INDEPENDENT AUDITOR'S REPORT

To the Member of
Quantum Edge Derivatives Trading, LLC
New York, New York

Report on the Financial Statements

We have audited the accompanying statement of financial condition of Quantum Edge Derivatives Trading, LLC, as of December 31, 2012.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Opinion

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of Quantum Edge Derivatives Trading, LLC, at December 31, 2012, in conformity with accounting principles generally accepted in the United States of America.

QUANTUM EDGE DERIVATIVES TRADING L.L.C.
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Organization

Quantum Edge Derivatives Trading L.L.C., a New York limited liability company (the "Company"), formed in 2010, is registered as a broker-dealer with the Securities and Exchange Commission and is a member of the Philadelphia Stock Exchange, the NYSE-AMEX, The Chicago Board Options Exchange, The NASDAQ Stock Exchange, The International Securities Exchange and the BATS Stock Exchange.

Nature of Business

The Company is engaged in securities trading.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

All short-term investments with an original maturity of three months or less are considered to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Securities transactions and related income and expenses are recorded daily on a mark to market basis.

Recent Accounting Pronouncements

The Company does not expect any recent accounting pronouncements to have any material impact on its financial condition or results of operations.

QUANTUM EDGE DERIVATIVES TRADING L.L.C.
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (continued)

Concentration of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

NOTE 3 – FAIR VALUE OF INVESTMENTS

Fair Value Measurements

Fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). Fair value measurements are not adjusted for transaction cost. Fair value measurement under generally accepted accounting principles provides for use of a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: Inputs other than quoted market prices that are observable, either directly or indirectly, and reasonably available. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the Company.

Level 3: Unobservable inputs. Unobservable inputs reflect the assumptions that the Company develops based on available information about what market participants would use in valuing the asset or liability.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Availability of observable inputs can vary and is affected by a variety of factors. The Company uses judgment in determining fair value of assets

QUANTUM EDGE DERIVATIVES TRADING L.L.C.
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 3 – FAIR VALUE OF INVESTMENTS (continued)

and liabilities and Level 3 assets and liabilities involve greater judgment than Level 1 and Level 2 assets or liabilities.

The following are the Company's investments owned and securities sold short by level within the fair value hierarchy at December 31, 2012.

<u>Assets</u>	<u>Fair Value</u>	<u>Fair Value Hierarchy</u>
Stocks	\$ 234,955,449	Level 1
Options	48,741,027	Level 1
	283,696,476	
<u>Liabilities</u>		
Stocks	\$ 179,157,934	Level 1
Options	33,151,077	Level 1
	212,309,011	

NOTE 4 – INCOME TAXES

No provisions for federal and state income taxes are made in the financial statements as these taxes are the responsibility of the Company's member under a limited liability corporation.

NOTE 5 - NET CAPITAL REQUIREMENTS

The Company is a member firm of the Philadelphia Stock Exchange, and is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1. Net Capital is defined as at least, the greater of \$100,000 or 6 2/3% of aggregate indebtedness, as defined. Net Capital and aggregate indebtedness change daily. The Company had net capital of \$34,629,673 at December 31, 2012 which exceeded the regulatory requirement of \$100,000 by \$34,529,673. The ratio of aggregate indebtedness to net capital was 0.0208 to 1 at December 31, 2012.

QUANTUM EDGE DERIVATIVES TRADING L.L.C.
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 6 – OFF BALANCE SHEET RISK

Pursuant to a Joint Back Office (“JBO”) Participant's Account Agreement, the Company will give up its clearing partners to the clearing corporation for all of its securities transactions. Therefore, all of the customers' money balances and long and short security positions will be maintained on the books of the clearing partners in a JBO participant's account. Under certain conditions as defined in the agreement, the Company has agreed to indemnify the clearing partners for losses, if any, which the clearing partners may sustain from maintaining securities transactions effected by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing partners monitor collateral on the securities transactions introduced by the Company.

NOTE 7 – DERIVATIVE FINANCIAL INSTRUMENTS AND OTHER OFF-BALANCE SHEET RISKS

In the normal course of business, the Company trades various derivative financial instruments with off-balance sheet risk. The Company enters into derivative transactions for both trading and economic risk management purposes, resulting from its own business activities. These derivative transactions typically include equity options, options on ETFs and index options, coupled with futures and options on futures for ETFs and indices.

In addition, the Company has sold securities and derivative contracts that it does not currently own, and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at December 31, 2012 at fair value, and will incur a loss if the fair value of the securities and derivative contracts sold and not yet owned increases subsequent to December 31, 2012.

Generally, the Company hedges against the securities and derivative contracts sold and not yet owned, thus a loss in these positions may be offset by income attributable to the hedge.

Pursuant to a clearance agreement, the Company will introduce all of its securities transactions to its sole clearing broker on a fully disclosed basis. Therefore, all of the Company's money balances and long and short security positions will be carried on the books of the clearing broker. Under certain conditions as defined in the clearance agreement, the Company has agreed to indemnify the clearing broker for losses, if any, which the clearing broker may sustain from carrying securities transactions introduced by the Company. In accordance with industry
