Independent Auditor's Report

To the Board of Directors CapNet Securities Corporation Houston, Texas

I have audited the statement of financial position of CapNet Securities Corporation as of December 31, 2011 and 2010, and the related statements of statement of operations, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of CapNet Securities Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CapNet Securities Corporation as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule I is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities and Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CapNet Securities Corporation Notes to Financial Statements December 31, 2011

Note A. Summary of Significant Accounting Policies

Business Activity

CapNet Securities Corporation is a brokerage firm formed for the purpose of generating commissions through buying and selling securities for customers. The Company is a broker-dealer registered with the Securities and Exchange Commission.

Cash Equivalents

For purpose of the statement of cash flows, the company considers all highly liquid debt instruments purchased with maturity of three months or less to be cash equivalents at December 31, 2011.

Accounts Receivable

Management considers all amounts recorded as trade receivables as fully collectible. As such, no allowance is provided. All amounts are due from various entities and financial institutions. We establish an allowance for bad debts through a review of several factors including historical collection experience, current aging status of the customer accounts, and financial condition of our customers. We do not generally require collateral for our accounts receivable.

Equipment and Furniture

Equipment and furniture are stated at cost, net of accumulated depreciation. Depreciation is provided using the straight-line method over the useful lives of the respective assets, generally five years.

Income Taxes

The liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities and are measured using anticipated tax rates and laws that will be in effect when the differences are expected to reverse. The realizability of deferred tax assets are evaluated annually and a valuation allowance is provided if it is more likely than not that the deferred tax assets will not give rise to future benefits in the company's tax return.

Revenue and Cost Recognition

The company prepares its books on the accrual basis of accounting. The company recognizes revenues from brokerage firm commissions when confirmation of each, individual transaction is received from the brokerage firm. The company recognizes commissions due to its salesmen at the end of each month, after receiving a final confirmation of the month's transactions from the individual brokerage firms.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note B - Equipment and Furniture

Equipment, furniture, and leasehold improvements consisted of the following as of December 31, 2011.

Equipment and Furniture	\$33,822
	33,822
Less: Accumulated Depreciation	(9,247)
Total	\$24,575

Depreciation expense of \$3,003.88.

Note C - Net Capital Requirements

The company is subject to a \$5,000 minimum capital requirement or a minimum net capital required at 6-2/3% or aggregated indebtedness under SEC Rule 15c3-1, which requires that the ratio of aggregate indebtedness to net capital shall not exceed 15 to 1. Net capital and related net capital ratio fluctuate on a daily basis; however as of December 31, 2011, the net capital was \$59,446, which exceeded the required minimum capital by \$54,446. The company's ratio of aggregated indebtedness to net capital was 43% at December 31, 2011.

Note D - Commitments and Contingencies

From time to time, the Company is involved in certain legal actions and claims arising in the normal course of business. Management is of the opinion that such matters will be resolved without a material effect on the Company's financial condition or results of operations.

The anticipated lease obligation for office space through the 2017 fiscal year is:

Year	Amount
2012	\$ 173,861
2013	\$ 179,129
2014	\$ 184,398
2015	\$ 189,666
2016	\$ 194,934
2017	\$ 200,203
Total	\$ 1,122,191

Independent Auditor's Report on Internal Accounting Control Required by SEC Rule 17a-5

To the Board of Directors CapNet Securities Corporation Houston, Texas

In planning and performing my audit of the financial statements of CapNet Securities Corporation for the year ended December 31, 2011 and 2010, I considered its internal control structure, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that I considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregated indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provision of Rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions related to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making the quarterly securities examination, counts, verifications and comparisons;
- 2. Recording of differences required by Rule 17a-13, and;
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of CapNet Securities Corporation is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's afore-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the

design or operation of the specific internal control structure elements does not reduce to a relatively low level of risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that CapNet Securities Corporation's practices and procedures were adequate at December 31, 2011 and 2010, to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.

Clay Thomas, P.C.
