Report on the Financial Statements

We have audited the accompanying statement of financial condition of Themis Trading LLC (the "Company"), as of December 31, 2012 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether this financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of this financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of this financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of this financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Themis Trading LLC as of December 31, 2012, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THEMIS TRADING LLC
NOTES TO STATEMENT OF FINANCIAL CONDITION
FOR THE YEAR ENDED DECEMBER 31, 2012

1. ORGANIZATION AND NATURE OF BUSINESS

Themis Trading LLC (the "Company") was organized in the State of Delaware on February 21, 2002. The Company is a registered broker-dealer with the Securities and Exchange Commission ("SEC"), Financial Industry Regulatory Authority, Inc. ("FINRA"), NYSE Arca, Inc., BATS Y-Exchange, Inc., BATS Z-Exchange, Inc., EDGX Exchange, Inc., and The NASDAQ Stock Market LLC. In this capacity it executes agency transactions for its customers and conducts soft dollar transactions. The Company operates on a fully disclosed basis through its clearing broker, Pershing LLC ("Pershing").

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to market and counterparty risk through the use of a variety of financial position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker-dealer, clearing organization, customer and/or other counterparty with which it conducts business.

The Company introduces its customer transactions to Pershing, with whom it has a correspondent relationship for clearance in accordance with the terms of a clearance agreement. In connection therewith the Company has agreed to indemnify Pershing for losses that it may sustain related to the Company's customers.

The clearing and depository operations for the Company's customer transactions are performed by Pershing pursuant to the clearance agreement. At December 31, 2012 the receivable from clearing broker reflected on the statement of financial condition was substantially in cash.

2. SIGNIFICANT ACCOUNTING POLICIES

Security transactions and financing with Pershing are classified as operating activities on the statement of cash flows since this is the Company's principal business.

FOR THE YEAR ENDED DECEMBER 31, 2012

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Purchases and sales of securities are recorded on a trade date basis, as are commissions. Realized gains and losses on security transactions are based on the first-in, first-out, or the specific-identification method. Dividend income and dividends on securities sold short are recorded on the ex-dividend date.

The Company maintains its books and records on an accrual basis in accordance with accounting principles generally accepted in the United States of America which require management to make estimates and assumptions in determining the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

3. CASH IN BANK

Funds deposited with a single bank are insured up to \$250,000 in the aggregate by the Federal Deposit Insurance Corporation ("FDIC"). The Company considers all highly liquid instruments purchased with a maturity date of three months or less when purchased to be cash equivalents.

4. INCOME TAXES

The Company is recognized as an S-corporation by the Internal Revenue Service for tax purposes only. As an S-corporation, the Company is not subject to income taxes. The Company's income or loss is reportable by its shareholders on their individual tax returns.

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Partnership's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the year ended December 31, 2012 management has determined that there are no material uncertain income tax positions.

5. SOFT DOLLAR TRANSACTIONS

Soft dollar expenses of \$1,487,253 included in the statement of income primarily represent commissions paid to third parties for research services provided to the Company's customers based on pre-existing arrangements that are consistent with the guidelines set forth in Section 28(e) of the Securities Exchange Act of 1934.

At December 31, 2012 included in other liabilities is approximately \$130,000 related to these soft dollar arrangements that have been accumulated, but have not been used to pay for third party services and a deferred liability of \$6,943 for third party services paid in advance.

A deferred asset of approximately \$130,000 has been established due to the uncertainty of the usage of these commissions along with an offsetting deferred asset of \$6,943 for third party services paid in advance. The deferred asset is included in other assets on the statement of financial condition.

6. PROFIT SHARING PLAN

The Company has a profit-sharing plan covering substantially all qualified employees. Contributions to be made to the plan are determined annually by the Company's members. Contributions accrued on the statement of financial condition for the plan for the year ended December 31, 2012 are \$80,000.

7. BUY / SELL AGREEMENT

Under the terms of an agreement between the Company's members and upon the death of a member, the surviving members are required to purchase the deceased member's interest in the Company. The purchase price of a membership interest is based on the value of the Company and the value of the related insurance policy, as defined in the agreement. Each of the Company's members maintains insurance policies on the lives of the other members to fund these obligations.
