Independent Auditor's Report

The Board of Directors
ProFinance Associates, Inc.
San Diego, California

We have audited the accompanying statements of financial condition of ProFinance Associates, Inc. as of December 31, 2012 and 2011, and the related statements of operations and changes in stockholder's equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining evidence, on a test basis, supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ProFinance Associates, Inc. as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ProFinance Associates, Inc.
Notes to Financial Statements

NOTE A Organization:

ProFinance Associates, Inc. (Company) was incorporated in the state of New Jersey in August 1985. The Company acts as specialized investment bankers for the defense/securities and maritime industries and for various service businesses throughout the United States and abroad, and is a member of the Financial Industry Regulatory Authority ("FINRA"). The basic services of the Company are to assist in arranging financing for client companies and to identify and assist in negotiating merger and acquisition transactions. The Company does not carry customer accounts or handle customer securities.

Note B Summary of Significant Accounting Policies:

Revenue and Expense Recognition:

Revenues are generally recognized by the Company only upon the close of a transaction and when collectability is reasonably assured. Whether or not a transaction closes, the Company is generally entitled to a reimbursement of out-of-pocket expenses.

Expenses are recognized under the accrual method of accounting.

Cash and Cash Equivalents:

For purposes of the statement of financial condition and cash flows, cash equivalents include all highly liquid debt instruments with original maturities of three months or less which are not securing any corporate obligations.

Property and Equipment:

Property and Equipment are carried at cost. Property additions and betterments are charged to the property accounts, while maintenance and repairs are expensed as incurred. Whenever an asset is retired or disposed of, its cost and accumulated depreciation or amortization is removed from the respective accounts, and the resulting gain or loss is credited or charges to income.

Depreciation is computed using the straight-line and declining-balance methods over the following estimated useful lives:

Office Equipment	3 to 10 years
Furniture and Fixtures	3 to 10 years
Leasehold Improvements	Balance of lease at time of acquisition

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk are cash, accounts receivable and other receivables arising from its normal business activities. The Company places its cash in what it believes to be credit-worthy financial institutions. However, cash balances may have exceeded the FDIC insured levels at various times during the year. The Company has a diversified customer base. The Company controls credit risk related to accounts receivable through credit approvals, credit limits and monitoring procedures. The Company routinely assesses the financial strength of its customers and, based upon factors surrounding the credit risk, establishes an allowance, if required, for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowance is limited.

ProFinance Associates, Inc.
Notes to Financial Statements (Continued)

Fair Value of Financial Instruments:

For certain of the Company's financial instruments, including cash and equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities and short-term debt, the carrying amounts approximate their fair values due to their short maturities. ASC Topic 820, "Fair Value Measurements and Disclosures," requires disclosure of the fair value of financial instruments held by the Company. ASC Topic 825, "Financial Instruments," defines fair value, and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The carrying amounts reported in the balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of their fair values because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels of valuation hierarchy are defined as follows:

Level 1 inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets.

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Company analyzes all financial instruments with features of both liabilities and equity under ASC 480, "Distinguishing Liabilities from Equity," and ASC 815.

As of December 31, 2012 and 2011, the Company did not identify any assets and liabilities that are required to be presented on the balance sheet at fair value.

Income Taxes:

The Company adopted the provisions of Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes—an Interpretation of FASB Statement No. 109" (ASC 740). ASC 740 prescribes a new threshold for determining when an income tax benefit can be recognized, which is a higher threshold than the one imposed for claiming deductions on income tax returns. The adoption of ASC 740 did not have any impact on the Company's financial statements. The Company's federal and state income tax returns are subject to possible examination by the taxing authorities until the expiration of the related statutes of limitations on those tax returns. In general, the federal and state income tax returns have a three year statute of limitations. The Company would recognize accrued interest and penalties associated with uncertain tax provisions, if any, as part of the income tax provision.

At December 31, 2012 and 2011, the Company had not taken any significant uncertain tax positions on its tax returns for 2012 and prior years or in computing its tax provision for 2012.

The Company, with the consent of its shareholder, has elected to be treated as an S Corporation under the applicable provisions of the Internal Revenue Code. Accordingly, items of income, loss, credits and deductions are not taxed within the Corporation but are reported on the income tax return of the shareholder for federal tax purposes. At December 31, 2012 and 2011 the Company made an appropriate state income tax provision for minimum state tax of \$800 and \$800, respectively.

NOTE C Revenues from Significant Clients:

The nature of the Company's business is to complete a small number of transactions each year for a limited number of clients. As such, it is normal for there to be revenue concentrations from significant clients. During the year ended December 31, 2012 and 2011 the Company had four clients which accounted for approximately 79% and 68% of its fee revenue respectively.

ProFinance Associates, Inc.
Notes to Financial Statements (Continued)

NOTE D Cash:

The Company maintains its cash balances at banks and a brokerage house located in San Diego, California. The bank balances are insured by the Federal Deposit Insurance Corporation and the brokerage account by the Securities Investor Protection Corporation up to \$250,000. As of December 31, 2012 and 2011, there were no uninsured cash balances.

NOTE E Fixed Assets:

At December 31, 2012 and 2011, Furniture, Leasehold Improvements and Equipment consisted of the following:

A summary is as follows:

	<u>\$ 2,861</u>	<u>\$ 1,842</u>

Depreciation expense was \$1,860 and \$5,710 for the years ended December 31, 2012, and 2011.

NOTE F Net Capital Requirement:

Pursuant to the net capital provisions of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital as defined under such provisions (SEC Rule 15c-3-1). Net capital and the related net capital ratio may fluctuate on a daily basis. At December 31, 2012 and 2011, the Company had net capital requirements of \$5,000 and net capital of approximately \$38,011 and \$8,140, respectively.

NOTE G Loan Receivable:

As of December 31, 2012 and 2011 the Company has a loan receivable from another corporation in the amount of \$40,000 with interest at 12% per annum, which was due and payable on April 9, 2009. The interest rate increased to 18% per annum since the loan was not fully paid by April 9, 2009. The Company has accrued interest of \$11,902 and \$10,252 as of December 31, 2012 and 2011 respectively for this loan. Management has made no reserve against this loan as it believes it is fully collectible.

NOTE H Leases:

The Company leases an office under non-cancelable operating lease. The lease expires in October 2016. Rent expense for years ended December 31, 2012 and 2011 was \$46,534 and \$57,239, respectively. The future minimum lease obligation resulting from the agreement is as follows:

The Board of Directors
ProFinance Associates, Inc.
San Diego, California

In planning and performing our audit of the financial statements of ProFinance Associates, Inc. as of December 31, 2012, we considered its internal control, including activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Act of 1934, we have made a study of the practices and procedures followed by the Company including test of such practices and procedures that we considered relevant to the objectives state in Rule 17a-5(g) in making the periodic computation of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with exemptive provision of Rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verification and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related cost of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal controls or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in the internal control that might be material weakness under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amount that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control, including control activities for safeguarding securities that we consider to be material weakness as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2012, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
