INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying statement of financial condition of LaSalle St. Securities, LLC as of December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of LaSalle St. Securities, LLC as of December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2012

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of various exchanges and the Financial Industry Regulatory Authority (FINRA). The Company is a Delaware limited liability company organized April, 1999 and owned by McDermott Holdings I Limited Partnership. The Company provides brokerage and investment related services for companies and individuals throughout the United States.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt securities purchased with an original maturity of three months or less to be cash equivalents.

Cash Segregated under Federal Regulations

Cash of \$5,000 has been segregated in a special reserve bank account for the benefit of customers and commission recapture amounts to be remitted to customers.

Accounts and Notes Receivable

Receivables from broker-dealers represent amounts due for commissions and fees earned on investment transactions performed on behalf of customers. The receivables are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

Notes receivable are comprised of uncollateralized advances made to unrelated parties which have various interest rates and maturity dates. The receivables are reported at their outstanding balance reduced by the allowance for doubtful accounts, if any.

The allowance for doubtful accounts is increased by charges to income and decreased by chargeoffs (net of recoveries). Management's periodic evaluation of the adequacy of the allowance is based on the Company's past collection experience, known and inherent risks of the customers and entities comprising the Company's accounts and notes receivable balances, adverse situations that may affect the customers' and entities' ability to pay, and current economic conditions. Accounts and notes receivable are charged off when management deems the receivable balance to be uncollectible.

NOTE 8. FINANCIAL INSTRUMENTS

Financial Instruments With Off-Balance-Sheet Credit Risk

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. NOTE 11. FAIR VALUE MEASUREMENTS

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are based on unadjusted quoted market prices within active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs that are observable for the asset or liability, either directly or indirectly
- Level 3 inputs are observable inputs for the asset or liability and rely on management's own assumptions about assumptions that market participants would use in pricing the asset or liability.

Securities owned are classified as trading securities. Changes in the fair market value are reported in the statement of earnings.

Fair values of assets measured on a recurring basis as of December 31, 2012, are as follows:

	Fair Value Measures at Reporting Date Using:			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
ASSETS				
Securities Owned:				
Equities	\$ 15,522	\$ 15,522	\$ -	\$ -
Corporate and other debt	<u>341,681</u>	<u>341,681</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 357,203</u>	<u>\$ 357,203</u>	<u>\$ -</u>	<u>\$ -</u>
LIABILITIES				
Securities Sold - not Yet Purchased				
Equities	<u>\$ 25,812</u>	<u>\$ 25,812</u>	<u>\$ -</u>	<u>\$ -</u>

All assets have been valued using a market approach. There have been no changes in valuation techniques and related inputs.
