Report on the Financial Statements

We have audited the accompanying statement of financial condition of TimeCapital Securities Corporation (the "Company") as of March 31, 2013.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

TIMECAPITAL SECURITIES CORPORATION
NOTES TO THE STATEMENT OF FINANCIAL CONDITION
March 31, 2013

Note 1 - Nature of Business

TimeCapital Securities Corporation, (the Company) is a securities broker-dealer, registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). All securities transactions are cleared through another broker (clearing broker) that settles all transactions and maintains customer accounts.

Note 2 - Summary of Significant Accounting Policies

Securities Transactions

Principal transactions and commission revenues and expenses from customer transactions are recorded on a settlement date basis.

Cash and Cash Equivalents

The Company considers all cash investments with an original maturity of three months or less to be cash equivalents. Cash equivalents consist solely of money market funds.

Property, Equipment and Leasehold Improvements

Property, equipment and leasehold improvements are recorded at cost net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives which range from three to thirty nine years. Expenditures for maintenance and repairs which do not add to the economic life of the asset are expensed as incurred.

Intangible Asset

Intangible asset is comprised of a trademark. The trademark is being amortized over 15 years.

Impairment of Long-Lived Assets

The Company reviews the carrying values of long-lived assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Any long-lived assets held for disposal are reported at the lower of their carrying amounts or fair value less costs to sell. Management has determined that there have been no impairments of long-lived assets through March 31, 2013.

Note 2 - Summary of Significant Accounting Policies (continued)

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus or minus any deferred taxes arising from differences between amounts reported for financial reporting purposes and income tax purposes. Any deferred tax assets and liabilities represent the future tax return consequences of those differences, which will be deductible or taxable when the assets and liabilities are realized or settled. Deferred tax assets and liabilities are reflected at income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be settled. As changes in tax laws or rates are enacted, deferred assets and tax liabilities are adjusted through the provision for income taxes.

The Company has federal and state net operating loss carry-forwards of approximately \$91,000 available to offset future taxable income through 2034.

The Company accounts for the effect of any uncertain tax positions based on a "more-likely-than-not" threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for all uncertain tax positions. Interest and penalties assessed, if any, are accrued as income tax expense. In addition to its tax status, the Company has other tax positions that have been determined to be highly certain and therefore no reserve for unrecognized tax liability is deemed necessary. The Company is not currently under examination by any tax jurisdiction. Federal and state income tax returns are generally open for examination for three years.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date of the report, which is the date the statement of financial condition was available to be issued.
