Report of Independent Auditors 1

Financial Statements

Statement of Financial Condition 2

Notes to Statement of Financial Condition 3-7

Independent Auditor's Report

To The Board of Directors and Shareholder of Swiss Re Capital Markets Corporation:

We have audited the accompanying balance sheet of Swiss Re Capital Markets Corporation (the "Company") as of December 31, 2012.

Management's Responsibility for the Balance Sheet

Management is responsible for the preparation and fair presentation of the balance sheet in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a balance sheet that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the balance sheet based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the balance sheet. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the balance sheet, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the balance sheet in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the balance sheet. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying balance sheet presents fairly, in all material respects, the financial position of Swiss Re Capital Markets Corporation at December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

As disclosed more fully in Note 5, the Company has extensive transactions and relationships with affiliated parties.

Swiss Re Capital Markets Corporation
Notes to Statement of Financial Condition
December 31, 2012

1. Nature of Operations and Organization of the Company

Swiss Re Capital Markets Corporation (the "Company") was incorporated in Delaware on October 17, 1995, and effective July 2, 2001, became a wholly owned subsidiary of Swiss Re America Holdings Corporation ("SRAH"), which is ultimately owned by Swiss Re Ltd, Switzerland (the "Parent"). The Company was established to conduct securities and investment business. During the year, the Company acted as lead and co-underwriter and also conducted secondary market brokerage activities on Insurance Linked Securities transactions.

The Company is a registered broker-dealer in securities under the Securities Act of 1934 and is a member of the Financial Industry Regulatory Authority.

2. Summary of Significant Accounting Policies

Basis of Presentation

The statement of financial condition is presented in conformity with accounting principles generally accepted in the United States of America.

Securities Transactions

Securities transactions are recorded on the trade date.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. At December 31, 2012, cash and cash equivalents consists of demand deposits at a large U.S. bank. The Company held no cash equivalents as of December 31, 2102.

Short-Term Investments

Short-term investments are carried at fair value. The Company considers highly liquid investments with a remaining maturity at the date of acquisition of one year or less, but greater than three months, to be short-term investments.

Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at year end rates of exchange.

Fair Value Measurements

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Financial assets are marked to bid prices, and financial liabilities are marked to offer prices. Fair value measurements do not include transaction costs.

In accordance with ASC No. 820, "Fair Value Measurements and Disclosures", a fair value hierarchy was established that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC No. 820 are described below:

Swiss Re Capital Markets Corporation
Notes to Statement of Financial Condition
December 31, 2012

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of December 31, 2012 the Company owns \$242 million of United States Treasury Bills that are short term in nature and are considered to be level 1 securities. These securities are valued at the closing price on the active market on which the individual securities are traded.

US GAAP requires disclosure of the estimated fair value of certain financial instruments and the methods and significant assumptions used to estimate their fair values. Certain financial instruments that are not carried at fair value on the statement of financial condition are carried at amounts that approximate fair value due to their short term nature and generally negligible credit risk. These instruments include Cash and cash equivalents, Payable to affiliate, and Subordinated liabilities to affiliate. They are all considered Level 1 financial assets and liabilities.

Income Taxes

In accordance with ASC No. 740, "Income Taxes", deferred tax assets or liabilities reflect temporary differences between amounts of assets and liabilities for financial and tax reporting. Such amounts are adjusted to reflect changes in tax rates expected to be in effect when the temporary differences reverse. The future tax benefits of deferred tax assets are recognized when the realization of such benefits is more likely than not.

The Financial Accounting Standards Board issued FIN No. 48 (ASC No. 740-10), which clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. ASC No. 740-10 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position. Actual results could differ from these estimates.

4. Commitments and Guarantees

ASC No. 460 requires the disclosures of representations and warranties which the Company enters into which may provide general indemnification to others. In the normal course of business the Company enters into contracts that contain a variety of representations and warranties and which

Swiss Re Capital Markets Corporation
Notes to Statement of Financial Condition
December 31, 2012

provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that are not yet known. However, based on experience and its risk assessment, the Company expects the risk of loss to be remote.

The Parent has issued an unconditional guarantee covering all agreements entered into by the Company.

5. Related Party Transactions

The Company has extensive transactions and relationships with affiliated companies. Because of these relationships, terms of these transactions may not be the same as those that would result in transactions with unrelated parties.

The Company has an agreement with SRFPC, whereby certain services are performed on behalf of the Company. The Company and SRFPC share office space and jointly incur various expenses that are paid by SRFPC, including occupancy costs and compensation and benefits attributable to SRFPC employees. At December 31, 2012, a gross payable of \$826 thousand related to this activity is recorded, net, in the payable to affiliates in the statement of financial condition.

The Company has an agreement with SRFPC to act as agent in the purchase and sale of CAT Securities and other financial instruments. At December 31, 2012, a gross receivable of \$103 thousand related to this activity is recorded, net, in the payable to affiliates in the statement of financial condition.

The Company has an agreement with SRAH, whereby certain services are performed on behalf of the Company. The Company incurs various expenses that are paid by SRAH, including legal and government relations services, office administration, auditing services, and other direct and allocated costs. At December 31, 2012, a gross payable of \$807 thousand related to this activity is recorded, net, in the payable to affiliates in the statement of financial condition.

The Company has an agreement with EFR to provide advisory services, including, but not limited to, accounting, actuarial, tax and legal services. At December 31, 2012, a payable of \$37 thousand is recorded, net, in the payable to affiliates in the statement of financial condition relating to an overpayment of invoiced fees.

The Company acts as introducing agent or underwriter on certain CAT transactions for related parties. At December 31, 2012, there were no amounts receivable outstanding related to this activity.

In 2003, the Company entered into a revolving subordinated loan agreement with SRFPC. Under the terms of the agreement, SRFPC agreed to issue revolving credit loans to the Company from time to time not to exceed \$750 million in the aggregate with the outstanding balance available in computing net capital pursuant to SEC Rule 15c3-1. This credit line may be drawn down by the Company on a revolving basis, subject to the provisions of the agreement, and the Company may borrow, repay, and reborrow such amounts subject to the provisions of the agreement and regulatory requirements. The facility was amended in 2008 to mature on July 15, 2013. The Company expects to amend the agreement to extend the maturity for an additional five-year term, subject to regulatory approval. The facility bears interest based on LIBOR. As of December 31, 2012, the Company had borrowed \$155 million under the agreement.

Swiss Re Capital Markets Corporation
Notes to Statement of Financial Condition
December 31, 2012

During 2012, the Company entered into a \$500 million revolving loan facility agreement with SRFPC for general corporate purposes and activities of the Company. This credit line may be drawn down by the Company on a revolving basis, subject to the provisions of the agreement, and the Company may borrow, repay, and reborrow such amounts subject to the provisions of the agreement. Borrowings under the agreement do not impact computation of net capital pursuant to SEC Rule 15c3-1. The facility matured on December 30, 2012. Upon maturity the Company extended the maturity to December 29, 2013. The facility bears interest based on LIBOR. As of December 31, 2012, the Company had no outstanding borrowings under the agreement.

6. Income Taxes

For the year ended December 31, 2012, the Company is a member of a group which files a consolidated federal income tax return and combined state and local income tax returns with SRAH. The tax allocation agreement provides that each member shall compute and pay its tax liability on a separate return basis. In computing their income tax liability on a separate return basis, member companies have the ability to recover taxes paid in a prior year or offset future taxable income to the extent net operating losses or other tax attributes that they generated are carried back or forward in any manner permitted under the Internal Revenue Code.

The previously established valuation allowance of \$73,839 was released during 2012. It was established in 2011 to offset the \$8,134 deferred tax asset generated by the remaining net operating loss carryforward of \$23,239 and the \$65,705 deferred tax asset for the alternative minimum tax credit. Both of these deferred tax assets were fully utilized in the calculation of current taxes payable for the 2012 tax year.

At December 31, 2012, the total amount of unrecognized tax benefits, including interest and penalties was \$0. The Company does not anticipate any significant changes to its total unrecognized tax benefits within the next twelve months. The Internal Revenue Service has concluded an examination of the 2005 through 2008 audit cycle, with no adjustments to the Company. An examination of the 2009 through 2010 tax years is currently underway.

7. Concentration of Credit Risk

As a securities broker-dealer, the Company is engaged in various securities trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. The Company acts as introducing agent and co-agent for a variety of transactions in secondary markets. The Company may also maintain positions in these securities as part of its trading activities.

In the event that the counterparties to transactions do not fulfill their obligations, the Company may be exposed to credit risk to the extent such obligations are unsecured. Also, if securities are not received, the Company is subject to risk of loss if the market value of such securities has increased over the contract amount of the transactions. The Company's exposure to credit risk associated with the nonperformance of counterparties in fulfilling their contractual obligations can be directly impacted by volatile trading markets which may impair their ability to satisfy their obligations to the Company.

The Company's policy is to monitor its market exposure and counterparty risk. The Company has a policy of reviewing the credit standing of each counterparty and customer with which it conducts business.

Swiss Re Capital Markets Corporation
Notes to Statement of Financial Condition
December 31, 2012

The Company has the right to pursue collection or performance from the counterparties who do not perform under their contractual obligations.

8. Regulatory Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined, equal to the greater of \$250,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2012, the Company's net capital of \$243.7 million exceeded required net capital of \$250 thousand by \$243.5 million. The Company's ratio of aggregate indebtedness to net capital was .01 to 1.

The Company is exempt from the provisions of Rule 15c3-3 under the exemptive provisions of subparagraph (k)(2)(i) of the Rule.

9. Subsequent Events

The Company has evaluated whether events or transactions have occurred after December 31, 2012 that would require recognition or disclosure in these financial statements through February 25, 2013, which is the issuance date of these financial statements.
