</u>	<u>2010</u>
	(In thousands)	
Total Revenues	\$357,472	\$294,310
Net income (loss)	157,520	(52,081)

Pro forma adjustments were made for: (1) purchase accounting, including; (a) depreciation for the step-up in basis for property, plant and equipment; (b) amortization of in-place and above/below market leases; (c) Land Cost of sales increase for step-up in land basis for finished lots acquired and sold; and (d) elimination of amortization of deferred financing costs, prepaid commissions and deferred profits and; (2) adjustments for interest expense which is capitalizable in accordance with our interest capitalization policy. We applied a 36% effective tax to The Woodlands results in order to compute pro forma net income (loss).

The pro forma information is not necessarily indicative of the results that would have occurred had the acquisition occurred as of the beginning of the period presented, nor is it necessarily indicative of future results.

NOTE 4 IMPAIRMENT

General

Although there were no impairment charges for the year ended December 31, 2011, Park West continues to suffer from a weak market and its occupancy was 64.9% at December 31, 2011. We are focused on attracting tenants who can drive increased traffic during the day and evening, such as entertainment concepts. If we are unsuccessful at increasing occupancy and traffic, many of our existing tenants may be unable to continue to occupy their leased spaces because their sales volume will likely be inadequate to support their operating costs, which would reduce our expected cash flows and result in a significant impairment. Impairment charges totaled \$503.4 million and \$680.3 million for the years ended December 31, 2010 and 2009, as presented in the table below. These impairment provisions resulted from an evaluation of impairment indicators for our properties, including considerations of revised strategies and operating philosophies and, with properties with such indicators, the undiscounted cash flows of the projects as compared to their carrying values. At December 31, 2010, although an additional four regions or projects within our master planned communities segment and four additional operating properties had carrying values in excess of estimated fair values based on current occupancy levels, cash flow and use of the property, no additional provisions for impairment were considered necessary for such projects and properties. These impairment charges are included in provisions for impairment in our consolidated and combined statement of income (loss) and comprehensive income (loss) for the years ended December 31, 2010 and 2009.

Circle T also recorded impairment charges of \$38.1 million for the year ended December 31, 2009 relating to the assets of our non-consolidated Real Estate Affiliates, of which our share was \$19.0 million, and which was included in our Equity in income (loss) from Real Estate Affiliates. In addition to the impairment charges recorded by the Circle T venture, we recorded impairment charges related to our investment in Circle T of \$10.6 million for the year ended December 31, 2009 to write these investments down to their estimated fair value, with such provisions reflected in our Equity in earnings (loss) from Real Estate Affiliates. No provisions for impairment were recorded for the years ended December 31, 2011 and 2010 related to our investments in Real Estate Affiliates.

THE HOWARD HUGHES CORPORATION

(b) Related to the write down of various pre-development costs that were determined to be non-recoverable due to the related projects being terminated.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

- (c) These impairments were primarily driven by the carrying value of the assets, including costs expected to be incurred, not being recoverable by the projected sales price of such assets.
- (d) These impairments were primarily driven by management's changes in current plans with respect to the property and measured based on the value of the underlying land, which is based on comparable property market analysis or a projected sales price analysis that incorporates available market information and other management assumptions as these properties are either no longer operational or operating with no or nominal income.
- (e) Reflected in our equity in earnings (loss) of Real Estate Affiliates.

NOTE 5 INTANGIBLES

Intangible Assets and Liabilities

The following table summarizes our intangible assets and liabilities:

	<u>Gross Asset (Liability)</u>	<u>Accumulated (Amortization) / Accretion</u>	<u>Net Carrying Amount</u>
	(In thousands)		
As of December 31, 2011			
Tenant leases:			
In-place value	\$23,586	\$(11,721)	\$11,865
Above-market	2,952	(1,938)	1,014
Below-market	(347)	28	(319)
Ground leases:			
Above-market	(3,545)	797	(2,748)
Below-market	23,096	(2,416)	20,680
As of December 31, 2010			
Tenant leases:			
In-place value	\$11,824	\$(10,221)	\$ 1,603
Above-market	1,820	(1,701)	119
Below-market	(77)	77	—
Ground leases:			
Above-market	(3,545)	638	(2,907)
Below-market	23,096	(2,078)	21,018

The increase in tenant lease assets as of December 31, 2011 compared to December 31, 2010 relates to The Woodlands acquisition and consolidation. We acquired commercial properties with leases in place and a portion of the fair market values of the properties was assigned to the leases.

The balances of the in-place value of tenant leases are included in Prepaid expenses and other assets in our Consolidated Balance Sheets. Acquired in-place at-market tenant leases are amortized over periods that approximate the related lease terms. The above-market and below-market tenant and ground leases are included in Prepaid expenses and other assets and Accounts payable and accrued expenses as detailed in Note 13. Above and below-market lease values are amortized over the remaining non-cancelable terms of the respective leases.

Amortization/accretion of these intangible assets and liabilities decreased our income by \$2.0 million in 2011, \$0.8 million in 2010 and \$0.3 million in 2009.

Future amortization is estimated to decrease income by \$2.2 million in 2012, \$2.1 million in 2013, \$1.8 million in 2014, \$1.5 million in 2015, \$1.1 million in 2015 and \$21.0 million thereafter.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 6 REAL ESTATE AFFILIATES

In the ordinary course of business, we enter into partnerships or joint ventures primarily for the development and operations of real estate assets. These partnerships or joint ventures are typically characterized by a non-controlling ownership interest with decision making and distribution of expected gains and losses being proportionate to the ownership interest. We account for these partnerships and joint ventures in accordance with ASC 810.

In accordance with ASC 810, as amended, we assess our joint ventures at inception to determine if any meet the qualifications of a variable interest entity ("VIE"). We consider a partnership or joint venture a VIE if: (a) the total equity investment is not sufficient to permit the entity to finance its activities without additional subordinated financial support; (b) characteristics of a controlling financial interest are missing (either the ability to make decisions through voting or other rights, the obligation to absorb the expected losses of the entity or the right to receive the expected residual returns of the entity); or (c) the voting rights of the equity holders are not proportional to their obligations to absorb the expected losses of the entity and/or their rights to receive the expected residual returns of the entity, and substantially all of the entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights. Upon the occurrence of certain events outlined in ASC 810, we reassess our initial determination of whether the partnership or joint venture is a VIE. We also perform a qualitative assessment of each VIE to determine if we are the primary beneficiary, as required by ASC 810, as amended.

We account for investments in joint ventures deemed to be variable interest entities for which we are not considered to be the primary beneficiary using the equity method, and investments in joint ventures where we have virtually no influence on the joint venture's operating and financial policies, on the cost method. Generally, the operating agreements with respect to our Real Estate Affiliates provide that assets, liabilities and funding obligations are shared in accordance with our ownership percentages.

The aggregate carrying value of the unconsolidated VIEs was \$3.2 million as of December 31, 2011 and was classified as investments in real estate affiliates in the Consolidated Balance Sheet. We did not participate in any VIEs in 2010. Because these joint ventures are in the pre-development stage there were no earnings for the year ended December 31, 2011. Our maximum exposure to loss as a result of these investments is limited to the aggregate carrying value of the investment, as we have not provided any guarantees on behalf of these VIEs.

Below is a discussion of our VIEs and the related accounting considerations.

Columbia Parcel D Joint Venture

On October 27, 2011, we entered into a joint venture with a local developer to construct a Class A apartment building with ground floor retail space in downtown Columbia, MD. As we and our partner each own 50% of the venture, and unanimous consent of the partners is required for all major decisions, we account for our investment in this venture using the equity method.

Ala Moana Condominium Development Joint Venture

On October 11, 2011, we entered into a joint venture with two local developers and formed HHMK Development, LLC to explore the development of a luxury condominium tower at the Ala Moana Center, Honolulu, HI. As we and our partner each own 50% of the venture, and unanimous consent of the partners is required for all major decisions, we account for our investment in the venture using the equity method.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Bridges at Mint Hill Joint Venture

On September 8, 2011, we entered into a joint venture with the owner of land adjacent to our property to jointly develop a shopping center near Charlotte, NC. Our initial ownership in the venture is 79.0%, and our ownership percentage could increase to 90.5% if we are required to make a \$4.5 million cash contribution related to the mortgage secured by our partner. Our partner has consent rights on all major decisions regarding the venture so long as its interest is at least 21.0%.

Other

Our interest in Westlake Retail Associates, Ltd (“Circle T Ranch”) and 170 Retail Associates (“Circle T Power Center”), and together with Circle T Ranch, (“Circle T”), located in Dallas/Fort Worth, Texas is held through joint venture entities in which we own non-controlling interest and are unconsolidated and accounted for on the equity method. Waterway Ave Partners, L.L.C. (“Millennium Waterway Apartments”), FV-93 Limited and Timbermill-94 Limited (“Forest View and Timbermill Apartments”), Woodlands Sarofim #1 Ltd. (“Woodlands Sarofim”) industrial buildings and Stewart Title of Montgomery County, Inc. (“Stewart Title”), all located in The Woodlands and collectively referred to as “The Woodlands Equity Investments”, are reflected in our financial statements as Real Estate Affiliates and are accounted for on the equity method.

As of July 1, 2011, The Woodlands is consolidated and no longer a Real Estate Affiliate and The Woodlands equity method investments are considered Real Estate Affiliates (refer to Note 1).

Collateralized mortgages, notes and loans payable	468,100	65,518
Total mortgages, notes and loans payable	\$606,477	\$318,660

The following table summarizes the contractual obligations relating to our long-term debt as of December 31, 2011:

	Long-term debt principal payments
	(In thousands)
2012	\$ 52,166
2013	31,896
2014	35,553
2015	126,670
2016	232,639
Subsequent/Other	127,553
Total	\$606,477

Collateralized Mortgages, Notes and Loans Payable

As of December 31, 2011, we had \$606.5 million of collateralized mortgages, notes and loans payable. Approximately \$281.7 million of the debt included in the table above is related to The Woodlands, which was consolidated on July 1, 2011. All of the debt is non-recourse and is secured by the individual properties as listed in the table above, except for The Woodlands Master Credit Facility and Resort and Conference Center Loan which is recourse to the partnerships that directly own The Woodlands operations, and a \$7.0 million corporate recourse guarantee associated with the 110 N. Wacker mortgage, which is more fully discussed below. The

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Bridgeland MPC loan is secured by approximately 7,182 acres of land within the Bridgeland MPC and a security interest in its Municipal Utility District receivables. In addition, certain of our loans contain provisions which grant the lender a security interest in the operating cash flow of the property that represents the collateral for the loan. Such provisions are not expected to impact our operations in 2012. Certain mortgage notes may be prepaid, but may be subject to a prepayment penalty equal to a yield-maintenance premium, defeasance or a percentage of the loan balance.

The Woodlands Master Credit Facility is a \$270.0 million facility consisting of a \$170.0 million term loan and a \$100.0 million revolving credit line (together, the "TWL Facility"). As of December 31, 2011, the TWL Facility had an outstanding balance of \$183.0 million. The TWL Facility bears interest at one-month LIBOR plus 4.0% with a 1.0% LIBOR floor, has a March 29, 2014 initial maturity date and a one-year extension at borrower's option. The TWL Facility also contains certain restrictions or covenants that, among other things, require the maintenance of specified financial ratios, restrict the incurrence of additional indebtedness at The Woodlands, and limit distributions from The Woodlands to us. Until The Woodlands leverage, as defined by the credit agreement, is less than a 40.0% loan to value ratio, we must amortize the debt on a dollar for dollar basis for any distributions that we make from The Woodlands. As of December 31, 2011, leverage was approximately 45.5%. There was \$34.2 million of undrawn and available borrowing capacity under the TWL Facility based on the collateral underlying the facility and covenants as of December 31, 2011. The TWL Facility also requires mandatory principal amortization payments during its initial term and during the extension period, if exercised. Repayments of \$10.0 million, \$25.0 million and \$30.0 million are required on March 29 of 2012, 2013 and, if extended, 2014, respectively. Furthermore, \$10.0 million is due on each of June 29, September 29 and December 29, 2014 during the extension period.

The Woodlands Resort and Conference Center loan has a \$36.1 million outstanding balance as of December 31, 2011, matures on October 30, 2012 and may be extended for one year at our option. The loan bears interest at one-month LIBOR plus 4.5% as of December 31, 2011 and has a 1.0% LIBOR floor. The interest rate increased by 0.5% on September 23, 2011 and increases by 0.5% every six months thereafter until maturity. The loan is secured by a 440 rooms and 40 acre conference center and resort located within The Woodlands, and requires the maintenance of specified financial ratios.

On December 5, 2011, we secured a \$55.0 million loan for 4 Waterway Square and 9303 New Trails. Proceeds from the loan were partially used to refinance a \$13.1 million mortgage secured by 9303 New Trails. The excess proceeds were used to partially repay the credit facility and to increase unrestricted cash. The loan matures in December 2023 and has a fixed interest rate of 4.88%.

On September 30, 2011, we closed on a \$250.0 million non-recourse first mortgage financing secured by the Ward Centers in Honolulu, Hawaii, that bears interest at LIBOR plus 2.50%. The loan matures on September 29, 2016, and \$143.0 million of the principal balance was swapped to a 3.81% fixed rate for the term of the loan. The initial loan proceeds of \$212.5 million were used to repay approximately \$208.7 million of mortgage debt and to fund closing costs. The loan may be drawn to a maximum \$250.0 million to fund capital expenditures at the property, provided that the outstanding principal balance cannot exceed 65% of the property's appraised value and the borrowers are required to have a minimum 10.0% debt yield in order to draw additional loan proceeds under the facility. The loan also permits partial repayment during its term in connection with property releases for development. The repayment of three mortgages previously secured by Ward Centers resulted in an \$11.3 million pre-tax loss on early repayment of debt. The mortgages had been recorded at discounts to their outstanding principal balances because they were recorded at their fair values as part of the reorganization transactions in 2010. The loan had a \$220.0 million outstanding balance as of December 31, 2011.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

On May 10, 2011, we closed a \$29.0 million first mortgage financing secured by our office building located at 110 N. Wacker Drive in Chicago, Illinois and bearing interest at LIBOR plus 2.25%. At closing, the interest rate on the loan was swapped to a 5.21% fixed rate for the term of the loan. The loan matures on October 31, 2019 and its term is coterminous with the expiration of the first term of the existing tenant's lease (Note 11). The loan has an interest-only period through April 2015 and, thereafter, amortizes ratably to \$12.0 million through maturity. The proceeds from the financing were used to repay the existing \$28.2 million mortgage and to pay closing costs and other expenses. We provided a \$7.0 million repayment guarantee for the loan, which is reduced on a dollar for dollar basis during the amortization period.

As of December 31, 2011, \$1.1 billion of land, buildings and equipment and developments in progress (before accumulated depreciation) have been pledged as collateral for our mortgages, notes and loans payable of which \$7.0 million is recourse.

As of December 31, 2011, we were in compliance with all of the financial covenants related to our debt agreements.

Special Improvement Districts Bonds

The Summerlin master planned community uses Special Improvement District bonds to finance certain common infrastructure. These bonds are issued by the municipalities and, although unrated, are secured by the assessments on the land. They are tax exempt for federal income tax purposes. The majority of proceeds from each bond issued is held in a construction escrow and dispersed to us as infrastructure projects are completed, inspected by the municipalities and approved for reimbursement and, accordingly, the Special Improvement District bonds have been classified as a receivable. The Summerlin master planned community pays the debt service on the bonds semi-annually, but receives reimbursement of all principal paid from most of the purchasers of its land; generally, resulting in no gain or loss relating to the Special Improvement District bonds. In addition, as Summerlin sells land, the purchasers assume a proportionate share of the bond obligation.

Letters of Credit and Surety Bonds

We had outstanding letters of credit and surety bonds of \$41.6 million as of December 31, 2011 and \$38.7 million as of December 31, 2010. These letters of credit and bonds were issued primarily in connection with insurance requirements, special real estate assessments and construction obligations.

NOTE 8 DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We are primarily exposed to interest rate risks related to our variable interest debt, and we seek to manage this risk by utilizing interest rate swap and cap instruments to minimize this exposure.

Our objectives in using interest rate derivatives are to add stability to interest costs by reducing our exposure to interest rate movements. To accomplish this objective and predictability, we primarily use interest rate swaps and caps as part of our interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in Accumulated Other Comprehensive Income ("AOCI") and is subsequently reclassified into earnings

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

in the period that the hedged forecasted transaction affects earnings. During 2011, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the years ended December 31, 2011, the amount of ineffectiveness was immaterial. We did not utilize any derivative instruments for hedging purposes in 2010.

Amounts reported in AOCI related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. Over the next 12 months, we estimate that an additional \$1.8 million will be reclassified as an increase to interest expense.

As of December 31, 2011, we had gross notional amounts of \$172.0 million of interest rate swaps and a \$100.0 million interest rate cap that were designated as cash flow hedges of interest risk. The fair value of the interest rate cap derivative was immaterial.

The table below presents the fair value of our derivative financial instruments as well as the classification on the Balance Sheet as of December 31, 2011 and 2010:

	Balance Sheet Location	As of December 31,	
		2011	2010
		Fair Value	Fair Value
		(In thousands)	
Interest Rate Swaps	Accounts payable and accrued expenses	\$(4,367)	\$—
Total derivatives designated as hedging instruments		\$(4,367)	\$—

The table below present the effect of our derivative financial instruments on the Statement of Income (Loss) for the years ended December 31, 2011 and 2010:

	Year Ended December 31,		Location of Loss Reclassified from Accumulated OCI into Earnings	Year Ended December 31,

	\$(4,047)	\$—		\$(696)	\$—

NOTE 9 INCOME TAXES

We are taxed as a C corporation after November 9, 2010. One of our consolidated entities, Victoria Ward, Limited (“Ward”, substantially all of which is owned by us) elected to be taxed as a REIT under sections 856-860 of the Internal Revenue Code of 1986, as amended (the “Code”), commencing with the taxable year beginning January 1, 2002. To qualify as a REIT, Ward must meet a number of organizational and operational requirements, including requirements to distribute at least 90% of its ordinary taxable income and to distribute to stockholders or pay tax on 100% of capital gains and to meet certain asset and income tests. Ward has satisfied such REIT distribution requirements for 2011 and 2010, and presently we intend to continue to operate Ward as a REIT. As a REIT, Ward is ordinarily not subject to income taxes; however, Ward is required to make annual distributions to its shareholders, and the shareholders are taxed on these distributions.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

As of December 31, 2011, the bases of Ward included in our Consolidated Financial Statements exceeds the tax bases in Ward by \$173.3 million.

GGP received a private letter ruling from the Internal Revenue Service (the "IRS") with respect to the tax effect of the transfer of assets from our predecessors to HHC and to the effect that the distribution of HHC stock to GGP's shareholders in the separation would qualify as tax-free to GGP and its subsidiaries for U.S. federal income tax purposes. A private letter ruling from the IRS generally is binding on the IRS. The IRS did not rule that the distribution satisfies every requirement for a tax-free spin-off, and the parties have relied, and will rely, solely on the advice of counsel for comfort that such additional requirements are satisfied.

The provision for (benefit from) income taxes for the years ended December 31, 2011, 2010 and 2009 was as follows:

	2011	2010	2009
	(In thousands)		
Current	\$ 936	\$ 2,658	\$ (849)
Deferred	(19,261)	(636,117)	(23,120)
Total	\$(18,325)	\$(633,459)	\$(23,969)

The 2010 income tax provision includes significant tax amounts recognized immediately prior to the Separation related to assets previously held in REIT entities for which no income tax provision was recorded. Upon transfer of the assets to a taxable entity a net tax benefit was recorded to reflect the excess of tax basis over the book basis of transferred assets. In addition, the 2010 income tax provision also reflects deferred tax benefits recognized after the Separation due to impairment losses.

Income tax expense is computed by applying the Federal corporate tax rate for the years ended December 31, 2011, 2010 and 2009 and is reconciled to the provision for income taxes as follows:

	2011	2010	2009
	(In thousands)		
Tax at statutory rate on earnings from continuing operations before income taxes	\$ 45,099	\$(245,942)	\$(254,653)
Increase (decrease) in valuation allowance, net	(13,110)	61,649	7,267
State income taxes, net of Federal income tax benefit	2,243	(7,969)	(2,728)
Tax at statutory rate on REIT entity earnings not subject to Federal income taxes	1,204	2,193	220,836
Tax expense (benefit) from change in rates, provision adjustments and other permanent differences	(20,829)	(8,811)	257
Non-deductible warrant liability (gain) loss	(35,859)	49,315	—
Non-taxable interest income	(2,990)	—	—
Non-deductible restructuring costs	—	17,352	—
Tax benefit from tax related restructuring	—	(509,970)	—
Expiration of capital loss carryforwards	—	—	3,726
Uncertain tax position expense, excluding interest	364	1,667	—
Uncertain tax position interest, net of Federal income tax benefit	5,553	7,057	1,326
Income tax benefit	\$(18,325)	\$(633,459)	\$(23,969)

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Realization of a deferred tax benefit is dependent upon generating sufficient taxable income in future periods. Our net operating loss carry-forwards are currently scheduled to expire in subsequent years through 2032. Some of the net operating loss carry-forward amounts are subject to annual limitations under Section 382 of the Code. This annual limitation under Section 382 is subject to modification if a taxpayer recognizes what are called “built-in gain items.” It is possible that we could, in the future, experience a change in control pursuant to Section 382 that could put additional limits on the benefit of deferred tax assets.

As of December 31, 2011, the amounts and expiration dates of operating loss and tax credit carryforwards for tax purposes are as follows:

	<u>Amount</u>	<u>Expiration</u>
	<u>(In thousands)</u>	<u>Date</u>
Net operating loss carryforwards - Federal	\$ 84,687	2024-2032
Net operating loss carryforwards - State	225,036	2011-2032
Tax credit carryforwards - Federal AMT	1,724	n/a

As of December 31, 2011 and 2010, we had gross deferred tax assets totaling \$384.5 million and \$367.9 million, and gross deferred tax liabilities of \$403.2 million and \$376.2 million, respectively. We have established a valuation allowance in the amount of \$57.3 million and \$70.4 million as of December 31, 2011 and 2010, respectively, against certain deferred tax assets for which it is more likely than not that such deferred tax assets will not be realized. Deferred tax assets that we believe have only a remote possibility of realization have not been recorded.

The tax effects of temporary differences and carryforwards included in the net deferred tax liabilities at December 31, 2011 and 2010 are summarized as follows:

	<u>2011</u>	<u>2010</u>
	<u>(In thousands)</u>	
Property Associated with Master Planned Communities, primarily differences in the tax basis of land assets and treatment of interest and other costs	\$(189,147)	\$(171,351)
Operating property, primarily differences in basis of assets and liabilities	226,097	210,587
Deferred income	(214,065)	(204,828)
Interest deduction carryforwards	110,649	122,330
Operating loss and tax credit carryforwards	47,776	34,968
Valuation allowance	(57,276)	(70,386)
Net deferred tax liabilities	\$ (75,966)	\$ (78,680)

The deferred tax liability associated with the master planned communities is largely attributable to the difference between the basis and value determined as of the date of the acquisition by our predecessors of The Rouse Company (“TRC”) in 2004 adjusted for sales that have occurred since that time. The cash cost related to this deferred tax liability is dependent upon the sales price of future land sales and the method of accounting used for income tax purposes. The deferred tax liability related to deferred income is the difference between the income tax method of accounting and the financial statement method of accounting for prior sales of land in our Master Planned Communities.

Although we believe our tax returns are correct, the final determination of tax examinations and any related litigation could be different than what was reported on the returns. In our opinion, we have made adequate tax

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

provisions for years subject to examination. Generally, we are currently open to audit under the statute of limitations by the Internal Revenue Service for the years ending December 31, 2007 through 2011 and are open to audit by state taxing authorities for years ending December 31, 2007 through 2011.

Two of our subsidiaries were subject to IRS audit for the years ended December 31, 2008 and 2007. On February 9, 2011, the two subsidiaries received statutory notices of deficiency (“90-day letters”) seeking \$144.1 million in additional tax. It is our position that the tax law in question has been properly applied and reflected in the 2007 and 2008 returns for these two taxable REIT subsidiaries. We previously provided for the additional taxes sought by the IRS, through our uncertain tax position liability or deferred tax liabilities. Pursuant to the Investment Agreements, GGP has indemnified us from and against 93.75% of any and all losses, claims, damages, liabilities and reasonable expenses to which we become subject, in each case solely to the extent directly attributable to certain taxes related to sales of certain assets in our Master Planned Communities segment prior to March 31, 2010 in an amount up to \$303.8 million. Under certain circumstances, GGP has also agreed to be responsible for interest or penalties attributable to such MPC Taxes in excess of the \$303.8 million. We have recorded interest income receivable on the tax indemnity receivable in the amounts of \$28.0 million and \$19.7 million for the years ended December 31, 2011 and 2010, respectively. In addition, we are generally responsible for any liabilities, taxes or other charges that are imposed on GGP as a result of the Separation failing to qualify for nonrecognition treatment for U.S. federal (and state and local) income tax purposes, if we are the party responsible for such failure.

On May 6, 2011, GGP filed Tax Court petitions on behalf of the two former taxable REIT subsidiaries of GGP seeking a redetermination of federal income tax for the years 2007 and 2008. The petitions seek to overturn determinations by the IRS that the taxpayers were liable for combined deficiencies totaling \$144.1 million. On October 20, 2011, GGP filed a motion in the United States Tax Court to consolidate the cases of the two former taxable REIT subsidiaries of GGP subject to litigation with the Internal Revenue Service due to the common nature of the cases’ facts and circumstances and the issues being litigated. The United States Tax Court granted the motion to consolidate. The litigation is currently in the discovery phase.

We adopted the generally accepted accounting principle related to accounting for uncertainty in income taxes, which prescribes a recognition threshold that a tax position is required to meet before recognition in the financial statements and provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition issues.

We recognize and report interest and penalties, if applicable, within our provision for income tax expense from January 1, 2007 forward. We recognized potential interest expense (benefit) related to the unrecognized tax benefits of \$8.5 million, \$10.9 million and \$2.0 million for the years ended December 31, 2011, 2010 and 2009, respectively. At December 31, 2011, we had total unrecognized tax benefits of \$101.4 million, excluding interest of \$28.5 million, of which none would impact our effective tax rate. At December 31, 2010 and 2009, we had total unrecognized tax benefits of \$120.8 million and \$56.5 million, respectively, excluding interest, of which \$0.4 million would impact our effective tax rate.

	2011	2010	2009
	(In thousands)		
Unrecognized tax benefits, opening balance	\$120,816	\$ 56,508	\$ 69,665
Gross increases - tax positions in prior period	—	69,168	41
Gross decreases - tax positions in prior periods	(19,408)	(4,860)	(13,198)
Unrecognized tax benefits, ending balance	\$101,408	\$120,816	\$ 56,508

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

Based on our assessment of the expected outcome of existing examinations or examinations that may commence, or as a result of the expiration of the statute of limitations for specific jurisdictions, it is reasonably possible that the related unrecognized tax benefits, excluding accrued interest, for tax positions taken regarding previously filed tax returns will materially change from those recorded at December 31, 2011. A material change in unrecognized tax benefits could have a material effect on our statements of income (loss) and comprehensive income (loss). As of December 31, 2011, there is approximately \$101.4 million of unrecognized tax benefits, excluding accrued interest, which due to the reasons above, could significantly increase or decrease during the next twelve months.

Earnings and profits, which determine the taxability of dividends to stockholders, differ from net income reported for financial reporting purposes due to differences for Federal income tax reporting purposes in, among other things, estimated useful lives, depreciable basis of properties and permanent and temporary differences on the inclusion or deductibility of elements of income and deductibility of expense for such purposes.

NOTE 10 RENTALS UNDER OPERATING LEASES

We receive rental income from the leasing of retail and other space under operating leases. Such operating leases are with a variety of tenants, the majority of which are national and regional retail chains and local retailers, and our credit risk therefore is concentrated in the retail industry. The minimum future rentals based on operating leases of our consolidated properties held as of December 31, 2011 are as follows:

<u>Year</u>	<u>Total Minimum Rent</u>
	(In thousands)
2012	\$60,108
2013	54,587
2014	45,483
2015	40,086
2016	30,740
Subsequent	98,212

Minimum future rentals exclude amounts which are payable by certain tenants based upon a percentage of their gross sales or as reimbursement of operating expenses and amortization of above and below-market tenant leases.

NOTE 11 TRANSACTIONS WITH GGP AND OTHER RELATED PARTY DISCLOSURES

The accompanying combined financial statements prior to the separation present the operations of the HHC Businesses as carved-out from the consolidated financial statements of GGP. Transactions between the HHC Businesses have been eliminated in the combined presentation. An allocation of certain centralized GGP costs incurred for activities such as employee benefit programs, property management and asset management functions, centralized treasury, payroll and administrative functions have been made to the property operating costs of HHC Businesses.

Prior to the Effective Date, we entered into a transition services agreement (the "TSA") whereby GGP agreed to provide to us, on a transitional basis, certain specified services on an interim basis for various terms not exceeding 24 months following the Separation, subject to our right of earlier termination. Concurrently, we entered into a Reverse Transition Services Agreement ("RTSA") whereby we agreed to provide GGP with certain income tax and accounting support services, also subject to earlier termination prior to its scheduled

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

expiration of November 9, 2013. We incurred \$0.4 million and \$0.3 million of expenses related to the TSA in each of 2011 and 2010, respectively. For 2011 and 2010, we received negligible reimbursements under the RTSA.

In addition, GGP is a tenant at our 110 N. Wacker office property. Under the 110 N. Wacker lease agreement, we recognized approximately \$6.1 million, \$6.1 million and \$5.0 million of rental income from GGP and its subsidiaries for the years ended December 31, 2011, 2010 and 2009, respectively.

In January 2011, we entered into a Transition Agreement with TPMC Realty Services Group, Inc. (“TPMC”). David Weinreb, a director and our CEO, is the sole equity owner of TPMC and the chief executive officer of TPMC and Grant Herlitz, our president, is the president of TPMC. TPMC was reimbursed a total of \$0.9 million in August 2011 for expenses related to Mr. Weinreb’s employment agreement with us. Such reimbursements are reflected in general and administrative expense for the year ended December 31, 2011.

We also entered into a lease agreement for 3,253 square feet of office space in Los Angeles, California with an affiliate of TPMC, which commenced on May 1, 2011. Annual rental expenses relating to the lease is approximately \$111,965 per year and the lease expires in July 2016.

On January 31, 2011, we terminated a Management Services Agreement with Brookfield Advisors LP. Pursuant to the agreement which was executed on August 6, 2010. Brookfield Advisors LP provided us services that included strategic advice, project development oversight, financials planning, financing consultation, internal controls expertise and community and investor relations. This agreement provided for payments to Brookfield Advisors LP of \$0.5 million per month.

NOTE 12 STOCK BASED PLANS

Incentive Stock Plans

On November 9, 2010, HHC adopted The Howard Hughes Corporation 2010 Equity Incentive Plan (the “Equity Plan”). Pursuant to the Equity Plan, 3,698,050 shares of HHC common stock are reserved for issuance. The Equity Plan provides for grants of options, stock appreciation rights, restricted stock, other stock-based awards and performance-based compensation (collectively, “the Awards”). Directors, employees and consultants of HHC and its subsidiaries and affiliates are eligible for awards.

Prior to the Chapter 11 cases, our predecessors granted qualified and non-qualified stock options and restricted stock to certain GGP officers and key employees whose compensation costs related specifically to our assets. Accordingly, an allocation of stock-based compensation costs pertaining to such employees has been reflected in our financial statements for periods prior to the Effective Date.

All stock plans are administered by the Compensation Committee of the Board of Directors (“Committee”). Option grant amounts are awarded by the Committee. Options normally extend for ten years and generally become exercisable after five years. Recorded compensation cost for share-based payment arrangements totaled \$3.0 million for 2011.

For 2010 and 2009, the GGP stock compensation expense for employees specifically attributed to the HHC Businesses, of approximately \$0.6 million and \$0.2 million, respectively, has been included in the accompanying financial statements for periods prior to the Effective Date.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

As of December 31, 2011, there were a maximum of 2,934,610 shares available for future grant under our various stock plans.

Stock Options

Pursuant to the Plan, each outstanding option to acquire shares of GGP stock (“Old GGP Options”) was converted into (i) an option to acquire the same number of shares of common stock of reorganized GGP (“New GGP Options”) and (ii) a separate option to acquire 0.0983 shares of our common stock for each existing option for one share of GGP common stock (“HHC Options”). The replacement options are fully vested as of the Effective Date and have the same terms and conditions as the outstanding GGP options.

The exercise price under the Old GGP Options was allocated to the New GGP Options and the HHC options based on the relative market values of the two underlying stocks. For purposes of such allocation, the volume-weighted price of shares of GGP after its emergence of bankruptcy and HHC during the last ten-day trading period (the “Trading Period”) ending on or before the 60th day after the Effective Date was used. As the date of emergence was November 9, 2010, the Trading Period was December 27, 2010 through January 7, 2011. The volume-weighted price of one GGP common share upon emergence from bankruptcy was \$15.29 and one HHC common share was \$54.13 (that was subsequently adjusted by .0983 to be on a comparable basis), during the Trading Period and, therefore, the exercise prices for the Old GGP Options replaced were allocated in a ratio of approximately 74.15% to GGP and 25.85% to HHC. In addition, we have agreed with GGP that all exercises of GGP replacement options would be settled by, except those of the former top two executive officers of GGP whose options were exercised at their termination in December 2010, the employer of the pre-emergence GGP employee at the time of exercise. As of December 31, 2011, the number of shares of common stock issuable upon exercise of the HHC options is insignificant.

The following tables summarize stock option activity:

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

<u>Exercise Price</u>	<u>Shares</u>	<u>Weighted Average Remaining Contractual Term (in years)</u>
\$57.77	595,500	9.2
69.75	19,640	9.2
64.41	5,000	9.3
66.27	21,000	9.4
55.81	34,500	9.6
46.49	37,000	9.9
<u>57.72</u>	<u>712,640</u>	<u>9.2</u>

The fair value on the grant date and the significant assumptions used in the Black-Scholes option-pricing model are as follows:

	<u>2011</u>
Weighted average grant date fair value	\$21.31
Weighted-average expected life of options (in years)	7.9
Weighted-average risk-free interest rate	2.9%
Weighted-average expected volatility	26%
Expected annual dividend per share	\$ —

The computation of the expected volatility assumption used in the Black-Scholes calculations is based on the median asset volatility of comparable companies as of each of the grant dates.

The balance of unamortized stock option expense as of December 31, 2011 was \$12.6 million, which is expected to be recognized over a weighted-average period of 4.2 years. Expense associated with stock options for the year ended December 31, 2011 which is included in general and administrative expense in the accompanying Consolidated Statement of Income (Loss), totaled \$2.3 million.

As of December 31, 2011, there were no options exercisable under the plan.

Restricted Stock

In 2010, we granted 8,247 shares of restricted stock to certain non-employee directors as part of an annual retainer for their services on the board of directors and the restrictions on these shares lapsed in June 2011. In 2011, we granted 12,553 shares of restricted stock to certain non-employee directors, as part of an annual retainer for their services on the board of directors. The restrictions on these shares lapsed on June 1, 2012.

Restricted stock awards issued under the plan provide that shares awarded may not be sold or otherwise transferred until restrictions have lapsed as established by the Committee. Generally, upon termination of employment or directorship, restricted stock units and restricted shares which have not vested are forfeited. For the year 2011, recognized compensation expense of \$0.7 million is included in general and administrative expense related to restricted stock awards. The fair value of restricted stock that vested during 2011 was \$0.5 million. The balance of unamortized restricted stock expense as of December 31, 2011 was \$2.2 million, which is expected to be recognized over a weighted-average period of 3.5 years.

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 14 COMMITMENTS AND CONTINGENCIES

In the normal course of business, from time to time, we are involved in legal proceedings relating to the ownership and operations of our properties. In our opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a material effect on our consolidated financial position, results of operations or liquidity.

We lease land or buildings at certain properties from third parties. Rental payments are expensed as incurred and have, to the extent applicable, been straight-lined over the term of the lease. Contractual rental expense, including participation rent, was \$3.9 million, \$3.5 million and \$3.5 million for 2011, 2010 and 2009, respectively. The amortization of above and below-market ground leases and straight-line rents included in the contractual rent amount, was not significant.

On December 12, 2011, we entered into a Letter of Intent (“LOI”) with the New York City Economic Development Corporation (“EDC”) which will enable us to pursue redevelopment plans for the South Street Seaport. The EDC is the ground lessor and the LOI describes the business terms of future amendments to the ground lease, the first of which must be finalized by June 30, 2012. During the earlier of the construction period and 30 months, we will be entitled to a total \$1.5 million rent reduction. We also must provide a completion guarantee to New York City for the project. We agreed to pay approximately \$1.1 million of esplanade maintenance costs over a five-year period as consideration for entering into the LOI. This obligation will continue to exist regardless of whether the ground lease is amended.

In conjunction with GGP’s acquisition of TRC in November 2004, GGP assumed TRC’s obligations under a Contingent Stock Agreement, (the “CSA”). TRC entered into the CSA in 1996 when it acquired The Hughes Corporation (“Hughes”). This acquisition included various assets, including Summerlin (the “CSA Assets”), a development in our Master Planned Communities segment. The CSA provided that the beneficiaries receive a share of the cash flow and income from the development or sale of the CSA assets and a final payment representing their share of the valuation of the CSA Assets as of December 31, 2009. The Plan provided that the final payment and settlement of all other claims under the CSA was an obligation of GGP and was \$230.0 million (down from the \$245.0 million estimate at December 31, 2009), and such amount was distributed by GGP after the Effective Date. Accordingly, during September 2010, we reduced our carrying value of the CSA assets, and the related GGP equity, by \$15.0 million for this revised estimate.

See Note 9 for our obligations related to uncertain tax positions for disclosure of additional contingencies.

The following table summarizes the contractual obligations relating to our long-term commitments.

	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>Subsequent / Other</u>	<u>Total</u>

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

NOTE 15 SEGMENTS

We have three business segments which offer different products and services. Our three segments are managed separately because each requires different operating strategies or management expertise and are reflective of our current management's operating philosophies and methods. In addition, our current segments or assets within such segments could change in the future as development of certain properties commences or other operational or management changes occur. We do not distinguish or group our combined operations on a geographic basis which is consistent with how we manage the business. Further, all operations are within the United States and no customer or tenant comprises more than 10% of revenues. Our reportable segments are as follows:

- Master Planned Communities – includes the development and sale of land, in large-scale, long-term community development projects in and around Las Vegas, Nevada; Houston, Texas; and Columbia, Maryland. In prior years this segment included certain commercial properties and other ownership interests owned by The Woodlands. For the years ending December 31, 2011, 2010 and 2009 we have reclassified the operations of The Woodlands commercial properties and other ownership interests to the Operating Assets segment. Furthermore, for segment reporting, we disclosed The Woodlands historical financial information at 100% so that operating performance between periods is comparable.
- Operating Assets – includes commercial, mixed-use and retail properties currently generating revenues, many of which we believe there is an opportunity to redevelop or reposition the asset to increase operating performance.
- Strategic Developments – includes all properties held for development and redevelopment, including the current rental property operations (primarily retail and other interests in real estate at such locations), as well as our one residential condominium project located in Natick (Boston), Massachusetts.

As our segments are managed separately, different operating measures are utilized to assess operating results and allocate resources. The one common operating measure used to assess operating results for the business segments is Real Estate Property Earnings Before Taxes ("EBT") which represents the operating revenues of the properties less property operating expenses, as further described below. Management believes that EBT provides useful information about the operating performance of all of our assets, projects and property.

EBT as it relates to our business is defined as net income (loss) from continuing operations excluding general and administrative expenses, corporate interest income and depreciation expense, investment in real estate basis adjustment, benefit from income taxes, warrant liability gain (loss), reorganization items and the effects of the previously mentioned items within our equity in earnings (loss) from Real Estate Affiliates. We present EBT because we use this measure, among others, internally to assess the core operating performance of our assets. We also present this measure because we believe certain investors use it as a measure of a company's historical operating performance and its ability to service and incur debt. We believe that the inclusion of certain adjustments to net income (loss) from continuing operations to calculate EBT is appropriate to provide additional information to investors because EBT excludes certain non-recurring and non-cash items, including reorganization items related to the bankruptcy, which we believe are not indicative of our core operating performance. EBT should not be considered as an alternative to GAAP net income (loss) attributable to common stockholders or GAAP net income (loss) from continuing operations, it has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP.

As more fully discussed in this report, on July 1, 2011, we acquired our partner's interest in The Woodlands Master planned community, we now own 100% of The Woodlands and consolidate its operations. As such, The Woodlands operating results for historical periods when this investment was a Real Estate Affiliate are now analyzed internally on a non-GAAP consolidation basis by management in order to provide management

THE HOWARD HUGHES CORPORATION

NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

comparability between periods for analyzing operating results. Segment information presented herein has also been restated for all periods presented to reflect The Woodlands on a consolidation basis and provide comparability for all periods. Prior to July 1, 2011, we presented the operations of our equity method Real Estate Affiliates using the non-GAAP proportionate share method for segment reporting purposes. Under this method we presented our share of the revenues and expenses of these Real Estate Affiliates aggregated with the revenues and expenses of consolidated or combined properties. We previously reported the proportionate method because our 52.5% economic interest in The Woodlands represented a significant portion of our Master Planned Community segment. We now own 100% of The Woodlands and consolidate its operations. Now our segment operating results for the year ended December 31, 2011 includes results of The Woodlands from July 1, 2011 to December 31, 2011 under Consolidated Properties and results of The Woodlands from January 1, 2011 to June 30, 2011 and for the years ended December 31, 2010 and 2009 under Real Estate Affiliates on a consolidation basis. The remaining Real Estate Affiliates, including equity investments owned by the Woodlands, primarily represent entities that own single assets rather than a large business such as The Woodlands; therefore, we no longer use the proportionate share method for any Real Estate Affiliates. Rather, we will include the results of our Real Estate Affiliates other than The Woodlands using the equity or cost method, as appropriate.

The total cash expenditures for additions to long-lived assets for the Master Planned Communities and condominiums was \$90.1 million, \$57.1 million and \$61.2 million for the years ended December 31, 2011, 2010 and 2009, respectively. Similarly, total cash expenditures for long-lived assets for the Operating Assets and Strategic Developments segments were \$44.4 million, \$111.8 million and \$27.7 million for the years ended December 31, 2011 2010 and 2009, respectively.
