Note 1: Operations and Structure

Ashmore Investment Management (US) Corporation (the "Company") is a corporation organized under the laws of the State of Delaware in October 2008. The Company provides investment marketing, management and advisory services primarily to the US markets. The Company is a wholly owned subsidiary of Ashmore Investments (UK) Limited (the "Parent"), which is a private company incorporated under the laws of the United Kingdom. The Company has registered with the Securities and Exchange Commission ("SEC") as a broker-dealer in securities under the Securities Exchange Act of 1934, and operates under a membership agreement with the Financial Industry Regulatory Authority ("FINRA"). The Company is required to maintain a minimum net capital pursuant to SEC Rule 15c3-1.

Note 2: Summary of Significant Accounting Policies

**Basis of Presentation**

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The most significant estimate relates to employee bonus accrual. This estimate may be adjusted as more current information becomes available, and any adjustment could be significant.

**Cash**

Cash includes deposits in checking and high yield savings accounts. The Company maintains cash in bank deposit accounts which, at times, exceed federally insured limits. At June 30, 2012, the Company had an uninsured cash balance of approximately \$104,700 with one financial institution.

**Other Fees Receivable**

Other fees receivable represent amounts due from the sale of mutual fund investments. Other fees receivable are reported at their outstanding unpaid principal balances. Accounts are considered past due once the unpaid balance is 90 days or more outstanding. When the account balance is past due and attempts have been made to collect the receivable through legal or other means, the amount will be written-off.

ASHMORE INVESTMENT MANAGEMENT (US) CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

Note 2: Summary of Significant Accounting Policies (continued)

Property and Equipment

Property and equipment are stated at cost at the date of acquisition. Depreciation of property and equipment is provided on the straight-line method over the estimated useful lives of the related assets, which range from 3 to 5 years.

Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred. Upon retirement or sale, the cost of the asset and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is credited or charged to income.

Goodwill

The Company adopted the provisions of FASB ASC 350, "*Intangibles – Goodwill and Other*". Goodwill is recognized when the purchase price of a business exceeds the fair value of its tangible and identifiable intangible net assets. The Company recognized goodwill in connection with a business acquisition of two affiliated entities in November 2008. The purchase price exceeded the net assets acquired by \$5,817,164. The Company evaluates the carrying value of goodwill annually at the fiscal year. The carrying amount is compared to the fair value, which is estimated based on the present value of estimated future cash flows. As of June 30, 2012, the Company has not recognized impairment on the carrying value of the goodwill.

Revenue Recognition

The Company earns advisory fees and marketing revenue. Advisory fees are earned from advisory services rendered to an independent investment advisor. Marketing revenue is earned from providing marketing and investor support services to the affiliates. Revenue is recognized as marketing and advisory services are rendered.

The Company does not carry accounts for customers or perform custodial functions related to securities.

Income Taxes

The Company adopted the provisions of FASB ASC 740, "*Accounting for Income Taxes*". The provision addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement.

ASHMORE INVESTMENT MANAGEMENT (US) CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2012

Note 2: Summary of Significant Accounting Policies (continued)

Income Taxes (continued)

The provisions of FASB ASC 740, “*Accounting for Income Taxes*”, require the recognition of deferred tax assets and liabilities for the expected future consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and the tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates in effect for the year in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. The Company has recorded such a valuation allowance. (See Note 6).

Note 3: Property and Equipment

Property and equipment at June 30, 2012, consists of the following:

Computer equipment	\$ 74,066
Furniture and fixtures	37,696
Leasehold improvements	<u>39,836</u>
	151,598
Less accumulated depreciation	<u>(35,659)</u>
Property and equipment, net	<u>\$ 115,939</u>

Depreciation expense related to property and equipment for the year ended June 30, 2012 was \$25,675.

Note 4: Stockholder’s Equity

The Company is authorized to issue 10,000 shares of common stock at a par value of \$0.01. As of June 30, 2012 the Company has issued 6,022 shares of common stock, all of which is held by the Parent.

ASHMORE INVESTMENT MANAGEMENT (US) CORPORATION  
 NOTES TO FINANCIAL STATEMENTS  
 JUNE 30, 2012

Note 5: Related Party Transactions

Effective July 1, 2011, the Company entered into a marketing agreement with an affiliate to provide marketing and investor support services to Ashmore Investment Management Limited (“AIML”) in respect to the various funds and accounts for whom AIML acts as the investment manager or the investment adviser. For the year ended June 30, 2012, the Company has earned \$6,437,783 from this agreement, which is included in revenue in the statement of operations. This one agreement accounted for 92% of total revenue for the year ended June 30, 2012.

Effective September 2010, the Company entered into a marketing agreement with an affiliate to provide marketing and promotion services to Ashmore Management Company Brazil Limited (“AMCBL”) in respect to various funds either domiciled in Brazil or which have as their primary investment objective to invest in Brazil. For the year ended June 30, 2012, the Company has earned \$333,640 from this agreement, which is included in revenue in the statement of operations.

The Company’s office space is leased by an affiliate on behalf of the Company. An affiliate pays rent and any other applicable charges directly to the lease owner and is responsible for any rental liability in accordance with the term of the lease. The Company records rental expense and applies corresponding credit against the revenue receivable from the affiliate per the marketing agreement. For year ended June 30, 2012, the Company recognized \$180,712 of rent and related expenses.

Note 6: Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

The components of the Company’s deferred tax assets and liabilities as of June 30, 2012 are as follows:

	<u>Federal</u>	<u>State and Local</u>	<u>Total</u>
Current deferred tax assets (liabilities)			
Depreciation	\$ (1,280)	\$ (818)	\$ (2,098)

Total current deferred tax assets (liabilities)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Total non-current assets (liabilities)	<u>-</u>	<u>-</u>	<u>-</u>
Total deferred tax assets	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

The net change in the valuation allowance at June 30, 2012 is as follows:

	<u>Federal</u>	<u>State and Local</u>	<u>Total</u>
Valuation allowance – July 1, 2011	\$ 37,304	\$ 25,067	\$ 62,371
Increase in valuation allowance	<u>2,693</u>	<u>493</u>	<u>3,186</u>
Valuation allowance – June 30, 2012	<u>\$ 39,997</u>	<u>\$ 25,560</u>	<u>\$ 65,557</u>

The deferred income tax benefit of the Company is based on its cumulative net operating losses available to offset the future taxable income at current income tax rates.

As a result of the adoption of the provisions of FASB ASC 740, “*Accounting for Income Taxes*” the Company recognized no material adjustments to liabilities or stockholders’ equity. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the statement of operations. The adoption of these provisions did not have a material impact on the Company’s financial statements.

The Company had no unrecognized tax benefits and related interest and penalties expenses. Currently, the Company is not subject to examination by major tax jurisdictions. The Company is no longer subject to examination by tax authorities for the years prior to June 30, 2009.

Note 7: Exemption from Rule 15c3-3

Independent Auditors' Supplementary Report on Internal Control

To the Board of Directors and  
Stockholder of Ashmore Investment Management (US) Corporation  
New York, New York

In planning and performing our audit of the financial statements of Ashmore Investment Management (US) Corporation (the "Company") as of June 30, 2012 and the year then ended in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions of that the effectiveness of their design and operation may deteriorate.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

*A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at June 30, 2012 to meet the SEC's objectives.

This report is intended solely for the information and use of the management, the SEC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
