Report of Independent Registered Public Accounting Firm

Plan Administrator and Participants

The Middle River Aircraft Systems Hourly Savings Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Middle River Aircraft Systems Hourly Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Middle River Aircraft Systems Hourly Savings Plan as of December 31, 2011 and 2010, and the changes in net assets available for plan benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 1, in 2010 the Plan changed its trustee/custodian from MG Trust LLC to Frontier Trust Company.

THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

(1) Description of the Plan

The Middle River Aircraft Systems Hourly Savings Plan (the "Plan") is a defined contribution plan sponsored by MRA Systems, Inc. (the "Company"), a division of General Electric Aviation, for employees covered by collective bargaining agreements after completing seventy days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

On November 12, 2010, the Plan's custodian and trustee changed from MG Trust Company LLC to Frontier Trust Company. Ascensus, Inc. is the recordkeeper.

The following description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in The Middle River Aircraft Systems Hourly Savings Plan document (the "Plan Document"). Additional Plan information including benefits, investment options, vesting provisions and effects of plan termination is included in Plan handbooks and other material distributed to participants.

Employee Contributions and Investment Options

Eligible employees are permitted to allocate their account balances in increments of 1% to one or more of the following investment options:

- (a) GE Common Stock Fund – This fund is invested entirely in shares of GE Common Stock and the remainder is held in cash or other short-term investments to provide liquidity for participant directed transactions.
- (b) State Street Global Advisors (SSgA) S&P 500 Index Fund – This fund seeks to replicate the total return of the Standard & Poor's 500 Composite Stock Price Index (the "Index"). This fund invests primarily in stocks in the Index in proportion to their weightings in the Index.
- (c) GE Institutional Income Fund – This fund seeks maximum income consistent with prudent investment management and the preservation of capital by investing at least 80% of its net assets in debt securities under normal market conditions.
- (d) GE Institutional U.S. Equity Fund – This fund seeks long-term growth of capital. The fund invests primarily in equity securities of U.S. companies. To a lesser extent, the fund may also invest in foreign securities and debt securities.
- (e) GE Institutional Strategic Investment Fund – This fund seeks to maximize total return by following an asset allocation strategy contemplating shifts among a range of investments including U.S. and foreign stocks, bonds, money market instruments, and other debt securities.
- (f) Columbia Acorn Select Fund – This fund seeks long-term growth of capital by investing in a limited number of U.S. companies (between 20-40) with market capitalizations under \$20 billion at the time of purchase.
- (g) American Funds Growth Fund of America – This fund seeks growth of capital by investing in companies with a history of rapidly growing earnings and generally higher price-to-earnings ratios.
- (h) New Perspective Fund – This fund seeks long-term growth of capital and future income as its secondary objective. The fund normally invests in stocks of companies located around the world to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships.

THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

- (i) Harbor International Fund – This fund seeks long-term total return, principally from growth of capital.
- (j) Galliard Capital Management Stable Value Fund (“Stable Value Fund”) – This collective trust fund’s primary objective is to preserve principal while achieving a rate of return competitive with rates earned over an extended period of time by comparable fixed income investment products. This fund invests primarily in pooled investment contracts with short-term maturities.

Audited financial statements and prospectuses or other disclosure documents of the registered investment companies (“mutual funds”) are made available to participants annually.

Participants may elect to contribute up to 17% of their eligible compensation on a pre-tax or after-tax basis. Participants may also contribute amounts as “rollover” provisions representing distributions from other qualified defined benefit or defined contribution plans of a former employer.

The United States Internal Revenue Code limits the amount of pre-tax contributions that can be made each year. The limit for participants under age 50 was generally \$16,500 in 2011 and 2010. For participants who were at least age 50 during the year, the 2011 and 2010 limit was generally \$22,000.

Employer Contributions

The Company matches 25% of participant contributions up to 6% of eligible compensation.

Vesting

Participants are immediately fully vested in their contributions to the Plan, any Company matching contributions and the earnings thereon.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocation of (a) employer matching contributions and (b) investment results. The benefit to which a participant is entitled is the value of the participant’s vested account.

Notes Receivable from Participants

The Plan permits participants, under certain circumstances, to borrow a minimum of \$500 from their participant accounts. Subject to certain Internal Revenue Code and Plan limits, a participant may not borrow more than the lesser of \$50,000 minus their highest outstanding balance of loans from the Company and GE and its subsidiaries during the past 12 months or 50% of their vested account balance. There is a \$50 charge for each loan.

The period of repayment of any loan is up to 4.5 years from the effective date of the loan unless the loan is used to acquire a principal residence for which a term of up to 15 years may be permissible. Loans are secured by the remaining balance in the participant’s account and bear interest at an effective annual percentage rate which is 1% above the prime interest rate in effect as of the last business day before the month in which the loan is requested. Loans are repaid with interest in equal payments over the term of the loan payroll deductions, personal check or other such methods as may be required. Participants may repay the entire principal amount with written notice without penalty.

In the event of a loan default, the amount of the outstanding balance will be reported to the Internal Revenue Service in the year of default as ordinary income.

THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

Payment of Benefits

Subject to certain limitations, a participant (or designated beneficiary) may withdraw all or a portion of his or her after-tax contributions, including earnings thereon. Generally, before-tax contributions and rollovers may not be withdrawn while employed by the Company prior to age 59½. Company contributions may not be withdrawn while a participant is employed by the Company prior to age 70½. In the case of a hardship, a participant may elect to withdraw, as applicable, all or a portion of pre-tax contributions, excluding earnings thereon, after-tax contributions and, rollover contributions, including earnings thereon. In order to make a hardship withdrawal, a participant must first withdraw the maximum after-tax contributions and nontaxable loans. A participant who makes a hardship withdrawal will be suspended from the Plan for six months after the hardship distribution.

On termination of service due to death, the designated beneficiary will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, or if he or she qualifies, as an installment or a direct rollover.

Plan Termination and Amendment

Although it has not expressed any intent to do so, the Company has the right under the Plan, to the extent permitted by law, to discontinue contributions and to terminate the Plan in accordance with the provisions of ERISA. If the Plan is terminated, each participant's interest will be payable in full according to Plan provisions. The Company also has the right under the Plan, to the extent permitted by law, to amend or replace the Plan for any reason.

Administrative and Investment Advisor Costs

Expenses related to the administration of the Plan, including recordkeeping expenses and trustee's fees, are liabilities of the Plan. However, the Company may choose to pay these expenses (see note 2(g) Expenses). For the registered investment companies, investment advisers are reimbursed for costs incurred or receive a management fee for providing investment advisory services. These reimbursed costs and management fees are reflected in the net appreciation (depreciation) in the fair value of investments on the Statement of Changes in Net Assets Available for Plan Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan's investment in the Stable Value Fund included in the Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

(b) Cash and Cash Equivalents

This amount is comprised primarily of cash held in the GE Common Stock Fund to provide liquidity. In addition, participant and employer contribution balances remitted to the Trust, which are related to the last payroll cycle of the Plan year and as a result, have not yet been invested, are also classified as cash and cash equivalents.

(c) Investments

Plan investments are reported at fair value. See notes 3 and 4 for additional information.

Investment transactions are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is earned from settlement date and recognized on the accrual date. Earnings from the Stable Value Fund are reinvested in the fund and reflected in dividends and interest.

(d) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable. There are no restrictions as to the redemption of this investment nor does the plan have any contractual obligations to further invest in any of the funds.

Level 3 - Significant inputs to the valuation model are unobservable.

The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities include GE Common Stock and registered investment companies.

The Plan's ownership in the collective funds are carried at fair value based on the investment's net asset value per unit and is included in Level 2.

See note 4 for additional information.

HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

(e) Notes Receivable from Participants

Notes receivable from participants are recorded at the outstanding principal balance plus accrued interest.

(f) Payment of Benefits

Benefit payments are recorded when paid to participants.

(g) Expenses

All expenses related to administration of the Plan are paid by the Company, with the exception of the Plan's loan expenses, which are paid by the Plan's trustee out of the respective participant's investment fund's assets.

(h) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(i) Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

Total investments at fair value	<u>\$ 13,240,915</u>	<u>\$ 11,423,257</u>

* Investment represents more than 5% of the Plan's net assets.

** Contract value at December 31, 2011 and 2010 for the Stable Value Fund was \$3,279,763 and \$2,568,648 respectively. The amounts presented in the table reflect fair value and also represent more than 5% of the Plan's net assets.

The Plan's investments appreciated (depreciated) during 2011 and 2010 as follows:

	<u>2011</u>	<u>2010</u>
GE Common Stock	\$ 39,192	\$ 635,720
Registered Investment Companies	<u>(263,602)</u>	<u>420,764</u>
	<u>\$ (224,410)</u>	<u>\$ 1,056,484</u>

The average yield of the underlying assets earned by the Plan from the Stable Value Fund was 1.83% and 2.46% at December 31, 2011 and 2010, respectively. The average crediting interest rate was 2.95% and 3.16% at December 31, 2011 and 2010, respectively.

The Plan offers a number of investment options including the GE Common Stock Fund, a variety of investments in registered investment companies and a collective trust fund. The registered investment companies invest in US equities, international equities, and fixed income securities. Investment securities in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur (including in the near term) and that such changes could

**THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2011 and 2010

materially affect participant account balances and amounts reported in the Statements of Net Assets Available for Plan Benefits.

The Plan's exposure to a concentration of credit risk is limited by the opportunity to diversify investments across multiple participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of GE Common Stock Fund, which primarily invests in a single security

(4) Fair Value Measurements

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2011:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
GE Common Stock	\$ 3,535,888	\$ —	\$ —	\$ 3,535,888
Registered Investment Companies	6,307,668	—	—	6,307,668
Galliard Capital Management Stable Value Fund	—	3,397,359	—	3,397,359
Total investments at fair value	<u>\$ 9,843,556</u>	<u>\$ 3,397,359</u>	<u>\$ —</u>	<u>\$ 13,240,915</u>

The following table presents the Plan's investments measured at fair value on a recurring basis at December 31, 2010:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
GE Common Stock	\$ 3,375,804	\$ —	\$ —	\$ 3,375,804
Registered Investment Companies	5,413,664	—	—	5,413,664
Galliard Capital Management Stable Value Fund	—	2,633,789	—	2,633,789
Total investments at fair value	<u>\$ 8,789,468</u>	<u>\$ 2,633,789</u>	<u>\$ —</u>	<u>\$ 11,423,257</u>

Transfers in and out of Level 3 are considered to occur at the beginning of the period. There were no transfers during 2011 or 2010.

As discussed in Note 1(a), the GE Common Stock Fund is a unitized fund that consists of GE common stock and a small portion of the fund held in cash or other short-term investments which are assets of the Plan. The GE common stock of the GE Common Stock Fund is included in the fair value measurements table as Level 1 investments and the cash portion is included in cash and cash equivalents on the Statement of Net Assets Available for Plan Benefits.

(5) Related Party Transactions (Parties in Interest)

Certain investments of the Plan are shares of registered investment companies that are advised by GE Asset Management Incorporated ("GEAM") and distributed by GE Investment Distributors, Inc. GEAM provides investment advisory services for certain investments in the Plan. Another investment in the Plan is an investment fund comprised of shares of common stock issued by General Electric Company.

THE MIDDLE RIVER AIRCRAFT SYSTEMS
HOURLY SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

Certain fees paid to related parties for services to the Plan were paid by the Plan. Registered investment company and collective trust fund operating expenses, which include expenses paid to GEAM, reduce the fund's assets and are reflected in the fund's share/unit price and dividends.

(6) Tax Status

The Internal Revenue Service has notified the Company by a letter dated April 28, 2003, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Plan has been amended since that letter was issued. However, Plan management and legal counsel for the Plan have no reason to believe that those amendments have adversely affected the validity of the determination letter.

The portion of a participant's compensation contributed to the Plan as a pre-tax contribution and the Company's matching contribution are not subject to Federal income tax when such contributions are credited to participant accounts, subject to certain limitations. These amounts and any investment earnings may be included in the participant's gross taxable income for the year in which such amounts are withdrawn from the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of the material liability (or asset) or disclosure in the Plan's financial statements.

During 2011, incomplete reports provided by the Plan administrator caused a small group of notes receivable to be incorrectly processed. The Company corrected this by reamortizing the loans, where appropriate, within the five-year limit of Code section 72(p). The Company has also made improvements to the loan process to prevent this from occurring in the future.

(7) Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are classified as investments per the Form 5500. In addition, any deemed distributions are not considered to be plan assets per Form 5500 and are excluded from notes receivable from participants. However, these distributions remain a plan asset for purposes of these financial statements until offset against plan assets.

The following is a reconciliation of total investments per the financial statements at December 31, 2011 and 2010 to the annual report filed on Form 5500, Schedule H as required by the Department of Labor:
