Item 3. Summary Information, Risk Factors and Dilution

SUMMARY

The following summary highlights selected information contained in this offering circular. This summary does not contain all the information you should consider before investing in the securities. Before making an investment decision, you should read the entire offering circular carefully, including the "risk factors" section, the financial statements and the notes to the financial statements. As used throughout this offering circular, the terms "Jurassic," the "Company," "us," and "our" refer to Jurassic Industries, Inc.

JURASSIC INDUSTRIES, INC.

Jurassic Industries, Inc. was incorporated in Texas On October 13, 2006. We refer to Jurassic Industries, Inc. as "we", "our", "us", "its", "Jurassic" or the "Company".

The Company began informally in 1990 when Reg Lindberg, our chief Executive Officer, developed a long range plan to use the family ranch in Central Texas to produce the raw materials for western, fashion and dress boots utilizing exotic ostrich skins. He determined that the cost of exotic ostrich skins (normally imported from South Africa) represented the largest cost of production, and by raising ostriches on his ranch, he could thereby reduce the cost of manufacturing exotic ostrich footwear and insure a consistent high-quality product and have a continuous supply. With that ultimate goal in mind, Mr. Lindberg began extensive research into the South African ostrich leather industry to gain optimal knowledge concerning the specific processes that pertain to ostrich leather production. He began a 20 year program of breeding and developing his own heard of ostriches utilizing all three breeds: Tanzania Red-Necked, Namibia Blue-Necked, and African Black. Cross-breeding allowed for hybrid vigor. The ranch now has a herd of 747, and each bird yields approximately 4 pair of western boots.

Jurassic Ranch Boots are designed in-house by our own design team, and updates are evaluated on a quarterly basis. Our ostrich hides are sent to a tannery in Leon, Mexico and then to a manufacturer where our boots are hand-made and hand-lasted for quality and comfort. On hand inventory is closely monitored, and orders to the factory are based on customer demand.

Our products fall into two primary categories: (1) footwear and (2) meat-by products. The following summarizes the percentage of our revenues derived from each of these categories for the past two years:

Category	2011	2010
Footwear	99.31%	97.57%
Meat by-products	0.69%	2.49%

There is currently no public market for our common stock. We are currently in discussions with various market makers in order to arrange for an application to be made with respect to our common stock, to be approved for quotation on the OTCMarkets, Inc. upon the effectiveness of this offering circular.

We are registering shares of our common stock for sale pursuant to this offering circular in order to allow us to sell their holdings in the public market and to begin developing a public market for our securities. Our management would like a public market for our common stock to develop in order to be able to seek public financing opportunities in the future.

For the nine months ended September 30, 2012, we generated \$1,350,414 in revenue and a net income of \$142,016. For the year ended December 31, 2011, we generated \$1,801,532 in revenue and a net income of \$109,724. For the year ended December 31, 2010, we generated \$246,479 in revenue and a net loss of \$(154,015).

Our executive offices are located at 902 S. Bus. Hwy. 81/287, Decatur, Texas 76234, and our telephone number is 940-627-0155. We are a Texas corporation.

The Offering	
Common stock outstanding before the offering.....	17,605,776 shares
Common stock being offered.....	Up to 5,000,000 shares
Common stock to be outstanding after the offering..... if all the offered shares are sold	22,605,776 shares
Use of proceeds.....	If we are successful at selling all the shares being offered by our Company, our gross proceeds from such offering will be \$5,000,000. We intend to use these proceeds for the expansion of Jurassic Ranch and the production of Jurassic Ranch Boots.
Risk Factors.....	An investment in the Company is highly speculative and involves substantial risks. Prospective investors should carefully review and consider the factors described under <i>Risk Factors</i> below.

RISK FACTORS

This investment has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other information in this offering circular. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment.

Risks Related to Our Financial Results

IF WE ARE UNABLE TO OBTAIN ADDITIONAL FUNDING, OUR BUSINESS OPERATIONS WILL BE HARMED. EVEN IF WE DO OBTAIN ADDITIONAL FINANCING OUR THEN EXISTING SHAREHOLDERS MAY SUFFER SUBSTANTIAL DILUTION.

We will require additional funds to operate our business, develop and implement a marketing and sales program and address all necessary infrastructure concerns. We anticipate that we will require up to approximately \$5,000,000 to fund our continued operations for the next twelve months. Such funds may come from the sale of equity and/or debt securities and/or loans. It is possible that additional capital will be required to effectively support the operations and to otherwise implement our overall business strategy. The inability to raise the required capital will restrict our ability to grow and may reduce our ability to continue to conduct business operations. If we are unable to obtain necessary financing, we will likely be required to curtail our development plans which could cause the company to become dormant. Any additional equity financing may involve substantial dilution to our then existing shareholders.

OUR FINANCIAL RESULTS DEPEND ENTIRELY UPON OUR ABILITY TO RAISE OSTRICHES, AND FACTORS THAT ADVERSELY AFFECT OUR RANCHING ACTIVITIES, INCLUDING WEATHER CONDITIONS, WILL ADVERSELY AFFECT OUR FINANCIAL RESULTS AND BUSINESS OPERATIONS.

Our success depends heavily on the vitality of our ostriches. Weather conditions, such as floods, heat waves or droughts, and pervasive livestock diseases can affect our ranching activities. While the state of Texas experienced drought and drought-like conditions during 2011, weather conditions did not, and to date have not, had an effect on our ranching activities. Water used in the raising of our ostriches and in the irrigation of our grazing crops comes from a communal deep well. The ranch also has its own deep well for private use. In addition, the Bosque River runs through the ranch property providing an additional source of water. Should weather conditions effect our ranching activities in the future, our business results and financial conditions could be adversely affected.

Risks Related To Our Business

OUR INABILITY TO CONTINUE OPERATING OUR RANCH MAY INTERRUPT OUR SUPPLY OF OSTRICH.

We operate a ranch to grow the ostrich leather which is used in our products. While historically we have not experienced significant difficulties in having enough ostrich in quantities sufficient for our operations, there can be no assurance we may experience some capacity constraints in the future. Any significant unanticipated ability to have enough ostrich for leather could materially affect our results of operations.

THE TIMING AND AMOUNT OF CAPITAL REQUIREMENTS ARE NOT ENTIRELY WITHIN OUR CONTROL AND CANNOT ACCURATELY BE PREDICTED AND AS A RESULT, WE MAY NOT BE ABLE TO RAISE CAPITAL IN TIME TO SATISFY OUR NEEDS, OR COMMENCE OPERATIONS.

We will need to raise additional capital to implement our business plan. We have no commitments for financing, and we cannot be sure that any financing would be available in a timely manner, on terms acceptable to us, or at all. Further, any equity financing could reduce ownership of existing stockholders and any borrowed money could involve restrictions on future capital raising activities and other financial and operational matters. Additionally, even if we do raise sufficient capital and generate revenues to support our operating expenses, there can be no assurances that the revenue will be sufficient to enable us to develop our business to a level where it will generate profits and cash flows from operations.

THE UNITED STATES AND GLOBAL ECONOMIC SLOWDOWN AND ONGOING DISRUPTIONS IN THE FINANCIAL MARKETS COULD HAVE A SIGNIFICANT ADVERSE IMPACT ON CONSUMER AND CORPORATE SPENDING AND OUR BUSINESS IN WAYS THAT WE CANNOT CURRENTLY PREDICT. CONSUMER AND CORPORATE SPENDING CAN SIGNIFICANTLY IMPACT OUR OPERATING RESULTS, AND NATIONAL OR LOCAL CATASTROPHES, ELEVATED TERRORISM ALERTS OR NATURAL DISASTERS COULD HAVE A SIGNIFICANT ADVERSE IMPACT ON OUR OPERATING RESULTS.

Our business depends on discretionary consumer and corporate spending. The recent combination of severely tightened credit markets, stringent and costly borrowing conditions, deterioration of residential real estate and mortgage markets, unprecedented stock market declines and fluctuating oil and commodity prices, among other factors, have led to historically low levels of consumer confidence and recessionary conditions. The direction and strength of the United States economy, including the financial and credit markets, currently is uncertain due to these factors. Many of these conditions and uncertainties also exist in varying degrees throughout the global markets.

Many factors related to discretionary consumer spending can adversely impact recreational and entertainment spending and significantly impact our operating results. Consumer disposable income and spending are affected by economic conditions such as employment rates, high or rising fuel prices, difficult consumer credit and housing markets, interest and tax rates and inflation. Many factors affect corporate spending such as general economic and other business conditions, including consumer spending, high or rising fuel prices, interest and tax rates, hurricanes, flooding, earthquakes and other natural disasters, elevated terrorism alerts, terrorist attacks, military actions and inflation, as well as various industry and other business conditions, including corporate marketing and promotional spending and interest levels. Such factors or incidents, even if not directly impacting us, could disrupt or otherwise adversely impact our customers, markets and consumer spending in general. Also, recent or future governmental actions may control, influence or otherwise restrict corporate spending or spending trends. These factors can impact regional and national consumer and corporate spending sentiment, and adversely affect attendance at our events, suite rentals, sponsorship, advertising and hospitality spending, concession and souvenir sales and driving schools and other track rentals. These factors also can affect the financial results of present and potential sponsors and other customers of our facilities and events and of the industry. Negative factors such as challenging economic conditions, governmental actions that impact spending, public concerns over additional national security incidents and air travel, particularly when combined, can impact corporate and individual customer spending and each negative factor can have varying effects on our operating results. All of the aforementioned factors, among others, can have a material adverse impact on our future operating results and growth.

Government responses and actions may or may not successfully restore stability to the credit and consumer markets and improve economic conditions in the foreseeable future. There can be no assurance that government response to the economic slowdown and disruptions in the financial and credit markets will stabilize the economy or financial and credit markets for long periods. Record state and federal budgetary deficits could result in government responses such as higher consumer and corporate income or other tax rates. Governmental spending deficits could lead to higher interest rates and continued difficult borrowing conditions for consumers and corporate customers. These economic conditions might not improve or could worsen and when these conditions may ultimately improve cannot be determined at this time. These severe economic conditions and governmental actions have and may further adversely impact various industries of our consumer and corporate customers, resulting in spending declines that could adversely impact our revenues and profitability. There can be no assurance that consumer and corporate spending will not be further adversely

impacted by current or unforeseen economic conditions, thereby possibly having a material adverse impact on our future operating results and growth.

IF WE ARE UNABLE TO ESTABLISH SUFFICIENT SALES AND MARKETING CAPABILITIES OR ENTER INTO AND MAINTAIN APPROPRIATE ARRANGEMENTS WITH THIRD PARTIES TO SELL, MARKET AND DISTRIBUTE OUR SERVICES, OUR BUSINESS WILL BE HARMED.

We have limited experience as a company in the sale, marketing and distribution of our services. To achieve commercial success, we must develop sales and marketing capabilities and enter into and maintain successful arrangements with others to market our products.

If we are unable to establish and maintain adequate sales, marketing and distribution capabilities, independently or with others, we may not be able to generate product revenue and may not become profitable. If our current or future partners do not perform adequately, or we are unable to locate or retain partners, as needed, in particular geographic areas or in particular markets, our ability to achieve our expected revenue growth rate will be harmed.

OUR BUSINESS MAY BE AFFECTED BY FACTORS OUTSIDE OF OUR CONTROL.

Our ability to increase sales, and to profitably distribute and sell our products and services, is subject to a number of risks, including changes in our business relationships with our principal distributors, competitive risks such as the entrance of additional competitors into our markets, pricing and technological competition, risks associated with the development and marketing of new products and services in order to remain competitive and risks associated with changing economic conditions and government regulation.

WE MAY NOT BE ABLE TO COMPETE WITH CURRENT AND POTENTIAL FOOTWEAR COMPANIES, SOME OF WHOM HAVE GREATER RESOURCES AND EXPERIENCE THAN WE DO.

The footwear industry is intensely competitive, highly fragmented and subject to rapid change. We do not have the resources to compete with our existing competitors or with any new competitors. We compete with many companies which have significantly greater personnel, financial, managerial, and technical resources than we do. This competition from other companies with greater resources and reputations may result in our failure to maintain or expand our business as we may never be able to develop clients for our services.

WE WILL NEED TO RAISE ADDITIONAL EQUITY OR DEBT FINANCING IN THE FUTURE.

We will need to raise financing in the future to fund our operations. If successful in raising additional financing, we may not be able to do so on terms that are not excessively dilutive to our existing stockholders or less costly than existing sources of financing. Failure to secure additional financing in a timely manner and on favorable terms if and when needed in the future could have a material adverse effect on our financial performance, balance sheet and stock price and require us to implement cost reduction initiatives and curtail operations.

WE MAY BE UNABLE TO MANAGE OUR GROWTH OR IMPLEMENT OUR EXPANSION STRATEGY.

If management is unable to adapt to the growth of our business operations, we may not be able to expand our product and service offerings, our client base and markets, or implement the other features of our business strategy at the rate or to the extent presently planned. Our projected growth will place a significant strain on our administrative, operational and financial resources. If we are unable to successfully manage our future growth, establish and continue to upgrade our operating and financial control systems, recruit and hire necessary personnel or effectively manage unexpected expansion difficulties, our financial condition and results of operations could be materially and adversely affected.

IF WE ARE UNABLE TO RETAIN THE SERVICES OF MR. LINDBERG OR IF WE ARE UNABLE TO SUCCESSFULLY RECRUIT QUALIFIED MANAGERIAL AND FIELD PERSONNEL HAVING EXPERIENCE IN THE FOOTWEAR INDUSTRY, WE MAY NOT BE ABLE TO CONTINUE OUR OPERATIONS.

Our success depends to a significant extent upon the continued services of Mr. Lindberg, our chief executive officer. Loss of the services of Mr. Lindberg could have a material adverse effect on our growth, revenues, and prospective business. In order to successfully implement and manage our business plan, we will be dependent upon, among other things, successfully recruiting qualified managerial and field personnel having experience in the ranching and footwear manufacturing business. Competition for qualified individuals is intense. There can be no assurance that we will be able to find, attract and retain existing employees or that we will be able to find, attract and retain qualified personnel on acceptable terms.

WE ARE CONTROLLED BY CURRENT OFFICERS, DIRECTORS AND PRINCIPAL STOCKHOLDERS.

Following completion of the Offering, our directors, executive officers and principal stockholders and their affiliates will beneficially own approximately 82.85% of the outstanding shares of our common stock, assuming 10% of shares being offered hereunder, or 500,000 shares, is sold by the Company or 66.35% of the outstanding shares of our common stock, assuming the maximum number of shares being offered hereunder is sold by the Company. So long as our directors, executive officers and principal stockholders and their affiliates controls a majority of our fully diluted equity, they will continue to have the ability to elect our directors and determine the outcome of votes by our stockholders on corporate matters, including mergers, sales of all or substantially all of our assets, charter amendments and other matters requiring stockholder approval. This controlling interest may have a negative impact on the market price of our common stock by discouraging third-party investors.

OUR OPERATIONS MAY BE HARMED IF WE ARE UNABLE TO MANAGE OUR INVENTORY PROPERLY.

The fashion-oriented nature of our products and the rapid changes in customer preferences leave us vulnerable to an increased risk of inventory obsolescence. Thus, our ability to manage our inventories properly is an important factor in its operations. Inventory shortages can adversely affect the timing of shipments to customers and diminish sales and brand loyalty. Conversely, excess inventories can result in lower gross margins due to the excessive discounts and markdowns that might be necessary to reduce inventory levels. Our inability to effectively manage our inventory would have a material adverse effect on our business, financial condition and results of operations.

WE RELY ON FOREIGN MANUFACTURERS FOR PRODUCTIONS OF SHOES AND ANY INTERRUPTIONS COULD DISRUPT OUR ABILITY TO FILL CUSTOMER ORDERS AND HAVE A MATERIAL IMPACT ON OUR ABILITY TO OPERATE.

We do not own or operate any manufacturing facilities and are therefore dependent upon independent third parties for the manufacture of all of our products. The inability of a manufacturer to ship orders to us in a timely manner or to meet our quality standards could cause us to miss the delivery date requirements of our customers for those items, which could result in cancellation of orders, refusal to accept deliveries or a reduction in purchase prices, any of which could have a material adverse effect on our business, financial condition and results of operations.

Risks inherent in foreign operations include work stoppages, transportation delays and interruptions, changes in social, political and economic conditions which could result in the disruption of trade from the countries in which our manufacturers or suppliers are located, the imposition of additional regulations relating to imports, the imposition of additional duties, taxes and other charges on imports, significant fluctuations of the value of the dollar against foreign currencies, or restrictions on the transfer of funds, any of which could have a material adverse effect on our business, financial condition and results of operations. We do not believe that any such economic or political condition will materially affect our ability to purchase products, since a variety of materials and alternative sources are available. However, we cannot be certain that we will be able to identify such alternative sources without delay (if ever) or without greater cost to us. Our inability to identify and secure alternative sources of supply in this situation would have a material adverse effect on our business, financial condition and results of operations.

Due to the North American Free Trade Agreement (NAFTA), products originating in the U.S. for sale in the U.S. may be exported into Mexico for manufacturing, and imported back to the U.S. without tariff fees. This allows us to produce our boots at a much lower price than our competition. The United States and the countries in which our products are sold, from time to time, impose new quotas, duties, tariffs, or other restrictions, or may adversely adjust prevailing quota, duty or tariff levels, any of which could have a material adverse effect on our business, financial condition and results of operations.

DUE TO THE HIGH LEVEL OF COMPETITION IN THE FOOTWEAR INDUSTRY WE MIGHT FAIL TO COMPETE EFFECTIVELY, WHICH WOULD HARM OUR FINANCIAL CONDITION AND OPERATING RESULTS.

The footwear industry is highly competitive and barriers to entry are low. Our competitors include specialty companies as well as companies with diversified product lines. The recent market growth in the sales of footwear has encouraged the entry of many new competitors and increased competition from established companies. Most of these competitors have significantly greater financial and other resources than we do and there can be no assurance that we will be able to compete successfully with other footwear companies. Increased competition could result in pricing pressures, increased marketing expenditures and loss of market share, and could have a material adverse effect on our business, financial condition and results of operations. We believes effective advertising and marketing, fashionable styling, high quality and value are the most important competitive factors and plans to continually employ these elements as we develop our products. Our inability to effectively advertise and market our products could have a material adverse effect on our business, financial condition and results of operations.

FLUCTUATION IN FOREIGN CURRENCY COULD HAVE A MATERIAL ADVERSE IMPACT ON OUR OPERATIONS.

We make most of our sales in U.S. dollars. However, we source substantially all of our products overseas and, as such, the cost of these products may be affected by changes in the value of the relevant currencies. Changes in currency exchange rates may also affect the relative prices at which we sell our products. There can be no assurance that foreign currency fluctuations will not have a material adverse effect on our business, financial condition and results of operations.

Risks Related To This Offering And Our Securities

THIS OFFERING IS BEING MADE ON A BEST EFFORTS BASIS WITH NO ESCROW ACCOUNT SO THAT WE WILL RECEIVE ALL PROCEEDS FROM SALES EVEN IF WE DO NOT SELL ALL OF THE SHARES OFFERED HEREBY.

We are making this offering on a best efforts basis, and we need not sell any minimum number of shares in this offering. We cannot assure you that any or all of the shares will be sold. We have not established an escrow account for the proceeds of this offering and all proceeds will be paid directly to us as subscriptions are received and accepted by us. Subscriptions are irrevocable.

OUR FAILURE TO SELL ALL OF THE SHARES OFFERED HEREBY COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS PLAN.

Our business plans require that a portion of the net proceeds from the sale of the shares offered hereby will be used for development of our website and expansion of our operations. Accordingly, if less than all of the shares offered are sold, we may have to delay or modify our plan and proceed on a much slower or smaller scale with a lower likelihood of success. We cannot assure you that any delay or modification of our plans would not adversely affect our business, financial condition and results of operations. If additional funds are needed to implement our business plans, we may be required to seek additional financing. We may not be able to obtain such additional financing or, if obtained, such financing may not be on terms favorable to us or to the purchasers of the shares offered hereby.

IF YOU PURCHASE SHARES IN THIS OFFERING, YOU WILL EXPERIENCE IMMEDIATE AND SUBSTANTIAL DILUTION.

The \$1.00 per share offering price of the common stock being sold under this offering circular has been arbitrarily set. The price does not bear any relationship to our assets, book value, earnings or net worth and it is not an indication of actual value. Accordingly, if you purchase shares in this offering, you will experience immediate and substantial dilution. You may also suffer additional dilution in the future from the sale of additional shares of common stock or other securities.

THERE IS CURRENTLY NO PUBLIC MARKET FOR OUR COMMON STOCK. FAILURE TO DEVELOP OR MAINTAIN A TRADING MARKET COULD NEGATIVELY AFFECT THE VALUE OF OUR SHARES AND MAKE IT DIFFICULT OR IMPOSSIBLE FOR YOU TO SELL YOUR SHARES.

Prior to this offering, there has been no public market for our common stock and a public market for our common stock may not develop upon completion of this offering. While we will attempt to have our common stock quoted on the OTCMarkets, Inc, there is no assurance we will be able to do so. Failure to develop or maintain an active trading market could negatively affect the value of our shares and make it difficult for you to sell your shares or recover any part of your investment in us. Even if a market for our common stock does develop, the market price of our common stock may be highly volatile. In addition to the uncertainties relating to our future operating performance and the profitability of our operations, factors such as variations in our interim financial results, or various, as yet unpredictable factors, many of which are beyond our control, may have a negative effect on the market price of our common stock.

Even if our common stock is quoted on the OTCMarkets, Inc, the OTCMarkets, Inc provides a limited trading market. Accordingly, there can be no assurance as to the liquidity of any markets that may develop for our common stock, the ability of holders of our common stock to sell our common stock, or the prices at which holders may be able to sell our common stock.

OUR COMMON STOCK WILL BE SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC.

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- that a broker or dealer approve a person's account for transactions in penny stocks; and
- the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- obtain financial information and investment experience objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

WE HAVE NOT PAID DIVIDENDS IN THE PAST AND DO NOT EXPECT TO PAY DIVIDENDS IN THE FUTURE. ANY RETURN ON INVESTMENT MAY BE LIMITED TO THE VALUE OF OUR COMMON STOCK.

We have never paid cash dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the board of directors may consider relevant.

DILUTION

If you purchase our securities in this offering, your interest will be diluted to the extent of the difference between the public offering price per unit and the net tangible book value per share of our common stock after this offering. We calculate net tangible book value per share by dividing our net tangible assets (tangible assets less total liabilities) by the number of shares of our common stock issued and outstanding as of September 30, 2012.

Our net tangible book value at September 30, 2012 was \$865,006, or \$0.0491 per share, based on 17,605,776 shares of our common stock outstanding.

After giving effect to the issuance and sale of 25% of the shares in this offering (1,250,000 shares) at the public offering price of \$1.00 per share, less the estimated offering expenses, our adjusted net tangible book value at September 30, 2012 would be \$2,015,006 or \$0.1034 per share. This represents an immediate increase in net tangible book value of \$0.05427 per share to existing stockholders and an immediate dilution of \$0.8966 per share to investors in this offering. The following table illustrates this per share dilution:

Public offering price per share		\$	1.00
Net tangible book value per share as of September 30, 2012	\$		0.0491
Increase per share attributable to investors in this offering	\$		0.05427
Adjusted net tangible book value per share as of September 30, 2012		\$	0.1034
Dilution per share to investors in this offering		\$	0.8966

After giving effect to the issuance and sale of 50% of the shares in this offering (2,500,000 shares) at the public offering price of \$1.00 per share, less the estimated offering expenses, our adjusted net tangible book value at September 30, 2012 would be \$3,265,006 or \$0.1591 per share. This represents an immediate increase in net tangible book value of \$0.11001 per share to existing stockholders and an immediate dilution of \$0.8409 per share to investors in this offering. The following table illustrates this per share dilution:

Public offering price per share		\$	1.00
Net tangible book value per share as of September 30, 2012	\$		0.0491
Increase per share attributable to investors in this offering	\$		0.11001
Adjusted net tangible book value per share as of September 30, 2012		\$	0.1591
Dilution per share to investors in this offering		\$	0.8409

After giving effect to the issuance and sale of 75% of the shares in this offering (3,750,000 shares) at the public offering price of \$1.00 per share, less the estimated offering expenses, our adjusted net tangible book value at September 30, 2012 would be \$4,515,006 or \$0.2084 per share. This represents an immediate increase in net tangible book value of \$0.15923 per share to existing stockholders and an immediate dilution of \$0.7916 per share to investors in this offering. The following table illustrates this per share dilution:

Public offering price per share		\$	1.00
Net tangible book value per share as of September 30, 2012	\$		0.0491
Increase per share attributable to investors in this offering	\$		0.15923
Adjusted net tangible book value per share as of September 30, 2012		\$	0.2084
Dilution per share to investors in this offering		\$	0.7916

After giving effect to the issuance and sale of all of the shares in this offering (5,000,000 shares) at the public offering price of \$1.00 per share, less the estimated offering expenses, our adjusted net tangible book value at September 30, 2012 would be \$5,765,006 or \$0.2521 per share. This represents an immediate increase in net tangible book value of \$0.203 per share to existing stockholders and an immediate dilution of \$0.7479 per share to investors in this offering. The following table illustrates this per share dilution:

Public offering price per share		\$	1.00
Net tangible book value per share as of September 30, 2012	\$	0.0491	
Increase per share attributable to investors in this offering	\$	0.203	
Adjusted net tangible book value per share as of September 30, 2012		\$	0.2521
Dilution per share to investors in this offering		\$	0.7479

The foregoing illustration does not reflect potential dilution from the exercise of any convertible securities to purchase shares of our common stock.

Rule 3(a)4-1 sets forth those conditions under which a person associated with an issuer may participate in the offering of the issuer's securities and not be deemed to be a broker-dealer. The foregoing individuals satisfy the requirements of Rule 3(a)4-1 in that:

2. None of such persons is compensated in connection with his or her participation by the payment of commissions or other remuneration based either directly or indirectly on transactions in securities;
3. None of such persons is, at the time of his participation, an associated person of a broker-dealer; and
4. All of such persons meet the conditions of Paragraph (a)(4)(ii) of Rule 3(a)4-1 of the Exchange Act, in that they (A) primarily perform, or are intended primarily to perform at the end of the offering, substantial duties for or on behalf of the issuer otherwise than in connection with transactions in securities; and (B) are not a broker or dealer, or an

associated person of a broker or dealer, within the preceding twelve (12) months; and (C) do not participate in selling and offering of securities for any issuer more than once every twelve (12) months other than in reliance on Paragraphs (a)(4)(i) or (a)(4)(iii).

As long as we satisfy all of these conditions, we are comfortable that we will be able to satisfy the requirements of Rule 3a4-1 of the Exchange Act notwithstanding that a portion of the proceeds from this offering will be used to pay the salaries of our officers.

We may invite broker-dealer participation in this offering but currently do not have anything in place at this time.

We intend to contact individuals and institutions known by us to be sophisticated, high net worth investors, and who we feel would be interested in this offering. We will meet with these potential investors in our offices, on an individual basis, to discuss our offering. We will also distribute the offering circular to potential investors at the meetings and to our friends and relatives who are interested in us and a possible investment in the offering.

All monies from rejected subscriptions will be returned immediately by us to the subscriber, without interest or deductions. Subscriptions for securities will be accepted or rejected within 48 hours of our having received them.

Penny Stock Regulations

You should note that our stock is a penny stock. The Securities and Exchange Commission has adopted Rule 15c-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors". The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

Blue Sky Restrictions on Resale

If we sell shares of our common stock under this offering circular in the United States, we will also need to comply with state securities laws, also known as "Blue Sky laws," with regard to secondary sales. All states offer a variety of exemption from registration for secondary sales. Many states, for example, have an exemption for securities of issuers that publish continuous disclosure of financial and non-financial information in a recognized securities manual, such as Standard & Poor's. The broker for a

selling security holder will be able to advise a selling security holder which states our common stock is exempt from registration with that state for secondary sales.

Any person who purchases shares of our common stock from a selling security holder under this offering circular who then wants to sell such shares will also have to comply with Blue Sky laws regarding secondary sales.

Item 5. Use of Proceeds

USE OF PROCEEDS

Assuming we sell all of the shares offered hereby, we estimate that the gross proceeds from this offering will be sufficient to satisfy our full business plan. If less than the maximum proceeds are received, absent other revenues, we may need to curtail our business plans. We reserve the right to vary the uses of the net proceeds set forth in the table below according to the actual amount raised and the timing thereof in order to make necessary adjustments in light of changes in the fashion marketplace, which may, for example, require increases in inventory or promotional expenditures. We have assumed that our offering costs are estimated to be fixed at \$100,000 no matter what amount of proceeds are raised from the sale of the securities described in this offering circular. These offering costs include all legal, accounting and state registration fees which we anticipate to incur in connection with this offering.

Item 6. Description of Business

BUSINESS

Overview and History

Jurassic Industries, Inc. was incorporated in Texas On October 13, 2006. We refer to Jurassic Industries, Inc. as "we", "our", "us", "its", "Jurassic" or the "Company".

The Company began informally in 1990 when Reg Lindberg, our chief Executive Officer, developed a long range plan to use the family ranch in Central Texas to produce the raw materials for western, fashion and dress boots utilizing exotic ostrich skins. He determined that the cost of exotic ostrich skins (normally imported from South Africa) represented the largest cost of production, and by raising ostriches on his ranch, he could thereby reduce the cost of manufacturing exotic ostrich footwear and insure a consistent high-quality product and have a continuous supply. With that ultimate goal in mind, Mr. Lindberg began extensive research into the South African ostrich leather industry to gain optimal knowledge concerning the specific processes that pertain to ostrich leather production. He began a 20 year program of breeding and developing his own heard of ostriches utilizing all three breeds: Tanzania Red-Necked, Namibia Blue-Necked, and African Black. Cross-breeding allowed for hybrid vigor. The ranch now has a herd of 747 breeder birds. Each breeder bird can produce an average of 20 eggs per season. Once an ostrich reaches one year of age, their hides can produce at least four (4) pair of boots.

Jurassic Ranch Boots are designed in-house by our own design team, and updates are evaluated on a quarterly basis. Our ostrich hides are sent to a tannery in Leon, Mexico and then to a manufacturer where our boots are hand-made and hand-lasted for quality and comfort. On hand inventory is closely monitored, and orders to the factory are based on customer demand.

Products

Our products fall into two primary categories: (1) footwear and (2) meat-by products. The following summarizes the percentage of our revenues derived from each of these categories for the past two years:

Category	2011	2010
Footwear	99.31%	97.51%
Meat By-products	0.67%	2.49%

Footwear

We believe that handmade, old-time classic boot crafting is still the best way to construct quality boots. Our commitment to quality and detail is evident from the top of the boot to the bottom, both inside and out. Our company markets completely handmade, hand-lasted boots as opposed to our competition. Our insoles, outsoles and the inner linings are constructed of top grade cowhide. Our stacked heels are all leather. Our boots are engineered with an exclusive conforming foot bed for unsurpassed comfort and fit.

Our premium ostrich hides are a combination of three superior ostrich breeds - Tanzania Red-Necked, Namibia Blue-Necked, and African Black, which are raised on our own ranch. While historically we have not experienced any significant difficulties in having enough ostrich in quantities sufficient for our operations, there can be no assurance we may experience some capacity constraints in the future. Any significant unanticipated ability to have enough ostrich for leather could materially affect the results of our operations. In the event that we are unable to produce a sufficient quantity of hides to be used in the manufacturing our boots, we have the option to purchase green salted, raw skins from other producers in the United States, Canada and Mexico.

Ranch Operations

With our selective breeding, we are able to produce very high quality ostrich. We plan to capitalize on this advantage with the expansion of our operation once additional working capital is in place. Years of observation have proven that the key to success in producing the optimum number of ostriches is to provide sufficient area per bird (ostriches are grazers, similar to cattle). By having ample space per bird, the bird is more relaxed, which promotes a healthier feather growth, producing unblemished, higher quality leather. Our ostrich forage on the wheat fields of our Central Texas Ranch, dramatically lowering our cost of production. We purchase a special blend of feed directly from the mill, formulated for optimum growth and egg production. We also purchase additional feed sources, such as alfalfa and corn, directly from farmers at commodity prices. The company does not purchase any feed at retail prices, allowing for a cost reduction in raising the birds. The whole process of raising ostrich begins with a good foundation of breeding stock, there by producing a larger number of fertile eggs.

Raw Materials and Sources of Supply

Our Company's best advantage is our autonomy, allowing us to control our own source of supply and ensure the highest quality product. Not only are the hides of our ostriches used in producing our boots, the meat from the birds is processed and sold to various meat wholesalers at an average price of \$5.00 per pound. Our ranch has been in business for over 20 years, enabling us to formulate a breeding/raising production plan for maximum quality and cost results. Having mastered the parameters of breeding, incubation and raising of the birds, we are able to produce birds with the best hides and the most meat. Adult birds are then shipped to a USDA processing plant, where the meat is removed and the hides are salted and sent to the tannery in Mexico for final processing in the production of our boots. In today's market the demand for ostrich meat is larger than we can currently supply.

Product Sales

Currently our boot products are exclusively sold through approximately 120 western dealers nationwide. These dealers purchase our products on an as ordered basis upon receipt of an order from a customer and are typically payable by the retailer within 30 days of delivery. Customers may also inquire about our products on our website: www.jurassicboots.com and any request for the purchase of our products is referred by the Company to our closest retailer. The company has two salesmen devoted to selling our footwear products, with plans to expand our sales force to seven in the near future. Our meat is sold to various meat wholesalers for restaurants and health focused food stores.

Distribution

We distribute our products through western retail stores and wholesale meat distributors.

Advertising and Marketing

Plans to create customer/retailer awareness and create branding of our products are as follows:

Direct Mail - Information/Catalogues will be sent to leading retailers in the Western Market promoting our line of Boots.

Print and Catalog Advertising - We plan for our footwear to be advertised in a variety of Western Lifestyle Magazines and Catalogues.

Internet Advertising - This will be a two-fold process. Currently we have a company website promoting our footwear products. We also plan to cross-promote on various other Western Wear websites and websites directed towards the western lifestyle.

Trade Shows - We are currently slated to attend two trade shows in the near future, with plans to increase our participation in several tradeshows for 2013. This will allow us to expand awareness of our products and services to a maximum audience in a minimal amount of time.

Seasonality

The demand for western boots stays relatively consistent throughout the year, with an increase in sales during the holiday season. During the summer months when the peak rodeo/performance horse events are in full swing, sales of boots remain brisk in the western market for men, women and children. Fashion trends such as wearing dresses/skirts with western boots in the spring and summer keep boot sales steady.

Backlog

As of November 30, 2012, we had a backlog of firm orders totaling approximately \$380,000. We anticipate that a significant amount of this backlog will be shipped during the fourth quarter ending December 31, 2012.

Manufacturing

Our products are manufactured in Leon, Mexico. After extensive research, Mexico offered the best combination of quality and low production costs. Hides are shipped to a tanning facility in Mexico from the meat processing plant for tanning and use in producing our boots. Once tanning is complete, the company has an exclusive agreement with a boot manufacturer to manufacture our boots. Due to the North American Free Trade Agreement (NAFTA), products originating in the U.S. for sale in the U.S. may be exported into Mexico for manufacturing, and imported back to the U.S. without tariff fees. Hides are shipped from the meat processing plant to Mexico, where they are then sent to the manufacturing facility. We have two full-time employees located on site - a Boot

Engineer/Designer and a Production Manager/Quality Control Supervisor. The finished products are then shipped back to our warehouse in Decatur, TX through the NAFTA Program which eliminates us from paying import/export tariffs.

Meat from our birds is processed at a USDA meat plant, where it is then sold to meat wholesalers for use in the retail market.

We maintain a strategic partnership with both our manufacturer Siete Legues in Leon, Mexico and a meat wholesaler Nutri-tech in McPherson, KS. Half of the manufacturing floor at Siete Legues is dedicated to the construction of our boots at an average cost of \$130.00 USD. Currently Nutri-tech purchases all of the meat commodity at an average cost of \$5.50 per lb (approx. \$500 per bird). We are in the process of completing a retail website where meat will be sold via the website for \$20.00 per lb. Once these sales begin through our website, we will discontinue our relationship with Nutritech. We keep the hide (skin) and export the hides directly to our manufacturer in Leon, Mexico where it is tanned and finished (colored and softened). We enter into purchase orders for the manufacturing of our boots from our manufacturer in Leon, Mexico on an as-needed basis at a cost of approximately \$60.00 to \$140.00 USD per pair of boots, such cost contingent on the style of boot ordered.

Trademarks and Trade Names; Patents;

Our principal trade names are Jurassic Ranch Boots, Donna Jean Boots, and Kids Jurassic, and our principal trademarks for our various products sold under our principal trade names have not been registered in the United States. We intend to register our trademarks in the near future.

We regard our trade name and trademarks as valuable assets and believe that they are important factors in marketing our products. We seek to protect and vigorously defend our trade name and trademarks against infringement under the laws of the United States and other countries. In addition, we seek to protect and vigorously defend our patents, designs, copyrights and all other proprietary rights covering components and features used in various footwear, apparel and accessories under applicable laws.

Competition

Our footwear and accessories products are marketed in highly competitive environments that are subject to changes in consumer preference. Product quality, performance, design, styling and pricing, as well as consumer awareness, are all important elements of competition in the footwear and accessories markets we serve. Although the footwear industry is fragmented to a great degree, many of our competitors are larger and have substantially greater resources than we do, including other major boot manufacturing companies - several of which compete directly with some of our products. In addition, we face competition from retailers who have established products under private labels, and from direct mail companies in the United States. However, we do not believe that any of our principal competitors offer a complete line of ostrich products that provide the same quality and performance as our products.

Environmental Matters

Compliance with federal, state and local environmental regulations has not had, nor is it expected to have, any material effect on our capital expenditures, earnings or competitive position based on information and circumstances known to us at this time.

Research and Development

For the fiscal years ended December 31, 2011 and 2010, the Company did not spend any money on research and development activities. During the fiscal years ended December 2009, 2008 and 2007, the Company incurred research and development expenses of \$352,765.

EMPLOYEES

We had approximately 9 full and part-time employees at December 1, 2012. Our management considers our employee relations to be good. None of our employees are represented by a labor union, and we have never suffered a material interruption of business caused by labor disputes involving our own employees.

LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm its business. The Company is currently not aware of any such legal proceedings or claims that they believe will have, individually or in the aggregate, a material adverse affect on its business, financial condition or operating results.

Background

Jurassic Industries, Inc. was incorporated in Texas on October 13, 2006. We sell our products to retail accounts through our stores located in Decatur, Texas and internet sales.

To date our sources of cash have been limited to our own internal cash flows generated by earnings, private placements of our common stock, and issuance of promissory notes at fixed interest rates. Our future growth will require substantial additional infusions of cash. Our management plans to finance this growth with additional equity issuances. We cannot finance our growth without additional capital. If sufficient funds are not available, we may have to lower our growth expectations and scale down our expansion plans.

Liquidity and Capital Resources

For the years ended December 31, 2011 and December 31, 2010, the Company had cash on hand of \$183,789 and \$42,320, respectively. In 2010, the loss in profit is a reflection of a temporary stall in operations from a lack of working capital. In 2010, we completed our catalog/line of western boots and shoes consisting of 127 styles, with all research and development expenses paid. We will continue to have additional research and development expenses as we create new products to meet market demand. Investment purchases for property, plant, and equipment were made through the years 2009 through 2012 for a total of \$661,644.

On December 9, 2009, we and Lindberg Land & Cattle, LLC, an entity controlled by Reg Lindberg, our chief executive officer (collectively, the "Borrower"), entered into a loan agreement (the "Loan Agreement") with First Community Bank, N.A. (the "Bank"). The Loan Agreement provides that the U.S. Small Business Administration ("SBA") authorized a loan from the Bank to Borrower in the amount of \$750,000 (the "Loan"). The Loan is due and payable on December 9, 2019. The initial interest rate on the Loan is 6% per annum. The initial interest rate will be adjusted every calendar quarter to equal 2.75% above the prime rate in effect on the first business day of each month.

Beginning on the two (2) month anniversary of the closing of the Loan, the Borrower must pay principal and interest payments of \$8,378.00. The Bank will apply each installment payment first to pay interest accrued to the day Lender receives the payment then to principal. Borrower may prepay the Loan at any time. As partial collateral and security for the Loan, the Borrower granted the Bank a first and superior lien on all accounts and inventory of the Borrower and a second lien on the Borrower's real estate. In addition, Reg Lindberg, our chief executive officer, and Donna Jean Lindberg, our secretary, agreed to provide a guaranty to the Bank for the Loan. Current principal balance on Loan is \$593,794 as of December 1, 2012.

Pursuant to Section 7(b) of the Loan Agreement, until the Loan and all other obligations and liabilities of the Borrower under the Loan Documents (as defined in the Loan Agreement) are fully paid and satisfied, Borrower, and each Guarantor as defined in the Loan Agreement) to the extent that the stated action or information relates to such Guarantor, will not, without the prior written consent of the Lender, change the ownership structure of or ownership of the equity interests of the Borrower. On November 26, 2012, the Borrower and Bank entered into a letter agreement (the "Letter") pursuant to which the Lender agreed to (i) waive any failure of Borrower to obtain the consent of the Lender pursuant to Section 7(b) of the Loan Agreement prior to the issuance of any equity securities by the Company on or prior to the date of the Letter, (ii) provided its consent in accordance with Section 7(b) of the Loan Agreement for the change in the ownership structure of or ownership of the equity interests of the Borrower as a result of any issuance of equity securities by the Company on or prior to the date of the Letter and (iii) provided its consent in accordance with Section 7(b) of the Loan Agreement for the change in the ownership structure of or ownership of the equity interests of the Borrower as a result of any issuance of equity securities by the Company that may occur on or after the date of the Letter, provided the issuance of any equity securities on or after the date of the Letter shall not exceed, aggregate gross proceeds of \$5,000,000 to the Company.

We expect significant expenditures during the next 12 months, contingent upon raising capital. These expenditures would include the cost of materials used in manufacturing our products as well as an increase in accounts receivables. The expansion of the live animals used in the making of our boots will also require additional financing.

By adjusting our operations and development to the level of capitalization, we believe we have sufficient capital resources to meet projected cash flow. However, if during that period or thereafter, we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to us, this could have a material adverse effect on our business, results of operations, and liquidity and financial condition.

In order to obtain capital, we will need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. Additional investments are being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the lack of a trading price of our common stock and a downturn in the U.S. stock and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Further, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we may not achieve our projected revenues.

A separate clicker machine is used to cut each piece of material used in the construction of a boot/shoe. On December 9, 2009, Jurassic Industries, Inc. and Lindberg Land & Cattle, LLC, an entity controlled by Reg Lindberg, our chief executive officer (collectively, the "Borrower"), entered into a loan agreement (the "Loan Agreement") with First Community Bank, N.A. Beginning on the two (2) month anniversary of the closing of the Loan, the Borrower must pay principal and interest payments of \$8,378.00. The Bank will apply each installment payment first to pay interest accrued to the day Lender receives the payment then to principal. Borrower may prepay the Loan at any time. As partial collateral and security for the Loan, the Borrower granted the Bank a first and superior lien on all accounts and inventory of the Borrower and a second lien on the Borrower's real estate. In addition, Reg Lindberg, our chief executive officer, and Donna Jean Lindberg, our secretary, agreed to provide a guaranty to the Bank for the Loan. Current principal balance on Loan is \$593,794 as of December 1, 2012.

Pursuant to Section 7(b) of the Loan Agreement, until the Loan and all other obligations and liabilities of the Borrower under the Loan Documents (as defined in the Loan Agreement) are fully paid and satisfied, Borrower, and each Guarantor as defined in the Loan Agreement) to the extent that the stated action or information relates to such Guarantor, will not, without the prior written consent of the Lender, change the ownership structure of or ownership of the equity interests of the Borrower. On November 26, 2012, the Borrower and Bank entered into a letter agreement (the "Letter") pursuant to which the Lender agreed to (i) waive any failure of Borrower to obtain the consent of the Lender pursuant to Section 7(b) of the Loan Agreement prior to the issuance of any equity securities by the Company on or prior to the date of the Letter, (ii) provided its consent in accordance with Section 7(b) of the Loan Agreement for the change in the ownership structure of or ownership of the equity interests of the Borrower as a result of any issuance of equity securities by the Company on or prior to the date of the Letter and (iii) provided its consent in accordance with Section 7(b) of the Loan Agreement for the change in the ownership structure of or ownership of the equity interests of the Borrower as a result of any issuance of equity securities by the Company that may occur on or after the date of the Letter, provided the issuance of any equity securities on or after the date of the Letter shall not exceed, aggregate gross proceeds of \$5,000,000 to the Company.

JURASSIC INDUSTRIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through July 26, 2012, the date on which the financial statements were available to be issued.

Nature of Operations

Jurassic specializes in making ostrich boots and shoes for men, women and youth. They produce hand-crafted products from ostrich hides bred and raised by them on a ranch in Central Texas. Raising their own ostrich allows their Company greater autonomy in that they can control and supply much of their own materials, thereby insuring their source of supply as well as allowing them to control the quality of materials for their products. The ostrich skins are tanned and dyed directly under their supervision and then sent to a manufacturing facility where the resulting skins are made into boots according to their designs and specifications. Jurassic employees oversee all aspects of their manufacturing, including the production process completed in Leon, Mexico.

The costs related to production animals that will be used for slaughter are capitalized. These costs would include fuel, feed, supplies and labor. These costs are held as inventory slaughter birds in that within one year they will be slaughtered and are shown as inventory per FASB ACS paragraph 950-360-25-4.

Also production animals that will be held for breeding purposes are also capitalized as fixed asset property and then depreciated over the life of the bird. The costs associated with the up keep of such birds are expensed as incurred.

Management does not allocate the costs between the boots and meat products. The sale of the meat has been a byproduct of the slaughtered bird and in the past the sale of the meat has been immaterial.

Their customer market for their western footwear currently consists of the Rocky Mountain States, Texas, Oklahoma, Louisiana, Arkansas, and the Tennessee Valley States.

Jurassic also sells the meat products from the ostriches once the hides have been removed for the manufacturing of their footwear.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all cash investments

purchased with a maturity of three months or less to be cash equivalents.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from these estimates.

Trade Accounts Receivable

Trade accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that is still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. Changes in the valuation allowance have not been material to the financial statements.

Allowance of Bad Debts

Jurassic has no history of any bad debts. Management is currently studying a process to determine an appropriate calculation for future allowances.

Inventory

The Company's inventory is valued at the lower of cost (first in, first out) or market using the retail method.

Depreciation

The Company's equipment and leasehold improvements are depreciated using primarily the straight-line method.

Advertising

The Company expenses advertising costs as they are incurred. Advertising expenses for the years ended December 31, 2011 and 2010 were \$9,721 and \$996, respectively.

Deferred Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial

statements and consist of taxes currently plus deferred taxes for operating losses that are available to offset future taxable income.

=====

Minimum lease payments in this schedule exclude contingent rentals and rentals under renewal options, which, as of December 31, 2011, are not responsibly assured of being exercised.

NOTE F -- INCOME TAXES

We account for income taxes under the tax accrual method. Under this method, deferred tax assets and liabilities are determined based on the differences between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

We record net deferred tax assets to the extent we believe these assets will more likely than not be realized. In making such determination, we consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies and recent financial operations. In the event we were to determine that we would be able to realize our deferred income tax assets in the future in excess of their net recorded amount, we would make an adjustment to the valuation allowance, which would reduce the provision for income taxes.

The Company recognizes interest and penalties related to unrecognized tax benefits within the income tax expense line in the accompanying consolidated statement of operations. Accrued interest and penalties are included within the related tax liability line in the balance sheet.

For financial reporting purposes, income (losses) before income taxes includes the following components:

	Years Ended December 31	
	2011	2010
United States	\$ 152,415	\$(225,023)
Total	\$ 152,415	\$ 225,023

The expenses (benefit) for income taxes is comprised of:

	Years Ended December 31

Current:		
Federal	\$	\$ (71,009)
Deferred and others:		
Federal	\$ 42,691	\$
Total tax expense	\$ 42,691	\$ (71,009)

The reconciliation between the Company's effective tax rate on income from continuing operations and the statutory tax rate is as follows:

	Years Ended December 31	
	2011	2010
Income tax expense (benefit) at federal statutory rate	\$ 42,691	\$ (71,009)
Nondeductible/nontaxable items

Income tax expense (benefit)	\$ 42,691	\$ (71,009)

	Years Ended December 31	
	2011	2010
Reserves and accruals not currently deductible for tax purposes	\$ 23,192	\$ 9,926
Capitalized research and development costs		
NOL and tax credit carryforwards	\$ 59,525	\$ 115,482
Subtotal	\$ 82,717	\$ 125,408
Less: valuation allowance	-	-
Total net deferred tax asset	\$ 82,717	\$ 125,408

The Company has recorded a deferred tax asset of \$ 82,717 reflecting the benefit of \$ 59,525 in loss carryforwards. Such deferred tax assets expire between 2012 and 2025 as follows:

Year 2025	<u>\$ 59,525</u>
	<u>\$ 59,525</u>

Valuation Allowance

Realization is dependent on generating sufficient taxable income prior to expiration of the loss carryforwards. Although realization is not assured, management believes it is more likely than not that all of the deferred tax asset will be realized. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

NOTE G - STOCKHOLDERS' EQUITY

The company sold 1,505,000 and 584,000 shares of its common stock, for 2011 and 2010 respectively, at a price of \$.50 per share, netting \$752,000 and \$291,000 after sale and issuance costs. Management intends to use the proceeds to fund increase in operations.

There was no change in the stated par value of the shares as a result of this transaction.

Shares of the Preferred Stock may be issued from time to time in one or more series, the shares of each series to have such designations, preferences, limitations, and relative rights, including voting rights, as shall be stated and expressed herein or in a resolution or resolutions providing for the issue of such series adopted by the Board of Directors of the Corporation.

NOTE H - SUBSEQUENT EVENTS

The board authorized the granting of 75,000 shares of common shares with a fair value of \$37,500 to the company's legal advisor. The advisor accepted this payment in lieu of a cash payment for ongoing legal services performed.

NOTES TO FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through November 20, 2012, the date on which the financial statements were available to be issued.

Nature of Operations

Jurassic specializes in making ostrich boots and shoes for men, women and youth. They produce hand-crafted products from ostrich hides bred and raised by them on a ranch in Central Texas. Raising their own ostrich allows their Company greater autonomy in that they can control and supply much of their own materials, thereby insuring their source of supply as well as allowing them to control the quality of materials for their products. The ostrich skins are tanned and dyed directly under their supervision and then sent to a manufacturing facility where the resulting skins are made into boots according to their designs and specifications. Jurassic employees oversee all aspects of their manufacturing, including the production process completed in Leon, Mexico.

The costs related to production animals that will be used for slaughter are capitalized. These costs would include fuel, feed, supplies and labor. These costs are held as inventory slaughter birds in that within one year they will be slaughtered and are shown as inventory per FASB ACS paragraph 950-360-25-4.

Also production animals that will be held for breeding purposes are also capitalized as fixed asset property and then depreciated over the life of the bird. The costs associated with the up keep of such birds are expensed as incurred.

Management does not allocate the costs between the boots and meat products. The sale of the meat has been a byproduct of the slaughtered bird and in the past the sale of the meat has been immaterial.

Their customer market for their western footwear currently consists of the Rocky Mountain States, Texas, Oklahoma, Louisiana, Arkansas, and the Tennessee Valley States.

Jurassic also sells the meat products from the ostriches once the hides have been removed for the manufacturing of their footwear.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all cash investments

purchased with a maturity of three months or less to be cash equivalents.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from these estimates.

Trade Accounts Receivable

Trade accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. Changes in the valuation allowance have not been material to the financial statements.

Allowance of Bad Debts

Jurassic has no history of any bad debts. Management is currently studying a process to determine an appropriate calculation for future allowances.

Inventory

The Company's inventory is valued at the lower of cost (first in, first out) or market using the retail method. Included in inventory are the estimated costs of birds to be slaughtered within a year of birth. The costs included are feed and labor.

Depreciation

The Company's equipment and leasehold improvements are depreciated using primarily the straight-line method.

Advertising

The Company expenses advertising costs as they are incurred. Advertising expenses for the nine months ended September 30, 2012 were \$3,835.

Deferred Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently plus deferred taxes for operating losses that are available to offset future taxable income.

NOTE B - RELATED PARTY TRANSACTIONS

The Company has a lease agreement with Lindberg Land & Cattle, LLC which is wholly owned by the president and chief executive officer of the Company. The details of the lease are disclosed in Note G.

On May 5, 2009 the Company and Lindberg Land & Cattle, LLC signed a lease of which no lease payments were made. Subsequently the lease was rescinded and a new lease agreement was signed. Lindberg Land & Cattle, LLC does not intend to pursue for any payments from the previous lease.

There were no other significant transactions between the Company and its parent or related companies during the three months ended June 30, 2012.

=====

The following is a summary of principal maturities of long-term debt during the next five years:

2013	\$67,291.00
2014	\$71,441.36

2017	\$85,492.48

NOTE E - DESCRIPTION OF LEASING ARRANGEMENTS

The Company leases its agricultural and grazing premises and office space under lease agreements. All of the agreements provide for minimum lease payments. All of the leases contain renewal options.

The following is a schedule of future minimum lease payments required under the leases:

2012	\$ 73,200
2013	141,600
2014	141,600
2015	141,600
2016	140,800

Later years	198,000

\$ 968,800
=====

Minimum lease payments in this schedule exclude contingent rentals and rentals under renewal options, which, as of September 30, 2012, are not responsibly assured of being exercised.

NOTE F - INCOME TAXES

Operating Loss Carryforwards

Income tax expense or benefit is recognized based on management's best estimate of the weighted average annual income tax rate for the full financial year applied to the pre-tax income of the period.

For tax purposes at September 30, 2012, the Company has United States net operating loss ("NOL") carryovers which are available to offset future taxable income. The Federal NOL carryovers total \$ 243,284. If not used, the carryforwards will expire as follows:

	<u>Operating Losses</u>
Year 2029	\$ 54,602
Year 2030	<u>188,682</u>
	<u>\$ 243,284</u>

Components - Deferred

Tax benefit of net operating loss carryforward	\$ (69,407)

	<u>\$ (69,407)</u>

The income tax provision differs from the expense that would result from applying federal statutory rates to income before income taxes because certain expenses are not deductible for tax purposes.

Uncertain Tax Positions

The federal income tax returns of the Company for 2011, 2010 and 2009 are subject to examination by the IRS, generally for three years after they were filed.

NOTE G - STOCKHOLDERS' EQUITY

During February, 2012, the company sold 60,000 shares of its common stock at a price of \$.50 per share, netting \$30,000 after sale and issuance costs. Management intends to use the proceeds to fund several anticipated acquisitions.

For the quarter ending March 31, 2012, \$225,000 of the Investor Notes Payable and \$51,883 of the associated accrued interest were converted into the company's common shares. The notes payable conversion transaction resulted in the issuance of 381,376 shares, which is an increase in the company's outstanding common shares of 2.2%.

The board authorized the granting of 75,000 shares of common shares with a fair value of \$37,500 to the company's legal advisor. The advisor accepted this payment in lieu of a cash payment for ongoing legal services performed.

The capital stock structure is as follows:

Common stock, no par value, 100,000,000 authorized and
17,650,776 shares issued.

- (l) It is expressly understood and agreed that should Borrower fail to pay any other indebtedness or any part thereof, principal or interest, as the same shall become due and payable, which may be secured by a lien or liens on the Collateral herein described, the Note hereby secured, at the option of the Lender, shall become due and payable.

Nothing contained in this Loan Agreement shall be construed to limit the Events of Default enumerated in any of the other Loan Documents or any other document executed in connection with the Loan and all such Events of Default shall be cumulative.

10. Remedies. Upon the occurrence of any one or more of the foregoing Events of Default, (i) the entire unpaid balance of principal of the Note, together with all accrued but unpaid interest thereon, and all other indebtedness then owing by Borrower to the Lender, shall, at the option of the Lender, become immediately due and payable without further presentation, demand for payment, notice of intent to accelerate, notice of acceleration or dishonor, protest or notice of protest of any kind, all of which are expressly waived by Borrower, and/or (ii) the Lender may, at its option, cease further advances under the Note. All obligations secured by the Loan Documents shall be payable without relief from valuation and appraisal laws. 12. Waiver and Agreement. Neither the failure nor any delay on the part of the Lender to exercise any right, power or privilege under any of the Loan Documents shall operate as a waiver thereof, nor shall any single or partial exercise of such right, power or privilege preclude any other or further exercise thereof or the exercise of any other right, power or privilege. No waiver of any provision in any of the Loan Documents and no departure by Borrower or any Guarantor therefrom shall be effective unless the same shall be in writing and signed by the Lender, and then shall be effective only in the specific instance and for the purpose for which given and to the extent specified in such writing. No modification or amendment to any of the

Loan Documents shall be valid or effective unless the same is signed by the party against whom it is sought to be enforced.

13. Benefits. This Loan Agreement shall be binding upon and inure to the benefit of the Lender and Borrower, and their respective successors and assigns, provided, however, that Borrower may not, without the prior written consent of the Lender, assign any rights, powers, duties or obligations under any of the Loan Documents.

14. Due on Sale. The Loan balance may be accelerated by the Lender upon any sale, lease, or transfer of the Collateral unless the Lender, in its sole discretion, elects to finance the new Purchaser.

22. Receipt of Authorization. Borrower has received a copy of the SBA Authorization and SBA Form 793, Notice to New SBA Borrower, from Lender, and acknowledges that:

- (a) The SBA Authorization is not a commitment by Lender to make a loan to Borrower;

- (c) The Note will require Borrower to give Lender prior notice of intent to prepay;
- (d) If Borrower defaults on the Loan, SBA may be required to pay Lender under the SBA guarantee. SBA may then seek recovery of these funds from Borrower. A. THE GUARANTEE FEE IS \$23,625.00.

Payment of the guarantee fee will be made by SBA subject to Section 501 of the American Recovery and Reinvestment Act of 2009. Lender must not charge or collect this fee from the borrower. Borrower has no obligation to pay this fee when the fee has been paid by SBA.

B. ONGOING SERVICING FEE

1. Lender agrees to pay SBA an ongoing fee equal to 0.550 of one percent per year of the guaranteed portion of the outstanding balance.
2. Lender may not charge or otherwise pass through this fee to Borrower.

C. IT IS LENDER'S SOLE RESPONSIBILITY TO:

1. Close the Loan in accordance with the terms and conditions of this Authorization.
2. Obtain valid and enforceable Loan documents, including obtaining the signature or written consent of any obligor's spouse if such consent or signature is necessary to bind the marital community or create a valid lien on marital property.
3. Retain all Loan closing documents. Lender must submit these documents, along with other required documents, to SBA for review if Lender requests SBA to honor its guarantee on the Loan, or at any time SBA requests the documents for review.

D. REQUIRED FORMS

1. Lender may use its own forms except as otherwise instructed in this Authorization. Lender must use the following SBA forms for the Loan:

SBA Form 147, Note
SBA Form 1050, Settlement Sheet
SBA Form 159 (7(a)), Compensation Agreement, for each required agent
SBA Form 722, Equal Opportunity Poster
SBA Form 148, Guarantee

2. Lender may use computer-generated versions of mandatory SBA Forms, as long as these versions are exact reproductions.

E. CONTINGENCIES—SBA issues this Authorization in reliance on representations in the Loan application, including supporting documents. The guarantee is contingent upon Lender:

1. Having and complying with a valid SBA Loan Guarantee Agreement (SBA Form 750 or SBA Form 750B for short-term loans) and any required supplemental guarantee agreements, between Lender and SBA;

5. Having no evidence since the date of the Loan application, or since any preceding disbursement, of any unremedied adverse change in the financial condition, organization, management, operation, or assets of Borrower or Operating Company which would warrant withholding or not making any further disbursement; and,
6. Satisfying all of the conditions in this Authorization.

F. NOTE TERMS:

1. **Maturity:** This Note will mature in 10 years from date of Note.

2. **Repayment Terms:** Lender must insert onto SBA Note, Form 147, to be executed by Borrower, the following terms, without modification. Lender must complete all blank terms on the Note at time of closing:

The interest rate on this Note will fluctuate. The initial interest rate is 6.00% per year. This initial rate is the prime rate in effect on the first business day of the month in which SBA received the loan application, plus 2.75%. The initial interest rate must remain in effect until the first change period begins.

Borrower must pay one payment of interest only on the disbursed principal balance one month from the month this Note is dated; payment must be made on the first calendar day in the month it is due.

Borrower must pay principal and interest payments of \$8,378.00 every month, beginning two months from the month this Note is dated; payments must be made on the first calendar day in the months they are due.

Lender will apply each installment payment first to pay interest accrued to the day Lender receives the payment, then to bring principal current, then to pay any late fees, and will apply any remaining balance to reduce principal.

The interest rate will be adjusted every calendar quarter (the "change period").

The "Prime Rate" is the prime rate in effect on the first business day of the month (as published in the Wall Street Journal) in which SBA received the application, or any interest rate change occurs. Base Rates will be rounded to two decimal places with .004 being rounded down and .005 being rounded up.

The adjusted interest rate will be 2.75% above the Prime Rate. Lender will adjust the interest rate on the first calendar day of each change period. The change in interest rate is effective on that day whether or not Lender gives Borrower notice of the change.

Lender must adjust the payment amount at least annually as needed to amortize principal over the remaining term of the note.

If SBA purchases the guaranteed portion of the unpaid principal balance, the interest rate becomes fixed at the rate in effect at the time of the earliest uncured payment default. If there is no uncured payment default, the rate becomes fixed at the rate in effect at the time of purchase.

Loan Prepayment:

Notwithstanding any provision in this Note to the contrary:

Borrower may prepay this Note. Borrower may prepay 20% or less of the unpaid principal balance at any time without notice. If Borrower prepays more than 20% and the Loan has been sold on the secondary market, Borrower must:

- a. Give Lender written notice;
- b. Pay all accrued interest; and
- c. If the prepayment is received less than 21 days from the date Lender receives the notice, pay an amount equal to 21 days' interest from the date lender receives the notice, less any interest accrued during the 21 days and paid under subparagraph b., above.

If Borrower does not prepay within 30 days from the date Lender receives the notice, Borrower must give Lender a new notice.

All remaining principal and accrued interest is due and payable 10 years from date of Note.

Late Charge: If a payment on this Note is more than 10 days late, Lender may charge Borrower a late fee of up to 5.00% of the unpaid portion of the regularly scheduled payment.

G. USE OF PROCEEDS

1. \$558,000.00 to pay outstanding debt to Highlands Bank.
2. \$192,000.00 for working capital.

All amounts listed above are approximate. Lender may not disburse Loan proceeds solely to pay the guarantee fee. Lender may disburse to Borrower, as working capital only, funds not spent for the listed purposes as long as those funds do not exceed 10% of the specific purpose authorized or \$10,000.00, whichever is less. An Eligible Passive Company may not receive working capital funds.

The loan must be made for a sound business purpose and must benefit the small business, and one 7(a) loan may not be split into two 7(a) loans merely to benefit the Lender. 13 CFR 120.120 and 120.130(e)

Lender must document that Borrower used the loan proceeds for the purposes stated in this Authorization. Lender and Borrower must complete and sign SBA Form 1050 at the time of first disbursement. Lender must document the first and all subsequent disbursements by attaching required documentation to the original SBA Form 1050 and must maintain the documentation in the Loan file, following procedures described in SOP 50-10(5).

- a) *When SBA is the holder of the Note, this document and all documents evidencing or securing this Loan will be construed in accordance with federal law.*
- b) *Lender or SBA may use local or state procedures for purposes such as filing papers, recording documents, giving notice, foreclosing liens, and other purposes. By using these procedures, SBA does not waive any federal immunity from local or state control, penalty, tax or liability. No Borrower or Guarantor may claim or assert against SBA any local or state law to deny any obligation of Borrower, or defeat any claim of SBA with respect to this Loan.*

Any clause in this document requiring arbitration is not enforceable when SBA is the holder of the Note secured by this instrument."

I. **ADDITIONAL CONDITIONS**

1. **Insurance Requirements**

Prior to disbursement, Lender must require Borrower to obtain the following insurance coverage and maintain this coverage for the life of Loan:

 - (1) on the life of Reginald Lindberg in the amount of \$750,000.00.Lender must obtain a collateral assignment of each policy with Lender as assignee and Lender must also obtain acknowledgment of the assignment by the Home Office of the Insurer. If Lender does not receive a response from the IRS or copy of the tax transcript within 10 business days of submitting the IRS Form 4506-T, then Lender may close and disburse the loan provided that Lender sends a second request following precisely the procedures detailed in SOP 50-10(5) and Lender performs the verification and resolves any significant differences discovered, even if the Loan is fully disbursed.

 - (e) Payments by SBA to Lender under SBA's guarantee will not apply to the Loan account of Borrower, or diminish the indebtedness of Borrower under the Note or the obligations of any personal guarantor of the Note.
