REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM	1
FINANCIAL STATEMENTS AS OF DECEMBER 31, 2011 AND 2010, AND FOR THE YEARS THEN ENDED:	
Statements of Net Assets Available for Benefits	2-3
Statements of Changes in Net Assets Available for Benefits	4-5
Notes to Financial Statements	6-18
SUPPLEMENTAL SCHEDULE AS OF DECEMBER 31, 2011:	
Appendix A - Form 5500, Schedule H, Part IV, Line 4i, Schedule of Assets (Held at End of Year)	A1

(Supplemental schedules not listed are omitted due to the absence of conditions under which they are required.)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
Sears Puerto Rico Savings Plan:

We have audited the accompanying statements of net assets available for benefits of Sears Puerto Rico Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information by fund in the statements of net assets available for the benefits and the statements of changes in net assets available for benefits is presented for the purpose of additional analysis rather than to present the net assets available for benefits and changes in net assets available for benefits of the individual funds. The supplemental schedule and supplemental information by fund are the responsibility of the Plan's management. Such supplemental schedule and supplemental information by fund have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

SEARS PUERTO RICO SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF PLAN

History and Purpose - Sears, Roebuck and Co. (the “Company”) established the Sears Puerto Rico Savings Plan (the “Plan”) by the execution and adoption of a plan document (the “Plan Document”), dated January 1, 2005. The Plan was established as a substitute plan for participants of the Sears 401(k) Savings Plan (now known as the Sears Holdings 401(k) Savings Plan) (the “Sears Plan”) who were (are) employees of Sears, Roebuck de Puerto Rico, Inc. and who reside in the Commonwealth of Puerto Rico. The Plan Document has been amended from time to time, and was most recently fully amended and restated as of December 31, 2011. The following description of the Plan provides only general information. Participants should refer to the Plan Document for complete information.

Plan investments are held for safekeeping and commingled for investment purposes with the participating plans under The Sears Holdings 401(k) Savings Plan Master Trust (the “Master Trust”) based on a custodial arrangement between the trustee of this Plan and the trustee of the Master Trust. The other participating plans in the Master Trust currently include the Sears Plan and the Kmart Retirement Savings Plan for Puerto Rico Employees (the “Kmart Puerto Rico Plan”).

In March 2005, the Company merged with Kmart Holding Corporation and became a wholly owned subsidiary of Sears Holdings Corporation (“Holdings”). The Company continues to sponsor the Plan.

Administration - The administration of the Plan’s operations is the sole responsibility of the Plan Administrator. The Sears Holdings Corporation Administrative Committee (“Administrative Committee”) is Plan Administrator for all purposes of the Employee Retirement Income Security Act of 1974 (“ERISA”). The members of this committee are employees of Sears Holdings Management Corporation.

Banco Popular de Puerto Rico has been appointed and serves as trustee of the Plan’s trust (the “PR Trust”). State Street Bank and Trust Company (“State Street”) serves as the trustee (the “Master Trustee”) for the Master Trust and holds the investments of the Plan under the terms of a trust agreement. State Street is the custodian of the PR Trust. ING Institutional Plan Services (“ING”) served as the Plan’s recordkeeper until April 3, 2012 when Hewitt Associates, LLC (“Aon Hewitt”), a subsidiary of Aon Corporation, became the Plan’s recordkeeper.

The Company, the Administrative Committee, and the Sears Holdings Corporation Investment Committee (“Investment Committee”) (also consisting of employees of Sears Holdings Management Corporation) are the named fiduciaries under the Plan. The Investment Committee has authority relating to the acquisition, retention, and disposition of Plan assets and the appointment, retention, and termination of investment managers. Towers Watson Investment Services, Inc. has been appointed to serve as investment advisor.

Certain expenses incurred in connection with the operation of the Plan are paid from Master Trust assets. Brokers’ commissions and related expenses on transactions in portfolio securities are also paid from Master Trust assets. Compensation to members of the Investment Committee is paid by Sears Holdings Management Corporation, not the Plan or Master Trust.

Eligibility - A full-time regular or part-time regular employee of the Company who is employed in Puerto Rico, is a Puerto Rico resident, and is on the payroll of Sears Roebuck de Puerto Rico and otherwise who satisfies the definition of eligible employee is eligible for participation on the first day of the third month following the date of hire. Notwithstanding the foregoing, an eligible employee under the plan excludes a U.S. employee of the Company transferred to Puerto Rico under the then current expatriate policy of Sears Holdings Corporation.

Participants' Contributions and Investment Options - An eligible employee becomes a participant by electing to make contributions to the Plan and properly completing the enrollment process. Except as may be limited by applicable Puerto Rico law, participants may contribute up to 10 percent of eligible annual compensation on a pre-tax basis or after-tax basis, provided that in the aggregate a participant's contributions per payroll period cannot exceed 10 percent of the participant's annual eligible compensation. Participants turning age 50 or older during a plan year are eligible to make an additional pre-tax "catch-up" contribution up to the applicable Puerto Rico Internal Revenue Code catch-up contribution limit. As of January 1, 2012, except as may be limited by applicable Puerto Rico law, a participant may contribute up to 25 percent of eligible annual compensation on a pre-tax and/or 10 percent on an after-tax basis, provided that in the aggregate a participant's contributions per payroll period cannot exceed 25 percent of the participant's eligible annual compensation.

Participants may direct that pre-tax and after-tax contributions be invested in any combination of the following investment funds: the Sears Holdings Corporation Stock Fund ("Holdings Stock Fund"), which invests principally in Sears Holdings Corporation stock; the Stable Value Fund; the Bond Fund; the S&P 500 Index Fund; the Small-Mid Cap Value Fund; the Small-Mid Cap Growth Fund; the Large Cap Value Fund; the Large Cap Growth Fund; the International Equity Fund; any of five Target Retirement Funds; and the Self-Managed Brokerage Account (through which a participant may invest in any number of mutual funds, common stock and other investments). In addition, three index funds were introduced as new Plan investment options on January 1, 2011: U.S. Bond Index Fund; Global Equity Index Fund; and Russell Small/Mid Cap Index Fund. Participants are immediately fully vested in their contributions and earnings thereon.

Employer Contributions - Through payroll periods ending January 31, 2009, the Company contribution was fixed at 100 percent of a participant's pre-tax and/or after-tax contributions up to the first three percent of the participant's eligible compensation and 50 percent of the pre-tax and/or after-tax contributions the participant makes on the next two percent of eligible compensation. The Plan was amended to suspend the employer matching contribution on any pre-tax or after-tax contributions for payroll periods that end after January 31, 2009, until further amendment of the Plan.

Prior to suspension of matching contributions, the Plan allowed for the Company matching contribution to be made quarterly and to be payable in cash or stock, or a combination of both. If in cash, it was invested based on participants' pre-tax contribution elections, or after-tax elections if there is no pre-tax election. If in stock, it was invested in the Holdings Stock Fund. Contributions are available for diversification immediately upon deposit.

Prior to the suspension of matching contributions, to be eligible for the Company matching contribution, a participant must have had one year of service and been credited with 1,000 hours of service by that date. All active participants in the Plan are immediately fully vested in the Company matching contribution (other than the discretionary matching contributions described immediately below). The vested status of a participant who terminated employment prior to January 1, 2006, is determined based upon the vesting provisions of the Plan in effect at his or her date of termination. Participants should refer to the Plan Document for a more complete description of the Plan's vesting provisions.

The Plan includes a provision that allows for discretionary matching contributions. Discretionary matching contributions, if any, are subject to a three-year cliff vesting schedule. There were no discretionary matching contributions in 2011 and 2010.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocation of the Company's contribution and earnings and losses thereon, and is charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document.

In November 2011, proceeds of \$29,783 from a 2007 settlement that had been incorrectly posted to old accounts of the Puerto Rico participants in the Sears Plan were transferred to their current accounts in the Plan.

Participant Loans - Active participants may borrow from their Plan account up to the lesser of \$50,000 or 50 percent of the vested account balance; but not less than \$1,000. Loans are repaid through payroll deductions over any number of months up to five years (or 15 years for a loan for the initial purchase of a principal residence of the participant). The interest rate is the prime rate plus one percent as published on the last day of the month prior to the date the loan is issued. Participants should refer to the Plan Document and the Loan Policy for a more complete description of the Plan's loan provisions.

Withdrawals - Upon termination of employment, a participant is entitled to a complete withdrawal of his or her account balance, determined as of the latest posted valuation preceding the date on which payment is made. Partial in-service withdrawals are permitted in accordance with the withdrawal provisions set forth in the Plan Document and do not terminate participation but are subject to restrictions on participant balances.

Forfeited Accounts - At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$48 and \$47 respectively. These accounts are used to reinstate previously forfeited balances of rehired employees, pay reasonable expenses of the Plan, and reduce future employer contributions. For the years ended December 31, 2011 and 2010, no forfeitures were used to offset employer contributions.

Termination of Participation - Active participation in the Plan ceases after termination of employment. Any participant terminating with account balances in excess of \$1,000, who defers distribution of his or her account balances, remains a participant until the participant receives full distribution of his or her account balances.

Amendment, Suspension, or Termination of the Plan - Although it has not expressed any intent to suspend or terminate the Plan, the Board of Directors of the Company may, at its sole discretion, amend, suspend, or terminate the Plan at any time, provided, however, that no amendment, suspension, or termination of the Plan shall have any effect of diverting the assets of the funds to purposes other than the exclusive benefit of participants and their beneficiaries, or the payment of reasonable administrative expenses of the Plan. Further, the Board of Directors of the Company approved the delegation of amendment authority to the Administrative Committee. In the event of the Plan's termination, each participant's account balance will be fully vested. The assets of the Plan shall be distributed to Plan participants on the basis of their respective interests in the Plan, as soon as practicable, to the extent permitted by the Internal Revenue Code.

ERISA - The Plan is subject to certain provisions of Titles I and II of ERISA relating to reporting and disclosure, participation and vesting, and fiduciary responsibility. The Plan is not subject to the minimum funding standards of Titles I and II and the provisions of Title IV of ERISA, which provide for insurance of benefits payable on Plan termination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting - The Plan's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Master Trust Investment and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded as earned.

Common Collective Trusts - The Master Trust's investment in various common collective trusts is broadly diversified among various market capitalizations, growth and value investment styles, yields, maturities, and market indices. These common collective trusts are primarily invested in publicly traded securities and have a variety of investment asset classes including equity funds, fixed income funds, and balanced funds. The net asset value per share of common collective trusts is determined each business day and all may be redeemed at the net asset value per share at the measurement date without prior notice. There existed no unfunded commitments to these trust funds at December 31, 2011 or 2010.

Fully Benefit-Responsive Investment Contracts - The statements of net assets available for benefits present investment contracts at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investments in the Stable Value Fund are valued at fair value and then adjusted to contract value (investments made, plus interest accrued at the contract rate, less withdrawals and fees) as described above. The Stable Value Fund is invested in three portfolios of bond investments and in liquid assets comprised of a stable value common collective investment trust fund and a short-term investment fund. On behalf of the Master Trust, the Stable Value Fund investment manager has entered into four synthetic investment ("wrapper") contracts with high quality insurance companies and banks ("wrapper providers") that serve to substantially offset the price fluctuations in the three portfolios of underlying assets caused by movements in interest rates. The wrapper contracts obligate the wrapper providers to maintain the contract value of the portfolios of underlying investments. Contract value is generally equal to the principal amounts invested in the portfolios, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals. Under the terms of the wrapper contracts, gains and losses on the underlying investments are amortized through adjustments to future contract interest crediting rates, which are reset quarterly and which cannot be less than 0%. Primary variables impacting future crediting rates of the Stable Value Fund include the current yield, duration, and existing difference between market and contract value of the underlying assets within the wrap contract. The liquid assets may comprise from 0% to 15% of the Stable Value Fund and provide for daily participant cash flows and expenses. The average yield of the Stable Value Fund for the years

ended December 31, 2011 and 2010 was 1.20% and 1.74%, respectively. The crediting interest rate at December 31, 2011 and 2010 was 2.48% and 2.83%, respectively.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their Stable Value Fund (the "Fund") investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. Company-initiated events, outside the normal operation of the Plan, may limit the ability of the Fund to transact at contract value. Examples of such events include, but are not limited to, failure of the Plan or its trust to qualify for federal income tax exemption under ERISA; communications given to Plan participants designed to induce them to not invest in the Fund, or to transfer assets out of the Fund; and complete or partial termination of the Plan, or adoption of a competing plan.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Interfund Transactions - All interfund transactions are made at fair value and are eliminated in combination.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid at December 31, 2011 and 2010 were \$688 and \$500, respectively.

New Accounting Standards - The accounting standard initially adopted in 2011 is described below.

ASU No. 2010-06, Fair Value Measurements and Disclosures - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, *Fair Value Measurements and Disclosures*, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the Plan's financial statements.

New Accounting Pronouncements Not Yet Effective

Fair Value Measurements and Disclosures - In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820, *Fair Value Measurements and Disclosures*. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about the transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption to have a material impact on the financial statements.

3. INTEREST IN MASTER TRUST

Certain of the Plan's investment assets are held in a trust account with the Master Trustee and consist of an undivided interest in an investment account of The Sears Holdings 401(k) Savings Plan Master Trust, a master trust established by the Company on January 1, 2005, and administered by the Master Trustee. Use of the Master Trust permits the commingling of the Plan's assets with the assets of the Sears Plan and the Kmart Puerto Rico Plan for investment and administrative purposes. Although

assets of all plans are commingled in the Master Trust, the Master Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated daily by the Master Trustee to each participating plan based on the relationship of the interest in each plan to the total of the interests of all participating plans.

Net assets of the Master Trust as of December 31, 2011 and 2010 are summarized as follows:

(thousands of dollars)	<u>December 31</u>	
	2011	2010
Assets:		
Investments at fair value:		
Sears Holdings Corporation common shares*	\$ 58,108	\$ 143,594
Other common and preferred stock	401,043	461,576
Registered investment companies	194,996	252,884
Common/collective trusts	1,277,290	1,362,060
Synthetic investment contracts		1,138
Fixed income securities	884,900	819,080
Swaps, options and other	335	
Short-term investments	47,379	106,475
Collective short-term investment fund	102,785	111,377
Participant-directed brokerage account	<u>35,227</u>	<u>42,745</u>
Total investments at fair value	3,002,063	3,300,929
Receivables:		
Notes receivable from participants	57,448	62,122
Dividend and interest	3,962	3,691
Due from brokers and others	<u>112,434</u>	<u>135,782</u>
Total receivables	173,844	201,595
Cash	<u>114</u>	<u>1,551</u>
Total assets	3,176,021	3,504,075
Liabilities:		
Due to brokers and others	<u>186,723</u>	<u>197,842</u>
Total liabilities	<u>186,723</u>	<u>197,842</u>
Net assets in Master Trust at fair value	2,989,298	3,306,233
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	<u>(31,475)</u>	<u>(22,201)</u>
Net assets in Master Trust	<u>\$ 2,957,823</u>	<u>\$ 3,284,032</u>
Plan's interest in Master Trust net assets	<u>\$ 11,294</u>	<u>\$ 13,488</u>
Plan's percentage interest in Master Trust net assets	<u>0.4 %</u>	<u>0.4 %</u>

The Plan's interest in Master Trust net assets of \$11.3 million and \$13.5 million exceeds five percent of the Plan's net assets available for benefits as of December 31, 2011 and 2010, respectively.

Investments whose fair value was determined based on quoted market prices include Sears Holdings Corporation common shares, other common and preferred stock, registered investment companies and the participant-directed brokerage accounts. Investments whose fair value was estimated include common stock purchased in a private placement (See Note 4); common/collective trusts; synthetic investment contracts; fixed income securities; swaps, options and other; short-term investments; and collective short-term investment funds.

The net investment (loss) earnings of the Master Trust for the years ended December 31, 2011 and 2010 are summarized below:

(thousands of dollars)	2011	2010
Dividend, interest and other income	\$ 35,976	\$ 34,986
Net appreciation (depreciation) in fair value of investments:		
Sears Holdings Corporation common shares*	(72,917)	(17,763)
Other common and preferred stock	(20,353)	87,034
Registered investment companies	(26,683)	20,909
Common/collective trusts	55,161	167,611
Corporate notes and bonds	(871)	1,221
Mortgage and asset backed bonds	(54)	558
Government-backed and government agency bonds	1,923	(606)
Government notes and bonds	2,798	3,357
Foreign and yankee bonds	(807)	421
Swaps, options, futures and other	936	1,559
Short-term investments	19	6
Participant-directed brokerage accounts	<u>(2,398)</u>	<u>4,894</u>
Net (depreciation) appreciation in fair value of investments	<u>(63,246)</u>	<u>269,201</u>
Investment (loss) income of Master Trust	(27,270)	304,187
Interest income on notes receivable from participants	<u>2,672</u>	<u>3,325</u>
Total Master Trust activity	<u>\$ (24,598)</u>	<u>\$ 307,512</u>
Plan's interest in Master Trust activity	<u>\$ (1,393)</u>	<u>\$ 753</u>

* Party-in-interest

The investments whose net appreciation (depreciation) in fair value was determined based on quoted market prices include Sears Holdings Corporation common shares, other common and preferred stock, registered investment companies, and participant-directed brokerage accounts. The investments whose net appreciation (depreciation) in fair value was estimated include common stock purchased in a private placement (see Note 4); common/collective trusts; fixed income securities; swaps, options, and other; and short-term investment funds.

4. FAIR VALUE MEASUREMENTS

We determine fair value of the underlying investments in the Master Trust based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy and the Plan's methodology for determining the fair value of the underlying investments in the Master Trust are described as follows:

Level 1 inputs: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market for the asset or liability is one in which transactions for the asset or liability occur with sufficient frequency and volume to provide ongoing price information.

Common and preferred stocks, and registered investment companies (mutual funds) are actively traded and valued using quoted market prices. Participant-directed brokerage accounts are mainly comprised of these types of investments, and as a result, are classified as Level 1.

Level 2 inputs: Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk, and default rates.

Common collective trusts are portfolios of underlying assets held by investment managers and are valued at the unit value reported by the investment managers as of the end of each period presented. Corporate bonds, asset and mortgage-backed securities, U.S. government treasury and agency notes and bonds, and other debt securities are valued using quoted market prices. These securities do not trade with sufficient frequency and volume, however, and therefore their prices are considered a Level 2 input.

Level 3 inputs: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Equity securities assigned to Level 3 were purchased in a private placement with valuations updated based on subsequent transactions between institutional investors. The fair market value of synthetic investment contracts is estimated to be the difference between the current cost and replacement cost of the wrap contracts, discounted using market yields over the term of the investment. At December 31, 2011, the Master Trust's synthetic investment contracts had no value. The underlying investments in the synthetic investment contracts are assigned a fair value hierarchy based on the level of input of each individual investment.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's policy is to recognize transfers between levels at the end of the reporting period.

The following tables set forth by level within the fair value hierarchy the Master Trust investment assets at fair value on a recurring basis, as of December 31, 2011 and 2010.

(thousands of dollars)	Investment Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Equity securities:				
Sears Holdings Corporation common shares	\$ 58,108	\$	\$	\$ 58,108
U.S. companies	352,897		1,525	354,422
International companies	46,621			46,621
Registered investment companies	194,996			194,996
Common/collective trusts		1,277,290		1,277,290
Fixed income securities:				
Corporate notes and bonds		118,485		118,485
Mortgage and asset backed debt securities		79,268		79,268
Government-backed and agency bonds		311,314		311,314
Government notes and bonds		327,090		327,090
Other debt securities		48,743		48,743
Swaps, options and other		335		335
Short-term investments		47,379		47,379
Collective short-term investment fund		102,785		102,785
Participant-directed brokerage account	35,227			35,227
Total investment assets at fair value	<u>\$ 687,849</u>	<u>\$ 2,312,689</u>	<u>\$ 1,525</u>	<u>\$ 3,002,063</u>

(thousands of dollars)	Investment Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Equity securities:				
Sears Holdings Corporation common shares	\$ 143,594	\$ -	\$ -	\$ 143,594
U.S. companies	415,227			415,227
International companies	46,349			46,349
Registered investment companies	252,884			252,884
Common/collective trusts		1,362,060		1,362,060
Synthetic investment contracts			1,138	1,138
Fixed income securities:				
Corporate notes and bonds		121,902		121,902
Mortgage and asset backed debt securities		89,925		89,925
Government-backed and agency bonds		279,421		279,421
Government notes and bonds		291,885		291,885
Other debt securities		35,947		35,947
Short-term investments		106,475		106,475
Collective short-term investment fund		111,377		111,377
Participant-directed brokerage account	42,745			42,745
Total investment assets at fair value	<u>\$ 900,799</u>	<u>\$ 2,398,992</u>	<u>\$ 1,138</u>	<u>\$ 3,300,929</u>

There were no transfers into or out of Levels 1, 2 or 3 in the fair value hierarchy for the year ended December 31, 2011.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 investment assets for the years ended December 31, 2010 and 2011.

(thousands of dollars)	Changes in Fair Value of Level 3 Investment Assets			
	Equity Securities	Synthetic Investment Contracts	Fixed Income Securities	Total
Balance, January 1, 2010	\$ -	\$ 778	\$ 1,576	\$ 2,354
Plan year 2010 changes:				
Realized gains (losses)			(471)	(471)
Unrealized gains		360	612	972
Purchases				-
Sales			(1,717)	(1,717)
Transfers in and/or out of Level 3				-
Balance, December 31, 2010	-	1,138	-	1,138
Plan year 2011 changes:				
Realized gains (losses)				
Unrealized gains	199	(1,138)		(939)
Purchases	1,326			1,326
Sales				
Transfers in and/or out of Level 3				
Balance, December 31, 2011	<u>\$ 1,525</u>	<u>\$</u>	<u>\$</u>	<u>\$ 1,525</u>

The amount of gains or losses for the period included in changes in net assets which is attributable to the change in unrealized gains or losses of Level 3 assets still held at December 31 is as follows:

(thousands of dollars)	Equity Securities	Synthetic Investment Contracts	Total
For the year ended December 31, 2010		\$ 360	\$ 360
For the year ended December 31, 2011	\$ 199	(184)	15

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of common collective trusts managed by State Street Bank and Trust Company ("State Street") and a synthetic investment contract issued and guaranteed by State Street (see Note 2). State Street is the trustee as defined by the Plan and, therefore, transactions with State Street qualify as party-in-interest transactions. Fees for State Street investment management services for the collective short-term investment fund are offset against investment income. Fees incurred by the Master Trust for investment management services for the other State Street common collective trusts and for the interest rate guarantee on the synthetic investment contract were \$1.4 million and \$1.3 million for the years ended December 31, 2011 and 2010, respectively.

The Master Trust holds a synthetic investment contract issued and guaranteed by ING Life Insurance and Annuity Company ("ING Life") (see Note 2), which is related to the Plan's recordkeeper through its parent, ING Group. Fees paid to ING Life were \$0.3 million for each of the years ended December 31, 2011 and 2010.

The Master Trust holds shares of common stock of Sears Holdings Corporation, parent of the sponsoring employer. At December 31, 2011 and 2010, the Master Trust held 1,828,465 shares with a fair value of \$58.1 million and a cost basis of \$162.0 million and 1,947,031 shares with a fair value of

\$143.6 million and a cost basis of \$187.0 million, respectively. Holdings has not paid dividends on its common stock since inception.

6. INCOME TAXES

The Plan was established for employees of Sears, Roebuck de Puerto Rico, Inc. who reside in the Commonwealth of Puerto Rico. The Department of Treasury of the Commonwealth of Puerto Rico has determined and informed the Company by a letter dated January 19, 2011 that the Plan, as established January 1, 2005, as then designed and as amended prior to December 31, 2009, was in compliance with Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994, and by a letter dated January 25, 2011 that the Plan, as amended and restated effective December 31, 2009 was in compliance with Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994. Three amendments to the Plan have also been issued favorable decisions by the Puerto Rico Department of Treasury.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Puerto Rico Department of Treasury. The Plan Administrator, with the assistance of in-house and outside counsel, has analyzed the tax positions taken by the Plan and concluded that as of December 31, 2011 and 2010, respectively, there were no tax uncertain positions taken or expected to be taken that required recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress.

The Plan Administrator and the Plan's Benefits Counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Puerto Rico Internal Revenue Code of 1994, and consequently is exempt from local taxes; therefore, no provision for taxes has been provided for in the Plan's financial statements. In 2008, the Plan Administrator identified certain insignificant errors in the operation of the hardship withdrawal provision, which were corrected. The Plan Administrator engaged Puerto Rico benefits counsel to prepare a closing agreement for submission to the Puerto Rico Treasury Department. The draft closing agreement was presented to and preliminarily agreed to by the Puerto Rico Treasury Department, but they could not finalize a closing agreement because of the issuance of a new Puerto Rico tax code and regulations. The final closing agreement was presented to the Puerto Rico Treasury Department for execution on June 14, 2012.

7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Master Trust's Bond Fund investment manager as follows:

Foreign Currency Exchange Contracts - Periodically, the Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Master Trust's foreign equity and fixed income investments. The terms of the contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

When held, the Master Trust reflects the fair value of all forward contracts as an asset or liability in its statements of net assets. The fair values associated with the foreign currency contracts are estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the financial statements of the Master Trust, forward contracts to purchase foreign currency are shown as currency contract receivables and forward contracts to sell foreign currency are shown as currency contract payables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

At December 31, 2011 and 2010, the Master Trust held no currency contract receivables or payables.

Futures Contracts - The Master Trust enters into futures contracts in the normal course of its investing activities to manage market risk associated with fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges and settled daily.

During 2011 and 2010, the Master Trust was a party to futures contracts held for trading purposes for U.S. Treasury Notes and Eurodollars. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount (“initial margin”) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Master Trust, depending on the daily fluctuation in the value of the underlying contracts. U.S. Treasury Notes and cash owned and included in the investments of the Master Trust with values of \$.7 million and \$.1 million at December 31, 2011 and 2010, respectively, were pledged to the counterparties as collateral on the futures contracts.

The Master Trust had futures contracts with notional amounts of \$61.6 million and \$17.7 million at December 31, 2011 and 2010, respectively. At December 31, 2011, the Master Trust had futures contracts to (sell) purchase U.S. Treasury Notes and Eurodollars of (\$4.0 million) and \$65.6 million, respectively. At December 31, 2010, the Master Trust had futures contracts to purchase Eurodollars of \$17.7 million. Notional amounts do not quantify risk or represent assets or liabilities of the Master Trust, but are used in the calculation of cash settlements under the contracts.

The fair value of the futures contracts in the Master Trust is \$0 at December 31, 2011 and 2010, respectively, as settlements are completed by cash daily. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

Credit Default and Interest Rate Swaps - The Master Trust enters into credit default and interest rate swaps to hedge its exposure to certain fixed income investments, as well as to synthetically replicate the returns of certain fixed income investments. A credit default swap is a contract that involves the payment or receipt of an annual default premium for a specific issuer of corporate bonds and requires the party receiving the premium to pay the notional value of the corporate bonds if the issuer defaults. An interest rate swap is a contract in which each counterparty concurrently agrees to pay the other interest at either a predetermined fixed or floating rate on the same notional principal on specific dates for a specific period of time. No principal payments are made in standard interest rate swaps. Swap contracts are entered into directly between the parties and consequently involve counterparty credit risk. The investment manager’s policy is to execute swaps only with counterparties whose credit rating is A+ or better.

At December 31, 2011 and 2010, the Master Trust held no credit default swaps.

At December 31, 2011, the Master Trust held interest rate swaps with notional values of \$21.5 million to receive a fixed rate of interest in exchange for payment of a floating rate of interest based on a three-month LIBOR index. At December 31, 2010, the Master Trust held no interest rate swaps.

At December 31, 2011, securities and cash owned and included in the investments of the Master Trust with a value of \$.2 million were pledged as collateral to the Master Trust’s brokers as performance security on interest rate swaps.

Changes in the fair value of credit default and interest rate swaps are accounted for as net appreciation (depreciation) in the fair value of assets.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2011 and 2010:

(thousands of dollars)	December 31	
	2011	2010
Net assets available for benefits per the financial statements	\$ 11,294	\$ 13,488
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	124	88
Net assets available for benefits at fair value per Form 5500	\$ 11,418	\$ 13,576

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2011 and 2010:

(thousands of dollars)	2011	2010
Net (decrease)/increase in net assets available for benefits per the financial statements	\$ (2,194)	\$ 98
Adjustment from contract value to fair value for fully benefit-responsive investment contracts:		
Current year	124	88
Prior year reversal	(88)	(34)
Net (loss)/income per Form 5500	\$ (2,158)	\$ 152

9. SUBSEQUENT EVENTS

As of the close of business March 31, 2012, the Kmart Puerto Rico Plan and its net assets available for benefits of \$4.5 million were merged with and into the Plan by the full amendment, restatement and merger of the Plan.

Effective at the close of business March 31, 2012, the name of the Plan was changed to Sears Holdings Puerto Rico Savings Plan and Holdings was named as the plan sponsor. In addition, the Administrative Committee has resolved that the name of the Master Trust be changed to Sears Holdings Savings Plan Master Trust as soon as it is administratively feasible to do so.

The December 31, 2011 amendment and restatement of the Plan and the March 31, 2012 amendment, restatement and merger of the Plan will be submitted to the Department of Treasury of the Commonwealth of Puerto Rico for updated favorable decision letters.

As previously noted, effective April 3, 2012, Aon Hewitt replaced ING as the Plan's recordkeeper.
