Organization

The Company was organized as a Delaware corporation on October 31, 2001, for the purpose of doing business as a broker-dealer in securities, and provider of financial services.

Property and Equipment

Property and equipment are recorded at cost. The cost of maintenance and repairs are charged to expense as incurred. Major improvements to property and equipment are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Compensated Absences

Employees of the Company are entitled to paid vacation, sick and personal days depending on job classification, length of service, and other factors. It is impractical to estimate the amount of compensation for future absences, and accordingly, no liability has been recorded in the accompanying financial statements. The Company's policy is to recognize the costs of compensated absences when actually paid to employees.

Management's Review for Subsequent Events

Management had evaluated subsequent events through February 21, 2012, the date which the financial statements were available to be issued.
