NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Burt Martin Arnold Securities, Inc. (the "Company"), is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company, which was incorporated in the state of California on August 26, 1999, is based in Rolling Hills Estates, California.

The Company's primary source of revenue is providing brokerage services to customers. The Company also generates revenue through securities trading.

The Company is considered an introducing broker whereby customer orders are accepted but are cleared through a clearing organization, which is unaffiliated with the Company. The agreement with the clearing organization is described in Note 2. The Company is a fully-disclosed broker-dealer and, as such, is exempt from SEC Rule 15c3-3 under exemption provision paragraph (K)(2)(ii).

Revenue recognition

Brokerage commission and market making, and principal transactions and related clearing expenses are recorded on a trade-date basis as securities transactions occur. Customers' securities and commodities transactions are reported on a settlement date basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and cash equivalents

For the purpose of the statements of cash flows, all highly liquid investments with the maturity of three months or less are considered to be cash equivalents. From time to time, the Company's cash account balances may exceed federally insured limits. The Company has not experienced any losses to date.

BURT MARTIN ARNOLD SECURITIES, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and equipment

Property and equipment has been recorded at cost. Depreciation is computed using the straight-line method over the asset's estimated useful life of 5 to 15 years. Total depreciation and amortization expense for the year ended December 31, 2011, was \$12,811.

Securities owned and securities sold, not yet purchased

Securities owned, which are readily marketable, and securities sold, not yet purchased are recorded at estimated fair value. Securities sold, not yet purchased represent obligations of the Company to deliver specified securities at the contracted prices, thereby creating a liability to purchase the securities at prevailing market prices. Securities owned which are not readily marketable, are valued at estimated fair value as determined by management. The resulting difference between cost and estimated fair value is included in income.

Income taxes

Income tax expense includes federal and state taxes currently payable and deferred taxes arising from temporary differences between income for financial reporting and income tax purposes.

The Company accounts for income taxes under FASB ASC 740-10, "Accounting for Income Taxes", which requires the use of the liability method. FASB ASC 740-10 provides that deferred tax assets and liabilities are recorded based on the differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, referred to as temporary differences. Deferred tax assets and liabilities at the end of each period are determined using the currently enacted tax rates applied to taxable income in the periods in which the deferred tax assets and liabilities are expected to be settled or realized.

Fair value of financial instruments

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2011. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash, receivable from clearing organization, securities and accounts payable and accrued expenses. Fair values were assumed to approximate carrying values for cash, receivable, and accounts payable and accrued expenses because they are short term in nature.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Segment information

The Company follows FASB ASC 280-10, "Disclosure about Segments of an Enterprise and Related Information." Certain information is disclosed, per SFAS No. 131, based on the way management organizes financial information for making operating decisions and assessing performance. The Company currently operates in one business segment and will evaluate additional segment disclosure requirements as it expands operations.

NOTE 2 – RECEIVABLE FROM AND PAYABLE TO CLEARING ORGANIZATION

Through 2011, the Company had a fully disclosed relationship agreement with Penson Financial Services, Inc. ("Penson"). The agreement states that the clearing agent clears all securities transactions for the Company's customers and also performs certain "back office" functions for the Company. These functions include, among other things, processing customer orders as they are transmitted to the clearing agent, preparing and mailing transaction confirmations and customer statements directly to the customers and performing all cashiering functions for customer accounts.

The Company receives commission and fee income from the clearing agent based on the number and size of transactions. The Company pays all costs associated with transactions executed through the clearing agent plus a fee per transaction based on the amount of business transacted during the month. The agreement requires, and the Company maintains a cash deposit in the amount of \$100,000 with Penson which is included in receivable from clearing organization at December 31, 2011.

The Company currently transacts all of its brokerage business through Penson. Should Penson not fulfill its obligations under the agreement, the Company may be exposed to risk. The risk of default depends on Penson's ability to continue to perform under the agreement as well as the creditworthiness of Penson. It is the Company's policy to review, as necessary, the credit standing and financial viability of Penson.

Amounts receivable from and payable to the clearing organization at December 31, 2011, consist of the following:

	<u>Receivable</u>	<u>Payable</u>
Receivable from clearing organization	\$ 100,000	\$ -
Payable to clearing organization	-	141,590
Fees and commissions receivable	<u>1,185,989</u>	<u>-</u>
	<u>\$ 1,285,989</u>	<u>\$ 141,590</u>

Securities not readily marketable include investment securities (a) for which there is no market on a securities exchange or no independent publicly quoted market; (b) that cannot be publicly offered or sold unless a registration has been effected under the Securities Act of 1933; or (c) that cannot be offered or sold because of other arrangements, restrictions, or conditions applicable to the securities or to the Company.

NOTE 4 – PROPERTY AND EQUIPMENT

The following is a summary of property and equipment as of December 31, 2011:

Leasehold improvements	\$	70,995
Computer equipment		67,121
Furniture and fixtures		50,062

Less accumulated depreciation		(112,791)
Net property and equipment	\$	93,277

NOTE 5 – NET CAPITAL REQUIREMENTS

At December 31, 2011, the Company had net capital of \$882,707, which was \$568,707 in excess of its required net capital of \$314,000. The Company's ratio of aggregate indebtedness to the net capital was 165%.

BURT MARTIN ARNOLD SECURITIES, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 6 – COMMITMENTS

The Company leases office space from an unrelated party under a lease agreement that expires on January 1, 2015. The future minimum lease payments are \$46,860 per year until the year ending December 31, 2014. In addition, the Company leases office space on a month-to-month basis for \$1,000 per month. Total rent expense for the year ended December 31, 2011, was \$60,326.

NOTE 7 – CONCENTRATIONS OF CREDIT RISK

In the normal course of business the Company's customer activities involve the execution and settlement of various customer securities that settle in accordance with industry practices, which for most securities, is currently three business days after trade date. These activities may expose the Company to off-balance sheet credit and market risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company is required to purchase or sell the financial instrument underlying the contract at a loss. The risk of default depends on the creditworthiness of the customer or issuer of the financial instrument held as collateral.

From time to time, the Company's cash account balances may exceed federally insured limits. The Company has not experienced any losses from this, to date.

NOTE 8 – INCOME TAXES

Deferred income taxes may arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. Deferred taxes are classified as current or non-current, depending on the classification of assets and liabilities to which they relate. Deferred taxes arising from temporary differences that are not related to an asset or liability are classified as current or non-current depending on the periods in which the temporary differences are expected to reverse.

During 2009 the Company converted from cash to accrual basis for tax purposes. This conversion resulted in a net adjustment of \$272,559. This amount is to be paid through 2012. Included in the tax effect is a Federal tax rate of 34% and State tax rate of 8.84%. As of December 31, 2011, the Company's estimated income tax payable is \$274,536, of which \$245,345 is considered currently due and payable.

BURT MARTIN ARNOLD SECURITIES, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 9 – SUBORDINATED DEBT

On April 23, 2009, the Company obtained a subordinated, non-interest-bearing loan pursuant to a subordinated promissory note from the President. The loan is in the aggregate principal amount of \$100,000 payable on or before June 30, 2012. The subordinated loan was incurred and shall be used as part of the Company's capital and shall be subject to the risks of the business.

NOTE 10 – CONTINGENCIES

During the year, the Company was named as a defendant in a lawsuit. An answer has been filed; however, discovery has not commenced and the Company is unable to estimate any possible outcome at this time.

NOTE 11 – SUBSEQUENT EVENTS

Management of the Company has reviewed all subsequent transactions through the date the financial statements were available to be issued. It has been determined that there are no subsequent events which would require disclosure in the financial statements.

Stark Schenkein, LLP

BUSINESS ADVISORS & CPAs

To the Board of Directors of
Burt Martin Arnold Securities, Inc.

In planning and performing the audit of the financial statements and supplemental schedule of Burt Martin Arnold Securities, Inc. (the "Company"), for the year ended December 31, 2011 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting, including control activities for safeguarding securities, as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, and not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in the following: making periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions

are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicates a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2011, to meet the SEC's objectives.

This report is intended solely for the information and use of the members, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than those specified parties.
