Exhibit J List of Officers, Governors, and Members of Standing Committees

This information is kept up-to-date and available to the Commission and the public upon request.

Exhibit K List of Shareholders or Partners of the Exchange

- 1. Full legal name;
- 2. Title or Status:
- 3. Date title or status was acquired;
- 4. Approximate ownership interest; and
- 5. Whether the person has control, a term that is defined in the instructions to this Form.

The sole member of the Nasdaq Exchange within the meaning of the Delaware Limited Liability Company Act is The NASDAO OMX Group, Inc. ("Nasdaq Holdco"). Accordingly, the requested information is provided with respect to the following entities that are beneficial owners of 5% or more a class of the voting securities of Nasdaq Holdco. Information is derived from filings by Nasdaq Holdco stockholders on SEC Forms 4, 13D, and 13G, and is current as of the respective dates of such filings. The calculations of approximate ownership interest below are based upon 165,763,497 shares of common stock outstanding on April 2, 2013, the record date for Nasdaq Holdco's 2013 annual meeting of stockholders. Shares of common stock underlying options that were exercisable or exercisable within 60 days were considered outstanding and beneficially owned by the person holding the options for the purpose of computing the approximate ownership interest of that person, but were not treated as outstanding for the purpose of computing the approximate ownership of any other person.

1. Full legal name: Borse Dubai Limited

Title or status: The holding company for Dubai Financial Market and NASDAQ Dubai. Borse Dubai was created August 6, 2007 to consolidate the Government of Dubai's two stock exchanges as well as current investments in other exchanges,

Date title or status was acquired: As of December 31, 2012, based solely on information included in an amendment to Schedule 13D, filed March 27, 2012, Borse Dubai had shared voting and dispositive power over 29,780,515 shares. Borse Dubai is a majority-owned subsidiary of Investment Corporation of Dubai, and therefore, each of Borse Dubai and Investment Corporation of Dubai may be deemed to be the beneficial owner of the 29,780,515 shares held by Borse Dubai. Borse Dubai is entitled to the number of votes equal to the number of shares of common stock that it holds, subject to the 5% voting limitation contained in Nasdaq Holdco's certificate of incorporation. All of the shares held by Borse Dubai are pledged as security for outstanding indebtedness.

Approximate ownership interest: Approximately 18.0% of this class of stock.

Control status: Borse Dubai does not control Nasdaq Holdco within the meaning of the definition of control in Form 1.

2. Full legal name: Investor AB

Title or status: Institutional investor

Date title or status was acquired: As of December 31, 2012, based solely on information included in a Form 4, filed May 25, 2012, Patricia Holding AB had sole voting and dispositive power over 19,394,142 shares. Patricia Holding AB is 100% owned and controlled by Investor AB, and therefore, each of Patricia Holding AB and Investor AB may be deemed to be the beneficial owner of the 19,394,142 shares held by Patricia Holding AB. Patricia Holding AB is entitled to the number of votes equal to the number of shares of common stock that it holds, subject to the 5% voting limitation contained in Nasdaq Holdco's certificate of incorporation.

Approximate ownership interest: Approximately 11.7% of this class of stock.

Control status: Investor AB does not control Nasdaq Holdco within the meaning of the definition of control in Form 1.

3. Full legal name: FMR LLC

Title or status: Institutional investor

Date title or status was acquired: As of December 31, 2012, based solely on information included in a Schedule 13G, filed February 14, 2013, FMR LLC Inc. indicated that it had sole voting and dispositive power over 11,576,455 shares. It also indicated that it had sole power to vote or direct the vote on 3,257,784 shares. In addition, FMR LLC indicated as follows: Fidelity Management & Research Company (Fidelity), a wholly-owned subsidiary of FMR LLC and a registered investment advisor, beneficially owns 7,194,556 of the shares as a result of acting as investment adviser to various registered investment companies. Edward C. Johnson 3d and FMR LLC, through its control of Fidelity, and the funds each has sole power to dispose of the 7,194,556 shares owned by the funds. Neither FMR LLC nor Edward C. Johnson 3d, Chairman of FMR LLC, has the sole power to vote or direct the voting of the shares owned directly by the Fidelity funds, which power resides with the funds' Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the funds' Boards of Trustees. Fidelity Management Trust Company (FMTC), a wholly-owned subsidiary of FMR LLC and a bank, beneficially owns 36,583 shares as a result of its serving as investment manager of institutional account(s). Edward C. Johnson 3d and FMR LLC, through its control of FMTC, each has sole power to dispose of 36,583 shares and sole power to vote or to direct the voting of 36,583 shares owned by institutional account(s). Strategic Advisers, Inc. (Strategic), a whollyowned subsidiary of FMR LLC and a registered investment advisor, beneficially owns 2.597 of the shares in connection with providing investment advisory services to individuals. Each of FMR LLC, Fidelity, FMTC and Strategic has its principal place of business at 82 Devonshire Street, Boston, Massachusetts 02109. Pyramis Global Advisors, LLC (PGALLC), an indirect wholly-owned subsidiary of FMR LLC and a registered investment advisor, beneficially owns 343,340 of the shares as a result of its serving as investment adviser to institutional accounts, non-U.S. mutual funds or registered investment companies owning such shares. Edward C. Johnson 3d and FMR LLC, through its control of PGALLC, each has sole power to dispose of 553,550 shares and sole power to vote or to direct the voting of 343,340 shares owned by institutional accounts or funds advised by PGALLC. Pyramis Global Advisors Trust Company (PGATC), an indirect whollyowned subsidiary of FMR LLC and a bank, beneficially owns 2,865,990 of the shares as a result of its serving as investment manager of institutional accounts owning such shares. Edward C. Johnson 3d and FMR LLC, through its control of PGATC, each has sole power to dispose of 3,746,580 shares and sole power to vote or to direct the voting of 2,831,120 shares owned by institutional accounts managed by PGATC. Each of PGALLC and PGATC has its principal place of business at 900 Salem Street, Smithfield, Rhode Island 02917. FIL Limited (FIL), which has a principal place of business at Pembroke Hall, 42 Crow Lane, Hamilton, Bermuda, and various foreign-based subsidiaries provide investment advisory and management services to a number of non-U.S. investment companies and certain institutional investors. FIL, which is a qualified institution, beneficially owns

1,133,089 of the shares. Partnerships controlled predominantly by members of the family of Edward C. Johnson 3d, Chairman of FMR LLC and FIL, or trusts for their benefit, own shares of FIL voting stock. Such FIL voting stock normally represents more than 25% and less than 50% of the total votes which may be cast by all holders of FIL voting stock. FMR LLC and FIL are separate and independent corporate entities, and their Boards of Directors are generally composed of different individuals. FMR LLC has reported shares held by FIL as if all of the shares are beneficially owned by FMR LLC and FIL on a joint basis. The foregoing description of voting rights is subject to the 5% voting limitation contained in Nasdaq Holdco's restated certificate of incorporation.

Approximate ownership interest: Approximately 7.0% of this class of stock.

Control status: FMR LLC does not control Nasdaq Holdco within the meaning of the definition of control in Form 1.

Report of Independent Auditors

The Board of Directors and Member
The NASDAO Stock Market, LLC and Subsidiaries

We have audited the accompanying consolidated financial statements of The NASDAQ Stock Market, LLC and subsidiaries, which comprise the consolidated balance sheet as of December 31, 2012, and the related consolidated statements of income, comprehensive income, changes in member's equity, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of The NASDAQ Stock Market, LLC and subsidiaries at December 31, 2012, and the consolidated results of their operations and their cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

December 31, 2012

1. Organization and Nature of Operations

The NASDAQ Stock Market LLC, (the "Company," the "Exchange," or "The NASDAQ Stock Market") is a registered national securities exchange in the United States ("U.S.") owned and operated by The NASDAQ OMX Group, Inc., ("NASDAQ OMX" or the "Parent"). The NASDAQ Stock Market is the largest single cash equities securities market in the U.S. in terms of listed companies and in the world in terms of share value traded. As of December 31, 2012, The NASDAQ Stock Market was home to 2,577 listed companies with a combined market capitalization of approximately \$5.2 trillion.

As of December 31, 2012, The NASDAQ Stock Market is the parent of its wholly-owned subsidiaries: The NASDAQ Options Market, LLC ("NASDAQ Options Market") and Norway Acquisition LLC ("Norway"). Norway, a holding company, is the parent company of Nasdaq Execution Services, LLC ("Nasdaq Execution Services" or "NES"), Nasdaq Options Services, LLC ("Nasdaq Options Services"), INET Technology Services, LLC ("INET Technology Services"), and INET Futures Exchange, LLC ("INET Futures Exchange").

NES and NOS are registered broker-dealers with the Securities and Exchange Commission ("SEC") under Section 15(b) of the Securities Exchange Act of 1934. Nasdaq Execution Services currently operates as the routing broker-dealer for affiliate exchanges for sending orders from the affiliate exchanges to other venues for execution in accordance with member order instructions and requirements. Affiliate exchanges include The NASDAQ Stock Market, NASDAQ OMX BX, Inc. ("BX") and NASDAQ OMX PHLX, LLC ("PHLX"). NASDAQ Options Services performs a comparable function to Nasdaq Execution Services with respect to routing of orders from The NASDAQ Options Market, PHLX and BX. INET Technology Services and INET Futures Exchange are currently inactive entities. NES and NOS are distinguished from most broker-dealers in that they are a facility of The NASDAQ Stock Market, which functions as both an exchange and a Self Regulatory Organization ("SRO").

The Company offers trading in cash equity securities, derivatives and exchange traded funds ("ETFs"), on The NASDAQ Stock Market and The NASDAQ Options Market. The Company's transaction-based platforms in the U.S. provide market participants with the ability to access, process, display and integrate orders and quotes for cash equity securities, derivatives and ETFs. The platforms allow the routing and execution of buy and sell orders as well as the reporting of transactions for cash equity securities, derivatives and ETFs, providing fee-based revenues. The Company provides market participants with several alternatives for accessing the Company's markets for a fee. The Company also earns revenues from annual and monthly exchange membership and registration fees.

Notes to Consolidated Financial Statements (continued)

1. Organization and Nature of Operations (continued)

The NASDAO Stock Market operates as the exclusive Securities Information Processor of the Unlisted Trading Privileges Plan ("UTP Plan"), for the collection and dissemination of best bid and offer information and last transaction information from markets that quote and trade in NASDAQ-listed securities. The NASDAQ Stock Market also is a participant in the UTP Plan and shares in the net distribution of revenue according to the plan on the same terms as the other plan participants. In the role as the Securities Information Processor, The NASDAO Stock Market collects and disseminates quotation and last sale information for all transactions in NASDAO-listed securities whether traded on The NASDAO Stock Market or other exchanges. The Company sells this information to market participants and to data distributors, who then provide the information to subscribers. After deducting costs associated with our role as an exclusive Securities Information Processor, as permitted under the revenue sharing provision of the UTP Plan, we distribute the tape revenues to the respective UTP Plan participants, including The NASDAO Stock Market, based on a formula required by Regulation NMS that takes into account both trading and quoting activity. In addition, all quotes and trades in NYSE- and NYSE MKT-listed securities are reported and disseminated in real time, and as such, we share in the tape revenues for information on NYSE- and NYSE MKT-listed securities.

The Company's market data products enhance transparency and provide critical information to professional and non-professional investors. We collect, process and create information and earn revenues as a distributor of our own, as well as select, third party content. We provide varying levels of quote and trade information to market participants and to data distributors, who in turn provide subscriptions for this information. Our systems enable distributors to gain direct access to our market depth, index values, mutual fund valuation, order imbalances, market sentiment and other analytical data. Revenues from U.S. market data products are subscription-based and are generated primarily based on the number of data subscribers and distributors of our data.

Companies listed on The NASDAQ Stock Market represent a diverse array of industries including health care, consumer products, telecommunication services, information technology, financial services, industrials and energy. Companies seeking to list securities on The NASDAQ Stock Market must meet minimum listing requirements, including specified financial and corporate governance criteria. Once listed, companies must meet continued listing standards. The NASDAQ Stock Market currently has three listing tiers: The NASDAQ Global Select Market, The NASDAQ Global Market and The NASDAQ Capital Market. All three market tiers maintain rigorous listing and corporate governance standards (both initial and ongoing). There are three types of fees

Notes to Consolidated Financial Statements (continued)

1. Organization and Nature of Operations (continued)

applicable to companies that list on The NASDAQ Stock Market: an annual renewal fee, a listing of additional shares fees and an initial listing fee. Annual renewal fees for securities listed on The NASDAQ Stock Market are based on total shares outstanding. The fee for listing of additional shares is also based on the total shares outstanding, which we review quarterly, and the initial listing fee for securities listed on The NASDAQ Stock Market includes a listing application fee and a total shares outstanding fee.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The consolidated financial statements, which include the accounts of The NASDAQ Stock Market and its wholly owned subsidiaries, are prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"), as codified in the Accounting Standards Codification ("ASC") and set forth by the Financial Accounting Standards Board ("FASB"). All significant intercompany accounts and transactions have been eliminated in consolidation. The Exchange's significant accounting policies are as follows.

Recently Adopted Accounting Pronouncements

In June 2011, the FASB issued amended guidance relating to ASC 220, Comprehensive Income, which requires entities to report components of comprehensive income in either a single continuous statement of comprehensive income containing two sections, net income and other comprehensive income, or in two separate but consecutive statements. The Exchange adopted this guidance as of January 1, 2012. Consequently, the Exchange presents two separate but consecutive statements presenting the components of comprehensive income. Since this guidance only required a change in the format of the presentation of comprehensive income, it did not affect the Exchange's financial position or results of operations.

In September 2011, the FASB issued amended guidance relating to ASC 350, *Intangibles – Goodwill and Other* ("ASC 350"), which affects all entities that have goodwill reported in the financial statements. The amended guidance permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than the

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

carrying amount as a basis for determining whether it is necessary to perform the two-step quantitative goodwill impairment test described in ASC 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit exceeds its carrying amount, then performing the two-step impairment test is unnecessary. This accounting guidance was effective for the Company on January 1, 2012 with early adoption permitted. The Company adopted this guidance during 2012 and used the qualitative assessment option for our annual goodwill impairment test performed for fiscal 2012. Since this guidance only changed the manner in which we assess goodwill for impairment, it did not affect our financial position or results of operations.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash held in banks and all non-restricted highly liquid investments with original maturities of three months or less at the time of purchase. Cash equivalents are carried at cost plus accrued interest, which approximates fair value due to the short maturities of these investments. At December 31, 2012, the Exchange held no cash equivalents.

Receivables, Net of Reserve for Uncollectible Accounts

Our receivables are concentrated with our member firms, market data distributors, and listed companies. Receivables are shown net of reserves for uncollectible accounts. The reserve for uncollectible accounts is maintained at a level that management believes to be sufficient to absorb estimated losses in the accounts receivable portfolio. The reserve is increased by the provision for bad debts which is charged against operating results and decreased by the amount of charge-offs, net of recoveries. The amount charged against operating results is based on several factors including, but not limited to, a continuous assessment of the collectability of each account, the length of time a receivable is past due and our historical experience with the particular customer. In

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

circumstances where a specific customer's inability to meet its financial obligations is known (i.e., bankruptcy filings), we record a specific provision for bad debts against amounts due to reduce the receivable to the amount we reasonably believe will be collected. Due to changing economic, business and market conditions, we review the reserve for bad debts monthly and make changes to the reserve through the provision for bad debts as appropriate. If circumstances change (i.e., higher than expected defaults or an unexpected material adverse change in a major customer's ability to pay), our estimates of recoverability could be reduced by a material amount. Total reserve for uncollectible accounts netted against receivables on the Consolidated Balance Sheet was \$1.3 million at December 31, 2012.

Property and Equipment, Net

Property and equipment, including leasehold improvements, are carried at cost less allowances for accumulated depreciation and amortization. Depreciation and amortization are generally recognized over the estimated useful lives of the related assets. Depreciation of furniture and fixtures is provided using the straight-line method over ten years. Depreciation of acquired software and equipment is provided using the straight-line method over five years. Depreciation of internally developed software is provided using the straight-line method over 2-5 years. Leasehold improvements are amortized over the shorter of their estimated useful lives or the remaining term of the related lease. See Note 4, "Property and Equipment, net," for further discussion.

We also assess potential impairments to our property and equipment when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of property and equipment is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Any required impairment loss is measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value and is recorded as a reduction in the carrying amount of the related asset and a charge to operating results.

Goodwill

Goodwill represents the excess of purchase price and related costs over the value assigned to the net tangible and identifiable intangible assets of a business acquired. Goodwill is allocated to the reporting units based on the assignment of the fair values of each reporting unit of the acquired company. We are required to test goodwill for impairment at the reporting unit level annually, or in

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

interim periods if certain events occur indicating that the carrying value may be impaired. We test for impairment during the fourth quarter of the fiscal year using carrying amounts as of October 1st. In conducting the 2012 annual impairment test for goodwill, we first performed a qualitative assessment to determine whether it was more likely than not that the fair value of a reporting unit was less than the carrying amount as a basis for determining whether it was necessary to perform the two-step quantitative goodwill impairment test described in ASC 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, we determine that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the two-step quantitative test for goodwill impairment is performed for the appropriate reporting units. Otherwise, we conclude that no impairment is indicated and the two-step quantitative test for goodwill impairment is not performed.

In conducting the initial qualitative assessment, we analyzed actual and projected growth trends, as well as historical performance versus plan and the results of prior quantitative tests performed. Additionally, each reporting unit assesses critical areas that may impact the business, including macroeconomic conditions and the related impact, market related exposures, competitive changes, new or discontinued products, changes in key personnel, or any other potential risks to projected financial results.

If required, the quantitative goodwill impairment test is a two-step process performed at the reporting unit level. First, the fair value of each reporting unit is compared to its corresponding carrying amount, including goodwill. The fair value of each reporting unit is estimated using a combination of a discounted cash flow valuation, which incorporates assumptions regarding future growth rates, terminal values, and discount rates, among other factors. The estimates and assumptions used consider historical performance and are consistent with the assumptions used in determining future profit plans for each reporting unit, which are approved by management. If the first step results in the carrying amount exceeding the fair value of the reporting unit, then a second step must be completed in order to determine the amount of goodwill impairment that should be recorded, if any. In the second step, the implied fair value of the reporting unit's goodwill is determined by allocating the reporting unit's fair value to all of its assets and liabilities other than goodwill in a manner similar to a purchase price allocation. The implied fair value of the goodwill that results from the application of this second step is then compared to the carrying amount of the goodwill and an impairment charge is recorded for any difference.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Intangible Assets, Net of Accumulated Amortization

Intangible assets, net of accumulated amortization, primarily include customer relationships, trade names and technology. Intangible assets with finite lives are amortized on a straight-line basis over their average estimated useful lives as follows:

• Customer relationships: 10-30 years

Technology: 3-5 years

• Other: 2-10 years

The estimated useful life of customer relationships is determined based on an analysis of the historical attrition rates of customers and an analysis of the legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of customer relationships.

The estimated useful life of developed and new technology is based on the likely duration of benefits to be derived from the technology. We consider such factors as the migration cycle for re-platforming existing technologies and the development of future generations of technology. We also give consideration to the pace of the technological changes in the industries in which we sell our products.

For finite-lived intangible assets subject to amortization, impairment is assessed when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recovered. An impairment loss is recognized when the carrying amount of the long-lived asset exceeds its fair value and is not recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset.

Revenue Recognition and Cost of Revenues

Market Services

Cash Equity Trading: Cash equity trading revenues are variable, based on individual customer share volumes, and recognized as transactions occur. We charge transaction fees for executing cash equity trades in NASDAQ-listed and other listed securities on The NASDAQ Stock Market as well as on orders that are routed to other market venues for execution.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

We record execution revenues from transactions on a gross basis in revenues and record related expenses as cost of revenues. Nasdaq Execution Services, LLC, an SEC registered broker-dealer, operates as the Company's routing broker-dealer for sending orders to other venues for execution in accordance with member order instructions and requirements. Cash equity trading revenues are recorded within market services on the Consolidated Statement of Income.

Under our Limitation of Liability Rule and procedures, we, subject to certain caps, provide compensation for losses directly resulting from the systems' actual failure to correctly process an order, quote, message or other data into our platform. We do not record a liability for any potential claims that may be submitted under the Limitation of Liability Rule unless they meet the provisions required in accordance with U.S. GAAP. As such, losses arising as a result of the rule are accrued and charged to expense only if the loss is probable and estimable. The Limitation of Liability Rule and procedures apply to both cash equity and derivative trading in the aggregate. See discussion of derivative trading below.

We credit a portion of the per share execution charge to the market participant that provides the liquidity and record these credits as transaction rebates in the Consolidated Statement of Income. These transaction rebates are paid on a monthly basis and the amounts due are included in accounts payable and accrued expenses in the Consolidated Balance Sheet. Transaction rebates related to cash equity trading were \$757.1 million for the year ended December 31, 2012.

Also, we pay Section 31 fees to the SEC for supervision and regulation of securities markets. We pass these costs along to our customers through our cash equity trading fees. We collect the fees as a pass-through charge from organizations executing eligible trades on The NASDAQ Stock Market platform and we recognize these amounts in brokerage, clearance, and exchange fees on the Consolidated Statement of Income when incurred. Section 31 fees received are included in cash and cash equivalents in the Consolidated Balance Sheet, at the time of receipt and, as required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable to the SEC in the Consolidated Balance Sheet until paid. Since the amount recorded in revenues is equal to the amount recorded in cost of revenues, there is no impact on our revenues less transaction rebates, brokerage, clearance and exchange fees.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Derivative Trading: U.S. derivative trading revenues are variable, based on traded and cleared volumes, and recognized when executed or when contracts are cleared. The principal types of derivative contracts traded on The NASDAQ Options Market are equity options and index options. For The NASDAQ Options Market, we record derivative trading revenues from transactions on a gross basis in revenues and record related expenses as cost of revenues, as we have certain risk associated with trade execution. NASDAQ Options Services operates as the routing broker for The NASDAQ Options Market, NASDAQ OMX PHLX, and NASDAQ OMX BX. Derivative trading revenues are included within market services on the Consolidated Statement of Income.

For derivative trading, we credit a portion of the per contract transaction charge to the market makers and specialists that execute trades with a specific trading strategy and record these credits as transaction rebates on the Consolidated Statement of Income. The Company also provides a transaction charge credit to member organizations who send firm business in excess of monthly volume caps. NASDAQ Options Services, LLC, an SEC registered broker-dealer, operates as the Company's routing broker-dealer for sending exchange-listed option orders from the Company to other venues for execution in accordance with member order instructions and requirements. These transaction rebates are paid on a monthly basis and the amounts due from equity transaction rebates are included in accounts payable and accrued expenses and the amounts due from options transaction rebates are included as a reduction of receivables, net of reserve for uncollectible accounts on the Consolidated Balance Sheet. Transaction rebates relating to derivative trading were \$75.2 million for the year ended December 31, 2012.

Also, we pay Section 31 fees to the SEC for supervision and regulation of securities markets. For options, the fees are billed on a settlement date basis and collected by the Options Clearing Corporation ("OCC"). We pass these costs along to our customers through our derivative trading fees. We collect the fees as a pass-through charge from organizations executing eligible trades on The NASDAQ Options Market platform and we recognize this amount in brokerage, clearance, and exchange fees on the Consolidated Statement of Income when incurred.

As discussed above, our Limitation of Liability Rule and procedures apply to both cash equity and derivative trading in the aggregate. Under this rule, we, subject to certain caps, provide compensation for losses directly resulting from the systems' actual failure to correctly process an order, quote, message or other data into our platform.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Access Services

We generate revenues by providing market participants with several alternatives for accessing our markets for a fee. The type of connectivity is determined by the level of functionality a customer needs. As a result, Access Services revenues vary depending on the type of connection provided to customers. We also earn revenues from annual and monthly exchange membership and registration fees. Revenues for providing access to our markets and revenues for monthly exchange membership and registration fees are recognized on a monthly basis as the service is provided. Revenues from annual fees for exchange membership and registration fees are recognized ratably over the following 12-month period. Access Services revenues are included on the Consolidated Statement of Income within market services.

Net Tape Plans

Revenues from U.S. tape plans include eligible UTP Plan revenues which are shared among UTP Plan participants and are presented on a net basis. Under the revenue sharing provision of the UTP Plan, we are permitted to deduct costs associated with acting as the exclusive Securities Information Processor from the total amount of tape revenues collected. After these costs are deducted from the tape revenues, we distribute to the respective UTP Plan participants, including The NASDAQ Stock Market, their share of tape fees based on a formula, required by Regulation NMS that takes into account both trading and quoting activity. In addition, all quotes and trades in NYSE- and NYSE MKT-listed securities are reported and disseminated in real time, and as such, we share in the tape fees for information on NYSE- and NYSE MKT-listed securities. Revenues from net tape plans are recognized on a monthly basis and are recorded within market services on the Consolidated Statement of Income. See Market Data Revenue Sharing section below for further discussion of net presentation.

Market Data Products

We collect and process information and earn revenues as a distributor of our own market data as well as select third-party content. We provide varying levels of quote and trade information to market participants and to data distributors, who in turn sell subscriptions for this information to the public. We earn revenues primarily based on the number of data subscribers and distributors of our data. U.S. Market Data revenues are recognized on a monthly basis. These revenues, which are

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

subscription based, are recorded net of amounts due under revenue sharing arrangements with market participants and are recorded within market services on the Consolidated Statement of Income.

Market Data Revenue Sharing

The most significant component of Market Data revenues presented on a net basis is the UTP Plan revenue sharing in the U.S. All indicators of gross vs. net reporting under U.S. GAAP have been considered in analyzing the appropriate presentation of UTP Plan revenue sharing. However, the following are the primary indicators of net reporting:

- Primary Obligor: We are the Securities Information Processor for the UTP Plan, in addition to being a participant in the UTP Plan. In our unique role as Securities Information Processor, we facilitate the collection and dissemination of revenues on behalf of the UTP Plan participants. As a participant, we share in the net distribution of revenues according to the plan on the same terms as all other plan participants.
- Risk of Loss/Credit Risk: Risk of loss on the revenue is shared equally among plan participants according to the UTP Plan.
- Price Latitude: The operating committee of the UTP Plan, which is comprised of representatives from each of the participants, including us solely in our capacity as a UTP Plan participant, is responsible for setting the level of fees to be paid by distributors and subscribers and taking action in accordance with the provisions of the UTP Plan, subject to SEC approval.

Listing Services

Listing Services revenues include annual renewal fees, listing of additional shares fees and initial listing fees. Annual renewal fees do not require any judgments or assumptions by management as these amounts are recognized ratably over the following 12-month period. Listing of additional shares fees and initial listing fees are recognized on a straight-line basis over estimated service periods, which are four and six years, respectively, based on our historical listing experience and projected future listing duration.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Other Revenues

Other revenues include income earned from Company affiliates in connection with routing fees charged to other affiliate exchanges, as well as certain transfer pricing arrangements with other affiliated companies. See Note 8, "Related Party Transactions", for further discussion.

Share-Based Compensation

Accounting for share-based compensation requires the measurement and recognition of compensation expense for all equity awards based on estimated fair values. We recognize compensation expense for equity awards on a straight-line basis over the requisite service period of the award. See Note 7, "Share-Based Compensation," for further discussion.

Deferred Revenue

Deferred revenue represents cash payments received that are yet to be recognized as revenue, primarily related to revenue generated in our Listing Services business. See Note 5, "Deferred Revenue," for further discussion.

Advertising Costs

We expense advertising costs, which include media advertising and production costs, in the periods in which the costs are incurred. Media advertising and production costs included as marketing and advertising expense on the Consolidated Statement of Income totaled \$10.5 million in 2012.

Software Costs

Significant purchased application software and operational software that are an integral part of computer hardware are capitalized and amortized on a straight-line basis over their estimated useful lives, generally two to five years. All other purchased software is charged to expense as incurred.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Certain costs incurred in connection with developing or obtaining internal use software are capitalized. Unamortized capitalized software development costs are included in data processing equipment and software, within property and equipment, net on the Consolidated Balance Sheet. Amortization of costs capitalized is included in depreciation and amortization expense in the Consolidated Statement of Income.

Income Taxes

The Exchange's operating results are included in the consolidated federal income tax return and certain state income tax returns filed by NASDAQ OMX. The Exchange also files separate tax returns in certain states. For financial reporting purposes, the provision for income taxes for the Exchange is determined as if the Exchange filed separate returns.

The Exchange uses the asset and liability method to provide income taxes on all transactions recorded in the consolidated NASDAQ OMX financial statements. Deferred tax assets and liabilities are determined based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities (i.e., temporary differences) and are measured at the enacted rates that will be in effect when these differences are realized. If necessary, a valuation allowance is established to reduce deferred tax assets to the amount that is more likely than not to be realized.

In order to recognize and measure our unrecognized tax benefits, management determines whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the recognition thresholds, the position is measured to determine the amount of benefit to be recognized in the consolidated financial statements.

Interest and/or penalties related to income tax matters are recognized in provision for income taxes on the Consolidated Statement of Income. See Note 6, "Income Taxes," for further information.

Notes to Consolidated Financial Statements (continued)

3. Goodwill and Intangible Assets

Goodwill

In 2006, NASDAQ OMX completed an internal reorganization that resulted in the transfer of certain assets and liabilities relating to Nasdaq's acquisition of Inet ATS, Inc. and Brut LLC's trading platforms to the Exchange and its subsidiaries. These assets and liabilities of NASDAQ OMX were transferred as of December 28, 2006 based on the revised operating structure of these entities and resulted in an allocation of goodwill based on the relative fair value of the Company.

At December 31, 2012, goodwill relating to the above reorganization and acquisition was \$929.1 million. In addition, during the year ended December 31, 2012, there were no changes in goodwill. As of December 31, 2012, \$74.7 million of the Company's Goodwill is deductible for tax purposes.

The Exchange completed the required annual impairment test, which determined that goodwill was not impaired for the year ended December 31, 2012. However, events such as economic weakness and unexpected significant declines in operating results may result in goodwill impairment charges in the future. A significant impairment charge in the future could have a material adverse effect on our operating results.

Intangible Assets

The following table presents details of our total purchased intangible assets:

	December 31, 2012							
		Gross Carrying Amount		ccumulated mortization		Net Intangible Assets		
			(II	n thousands)				
Finite-lived intangible assets								
Technology	\$	1,000	\$	(832)	\$	168		
Customer relationships		190,075		(110,279)		79,796		
Other		275		(275)		_		
Total finite-lived intangible assets		191,350		(111,386)		79,964		
Total intangible assets	\$	191,350	\$	(111,386)	\$	79,964		

Notes to Consolidated Financial Statements (continued)

3. Goodwill and Intangible Assets (continued)

For the year ended December 31, 2012, no impairment was recorded with respect to finite-lived intangible assets.

Amortization expense for purchased finite-lived intangible assets was \$15.5 million for the year ended December 31, 2012.

The estimated future amortization expense of purchased intangible assets as of December 31, 2012 is as follows (in thousands):

2013	\$ 15,362
2014	14,344
2015	12,644
2016	12,644
2017	12,644
2018 and thereafter	 12,326
Total	\$ 79,964

4. Property and Equipment, Net of Accumulated Depreciation

The following table presents the Exchange's major categories of property and equipment, net:

	December 31, 2012
	(In thousands)
Data processing equipment and software Capitalized Software Development	\$ 81,791 75,954
Furniture, equipment and leasehold improvements	31,093 188,838
Less: accumulated depreciation and amortization Total property and equipment, net	\$\frac{(126,537)}{\\$62,301}

Notes to Consolidated Financial Statements (continued)

4. Property and Equipment, Net of Accumulated Depreciation (continued)

The Exchange follows the provisions of ASC 350-40, *Internal-Use Software*, which requires entities to capitalize direct internal and external costs that meet certain capitalization criteria. Accordingly, the Exchange capitalized \$16.1 million of costs during the year ended December 31, 2012, included in property and equipment, net of accumulated depreciation on the Consolidated Balance Sheet. At December 31, 2012, unamortized capitalized software development was \$27.9 million.

For the year ended December 31, 2012, capitalized software amortization expense was \$2.8 million, while total depreciation expense relating to property and equipment was \$13.3 million. These amounts are included in depreciation and amortization expense on the Consolidated Statement of Income. At December 31, 2012, amortized capitalized software development was \$12.9 million.

5. Deferred Revenue

At December 31, 2012, we estimate that our deferred revenues, which are primarily related to Listing Services, will be recognized in the following years:

	 Initial Listing Fees	A	isting of dditional ares Fees	Li	Annual stings and ther Fees	Total
			(In the	ousa	nds)	
Fiscal year ended:						
2013	\$ 10,986	\$	35,820	\$	1,936	\$ 48,742
2014	8,382		24,333		_	32,715
2015	7,288		13,423			20,711
2016	5,221		4,567		_	9,788
2017	2,829		-		_	2,829
2018 and thereafter	 886				-	886
	\$ 35,592	\$	78,143	\$	1,936	\$ 115,671

Notes to Consolidated Financial Statements (continued)

5. Deferred Revenue (continued)

The changes in our deferred revenue during the year ended December 31, 2012 is reflected in the following table.

	Initial Listing Fees	A	Listing of dditional nares Fees		Annual istings and Other Fees	Total
			(In tho	usa	nds)	
Balance at January 1, 2012	\$ 39,069	\$	86,018	\$	2,110	\$ 127,197
Additions	10,589		31,334		117,403	159,326
Amortization	 (14,066)		(39,209)		(117,577)	 (170,852)
Balance at December 31, 2012	\$ 35,592	\$	78,143	\$	1,936	\$ 115,671

6. Income Taxes

The Company's operating results are included in the consolidated federal income tax return and certain state income tax returns filed by NASDAQ OMX. For financial reporting purposes, the provision for income taxes for the Exchange is determined as if the Exchange filed separate returns.

The income tax provision consists of the following amounts:

	Year Ended December 31, 2012
	(In thousands)
Current income taxes: Federal State Total current income taxes	\$ 93,025 26,698 119,723
Deferred income taxes: Federal State	5,409 3,541
Total deferred income taxes Total income tax provision	8,950 \$ 128,673

Notes to Consolidated Financial Statements (continued)

6. Income Taxes (continued)

A reconciliation of the U.S. federal statutory rate to the Company's effective tax rate for the year ended December 31, 2012 is as follows:

	Year Ended December 31, 2012
U.S. federal income tax rate	35.0%
State and local income tax rate, net of federal effect	6.5
Nondeductible expenses	1.2
Other	0.8
Effective tax rate	43.5%

The temporary differences, which give rise to our deferred tax assets and (liabilities) consisted of the following:

	December 31, 2012	
	(In thousands)	
Deferred tax assets: Deferred revenues Compensation and benefits	\$ 30,655 11,225	
Provision for bad debts Gross deferred tax assets	<u>562</u> 42,442	
Deferred tax liabilities: Amortization of software development costs Amortization of acquired intangible assets Depreciation and amortization Compensation and benefits Gross deferred tax liabilities	(11,460) (30,427) (37,088) (8,587) (87,562)	
Net deferred tax assets (liabilities) before valuation allowance	(45,120)	
Less: valuation allowance Net deferred tax liabilities	\$ (45,120)	

Notes to Consolidated Financial Statements (continued)

6. Income Taxes (continued)

As of December 31, 2012, we had \$7.4 million of unrecognized tax benefits of which \$7.4 million would affect tax expense if recognized.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

Balance at January 1, 2012	\$ 4,274
Changes:	
Additions from tax positions taken in current period	871
Additions from tax positions taken in prior period	2,210
Balance at December 31, 2012	\$ 7,355

The Company's operating results are included in the federal income tax return and certain state income tax returns filed by NASDAQ OMX. NASDAQ OMX and its eligible subsidiaries file a consolidated U.S. federal income tax return and applicable state and local income tax returns. Federal income tax returns for the years 2007 through 2010 are currently under audit by the Internal Revenue Service and we are subject to examination for 2011. Several state tax returns are currently under examination by the respective tax authorities for the years 2005 through 2010 and we are subject to examination for 2011.

At December 31, 2012, the Company has accrued \$0.2 million for interest and/or penalties related to income tax matters.

For income tax purposes, the Company is disregarded as an entity separate from its owner, NASDAQ OMX. NASDAQ OMX is the filing entity for the federal income tax return and all significant state income tax returns. The current income tax liabilities and receivables of the Company are accrued as a component of related party payables and receivables, respectively. These related party balances are periodically settled.

7. Share-Based Compensation

The Exchange is part of a share-based compensation program that provides NASDAQ OMX's Board of Directors broad discretion in creating employee equity incentives. As such, share-based compensation is allocated to us from NASDAQ OMX. Share-based awards, or equity awards, granted under this program include stock options, restricted stock and Performance Stock Units ("PSUs").

Notes to Consolidated Financial Statements (continued)

7. Share-Based Compensation (continued)

Restricted stock is generally time-based and vests over three- to five-year periods beginning on the date of the grant. Stock options are also generally time-based and expire ten years from the grant date. Stock option and restricted stock awards generally include performance-based accelerated vesting features based on achievement of specific NASDAQ OMX corporate performance. If NASDAQ OMX exceeds the applicable performance parameters, the grants vest on the third anniversary of the grant date, if NASDAQ OMX meets the applicable performance parameters, the grants vest on the fourth anniversary, and if NASDAQ OMX does not meet the applicable performance parameters, the grants extend to vest on the fifth anniversary of the grant date.

PSUs are based on performance measures that impact the amount of shares that each recipient will receive upon vesting. PSUs are granted at the fair market value of NASDAQ OMX stock on the grant date and compensation cost is recognized over the performance period and, in certain cases, an additional vesting period. For each grant of PSUs, an employee may receive from 0% to 150% of the target amount granted, depending on the achievement of performance measures. We report the target number of PSUs granted, unless we have determined that it is more likely than not, based on the actual achievement of performance measures, that an employee will receive a different amount of shares underlying the PSUs, in which case we report the amount of shares the employee is likely to receive.

The following table shows the total share-based compensation expense allocated to the Company through an intercompany transaction from NASDAQ OMX resulting from equity awards for the year ended December 31, 2012 included in compensation and benefits on the Consolidated Statement of Income:

	Year Ended December 31, 2012	
	(In	thousands)
Share-based compensation expense before income taxes Income tax benefit	\$	12,476 (5,096)
Total share-based compensation expense after income taxes	\$	7,380

At December 31, 2012, \$1.7 million of total unrecognized compensation cost related to stock options is expected to be recognized over a weighted-average period of 1.2 years.

Notes to Consolidated Financial Statements (continued)

7. Share-Based Compensation (continued)

At December 31, 2012, \$18.9 million of total unrecognized compensation cost related to restricted stock and PSUs are expected to be recognized over a weighted-average period of 1.7 years.

8. Related Party Transactions

The Company engages in transactions with the Parent. Third party revenues earned by the Company are collected on its behalf by the Parent resulting in receivables from affiliated companies. Such revenues include income earned from Company affiliates in connection with routing fees charged to other affiliate exchanges, as well as certain transfer pricing arrangements with other affiliated companies.

NES and NOS operate solely as the routing broker dealers for the Exchange and BX and PHLX, affiliated entities of EXCH. Under separate service agreements, the Exchange, BX and PHLX agree to pay a fee per share for routing orders related to securities. Revenue is recognized as earned, and is allocated through an intercompany account. Additionally, expenses incurred by the Company are settled on its behalf by the Parent or the Parent's other subsidiaries and allocated through intercompany charges resulting in payables to affiliated companies.

The Company and its Parent and affiliates share certain services such as accounting, finance, legal, and other administrative support. Expenses related to these shared services are allocated to the Company and its affiliates through intercompany charges based on an allocation model. These expenses represent amounts related to the Company's proportionate share of each expense incurred. In addition, certain transfer pricing arrangements are established with certain affiliates related to the shared services. The transfer pricing arrangements utilize a "cost plus" model whereby costs incurred by the Company on behalf of these foreign affiliates are charged back on a "cost plus" basis. The Company allocated out \$13 million in expenses for the year ended December 31, 2012, as revenues recognized, and is included in other revenue on the Consolidated Statement of Income.

Occupancy costs are based on leases and adjusted for allocations to/from NASDAQ OMX based on a corporate allocation model based on usage by entity. The Company was allocated \$24.8 million in expenses for the year ended December 31, 2012, which is included in occupancy on the Consolidated Statement of Income.

Notes to Consolidated Financial Statements (continued)

8. Related Party Transactions (continued)

A Regulatory Services Agreement exists between the Company, NASDAQ OMX PHLX, LLC, and NASDAQ OMX BX Inc. that allows one Self-Regulatory Organization (SRO) to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

At December 31, 2012, the Company is owed by NASDAQ OMX \$156.8 million in related party receivables, net of related party payables, which is included in receivables from affiliated companies in the Consolidated Balance Sheet. The net receivable or payable from these activities is periodically settled.

9. Fair Value of Financial Instruments

The Company considers cash and cash equivalents; receivables, net of reserve for uncollectible accounts; receivables from affiliated companies, net; other assets; accounts payable and accrued expenses, Section 31 fees payable to SEC, and accrued personnel costs to be its financial instruments. The carrying amounts reported on the Consolidated Balance Sheet for the Company's financial instruments closely approximate their fair values due to the short-term nature of these assets and liabilities.

10. Risks and Uncertainties

Our market participants operate in a highly regulated industry. The SEC and other regulatory authorities could impose regulatory changes that could adversely impact the ability of our market participants to use our markets. Regulatory changes by the SEC or other regulatory authorities could result in the loss of a significant number of market participants or a reduction in trading activity on the exchange.

The markets in which we compete are characterized by rapidly changing technology, evolving industry standards, frequent enhancements to existing products and services, the adoption of new services and products and changing customer demands. We may not be able to keep up with rapid technological and other competitive changes affecting our industry. For example, we must continue to enhance our electronic trading platforms to remain competitive, and our business will be negatively affected if our electronic trading platforms fail to function as expected. If we are unable to develop our electronic trading platforms to include other products and markets, or if our

Notes to Consolidated Financial Statements (continued)

10. Risks and Uncertainties (continued)

electronic trading platforms do not have the required functionality, performance, capacity, reliability and speed required by our business, as well as by our customers, we may not be able to compete successfully. Further, our failure to anticipate or respond adequately to changes in technology and customer preferences, especially in our market technology business, or any significant delays in product development efforts, could have a material adverse effect on our business, financial condition and operating results.

The Exchange is exposed to credit risk related to transaction, access, and market data services that are billed to customers on a monthly basis, in arrears. The Exchange's potential exposure to credit losses on these transactions is represented in the receivables, net of reserve for uncollectible accounts balance on the Consolidated Balance Sheet. The Exchange's customers are financial institutions whose ability to satisfy their contractual obligations may be impacted by volatile securities markets. On an ongoing basis, management reviews and evaluates changes in the status of the counterparty's creditworthiness. Credit losses such as those described above could adversely affect the Exchange's consolidated financial position and results of operations.

Our business is subject to extensive regulation. Under current U.S. federal securities laws, changes in the rules and operations of our markets, including our pricing structure, must be reviewed and in many cases explicitly approved by the SEC. The SEC may approve, disapprove, or recommend changes to proposals that we submit. In addition, the SEC may delay either the approval process or the initiation of the public comment process. Any delay in approving changes, or the altering of any proposed change, could have an adverse effect on our business, financial condition and operating results. We must compete not only with ATSs, known collectively as dark pools, that are not subject to the same SEC approval process but also with other exchanges that may have lower regulation and surveillance costs than us. There is a risk that trading will shift to exchanges that charge lower fees because, among other reasons, they spend significantly less on regulation.

11. Commitments, Contingencies and Guarantees

Brokerage Activities

NES and NOS, as registered broker- dealers, are subject to regulatory requirements intended to ensure their general financial soundness and liquidity. These requirements obligate NES and NOS to comply with minimum net capital requirements. NES and NOS are subject to the SEC's

Notes to Consolidated Financial Statements (continued)

11. Commitments, Contingencies and Guarantees (continued)

Uniform Net Capital Rule 15c3-1. At December 31, 2012 NES was required to maintain minimum net capital of \$0.3 million and had total net capital of approximately \$10.9 million, or \$10.6 million in excess of the minimum amount required. At December 31, 2012, NOS also was required to maintain minimum net capital of \$0.3 million and had total net capital of approximately \$3.4 million, or \$3.1 million in excess of the minimum amount required. Additionally, NOS is subject to Rule 302 of The Options Clearing Corporation ("OCC") which requires maintenance of net capital equal to the greater of \$2.0 million or 6 2/3 percent of aggregate indebtedness. At December 31, 2012, NOS had \$1,411,018 of net capital in excess of this OCC minimum requirement.

Nasdaq Execution Services and NASDAQ Options Services provide guarantees to securities clearinghouses and exchanges under their standard membership agreements, which require members to guarantee the performance of other members. If a member becomes unable to satisfy its obligations to a clearinghouses or exchange, other members would be required to meet its shortfalls. To mitigate these performance risks, the exchanges and clearinghouses often require members to post collateral as well as meet certain minimum financial standards. Nasdaq Execution Services' and NASDAQ Options Services' maximum potential liability under these arrangements cannot be quantified. However, we believe that the potential for Nasdaq Execution Services and NASDAQ Options Services to be required to make payments under these arrangements is unlikely. Accordingly, no contingent liability is recorded in the Consolidated Balance Sheet for these arrangements.

Regulatory Matters

Self- Regulatory Organizations ("SRO") in the securities industry are an essential component of the regulatory scheme of the Securities Exchange Act of 1934 (the "Exchange Act"), for providing fair and orderly markets and protecting investors. The Exchange Act and the rules thereunder impose on the SROs many regulatory and operational responsibilities, including the day-to-day responsibilities for market and broker-dealer oversight. In general, an SRO is responsible for regulating its members through the adoption and enforcement of rules and regulations governing the business conduct of its members. A Regulatory Services Agreement exists between PHLX, The NASDAQ Stock Market, LLC, and NASDAQ OMX BX Inc. that allows one SRO to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

Notes to Consolidated Financial Statements (continued)

11. Commitments, Contingencies and Guarantees (continued)

The Exchange is subject to SEC oversight, as prescribed by the Exchange Act, including periodic and special examinations by the SEC. The Exchange is also potentially subject to regulatory or legal action by the SEC or other interested parties at any time in connection with alleged regulatory violations. The Exchange is also subject to Section 17 of the Exchange Act, which imposes record-keeping requirements, including the requirement to make records available to the SEC for examination. We have been subject to a number of routine reviews and inspections by the SEC or other third parties in the ordinary course and in connection with settlements with the SEC. To the extent such actions or reviews and inspections result in regulatory or other changes, we may be required to modify the manner in which we conduct our business, which may adversely affect our business.

FINRA provides regulatory services to the markets operated or regulated by the Exchange, including the regulation of trading activity and surveillance and investigative functions. We have a limited direct regulatory role in conducting real-time market monitoring, options surveillance, rulemaking and some membership functions through the Exchange's MarketWatch department. We refer suspicious trading behavior discovered by our regulatory staff and all other employees of the markets operated or regulated by the Exchange to FINRA for further investigation.

Litigation

In the second quarter of 2012, we became a party to several legal and regulatory proceedings relating to the Facebook Inc. ("Facebook") IPO that occurred on May 18, 2012. We are defendants in the following putative class actions in the United States District Court for the Southern District of New York: Goldberg, et al. v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, Yan v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, Alfonso, et al. v. The NASDAQ Stock Market LLC and The NASDAQ OMX Group, Inc., Levy v. The NASDAQ Stock Market LLC and The NASDAQ OMX Group, Inc., Amin v. The NASDAQ Stock Market LLC and The OMX Group, Inc., Steinman v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, Roderick v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, McGinty v. NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, Zack v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, Eagan v. The NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC, and First New York Securities LLC, et al. v. NASDAQ OMX Group, Inc. and The NASDAQ Stock Market LLC. Ten of these lawsuits have been brought by retail investors seeking damages for alleged negligence by

Notes to Consolidated Financial Statements (continued)

11. Commitments, Contingencies and Guarantees (continued)

us in connection with the Facebook IPO. The eleventh lawsuit was brought by professional proprietary trading firms for alleged violations of Rule 10b-5, promulgated under the Securities Exchange Act of 1934, in connection with the Facebook IPO.

We are a defendant in three other lawsuits brought by individual investors, seeking damages for alleged negligence and fraud by us in connection with the Facebook IPO.

We also received a demand letter from a member organization, seeking indemnification for alleged losses associated with the Facebook IPO. No complaint has been filed in this matter.

We believe that these lawsuits and the demand are without merit and intend to defend them vigorously. As such, we have not recorded a reserve as it is not probable that a liability has been incurred and the amount of loss cannot be reasonably estimated as of the date of these consolidated financial statements.

In connection with the Facebook matter, the New York Regional Office of the SEC's Division of Enforcement is conducting an investigation. To date, we have been responding to requests for information, documentation, and witness interviews, and have been cooperating fully in the investigation. We are unable to predict the outcome of this investigation, or its potential impact on us.

Except as disclosed above, we are not currently a party to any litigation or proceeding that we believe could have a material adverse effect on our business, consolidated financial condition, or operating results. However, from time to time, we have been threatened with, or named as a defendant in, lawsuits or involved in regulatory proceedings.

Reserve for SEC Matter

In connection with the initial public offering by Facebook on May 18, 2012, systems issues were experienced at the opening of trading of Facebook shares. In May 2013, the SEC finalized the amount of the penalty at \$10 million. The Company has recorded a reserve for \$10 million within general, administrative and other expenses on the Consolidated Statement.

Notes to Consolidated Financial Statements (continued)

12. Subsequent Events

Voluntary Accommodation Program

In connection with the initial public offering by Facebook on May 18, 2012, systems issues were experienced at the opening of trading of Facebook shares. We have announced a one-time program for voluntary accommodations to qualifying members of up to \$62 million, for which a liability has been recorded as this program was approved by the SEC in March 2013. This program expands the pool available for qualified losses arising directly from the system issues. On May 29, 2013, we reached a settlement with the SEC to accommodate our investors.

The Exchange has evaluated subsequent events through the date the consolidated financial statements were available to be issued and has determined that there are no other known events that require disclosure in the consolidated financial statements or accompanying notes in accordance with ASC 855, Subsequent Events.
