The Board of Directors
H. Beck, Inc.: **Washington DC**
401

We have audited the accompanying statement of financial condition of H. Beck, Inc. as of December 31, 2012, that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934 and the related notes to the statement of financial condition (the financial statement).

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly in all material respects, the financial position of H. Beck, Inc. as of December 31, 2012, in accordance with U.S. generally accepted accounting principles.

H. BECK, INC.

Notes to Statement of Financial Condition

December 31, 2012

(1) **Basis of Presentation and Nature of Business**

The accompanying financial statement has been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The financial statement includes the accounts of H. Beck, Inc. (the Company), a wholly owned subsidiary of Securian Financial Group, Inc. (Securian), whose ultimate parent is Minnesota Mutual Companies, Inc.

The Company is a registered broker-dealer with the Securities and Exchange Commission (SEC), and a member of the Financial Industry Regulatory Authority (FINRA). The Company introduces its stock and bond customers to a broker-dealer who will carry such accounts and will clear such transactions on a fully disclosed basis. The Company does not hold securities or carry margin accounts on behalf of customers.

The Company operates under the provisions of paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer, and promptly transmit all customers' funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

(2) **Significant Accounting Policies**

(a) *Cash and Cash Equivalents*

The Company considers cash on hand and amounts on deposit in various financial institutions, including broker-dealers, and short-term liquid investments with original maturities of three months or less to be cash and cash equivalents.

(b) *Accounts Receivable from Noncustomers*

Accounts receivable from noncustomers are carried at original invoice amount, less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by reserving against any accounts aged more than 90 days. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded as income when received. Interest is not accrued on past-due accounts receivable balances.

(c) *Income Taxes*

The Company files a life/nonlife consolidated federal income tax return with Minnesota Mutual Companies, Inc., the Company's ultimate parent. The Company utilizes a consolidated approach to the allocation of current taxes whereby, the tax benefits resulting from any losses by the Company, which would be realized by Minnesota Mutual Companies, Inc. on a consolidated return, go to the benefit of the Company. Intercompany tax balances are settled annually when the tax return is filed with the Internal Revenue Service (IRS).

The Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and

H. BECK, INC.

Notes to Statement of Financial Condition

December 31, 2012

liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under this method, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment dates. However, deferred tax assets are recognized only to the extent that it is more likely than not that they will be realized based on consideration of available evidence on a separate return basis. Valuation allowances are established when it is determined that it is more likely than not that the deferred tax asset will not be fully realized.

The Company presents intercompany tax balances in *other assets* on the accompanying statement of financial condition.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(d) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(3) **Transactions with Clearing Agents**

The agreement with the Company's clearing agent provides for clearing charges at a fixed rate multiplied by the number of trades processed by the Company. The clearing agreement also requires the Company to maintain a minimum deposit of \$100,000.

(4) **Risks**

The following is a description of the significant risks facing the Company:

(a) *Off-Balance Sheet Risk*

In the normal course of business, the Company executes and enters into securities transactions that are carried and cleared by other broker-dealers on a fully disclosed basis. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. Amounts due from broker-dealers represent a concentration of credit risk. The risk of default depends on the creditworthiness of the counterparty. The Company does not anticipate nonperformance by its clearing brokers. In addition, the Company has a policy of reviewing, as necessary, the credit standing of each counterparty with which it conducts business.

The agreement between the Company and its clearing agents provides that the Company is obligated to assume any exposure related to nonperformance by its customers. The Company seeks to minimize the risk of loss through procedures designed to monitor the creditworthiness of its customers and that transactions are executed properly by the clearing agents.

H. BECK, INC.

Notes to Statement of Financial Condition

December 31, 2012

(b) Credit Risk

Certain financial instruments, consisting of cash and cash equivalents, potentially subject the Company to concentration of credit risk. The Company places its cash and cash equivalents in high quality financial institutions which, at times may exceed the Federal Deposit Insurance Company (FDIC) insurance limits. The Company has not experienced any losses in such accounts for the year ended December 31, 2012.

(c) Legal/Regulatory Risk

The risk that changes in the legal or regulatory environment in which the Company operates could result in increased competition, reduced demand for the Company's products or services, or additional unanticipated expenses incurred. The Company employs compliance and operating practices that identify and minimize the adverse impact of this risk. The Company additionally attempts to minimize adverse impact of this risk through a varied offering of products and services.

(5) Related-Party Transactions

An affiliated company provides the Company certain operational and administrative services, such as occupancy, personnel, travel, data processing, communications, and insurance costs for which the Company pays a management fee. The management fee is negotiated annually between the Company and the affiliated company. In addition, an affiliated Company bills the Company for indirect costs incurred on behalf of the Company. The amount due to affiliates as of December 31, 2012 was \$403,298.

In connection with the consolidated approach to the allocation of current taxes described in note 1(g), Securian owes the Company \$17,378 as of December 31, 2012. This amount is included in *other assets* on the accompanying statement of financial condition.

The Company also recognized revenue in 2012 related to sales of insurance products of affiliates, of which \$72,403 was receivable at December 31, 2012. This amount is included in commissions receivable on the accompanying statement of financial condition.

(6) Income Taxes

The tax effects of temporary differences that gave rise to the Company's deferred tax assets comprise at December 31, 2012 are as follows:

Deferred tax assets:	
Goodwill	\$ 10,651,007
Allowance for doubtful accounts	56,741
NOL – state	526,317
	<hr/>
Gross deferred tax assets	11,234,065
	<hr/>
Net deferred tax asset	\$ 11,234,065
	<hr/>

The Company has \$9.2 million of gross net operating losses (NOLs) in various states, which expire between 2022 and 2032.

H. BECK, INC.

Notes to Statement of Financial Condition

December 31, 2012

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax asset will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will realize the benefits of these deductible differences.

As of December 31, 2012, the Company did not have any amounts accrued for interest and penalties.

The consolidated federal tax returns for Minnesota Mutual Companies, Inc. and Subsidiaries for the years 2010 and 2011 are currently under examination by the IRS. The Company believes that any additional taxes refunded or assessed as a result of the examination will not have a material impact on its financial position. In addition, the IRS issued a final audit report in 2012 for their examination of the consolidated returns for tax years 2008 and 2009. The audit report was contested with the IRS Office of Appeals, and the returns for those years have been sent back to the examination agent for resolution; however, there were no issues pertaining to the Company.

(7) Net Capital Requirements

The Company is subject to the SEC's Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The rule also requires that equity capital may not be withdrawn or cash dividends paid if the ratio of aggregate indebtedness to net capital exceeds 10 to 1. At December 31, 2012, the Company had net capital of \$7,272,553, which was \$6,811,197 in excess of required net capital of \$461,356. The Company's ratio of aggregate indebtedness to net capital ratio was 0.95 to 1 at December 31, 2012.

(8) Contingencies

The Company is involved in legal actions arising in the normal course of its business. Management is of the opinion, after consultation with legal counsel, that there are no legal actions pending that could have a material adverse effect on the Company's financial condition or results of operation.

(9) Subsequent Events

The Company has evaluated subsequent events from the statement of financial condition date through February 22, 2013, the date at which the financial statement was available to be issued, and determined there are no other items to disclose.
