Report of Independent Certified Public Accountants

Board of Directors and Shareholder 1st Discount Brokerage, Inc.

We have audited the accompanying statement of financial condition of 1st Discount Brokerage, Inc., a wholly-owned subsidiary of 1 DB Financial, Inc., as of December 31, 2011, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of 1st Discount Brokerage, Inc., a wholly-owned subsidiary of 1DB Financial, Inc., as of December 31, 2011, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplementary information (required by Rule 17a-5 under the Securities and Exchange Act of 1934) contained in the schedules presented on pages 13 - 15 is presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Company paid interest costs of \$8,191 during the year ended December 31, 2011.

1. ORGANIZATION

1st Discount Brokerage, Inc. (the "Company"), (a wholly-owned subsidiary of 1DB Financial, Inc.) was incorporated on July 14, 1995 in the state of Florida. The Company is a registered broker-dealer with the Securities and Exchange Commission and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Company became a wholly-owned subsidiary of 1 DB Financial, Inc. (the "Parent"), as of February 25, 1999.

The Company's main office is in Wellington, Florida and the Company operates independent branch offices throughout the United States. The Company's sources of revenue are derived from unsolicited discount brokerage transactions, institutional trading and fees as a registered investment advisor. The Company is an introducing broker-dealer and clears its trades through Penson Financial Services, Inc. (the "Clearing Broker").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash equivalents - The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents for the purposes of the statement of cash flows.

Cash deposits with clearing brokers - Cash deposits with clearing broker consist of funds on deposit with the Clearing Broker pursuant to the Company's clearing agreement. The agreement requires the Company to maintain a minimum of \$150,000 as a clearing deposit based upon the level of securities inventory, the volume and size of transactions, and the type of business being conducted. At December 31, 2011, the Company had \$150,470 in the clearing deposit account, the difference representing decreased reserve requirements not withdrawn and earnings on the money on deposit. As long as the Company continues to use the clearing and execution services of the Clearing Broker, the Company will be required to maintain the cash on deposit.

Due from clearing broker and commissions receivable - Due from clearing broker and commissions receivable represents monies due the Company from the Clearing Broker through securities generated transactions. An allowance for doubtful accounts is not recorded since the Clearing Broker adjusts accounts monthly to actual collections.

Furniture and equipment - Furniture and equipment are recorded at cost. Repair and maintenance costs are charged to operations as incurred. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any gains or losses are included in operations. Depreciation of furniture and equipment is provided utilizing the straight-line method over the estimated useful lives of the related assets, which range from four to seven years.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Securities transactions - Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Marketable securities are valued at market.

Fees and other charges - Fees and other charges are recorded when the money is received.

Advertising costs -Advertising costs are expensed as incurred. Advertising costs for the year ended December 31, 2011, were \$9,064.

Income taxes - The Company's operations are reported as part of the consolidated income tax return of its Parent. The income tax expense is based on an allocation of the consolidated tax liabilities and benefits to the individual companies included in the group, as if, each company were filing on an individual basis. Any monies due or payable are recorded in the Parent's intercompany account.

Fair value of financial instruments - All of the Company's financial instruments are carried at market value or at amounts, which, because of their short-term nature, approximate current fair value. See Note 4 for further discussion.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. RELATED PARTY TRANSACTIONS

Parent company transactions - The Company shares offices, administrative and occupancy expenses with its Parent. The Company entered into a management agreement with the Parent on July 12, 2010, which stipulates that the Company will pay all of its own expenses and the Parent will not be responsible for any of the Company expenses, but commencing August 1, 2010, the Company will pay its Parent \$3,000 per month as a management fee. The agreement may be canceled or modified with the approval of each party upon ten (10) days notice. Prior to August 1, 2010, the Company had been paying \$5,000 per month under a prior amended agreement. For the twelve months ended December 31, 2011, the Company paid management fees of \$36,000.

4. FAIR VALUE MEASUREMENTS

The Company has certain investments reported in the accompanying statement of financial condition. FASB ASC 820-10-50-1 through 50-3 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Financial assets and liabilities valued using level 1 inputs are based on unadjusted quoted market prices within active markets. Financial assets and liabilities valued using level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active or inactive markets. Financial assets and liabilities using level 3 inputs were primarily valued using management's assumptions about the assumptions market participants would utilize in pricing the asset or liability.

The following schedule details the level of the Company's financial instruments measured on a recurring basis:

	Fair Value I	Measurement at R Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Securities owned, not yet sold	<u>\$ 38,500</u>	\$ 38,500	<u>\$</u>	<u>\$</u>
Liabilities: Securities sold, not yet purchased	<u>\$ -0-</u>	<u>\$ -0-</u>	<u>\$</u>	<u>\$</u>

5. SOFTWARE AND INTANGIBLE ASSET

Property and equipment consisted of the following at December 31, 2011:

Equipment, furniture and software	\$	21,215
Leasehold improvements		40,200
Internet Set-Up and Other		42,813
Less: Accumulated depreciation	***********	(47,871)
	ø	56 257

56,357

Depreciation expense was \$12,490 for the year ended December 31, 2011.

6. INCOME TAX EXPENSE

The income tax expense is estimated at approximately 45%, which represents a combined rate for federal and state obligations. Several states require a minimum tax. The tax expense and benefit of the Company is treated as if the Company remitted its liability to the Parent, and the intercompany accounts have been adjusted and recorded accordingly.

7. COMMITMENTS AND CONTINGENCIES

On January 5, 2010, the Company entered into a lease for its administrative offices effective approximately April 5, 2010. The lease was for a term of five (5) years with an option to renew for five (5) years and the space totals 1,440 square feet. Rent was \$28,800 per year plus operating expenses. The base rent increases 3% during the second year and each year thereafter. On November 30, 2009, the Company entered into another lease for its operations office located in a different location than the administrative office. The lease terminates on March 31, 2014, but contains an option to renew for two (2) years and the space totals 1,598 square feet. Rent per annum commenced at approximately \$35,250, plus common area expenses. Base rent escalates 3% per annum and common area expense increases cannot exceed 5% per annum. Rent and common area expense payments commenced on April 1, 2010.

Rent expense, including storage expense, for the year ended December 31, 2011 was \$101,384. Minimum basic rent payments inclusive of sales tax, excluding operating/common area maintenance, for the next three years are as follows:

2012	\$	71,427
2013		73,570
2014 and 2015		52,823
	<u>\$</u>	197,820

The Company from time to time may be a defendant in lawsuits or arbitration claims filed by customers in the normal course of business. The Company intends to defend the claims and management is unable to estimate the amount of loss, if any, that may arise from the claims, but does not believe the claims will have a material effect on the Company.

During 2011, the Company settled two claims for \$64,890; one of these claims for \$60,690 was accrued in 2009. In 2009, the Company also accrued \$50,000 for an SEC Offer of Settlement. The Company was ordered to pay \$40,000 in civil penalties per the SEC Final Order dated January 23, 2012.

The Company maintains cash balances at two large national banks. One account is maintained in money market funds that are not insured. Accounts not invested in money market funds at each bank

7. COMMITMENTS AND CONTINGENCIES (continued)

are insured by the Federal Deposit Insurance Corporation up to \$250,000, but the balances may exceed that amount at any time, however, management does not believe the money to be at risk.

The Company maintains accounts at its Clearing Broker. The accounts contain cash and securities. Balances are insured up to \$500,000 (with a limit of \$250,000 for cash) by the Securities Investor Protection Corporation, but the balances may exceed these amounts at any given time, and certain funds may be invested in money market accounts that are not insured but management believes the money to not be at risk.

8. FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

Customer transactions are cleared through the Clearing Broker on a fully disclosed basis. In the event that customers default in payment of funds or delivery of securities, the Clearing Broker may charge the Company for any loss incurred in satisfying customer obligations. Additional credit risk occurs if the Clearing Brokers or affiliates do not fulfill their obligations. The Company regularly monitors the activity in its customer accounts for compliance with margin requirements.

9. NET CAPITAL REQUIREMENTS

The Company's minimum net capital requirement under Rule 15c3-1 of the Securities and Exchange Commission is the greater of 6 2/3% of aggregate indebtedness (\$34,587 at December 31, 2011) or \$100,000. The Company operates pursuant to the (K)(2)(ii) exemption under SEC Rule 15c3-3 and does not hold customer funds or securities. The Company is, therefore, exempt from the reserve formula calculations and possession or control computations. At December 31, 2011, the net capital, as computed, was \$1,209,913. Consequently, the Company had excess net capital of \$1,109,913. At December 31, 2011, the percentage of aggregate indebtedness to net capital was approximately 42.9% versus an allowable percentage of 1500%.

10. RECONCILIATION OF NET CAPITAL

There were no differences in the net capital computation shown on the Company's December 31, 2011 FOCUS IIA, and the computation shown on the attached Computation and Reconciliation of Net Capital pursuant to SEC Rule 15c3-1.

11. SUBSEQUENT EVENTS

In preparing these financial statements, the Management of the Company has evaluated events and transactions for potential recognition or disclosure through February 16, 2012, the date the financial statements were available to be issued.

1ST DISCOUNT BROKERAGE, INC.

REPORT ON INTERNAL CONTROL STRUCTURE REQUIRED BY SEC RULE 17a-5 FOR A BROKER-DEALER CLAIMING EXEMPTION FROM SEC RULE 15c3-3

Board of Directors and Management 1st Discount Brokerage, Inc.

In planning and performing our audit of the financial statements of 1st Discount Brokerage, Inc., as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives state in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling the responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Page 2

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
