Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission and Regulation 1.17 of the Commodity Futures Trading Commission as of December 31, 2011

#### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Southern Trust Securities, Inc.

We have audited the accompanying statement of financial condition of Southern Trust Securities, Inc. (the "Company") as of December 31, 2011. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Southern Trust Securities, Inc. as of December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the statement of financial condition as a whole. The information contained in the supplemental schedule on page 13 is presented for purposes of additional analysis and is not a required part of the financial statement. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statement. The information has been subjected to the auditing procedures applied in the audit of the statement of financial condition and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the statement of financial condition or to the statement of financial condition itself, and other additional procedures in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). In our opinion, the information is fairly stated in all material respects in relation to the financial statement as a whole.

monison, Brown, anging & Fana

Miami, Florida March 15, 2012

## NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 1. Nature of operations

Southern Trust Securities, Inc. (the "Company"), a Florida Corporation, was organized on June 10, 1999. The Company is registered as an introducing broker/dealer with the Securities and Exchange Commission ("SEC") and is a member of the National Futures Association ("NFA") and the Financial Industry Regulatory Authority ("FINRA").

The Company is an introducing broker clearing customer trades on a fully disclosed basis through a clearing firm. Under this basis, it forwards all customers transactions to another broker who carries all customers' accounts and maintains and preserves books and records. The Company's operations also consist of providing investment banking services.

The Company is a wholly-owned subsidiary of Southern Trust Securities Holding Corp. ("STSHC").

#### 2. Summary of significant accounting policies

#### Basis of Presentation

The accounting policies and reporting practices of the Company conform to the predominant practices in the broker-dealer industry and are in accordance with accounting principles generally accepted in the United States of America (GAAP).

These financial statements were approved by management and available for issuance on March 15, 2012. Subsequent events have been evaluated through this date.

#### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements, as well as their related disclosures. Such estimates and assumptions also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

The Company considers short-term interest bearing investments with initial maturities of three months or less to be cash equivalents. Cash and cash equivalents consist of cash in banks, free credit on investment accounts and money market accounts.

#### Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

# NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 2. Summary of significant accounting policies (continued)

#### Property and Equipment

Property and equipment is stated at cost less accumulated depreciation. Depreciation is computed using the straightline method over the estimated useful lives of the assets which range from three to ten years. Repairs and maintenance are expensed as incurred while betterments and improvements are capitalized. When property and equipment are retired, sold, or otherwise disposed of, the asset's carrying amount and related accumulated depreciation are removed from the accounts and any gain or loss is included in operations.

#### Valuation of Investments in Securities at Fair Value – Definition and Hierarchy

In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined.

Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement.

NOTES TO STATEMENT OF FINANCIAL CONDITION

### 2. Summary of significant accounting policies (continued)

#### Valuation of Investments in Securities at Fair Value – Definition and Hierarchy (continued)

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in Note 5. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk; prepayments, and other factors, especially in the absence of broad markets for particular instruments. Changes in assumptions or in market conditions could significantly affect the estimates. The carrying amount of all financial assets and liabilities approximates fair value.

#### Valuation Techniques

The Company values investments in securities that are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

### **Derivative Contracts**

The Company records its derivative activities at fair value. Gains and losses from derivative contracts are included in trading income in the statement of operations. Derivative contracts include future and option contracts related to foreign currencies, government bonds and other securities.

The fair value of the derivative contracts traded by the Company is generally based on quoted prices in active markets on national exchanges. The derivative contracts, such as options and futures, which are listed on a national securities exchange or reported on the NASDAQ national market, are generally categorized in Level 1 of the fair value hierarchy.

#### Offsetting of Amounts Related to Certain Contracts

The Company has elected to offset fair value amounts recognized for cash collateral receivables and payables against fair value amounts recognized for net derivative positions executed with the same counterparty under the same master netting arrangement. At December 31, 2011, the Company offset cash collateral receivables of approximately \$9,000 against its net derivative positions.

#### Securities Transactions

Revenues for executing customer securities transactions and associated expenses are recorded as earned and incurred, on a trade date basis. Securities owned are valued at fair value. Unrealized appreciation or depreciation is reflected in income currently.

### NOTES TO STATEMENT OF FINANCIAL CONDITION

### 2. Summary of significant accounting policies (continued)

#### Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

### Income Taxes

The Company's taxable income or loss is included in the consolidated income tax returns of STSHC. Current and deferred income taxes are allocated to the members of the consolidated group as if each member were a separate taxpayer.

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for difference between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statements as appropriate.

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce stockholder's equity. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in consolidation with STSHC in the U.S. federal and various state and local jurisdictions. Generally, the tax filings are no longer subject to income tax examinations by major taxing authorities for years before 2008. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 2. Summary of significant accounting policies (continued)

#### Interest and Penalty Recognition on Unrecognized Tax Benefits

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in other operating expenses.

#### **Recently Adopted Accounting Pronouncements**

In May 2011, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which works to achieve common fair value measurement and disclosure requirements in GAAP and International Financial Reporting Standards. The update both clarifies the FASB's intent about the application of existing fair value guidance, and also changes certain principles regarding measurement and disclosure. The update is effective prospectively and is effective for annual periods beginning after December 15, 2011. Early application is permitted for interim periods beginning after December 15, 2011. The Company is currently evaluating the effect the update will have on its financial statements.

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009; except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this update did not have an effect on the Company's financial statements.

### 3. Clearing Arrangements

The Company has clearing agreements with clearing brokers to provide execution and clearing services on behalf of its customers on a fully disclosed basis. All customer records and accounts are maintained by the clearing brokers. The Company maintains a deposit with one of the clearing brokers. A termination fee may apply if the Company were to terminate its relationship with the respective clearing broker.

#### 4. Related party transactions

#### Occupancy

The Company occupies office space in Coral Gables, FL in a facility owned by STSHC, its parent corporation. The Company does not pay STSHC any rent, but it does pay for certain of the facility's operating expenses, which totaled approximately \$13,000 for the year ended December 31, 2011.

#### Administrative Support

The Company provides certain administrative support services to Southern Trust Securities Asset Management, Inc. ("STSAM"), a wholly-owned subsidiary of STSHC.

## NOTES TO STATEMENT OF FINANCIAL CONDITION

4. Related party transactions (continued)

The Company is involved in significant financing and other transactions, and has significant related party balances with affiliates. At December 31, 2011, STSHC owed the Company \$268,675, which is included in "due from related parties." The amounts are non-interest bearing and are due on demand.

### 5. Fair value measurements

The Company's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy in accordance with GAAP guidance for fair value measurement. See Note 2 for a discussion of the Company's policies regarding this hierarchy.

The Company's financial assets and liabilities measured at fair value on a recurring basis include those securities classified as securities owned on the statement of financial condition.

The following table presents information about the Company's assets and liabilities measured at fair value as of December 31, 2011:

	fo	oted Prices in Active Markets r Identical Assets (Level 1)	C Obs In	nificant other ervable iputs vel 2)	Unob	nificant servable nputs evel 3)	-	ollateral Held Broker	Balance as of cember 31, 2011
Assets									
Securities owned, at fair value:									
Money market	\$	250,743		-		-		-	\$ 250,743
Options and futures		· _	•	-		-		8,744	8,744
Corporate Bonds		309,999		-		-		-	309,999
Equity securities		197,379		-		-	·	-	197,379
	\$	758,121	\$	-	\$	-	\$	8,744	\$ 766,865

#### Derivatives

In the normal course of business, the Company utilizes derivative contracts in connection with its proprietary trading activities. Investments in derivative contracts are subject to additional risks that can result in a loss of all or part of an investment. The Company's derivative activities and exposure to derivative contracts are classified by the following primary underlying risks: interest rate, credit, foreign currency exchange rate, commodity price, and equity price risks. In addition to its primary underlying risks, the Company is also subject to additional counterparty risk due to inability of its counterparties to meet the terms of their contracts.

## NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 5. Fair value measurements (continued)

#### Options

The Company is subject to equity price risk in the normal course of pursuing its investment objectives. Option contracts give the Company the right, but not the obligation, to buy or sell within a limited time, a financial instrument, commodity or currency at a contracted price that may also be settled in cash, based on differentials between specified indices or prices.

The Company is exposed to counterparty risk from the potential that a seller of an option contract does not sell or purchase the underlying asset as agreed under the terms of the option contract. The maximum risk of loss from counterparty risk to the Company is the fair value of the contracts and the premiums paid to purchase its open option contracts. The Company considers the credit risk of the intermediary counterparty to its option transactions in evaluating potential credit risk.

#### Futures Contracts

The Company is subject to equity price risk in the normal course of pursuing its investment objectives. The Company may use futures contracts to gain exposure to, or hedge against, changes in the value of equities. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date. At December 31, 2011, there is one futures contract held and is classified by commodity price risk. At December 31, 2011, the fair value of open contracts amounted to approximately (\$500) and is reflected in the Securities Owned, at fair value, caption in the accompanying statement of financial condition.

### 6. Property and equipment, net

Property and equipment, net, consisted of the following at December 31, 2011:

	\$ 38,964
Less: accumulated depreciation	107,647 (68,683)
Office equipment	35,468
Furniture and fixtures	\$ 72,179

Depreciation expense for the year ended December 31, 2011 was \$9,643.

#### 7. Income taxes

The Company had no income tax expense (benefit) for the year ended December 31, 2011.

The Company files consolidated tax returns with its parent, STSHC. In accordance with GAAP, allocation of the consolidated income tax expense is necessary when separate financial statements are prepared for the affiliates. As a result, the Company uses a method that allocates current and deferred taxes to members of the consolidated group by applying the liability method to each member as if it were a separate taxpayer.

## NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 7. Income taxes (continued)

At December 31, 2011, the Company had net operating loss ("NOL") carry-forwards for federal and state income purposes approximating \$2,058,000. These losses are available for future years and expire through 2030. Utilization of these losses may be severely or completely limited if the Company undergoes an ownership change pursuant to Internal Revenue Code Section 382.

The deferred tax asset at December 31, 2011 is summarized as follows:

Deferred tax assets:	
Net operating loss carryforwards	\$ 768,270
Other	 3,770
Deferred tax assets	772,040
Less: Valuation allowance	 (772,040)
Net deferred tax asset	\$ _

The valuation allowance decreased by approximately \$15,000 from December 31, 2010.

A reconciliation of income tax expense computed at the U.S. federal, state and local statutory rates and the Company's effective tax rate is as follows:

Statutory federal income tax expense	(34) %
State and local income tax	
(net of federal benefits)	(4)
Change in valuation allowance	38
	%

The Company has taken a full valuation allowance against the deferred tax asset attributable to the NOL carryforwards of \$2.1 million at December 31, 2011, due to the uncertainty of realizing the future tax benefits.

#### 8. Employee benefit plan

The Company has established a retirement and savings plan for the benefit of employees who have at least one hour of service and have attained the age of 21 years. Under the provisions of the plan, participants may contribute up to 25 percent of their compensation up to the IRS prescribed limit. The Company has the option of matching a percentage of employee contributions. The Company did not make any matching contributions to the plan in 2011. As of December 31, 2011, the retirement and savings plan was terminated and all participants became 100% vested in their respective account balances.

## NOTES TO STATEMENT OF FINANCIAL CONDITION

#### 9. Net capital requirement

The Company is a member of FINRA and is subject to the SEC Uniform Net Capital Rule 15c3-1. This Rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 and that equity capital may not be withdrawn or dividends paid if the resulting net capital ratio would exceed 10 to 1. The Company is also subject to the Commodity Futures Trading Commission's minimum financial requirements which require that the Company maintain net capital, as defined for securities brokers and dealers, equal to or in excess of the greater of \$45,000 or the amount of net capital required by the SEC Rule 15c3-1. At December 31, 2011, the Company's net capital was approximately \$612,000 in excess of its minimum requirement of \$100,000. The Company's ratio of aggregate indebtedness to net capital was 0.18 to 1 as of December 31, 2011.

#### 10. Exemption from Rule 15c3-3

The Company is exempt from the SEC Rule 15c3-3 pursuant to the exemptive provision under sub-paragraph (k) (2) (ii) and, therefore, is not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers."

#### 11. Concentration of risk

#### Off-balance Sheet Risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to a clearing broker on a fully-disclosed basis. All of the customers' money balances and long and short security positions are carried on the books of the clearing broker. In accordance with the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing broker monitor collateral on the customers' accounts. In addition, the receivable from clearing broker is pursuant to the clearance agreement.

The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

In the normal course of business, the Company's customer activities involve the execution, settlement and financing of various customer securities transactions. These activities may expose the Company to off-balance sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

#### Credit Risk

The Company maintains its cash in financial institutions, which at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not subject to any significant credit risk on cash.

# NOTES TO STATEMENT OF FINANCIAL CONDITION

### 12. Commitments and contingencies

#### Legal Claims.

In the ordinary course of business, incidental to the Company's operations, the Company retains outside counsel to address claims with which the Company is involved. As of December 31, 2011, the Company was not aware of any legal proceedings, which management has determined to be material to its business operations.

On December 7, 2010, the Company filed a FINRA arbitration against Joseph Meuse, Rosewood Securities, LLC, BP Capital, LLC, and China Valves Technology, Inc. The FINRA filing was amended on January 18, 2011, before FINRA commenced serving the Respondents. The Company seeks to recover compensation it was entitled to receive for acting as placement agent under an agreement involving an offering of securities in a reverse merger into a publicly traded company, Respondent China Valves, which closed on May 18, 2009. The Agreement provided that the Company would receive 23,490 warrant shares of China Valves, but it only received 5,739 warrant shares. Thus, the Company has sued the Respondents to recover the additional 17,751 warrant shares that it should have received on May 18, 2009, their valued, lost profits, and lost opportunity costs caused by the failure to timely deliver the shares as required. The Respondents, in response to the Company's pre-filing demands for payment, each blamed the other for the claimed failures to timely deliver the missing warrant shares.

On April 7, 2011, the Company entered into a Settlement Agreement ("Agreement") with BP Capital, LLC, for which Joseph Meuse as managing member ("BP Capital") and Joseph Meuse ("Meuse") an individual. The Agreement provides that Meuse will make a payment to the Company in the amount of \$125,000, in full settlement with Meuse and BP Capital. The payment will be made by Meuse to the Company in five (5) installments, with the first payment of \$25,000 due on the date of the signing of the Agreement and four successive payments of \$25,000 due thirty (30) days following each prior payment until the full payment has been made. As of December 31, 2011, the Company has received a total of \$103,000 from Meuse under the terms of the Agreement. This amount is included in the statement of operations as other miscellaneous income.

#### 13. Subsequent events

Subsequent to December 31, 2011, the Company opened an office in Chicago, Illinois, to capitalize on investor interest in futures trading, which resulted in the Company entering into several new agreements: (1) a lease agreement for office space and (2) clearing agreements with clearing organizations.

## SUPPLEMENTARY INFORMATION
