MARCH 31, 2012

INDEPENDENT AUDITORS' REPORT

Board of Directors
Saxony Securities, Inc.

We have audited the accompanying statement of financial condition of Saxony Securities, Inc. as of March 31, 2012 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Saxony Securities, Inc. as of March 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED MARCH 31, 2012

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - Saxony Securities, Inc. (the "Company") was incorporated in the state of Missouri on July 13, 2001. The Company is a wholly-owned subsidiary of Saxony Holdings, Inc. The Company is registered with the Securities and Exchange Commission and the Commodities Futures Trading Commission and is a member of the National Futures Association and the Financial Industry Regulatory Authority (FINRA). The Company's principal business activity is the sale of securities. Operations began in February 2002.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis.

Concentrations of Credit Risk - The Company is engaged in various trading and brokerage activities in which the counterparties primarily include broker/dealers, banks, other financial institutions and the Company's own customers. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

In addition, the Company's cash is on deposit at several financial institutions and the balances at times may exceed the federally insured limit. The Company believes it is not exposed to any significant credit risk to cash.

Cash Equivalents - For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business.

Notes Receivable - The Company reviews its notes receivable for collectability on a regular basis. The allowance for doubtful accounts reflects management's best estimate of probable losses determined principally on the basis of historical experience.

Furniture, equipment and software - Depreciation is provided using the straight-line method over three to ten year periods.

SAXONY SECURITIES, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED MARCH 31, 2012

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES - *(Continued)*

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The Company evaluated all significant events or transactions that occurred through the audit report date, the date these financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, creates a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

SAXONY SECURITIES, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED MARCH 31, 2012

NOTE 2 - FAIR VALUE MEASUREMENT - *(Continued)*

- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. *(The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)*

Level 1 inputs have been applied to value cash equivalents on the statement of financial condition. Notes receivable have been valued at their net realizable value. No valuation techniques have been applied to all other assets and liabilities included in the statement of financial condition. Due to the nature of these items, all have been recorded at their historical values.

NOTE 3 - NET CAPITAL REQUIREMENTS

As a registered broker/dealer and member of the Financial Industry Regulatory Authority and National Futures Association, the Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At March 31, 2012 the Company's net capital and required net capital were \$487,527 and \$112,838 respectively. The ratio of aggregate indebtedness to net capital was 347%.

NOTE 4 - OFF-BALANCE-SHEET RISK AND CLEARING AGREEMENT

The Company's customers may enter into various transactions involving derivatives and other off-balance-sheet financial instruments. These financial instruments include options, mortgage-backed to-be-announced securities (TBA's) and securities purchased and sold on a when-issued basis. These derivative financial instruments are used to meet the needs of customers and are subject to varying degrees of market and credit risk. In addition, the Company's customers may sell securities that they do not currently own and will, therefore, be obligated to purchase such securities at a future date.

SAXONY SECURITIES, INC.

NOTES TO STATEMENT OF FINANCIAL CONDITION

YEAR ENDED MARCH 31, 2012

NOTE 4 - OFF-BALANCE-SHEET RISK AND CLEARING AGREEMENT - *(Continued)*

Since the Company enters into the aforementioned transactions only for the benefit of its customers, the Company does not bear any of the credit or market risk of those customers, with the exception of the risk to the Company should its customers fail to honor their obligations related to these derivative and other off-balance sheet financial instruments, as mentioned below.

Clearing Agreement - To facilitate securities transactions, including the aforementioned transactions, on behalf of its customers, the Company has entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions are performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

The Company is required to maintain a minimum deposit of \$100,000 with the Clearing Broker/dealer to assure the Company's performance under the agreement. This amount is included in the "Receivable from broker/dealers" on the statement of financial condition. The agreement may be terminated by either party with 90 days prior notification.

Pursuant to terms of the lease amendment dated June 3, 2009, the Company has two renewal options, each for an additional 3 year period. These options provide for a 3% increase over the prior period's base rent and other provisions. The total expenditure for office space for the year ended March 31, 2012 was \$60,336. This amount includes additional charges pursuant to the lease agreement.

Other Operating Leases - The Company has entered several noncancellable operating leases for quotation, communications and other services. These agreements expire at various dates through March 2017. In addition, most have automatic renewal periods that range for additional one or two year periods. Total expenses relating to these agreements for the year ended March 31, 2012 were \$196,263.

Total	<u>\$ 194,268</u>

NOTE 6 - INCOME TAXES

The Company reports its income for federal and state income tax purposes on a consolidated basis with the income of its parent company, Saxony Holdings, Inc. (Parent). In addition, the Parent uses the calendar year for income tax filings. Since both entities are S-Corporations, the shareholders of the Parent are responsible for any income taxes.

In October 2008, the Securities and Exchange Commission (SEC) conducted an examination of the Company. During the year ended March 31, 2011, the SEC declared one issue of that examination to be an "open matter under inquiry" and requested additional information and documentation. Since the Company's submission of the requested information to the SEC during May through July of 2010, the SEC has not responded.

Although the SEC has not made any determination in the aforementioned matter, they may, at some future date, seek fines or other consent orders against the Company. If such a determination is made, the Company plans to vigorously defend itself. At this time, the Company's management and its legal counsel are unable to predict a favorable or unfavorable outcome regarding this matter.
