## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Long Island Financial Group, Inc.

I have audited the accompanying statement of financial condition of Long Island Financial Group, Inc. as of December 31, 2011, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, I express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Long Island Financial Group, Inc. at December 31, 2011, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supporting schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material aspects in relation to the basic financial statements taken as a whole.

**LONG ISLAND FINANCIAL GROUP, INC.  
NOTES TO FINANCIAL STATEMENTS**

**BUSINESS DESCRIPTION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

**Nature of Business**

The Company is engaged principally in the resale of securities and mutual funds as a broker/dealer. The Company is registered with the Securities and Exchange Commission to be a broker/dealer pursuant to the Financial Industry Regulatory Authority, Inc. (FINRA). Client accounts are held and maintained by an outside broker/clearing house.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

**Securities**

Securities owned by the firm and securities not yet purchased are reported at market value with unrealized gains or losses reflected in operations as dealer trading revenues.

**Revenue Recognition**

Securities transactions and related commissions and expenses are recorded on a trade date basis.

**INCOME TAXES**

The Company, with the consent of its shareholders, has elected to be taxed as an S Corporation under Section 1372 of the Internal Revenue Code, which provides that, in lieu of federal corporate taxes, the stockholders are taxed on their proportionate share of the Corporation's taxable income. The corporation, with consent of its shareholders, has elected for State tax purposes to be taxed as an S Corporation, which provides that, in lieu of state corporate taxes, the stockholders are taxed on their proportionate share of the Corporation's taxable income. A provision for state S corporation franchise fee has been provided as applicable.

**LONG ISLAND FINANCIAL GROUP, INC.**  
**NOTES TO FINANCIAL STATEMENTS**

**FAIR VALUE OF FINANCIAL INSTRUMENTS:**

The Company's financial assets and liabilities are carried at fair value or are carried at amounts which approximate fair value as the market value of such items is not materially sensitive to shifts in market interest rates due to the limited term to maturity of these instruments.

The Company adopted SFAS No. 157, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and expands disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels explained below:

- Level 1** Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
  
- Level 2** Pricing inputs are other than used in Level 1 which include the closing bid price for unlisted marketable securities which are available in active or inactive markets for identical investments or liabilities, other direct or indirect observable inputs that can be corroborated by market data or the use of models or other valuation methodologies as of the reporting date. Investments which are generally included in this category include state and municipal obligations in an active or inactive market that are valued using observable inputs other than quoted prices.
  
- Level 3** Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include state and municipal obligations which are in an inactive market and valued utilizing risk assumptions based on unobservable inputs.

Unrealized gains and losses are included in earnings and are reported in the Statement of Income as a component of other income and losses. Generally, for all trading securities, fair value is determined by reference to quoted market prices and other relevant information generated by market transactions.

As at December 31, 2011, the Company was liquid in its security positions.

**LONG ISLAND FINANCIAL GROUP, INC.  
NOTES TO FINANCIAL STATEMENTS**

**NET CAPITAL REQUIREMENTS**

The Company is subject to the uniform net capital rule of the Securities and Exchange Commission, which requires that aggregate indebtedness, as defined, shall not exceed 15 times net capital as defined. At December 31, 2011, the Company had a net capital ratio of .14 to 1 and its net capital was approximately \$37,800 compared to the minimum requirement of 5,000. The Company has elected to operate pursuant to SEC rule 15c3-1(a)(6), whereby it is not required to take haircuts on its market-maker securities.

**RETIREMENT PLAN**

The Company maintains a Savings Incentive Match Plan for Employees (SIMPLE) IRA Plan under section 408(p) of the Internal Revenue Code. Under the plan, eligible employees may elect to defer a percentage or dollar amount of their salary subject to the Internal Revenue Service limits. Employees are eligible to participate once their compensation is more than \$5,000 for two years. The Company must make matching contributions up to 3% of the employee's compensation or make a non-elective contribution of 2% of compensation of all eligible employees. The Company's contribution totaled \$0 for the year ended December 31, 2011.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL REQUIRED BY  
SEC RULE 17a-5 CLAIMING EXEMPTION FROM SEC RULE 15c3-3**

**To the Board of Directors  
Long Island Financial Group, Inc.**

**In planning and performing my audit of the financial statements of Long Island Financial Group, Inc. (the "Company"), as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, I considered the Company's internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I do not express an opinion on the effectiveness of the Company's internal control.**

**Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that I considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:**

- 1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by rule 17a-13.**
- 2. Complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.**

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or combination of control deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of significant deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

My consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. I did not identify any deficiencies in internal control and control activities for safeguarding securities that I consider to be material weaknesses, as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2011, to meet the SEC's objectives.

**This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority (FINRA), and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.**
