Independent Auditor's Report

To: The Members
Altrushare Securities LLC

I have audited the accompanying statement of financial condition of Altrushare Securities LLC as of December 31, 2012, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Altrushare Securities LLC as of December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

ALTRUSHARE SECURITIES LLC
Notes To Financial Statements
December 31, 2012

1 Nature of Business Operations

Altrushare Securities LLC (the Company) was organized in the State of Delaware on April 6, 2005. The Company is a broker-dealer registered with the SEC and is a member of the Financial Industry Regulatory Authority - FINRA.

The clearing and depository operations for the Company's customers are performed by a clearing organization pursuant to a clearance agreement. The Company holds no customer funds or securities and does not participate in the underwriting of Securities

2 Accounting Policies

(a) Accounting Principles

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") unless otherwise disclosed.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(c) Cash

For purposes of the statement of cash flows, the Company considers all investments with a term to maturity of three months or less at the time of acquisition to be cash equivalents. The company has adopted the indirect method of presenting the statement of cash flows in accordance with current authoritative pronouncements. There were no cash equivalents at December 31, 2012.

(d) Accounts Receivable

The Company establishes an allowance for uncollectible trade accounts receivable based on managements evaluation of the collectibility of outstanding accounts receivable. Management has evaluated accounts receivable at December 31, 2012 and believes they are all collectible. Accounts receivable are not collateralized.

ALTRUSHARE SECURITIES LLC

Notes To Financial Statements

December 31, 2012

(e) Property and Equipment

Property and equipment is recorded at cost. Improvements are capitalized, while repairs and maintenance expenditures are expensed in the statement of operations. Depreciation and amortization is provided over the estimated useful lives of the assets using the straight-line method over a period ranging from three to seven years. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in income for the period.

(f) Revenue Recognition

The Company earns commissions from executing and clearing customer transactions in stock and options markets. Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

The Company recognizes revenue from consulting and referral fees in the period earned, generally when the assignment has been completed or as the consulting services are delivered.

(g) Income Taxes

The partners are to include their share of the Partnership profits and losses in their respective income tax returns. Accordingly, no federal or state income taxes are payable by the Partnership. The Partnership's tax returns and the amount of income or loss allocable to each partner are subject to examination by federal and state taxing authorities. In the event of an examination of the Partnership's tax return, the tax liability of the partners could be changed if an adjustment in the Partnership's income or loss is ultimately determined by the taxing authorities.

Certain transactions of the Partnership may be subject to accounting methods for federal and state income tax purposes which differ significantly from the accounting methods used in preparing the financial statements. Accordingly, the net income or loss of the partnership and the resulting balances in the partners' capital accounts reported for federal and state income tax purposes may differ from the balances reported for those same items in these financial statements.

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the year ended December 31, 2012 the members have determined that there are no material uncertain income tax positions. In addition, no income tax related penalties or interest have been recorded for the year ended December 31, 2012.

ALTRUSHARE SECURITIES LLC
Notes To Financial Statements
December 31, 2012

(h) Advertising and Marketing

Advertising and marketing costs are expensed as incurred

(i) General and Administrative Expenses

General and administrative costs are expensed as incurred.

(j) Subsequent Events

The Company has evaluated subsequent events occurring after the statement of financial condition date through the date of February 10, 2013 which is the date the financial statements were available to be issued. Based on this evaluation, the Company has determined that no subsequent events have occurred which require disclosure in or adjustment to the financial statements.

(k) Fair Value Measurements

The Financial Accounting Standards Board ("FASB") issued under Topic 820 under the FASB Accounting Standards Codification which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The standard provides a consistent definition of fair value, which focuses on an exit price between market participants in an orderly transaction. The standard also prioritizes, within the measurement of fair value, the use of market based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date.

Assets and liabilities, subject to the standard, measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 - Inputs that reflect quoted prices are available in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the assets or liability either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3 - Inputs are unobservable for the assets or liability and include situations where there is little, if any, market activity for the asset or liability.

For further discussion of fair value, see "Note 6 Fair Value"

ALTRUSHARE SECURITIES LLC

Notes To Financial Statements

December 31, 2012

6 Fair Value of Financial Instruments

Cash and cash equivalents, receivables, accounts payable and other current liabilities are reflected in the financial statements at carrying value which approximates fair value because of the short-term maturity of these instruments.

7 Commitments and Contingencies

Pursuant to Securities and Exchange Commission Rule 15c3-1(e)(2) the Company may not authorize distributions to its members if such distributions cause the Company's net capital to fall below 120% of the Company's minimum net capital requirement. As of December 31, 2012 the Company was not in violation of this requirement.

8 Related Party Transactions

Guaranteed payments of \$203,666 included in the Statement of Operations for the year ended December 31, 2012 are for payments to members of the Company who provide services to the Company.

9 Off-Balance-Sheet Risk

Pursuant to a clearance agreement, the Company introduces all of its securities transactions to its clearing organization on a fully disclosed basis. Therefore, all customer money balances and long and short positions are carried on the books of the clearing broker. Under certain conditions, as defined in the clearance agreement, the Company has agreed to indemnify the clearing organization for losses, if any, which the clearing organization may sustain from carrying securities transactions introduced by the Company. In accordance with industry practice and regulatory requirements, the Company and the clearing organization monitor collateral on the securities transactions introduced by the Company. In addition, the receivable from the clearing organization is pursuant to this clearing agreement and includes a clearing deposit required by the clearing broker. The clearing organization also requires the Company to maintain a minimum net capital balance of \$100,000. This requirement is in addition to the minimum net capital balance requirement discussed in Note 3 above.

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

10 Anti-Money Laundering Program

The Company is required to have a program to actively prevent and prohibit money laundering and any activity that facilitates money laundering or the funding of terrorist or criminal activities. At December 31, 2012 the Company was in compliance with this program.

Independent Auditors Report on
Internal Accounting Control

To: The Members
Altrushare Securities LLC

In planning and performing our audit of the financial statements of Altrushare Securities LLC (the Company), as of and for the year ended December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, I considered the Company's internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities (if applicable). This study included tests of such practices and procedures that I considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented or detected and corrected on a timely basis.

My consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. I did not identify any deficiencies in internal control and control activities for safeguarding securities that I consider to be material weaknesses, as defined previously.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2012, to meet the SEC's objectives.

This report is intended solely for the information and use of the members, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
