Access Investments, Inc.
Notes to Financial Statements
As of May 31, 2012

1. Organization and Nature of Business

Access Investments, Inc. was incorporated under the laws of Oklahoma on October 29, 1996. The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA).

2. Significant Accounting Policies

Basis of Presentation

The financial statements include only the accounts of the Company. The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including agency transactions and investment advisory services.

Securities Transactions

Customers' securities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management.

Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Income Taxes

The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years, unless clearly immaterial.

The Company's income tax returns for the years ended May 31, 2009, 2010, and 2011 for both Federal and State of Oklahoma remain open for examination.

Amortization of Intangible Assets

Amortization is provided on a straight-line basis using estimated useful lives of three to fifteen years.

Statement of Cash Flows

For the purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

See Independent Auditors' Report

Access Investments, Inc.
Notes to Financial Statements
As of May 31, 2012

3. Financial Instruments

Accounting Policies

Financial instruments, if any, used for trading purposes are carried at fair value or, if market prices are not readily available, estimated fair value.

Principal Transactions

The Company did not participate in principal transactions during the year ended May 31, 2012.

Fair Value of Financial Instruments

The financial instruments, if any, of the Company are reported in the statements of financial condition at market or fair values, or at carrying amounts that approximate fair values. The Company had no equity securities at May 31, 2012.

Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities in which counter parties primarily include broker-dealers, and other financial institutions. In the event that counter parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter party or issuer of the instrument. The Company's policy is to review, as necessary, the credit standing of each counter party.

4. Intangible assets

Intangible assets at May 31, 2012 consisted of the following:

The Company's operations are designed to break even, having no – or minimal – profit or loss each year. Therefore, deferred taxes are immaterial and not recognized. There are no permanent or temporary timing differences.

Diluted earnings per share equal basic earnings per share because the Company has no dilutive potential common shares.

7. Net Capital Requirements

M. THOMAS BUXTON, III, CPA, P.C.

To the Board of Directors of Access Investments, Inc.:

In planning and performing our audit of the financial statements and supplemental schedules of Access Investments, Inc. (the Company), for the year ended May 31, 2012, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission ("the SEC"), we have made a study of the practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (of aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- Making quarterly securities examinations, counts, verifications, and comparisons
- Recordation of differences required by rule 17a-13
- Complying with requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may

become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce, to a relatively low level, the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at May 31, 2012, to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.
