**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Operations**

The Company operates as a broker in registered securities and other investments. The Company introduces and forwards, as a broker, all security transactions and accounts to David A. Noyes & Company/First Clearing, LLC and Southwest Securities, Inc., or other qualified investment companies, which carry such accounts on a fully disclosed basis. Commissions receivable consist of amounts due from David A. Noyes & Company/First Clearing, LLC and Southwest Securities, Inc., and other companies for whom the Company has sold annuities or mutual funds.

**Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Depreciation**

Depreciation of furniture and fixtures are calculated using the straight-line method over the estimated useful lives of the related asset. Maintenance and repairs are charged to expense when incurred and renewals and betterments are capitalized. The gain or loss on assets sold or retired is included in income.

**Deferred income taxes**

Deferred income taxes result from timing differences created by the use of the accrual method for financial reporting purposes and the cash basis for income tax purposes. Deferred income taxes have been offset by a net operating loss carryforward (Note 6) and will be reinstated once the net operating loss carryforward has been utilized.

**Recognition of Revenue**

All securities and annuity transactions and related revenue and expenses are generally recorded on a trade-date basis.

**Cash equivalents**

All highly liquid securities purchased with an original maturity of three months or less are considered to be cash equivalents.

NOTE 2 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels for the fair value hierarchy under SFAS No. 157 are described below:

*Level 1*

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

*Level 2*

Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

*Level 3*

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Marketable equity securities held by the Company at January 31, 2013 and 2012, consist of actively traded mutual funds and money market funds which are valued at the net asset value of the share held by the Company at year end (level 1).

<u>January 31, 2013</u>	<u>Original Cost</u>	<u>Market Value</u>
American funds - mutual funds	\$ 33,832	\$ 48,094
Southwest securities - cash and money market funds	<u>11,246</u>	<u>11,246</u>

The Company has an operating agreement with an affiliated company. The agreement provides for the affiliated company to pay a substantial portion of Bates Securities, Inc.'s operating expenses in exchange for a fee equal to 99 percent of revenue received after commissions and certain other expenses are paid. **NOTE 7 - INCOME TAXES**

The Company follows the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax positions will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with the Internal Revenue Service and all state jurisdictions where it operates. The Company believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse effect on the Company's financial condition, results of operations or cash flows. Accordingly, the Company has not recorded any reserves or related accruals for interest and penalties for uncertain income tax positions at January 31, 2013 and 2012.

The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Company believes it is no longer subject to income tax examinations for years prior to 2008.

The Company's policy is to classify income tax related interest and penalties in interest expense and other expenses, respectively.

**NOTE 8 - COMMITMENTS AND CONTINGENCIES**

The Company's management has indicated that there are no commitments or guarantees against the assets of the Company. In addition, they have also indicated that there are no contingencies regarding litigation or arbitration.

**NOTE 9 - SUBSEQUENT EVENTS**

**Report of Independent Accountants on Internal Control Structure  
Required by Rule 17a-5 of the Securities and Exchange Commission**

Board of Directors  
Bates Securities, Inc.  
Rockford, Illinois

In planning and performing our audit of the financial statements of Bates Securities, Inc. for the year ended January 31, 2013, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also made a study of the practices and procedures followed by Bates Securities, Inc. in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11). The management of the Company has indicated that the Company was in compliance with the exemptive provisions of Rule 15c3-3 and no facts came to our attention indicating that the exemptive provisions have not been complied with during the year ended January 31, 2013. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recording of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at January 31, 2013, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
