INDEPENDENT AUDITOR'S REPORT

Board of Directors **LEONARD SECURITIES, INC.** Oklahoma City, Oklahoma

We have audited the accompanying statements of financial condition of **Leonard Securities**, **Inc.** (an S corporation) as of December 31, 2011 and 2010, and the related statements of income and comprehensive income, changes in stockholder's equity, cash flows and changes in liabilities subordinated to claims of general creditors for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Leonard Securities**, **Inc.** as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Leonard Securities, Inc. ("the Company") was organized in the state of Oklahoma on February 6, 1997, and is a registered broker and dealer in securities under the Securities and Exchange Act of 1934. The Company is primarily a retail and institutional brokerage firm.

Revenue Recognition

Revenues and expenses are accounted for on the accrual basis.

Property and Equipment

Property and equipment are recorded at cost. Depreciation of the property and equipment is computed by the straight-line method over the estimated useful lives of the assets, which range from five to ten years. Depreciation expense totaled \$19,291 and \$18,939 for years ended December 31, 2011 and 2010, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the Statements of Cash Flows, management considers all short-term investments with an original maturity of three months or less to be cash equivalents. As of December 31, 2011 and 2010, there are no cash equivalents.

Advertising

The Company follows the policy of charging advertising to expense as incurred.

Comprehensive Income

Statement of Financial Accounting Standards No. 130, Reporting Comprehensive Income, (SFAS 130), requires that total comprehensive income be reported in the financial statements. Total comprehensive income is presented on the Statements of Income and Comprehensive Income.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Income Taxes

The Company is taxed as a Subchapter S Corporation under the Internal Revenue Code and applicable state statues. Under an S-Corporation election, the income of the Corporation flows through to the stockholder to be taxed at the individual level rather than the corporate level. Therefore, no provision or liability for federal or state income taxes has been included in these financial statements.

Investments

All marketable securities are classified as "available for sale". Securities classified as "available for sale" are carried in the financial statements at fair value. Realized gains and losses, determined using the first-in first-out (FIFO) method, are included in earnings. Unrealized holding gains and losses are reported in other comprehensive income.

Accounts Receivable – Commissions

The Company considers accounts receivable – commissions to be fully collectible. Accordingly, no allowance for doubtful accounts is deemed necessary. If accounts become uncollectible, they will be charged to operations when that determination is made. Determination of uncollectibility is made by management based on knowledge of specific accounts. Past-due status is based on contractual terms. Past-due accounts are not charged interest.

Financial Instruments with Off-Balance Sheet Risk

In the normal course of business, the company's activities involve the execution and settlement of various securities transactions. These activities may expose the company to off-balance sheet credit and market risks in the event the customer or counter party is unable to fulfill its contractual obligation. Such risks may be increased by volatile trading markets.

NOTE 2: RELATED PARTY TRANSACTIONS

The company recognized reimbursement of overhead and shared office expense totaling \$61,191 and \$92,769 from affiliated companies for the years 2011 and 2010 respectively reflected on the Statement of Income and Comprehensive Income.

NOTE 3: RESTRICTED CASH DEPOSIT WTH CLEARING ORGANIZATION

Leonard Securities, Inc. used only one clearing house that required a \$50,000 cash deposit which may not be withdrawn for normal operating costs, but is restricted to cover any errors charged to Leonard Securities, Inc. not as a result of the clearing organization.

NOTE 4: PROPERTY AND EQUIPMENT

Following are the major classifications of property and equipment:

	2011	2010
Office Equipment Leasehold Improvements	\$ 82,153 	\$106,217
Accumulated Depreciation	\$100,103 <u>75,332</u>	\$124,167 <u>84,278</u>
	<u>\$ 24,771</u>	<u>\$ 39,889</u>

NOTE 5: DETERMINATION OF THE RESERVE REQUIREMENT

Exemption from SEC Rule 15c3-3, which requires computation of the reserve requirement is claimed based on Section (k)(2)(ii) under the Securities Exchange Act of 1934 as an introducing broker or dealer transacting security transactions on a fully disclosed basis. The company does not maintain physical custody of securities or customer accounts. Because of such exemption, the company is not required to prepare a "Computation of Determination of Reserve Requirements" and the schedule of "Information Relating to Possession or Control Requirements".

NOTE 6: INVESTMENTS

The table below provides detail of the investments:

	Decer	mber 31, 2011		
	Shares	Cost	Gross Unrealized Gains (Losses)	Estimated Market Value
NASDAQ Stock	400	\$3,300	<u>\$6,504</u>	\$9,804
		mber 31, 2010	Gross Unrealized Gains	Estimated Market
	Shares	Cost	(Losses)	Value
NASDAQ Stock	400	<u>\$3,300</u>	<u>\$6,192</u>	<u>\$9,492</u>

NOTE 6: INVESTMENTS - CONTINUED

In 2009, the Company adopted the provisions of SFAS No. 157, "Fair Value Measurements". Using the provisions within SFAS No. 157, the Company has characterized its investments in securities, based on the priority of inputs used to value the investments, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the investments fall within different levels of the hierarchy, the categorization is based on the lowest level of input that is significant to the fair value measurement of the investment.

Investments recorded in the Balance Sheets based on the inputs to valuation techniques are as follows:

Level 1 – These are investments where values are based on unadjusted quoted prices for identical assets in an active market that the Company has the ability to access. These investments are common stock.

Level 2 – These are investments where values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the investments.

Level 3 – These are investments where values are based on prices or valuation techniques that require inputs that are unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about assumptions market participants would use in pricing the investments.

The following table presents the Company's hierarchy for the investments measured at fair value on a recurring basis as of December 31, 2011:

	Quoted Market Prices In Active Markets	Other Observable Inputs (Level 2)	Unobservable Inputs
Available-for-sale	(Level 1)		(Level 3
securities	40.004	**	**
Exchange traded stock	\$9,804	\$0	\$0

NOTE 7: COMMITMENTS

The Company is obligated under operating leases with remaining non-cancellable terms in terms in excess of one year. Additionally, the company leased an automobile for a period of 36 months commencing March, 2010 for a monthly amount of \$408. Combined rent and lease payments charged against operations for the year 2011, were \$50,929.

Aggregate rentals for office space and autos as of December 31, 2011 are as follows:

2012	49,785
2013	44,896

NOTE 8: ADDITIONAL CASH FLOW INFORMATION

The net increase in the unrealized holding gain (loss) on available for sale securities was \$312 and \$1,564 respectively, for the years ended December 31, 2011 and 2010.

NOTE 9: DISCLOSURES ABOUT THE FAIR VALUE OF FINANCIAL INSTRUMENTS

Disclosure of the estimated fair value of financial instruments is required under the provisions of Statement of Financial Accounting Standards (SFAS) No. 107, "Disclosures About Fair Value of Financial Instruments". Management believes that the carrying amounts of the Company's financial instruments at December 31, 2011, which include cash and cash equivalents, commission's receivable, certificate of deposit and payables, are reasonable estimates of their fair value.

NOTE 10: NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of the December 31, 2011, the company had net capital of \$149,589, which was \$98,589 in excess of its required minimum net capital of \$50,000. The Company's aggregate indebtedness to net capital ratio was .5288 to 1, as of December 31, 2011. There are no differences between net capital as computed in Leonard Securities, Inc.'s Part IIA of Form X-17A-5 filed for the period ended December 31, 2011, and the net capital as computed on Page 14.

NOTE 11: SUBSEQUENT EVENTS

Subsequent events through February 13, 2012 are reflected in the accompanying financial statements and the related notes.
