**BULGER CAPITAL, LLC AND SUBSIDIARY
CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010**

To the Members
Bulger Capital, LLC and Subsidiary
Boston, Massachusetts

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying consolidated statements of financial condition of Bulger Capital, LLC and Subsidiary (collectively referred to as the "LLC") as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in members' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the LLC's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The LLC is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the LLC's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Bulger Capital, LLC and Subsidiary as of December 31, 2011 and 2010, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The supplemental schedule of computation of net capital under Rule 15c3-1 and other information under Rule 15c3-3 of the Securities and Exchange Commission is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Supplemental Disclosure of Non-Cash Investing Activities:

During the year ended December 31, 2011, the LLC disposed of property and equipment with an original cost of \$96,444 and accumulated depreciation of \$85,392, resulting in a loss on disposal of \$11,052.

During the year ended December 31, 2010, in exchange for services, the LLC received marketable equity securities with a fair value of \$97,791. Subsequent to receiving the equity securities, the LLC transferred a portion of the marketable equity securities, with a then fair value of \$14,442, to a former employee, which has been included in compensation expense in the accompanying consolidated statements of operations.

1. Organization and Significant Accounting Policies:

Principles of Consolidation: The accompanying consolidated financial statements include the accounts of Bulger Capital, LLC (the "Parent") and its wholly owned subsidiary, Bulger Capital Partners, LLC ("BCPLL") (collectively referred to as the "LLC"). All significant inter-company balances and transactions have been eliminated in consolidation.

Reporting Entity: The Parent, which was formed on December 6, 2007 as a Massachusetts limited liability company, is primarily engaged in investment advisory and capital raising activities, and is registered under the Securities Exchange Act of 1934 as a broker/dealer. BCPLL was formed on December 6, 2007 as a Massachusetts limited liability company with a primary business purpose to hold certain investments.

Revenue Recognition: The LLC recognizes transaction fees at the time the transaction is completed and the income is readily determinable. Initial nonrefundable retainer fees are recognized over the term of the contract.

Deferred Revenue: Fees billed and collected in advance of the aforementioned revenue recognition criteria are recorded as deferred revenue until earned.

Fair Value: Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. In order to measure fair value, the LLC uses a fair value hierarchy for valuation inputs which gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The fair value hierarchy is as follows:

Level 1 - Inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that management has the ability to access.

Level 2 - Inputs utilize data points that are observable such as quoted prices, interest rates and yield curves.

Level 3 - Inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Cash: The LLC maintains cash in bank deposit accounts which, at times, may exceed the federally insured limits.

Commissions and Accounts Receivable and Concentration of Credit Risk: Financial instruments that potentially subject the LLC to concentration of credit risk consist primarily of commissions and accounts receivable. Commissions and accounts receivable are stated at the amount management expects to collect from outstanding balances. The LLC performs ongoing credit evaluations of its customers and generally requires no collateral to secure commissions and accounts receivable. The LLC maintains an allowance for potentially uncollectible commissions and accounts receivable based upon its assessment of the collectability of commissions and accounts receivable, which considers historical write-off experience and any specific risks identified in customer collection matters.

Investments in Marketable Securities: Investments in certain debt and equity securities are required to be classified based on the LLC's intent and ability to hold such securities. The classifications of the securities as "trading," "available-for-sale" or "held-to-maturity" are determined at the time the investments are purchased and are reassessed during the period in which the securities are held. Dividend and interest income are accounted for on the accrual basis.

Property and Equipment: Property and equipment are recorded at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets as follows:

Leasehold Improvements	Life of Lease
Computers	5 Years
Furniture and Fixtures	5 Years

Income Taxes: No provision for federal or state income taxes is presented in these consolidated financial statements, as Bulger Capital, LLC and BCPLL are limited liability companies and, accordingly, the LLC's taxable income is allocated to its members for income tax reporting purposes. However, in certain circumstances, the LLC (or another legal entity which is consolidated in the LLC's financial statements) may be required to pay income taxes to a state or foreign country.

1. Organization and Significant Accounting Policies (Continued):

The LLC assesses the recording of uncertain tax positions by evaluating the minimum recognition threshold and measurement requirements a tax position must meet before being recognized as a benefit in the consolidated financial statements. The LLC's policy is to recognize interest and penalties accrued on any uncertain tax positions as a component of income tax expense, if any, in its consolidated statements of operations.

The LLC has not recognized any liabilities for uncertain tax positions or unrecognized benefits as of December 31, 2011 and 2010. The LLC does not expect any material change in uncertain tax benefits within the next twelve months. The LLC is open to examination by the applicable taxing authorities for the tax years ended December 31, 2011, 2010, 2009, and 2008.

Uses of Estimates: Management has used estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities in its preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Actual results experienced by the LLC may differ from those estimates.

Subsequent Events: Management has evaluated subsequent events spanning the period from December 31, 2011 through February 28, 2011, the latter representing the issuance date of these consolidated financial statements.

2. Due from Related Parties:

Due from related parties represents unsecured, noninterest bearing cash advances to Bulger Capital Partners GP L.P. ("BCPGPLP"), Bulger Capital Partners L.P. ("BCPLP") and Bulger Capital Partners SC611, L.P. ("BCPSC611"). Such entities are affiliated with the LLC through certain common ownership. As of December 31, 2011 and 2010, amounts due from these related parties amounted to \$44,181 and \$3,213, respectively.

3. Investments in Marketable Securities:

As of December 31, 2010, the LLC maintains certain investments in marketable equity securities, registered with the Securities and Exchange Commission, which are classified as available for sale. As of December 31, 2010, the net original cost of these investments amounted to \$83,350, and the fair value of these investments amounted to \$231,388. During the year ended December 31, 2010, unrealized gains on marketable securities in the amount of \$148,038 are included in other comprehensive income in the accompanying consolidated statements of changes in members' equity.

Assets measured at fair value on a recurring basis at December 31, 2010 include investments in marketable equity securities classified as available-for-sale. Fair value measurements are based on quoted market prices in active markets, which are considered to be Level 1 inputs in the fair value hierarchy.

During the year ended December 31, 2011, the LLC sold its investments in marketable equity securities in exchange for proceeds in the amount of \$235,389 net of broker commissions, resulting in a realized gain of \$152,039. This amount is included in the accompanying consolidated statement of operations.

**Independent Auditors' Report on Internal Control Structure Required by
SEC Rule 17a - 5**

In planning and performing our audit of the consolidated financial statements and supplemental schedule of Bulger Capital, LLC and Subsidiary as of December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the LLC's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the LLC's internal control. Accordingly, we do not express an opinion on the effectiveness of the LLC's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the LLC including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the LLC does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the LLC in any of the following:

1. Making quarterly securities examinations, counts, verification, and comparisons, and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the LLC is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the LLC has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness; yet important enough to merit attention by those responsible for oversight of the LLC's financial reporting.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the LLC's annual consolidated financial statements will not be prevented or detected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the LLC's practices and procedures were adequate at December 31, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the members, the SEC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
