Report of Independent Auditors

The Board of Directors and Member NASDAQ OMX PHLX LLC and Subsidiaries

We have audited the accompanying consolidated financial statements of NASDAQ OMX PHLX LLC and subsidiaries, which comprise the consolidated balance sheet as of December 31, 2012, and the related consolidated statements of income, comprehensive income, changes in member's equity, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of NASDAQ OMX PHLX LLC and subsidiaries at December 31, 2012, and the consolidated results of their operations and their cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

December 31, 2012

1. Organization and Operations

The NASDAQ OMX PHLX LLC (the "Exchange" or "PHLX"), formerly known as NASDAQ OMX PHLX, Inc. and the Philadelphia Stock Exchange, Inc., is a registered national securities exchange in the United States ("U.S.") owned and operated by The NASDAQ OMX Group, Inc. ("NASDAQ OMX" or the "Parent"). The Exchange provides facilities for the trading of equity option, index option, and foreign currency option products for its members. In addition, the Exchange operates PSX, a cash equities market that utilizes a price-size priority model.

On November 6, 2007, the Exchange entered into a definitive agreement to be acquired by NASDAQ OMX. The transaction, which was approved by the Parent's shareholders, closed on July 24, 2008, for purchase consideration totaling \$707.5 million.

On September 1, 2010, PHLX converted from a Delaware corporation to a Delaware Limited Liability Company. At the time, the Parent and the PHLX Member Voting Trust each held limited liability interests in the Exchange. On April 25, 2011, the Limited Liability Company Agreement was amended to remove the Trust, with retroactive application to the conversion date. Consequently, the Parent is the sole member of the Exchange, and holds all of the Exchange's limited liability interests.

The Exchange's wholly owned subsidiaries include the Stock Clearing Corporation of Philadelphia ("SCCP") and the NASDAQ OMX Futures Exchange, Inc. ("NFX") (formerly the Philadelphia Board of Trade, Inc.). Pursuant to a 1997 Securities and Exchange Commission ("SEC") order, the Exchange, SCCP, National Securities Clearing Corporation ("NSCC"), and Depository Trust Company ("DTC") entered into an agreement whereby SCCP provided limited clearing services for its participants. SCCP's limited clearing services were facilitated through an omnibus account with the NSCC and did not include the maintenance or offering of continuous net settlement accounts for its participants. SCCP ceased clearing operations on December 31, 2008. The Exchange and SCCP are subject to regulatory oversight by the SEC. SCCP is currently an inactive entity.

NFX is subject to regulatory oversight by the Commodity Futures Trading Commission, an independent agency with the mandate to regulate commodity futures and options markets in the U.S. NFX operates as a designated contract market, which allows NFX to list and trade various futures contracts. NFX also engages in the distribution of market data products, including futures trading market data and sector index spot and settlement values data.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements, which include the accounts of PHLX and its wholly owned subsidiaries, are prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP"), as codified in the Accounting Standards Codification ("ASC") and set forth by the Financial Accounting Standards Board ("FASB"). All significant intercompany accounts and transactions have been eliminated in consolidation. The Exchange's significant accounting policies are as follows.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and the disclosures of contingent amounts in the consolidated financial statements and accompanying notes. Management believes that the estimates utilized in preparing its consolidated financial statements are reasonable and prudent. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash held in banks and all non-restricted highly liquid investments with original maturities of three months or less at the time of purchase. Cash equivalents are carried at cost plus accrued interest, which approximates fair value due to the short term maturities of these investments. At December 31, 2012, the Exchange held no cash equivalents.

Revenue Recognition

Transaction Services

Cash Equity Trading: Cash equity trading revenues are variable, based on individual customer share volumes, and recognized as transactions occur. We charge transaction fees for executing cash equity trades in NASDAQ-listed and other listed securities on PSX as well as on orders that are routed to other market venues for execution.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

We record execution revenues from transactions on a gross basis in revenues and record related expenses as cost of revenues. Nasdaq Execution Services, LLC, an SEC registered broker-dealer and wholly owned subsidiary of NASDAQ OMX, operates as PSX's routing broker-dealer for sending orders to other venues for execution in accordance with member order instructions and requirements. Cash equity trading revenues are recorded within transaction services on the Consolidated Statement of Income.

Under our Limitation of Liability Rule and procedures, we, subject to certain caps, provide compensation for losses directly resulting from the systems' actual failure to correctly process an order, quote, message or other data into our platform. We do not record a liability for any potential claims that may be submitted under the Limitation of Liability Rule unless they meet the provisions required in accordance with U.S. GAAP. As such, losses arising as a result of the rule are accrued and charged to expense only if the loss is probable and estimable. The Limitation of Liability Rule and procedures apply to both cash equity and derivative trading in the aggregate. See discussion of derivative trading below.

We credit a portion of the per share execution charge to the market participant that provides the liquidity and record these credits as transaction rebates on the Consolidated Statement of Income. These transaction rebates are paid on a monthly basis and the amounts due are included in accounts payable and accrued expenses on the Consolidated Balance Sheet. Transaction rebates related to cash equity trading were \$39.9 million for the year ended December 31, 2012.

Also, we pay Section 31 fees to the SEC for supervision and regulation of securities markets. For equities, the fees are billed on a settlement date basis and collected by the NSCC. We pass these costs along to our customers through our cash equity trading fees. We collect the fees as a pass-through charge from organizations executing eligible trades on the PSX platform and we recognize these amounts in brokerage, clearance, and exchange fees on the Consolidated Statement of Income when incurred. Section 31 fees received are included in Payable to affiliated companies, net on the Consolidated Balance Sheet, at the time of receipt and, as required by law, the amount due to the SEC is remitted semiannually and recorded within Section 31 fees payable to the SEC on the Consolidated Balance Sheet until paid. Since the amount recorded in revenues is equal to the amount recorded in cost of revenues, there is no impact on our revenues less transaction rebates, brokerage, clearance and exchange fees.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Derivative Trading: Derivative trading revenues are variable, based on traded and cleared volumes, and recognized when executed or when contracts are cleared. The principal types of derivative contracts traded on PHLX are equity options and index options. For PHLX, we record derivative trading revenues from transactions on a gross basis in revenues and record related expenses as cost of revenues, as we have certain risk associated with trade execution. Derivative trading revenues are included within transaction services on the Consolidated Statement of Income.

For derivative trading, we credit a portion of the per contract transaction charge to the market makers and specialists that execute trades with a specific trading strategy and record these credits as transaction rebates on the Consolidated Statement of Income. PHLX also provides a transaction charge credit to member organizations who send firm business in excess of monthly volume caps. NASDAQ Options Services, LLC, an SEC registered broker-dealer and wholly owned subsidiary of NASDAQ OMX, operates as PHLX's routing broker-dealer for sending exchange-listed option orders from PHLX to other venues for execution in accordance with member order instructions and requirements. These transaction rebates are paid on a monthly basis and the amounts due from equity transaction rebates are included in accounts payable and accrued expenses and the amounts due from options transaction rebates are included as a reduction of receivables, net of reserve for uncollectible accounts on the Consolidated Balance Sheet. Transaction rebates related to derivative trading were \$171.8 million for the year ended December 31, 2012.

Also, we pay Section 31 fees to the SEC for supervision and regulation of securities markets. For options, the fees are billed on a settlement date basis and collected by the Options Clearing Corporation ("OCC"). We pass these costs along to our customers through our derivative trading fees. We collect the fees as a pass-through charge from organizations executing eligible trades the PHLX platform and we recognize this amount in brokerage, clearance, and exchange fees on the Consolidated Statement of Income when incurred. Section 31 fees received are included in Payable to affiliated companies, net on the Consolidated Balance Sheet, at the time of receipt and, as required by law, the amount due to the SEC is remitted semiannually and recorded as Section 31 fees payable to the SEC on the Consolidated Balance Sheet until paid. Since the amount recorded in revenues is equal to the amount recorded in cost of revenues, there is no impact on our revenues less transaction rebates, brokerage, clearance and exchange fees.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

As discussed above, our Limitation of Liability Rule and procedures apply to both cash equity and derivative trading in the aggregate. Under this rule, we, subject to certain caps, provide compensation for losses directly resulting from the systems' actual failure to correctly process an order, quote, message or other data into our platform.

Access Services

The Exchange generates revenues by providing market participants with several alternatives for accessing our markets for a fee. The type of connectivity is determined by the level of functionality a customer needs. As a result, access services revenues vary depending on the type of connection provided to customers. Access services revenues primarily includes port fees, trading post rental fees, and trading and permit fees. Access services revenues are recognized on a monthly basis as the service is provided, and are included within access services revenues on the Consolidated Statement of Income.

Market Data

Market data revenues include options security price data revenue and equity market data revenue. Security price data revenue includes distributions from the Exchange's participation in the Options Price Reporting Authority. Market data revenue includes revenues earned from the Exchange's participation in the Consolidated Tape A and B plans, as well as NFX's market data revenue from the sale of the Exchange's data associated with the current and closing index spot values and the settlement values for various indices. Market data revenue is recognized on a monthly basis, and is included within market data revenues on the Consolidated Statement of Income.

Other

Other revenues are primarily composed of regulatory fees, which include fines and examination fees from parties that are members of the Exchange. Other revenues also include revenues associated with the licensing of proprietary index option products. Fines are recognized as they are assessed to the member.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Receivables, Net of Reserve for Uncollectible Accounts

The Exchange's receivables are primarily related to monthly transaction fees and member fees. Receivables are shown net of reserves for uncollectible accounts. The reserve for uncollectible accounts is maintained at a level that management believes to be sufficient to absorb estimated losses in the accounts receivable portfolio. The reserve is increased by the provision for bad debts which is charged against operating results and decreased by the amount of charge-offs, net of recoveries. The amount charged against operating results is based on several factors including. but not limited to, a continuous assessment of the collectability of each account, the length of time a receivable is past due and the Exchange's historical experience with the particular customer. In circumstances where a specific customer's inability to meet its financial obligations is known (i.e., bankruptcy filings), PHLX records a specific provision for bad debts against amounts due to reduce the receivable to the amount PHLX reasonably believes will be collected. Due to changing economic, business and market conditions, management reviews the reserve for bad debts monthly and makes changes to the reserve through the provision for bad debts as appropriate. If circumstances change (i.e., higher than expected defaults or an unexpected material adverse change in a major customer's ability to pay), the Exchange's estimates of recoverability could be reduced by a material amount. The total reserve for uncollectible accounts netted against receivables on the Consolidated Balance Sheet was de minimis at December 31, 2012.

Property and Equipment, Net of Accumulated Depreciation

Property and equipment, including leasehold improvements, are carried at cost less allowances for accumulated depreciation and amortization. Depreciation of furniture and fixtures is provided using the straight-line method over ten years. Depreciation of acquired software and equipment is provided using the straight-line method over five years. Depreciation of internally developed software is provided using the straight-line method over two to five years. Leasehold improvements are amortized over the lesser of the lease term or ten years.

We also assess potential impairments to our property and equipment when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of property and equipment is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Any required impairment loss is measured as the amount by which the carrying amount of a long-lived asset exceeds its fair value and is recorded as a reduction in the carrying amount of the related asset and a charge to operating results.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Recently Adopted Accounting Pronouncements

In June 2011, the FASB issued amended guidance relating to ASC 220, Comprehensive Income ("ASC 220"), which requires entities to report components of comprehensive income in either a single continuous statement of comprehensive income containing two sections, net income and other comprehensive income, or in two separate but consecutive statements. The Exchange adopted this guidance as of January 1, 2012. Consequently, the Exchange presents two separate but consecutive statements presenting the components of comprehensive income. Since this guidance only required a change in the format of the presentation of comprehensive income, it did not affect the Exchange's financial position or results of operations.

In September 2011, the FASB issued amended guidance relating to ASC 350, Intangibles – Goodwill and Other ("ASC 350"), which affects all entities that have goodwill reported in the financial statements. The amended guidance permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than the carrying amount as a basis for determining whether it is necessary to perform the two-step quantitative goodwill impairment test described in ASC 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, an entity determines that it is more likely than not that the fair value of a reporting unit exceeds its carrying amount, then performing the two-step impairment test is unnecessary. This accounting guidance was effective for the Exchange on January 1, 2012 with early adoption permitted. We adopted this guidance during 2012 and used the qualitative assessment option for our annual goodwill impairment test performed for fiscal 2012. Since this guidance only changed the manner in which we assess goodwill for impairment, it did not affect our financial position or results of operations.

In July 2012, the FASB issued amended guidance relating to ASC 350, which permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with ASC 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events and circumstances, an entity concludes that it is not more likely than not that the indefinite-lived intangible asset is impaired, then no further action is required. This accounting guidance was effective for the Exchange on January 1, 2013 with early adoption permitted.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

We adopted this guidance during 2012 and used the qualitative assessment option for our annual indefinite-lived intangible asset impairment test performed for fiscal year 2012. Since this guidance only changed the manner in which we assess indefinite-lived intangible assets for impairment, it did not affect our financial position or results of operations.

Goodwill

Goodwill represents the excess of purchase price over the value assigned to the net tangible and identifiable intangible assets of a business acquired. Goodwill is allocated to our reporting units based on the assignment of the fair values of each reporting unit of the acquired company. We are required to test goodwill for impairment at the reporting unit level annually, or in interim periods if certain events occur indicating that the carrying amount may be impaired. We test for impairment during the fourth quarter of our fiscal year using carrying amounts as of October 1. In conducting the 2012 annual impairment test for goodwill, we first performed a qualitative assessment to determine whether it was more likely than not that the fair value of a reporting unit was less than the carrying amount as a basis for determining whether it was necessary to perform the two-step quantitative goodwill impairment test described in ASC 350. The more-likely-thannot threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, we determine that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the two-step quantitative test for goodwill impairment is performed for the appropriate reporting units. Otherwise, we conclude that no impairment is indicated and the two-step quantitative test for goodwill impairment is not performed.

We utilized the qualitative assessment option for our annual goodwill impairment test performed for fiscal 2012. In conducting the initial qualitative assessment, we analyzed actual and projected growth trends, as well as historical performance versus plan and the results of prior quantitative tests performed. Additionally, we assessed critical areas that may impact the business, including macroeconomic conditions and the related impact, market related exposures, competitive changes, new or discontinued products, changes in key personnel, or any other potential risks to projected financial results.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

If required, the quantitative goodwill impairment test is a two-step process performed at the reporting unit level. First, the fair value of each reporting unit is compared to its corresponding carrying amount, including goodwill. The fair value of each reporting unit is estimated using a combination of a discounted cash flow valuation, which incorporates assumptions regarding future growth rates, terminal values, and discount rates, among other factors. The estimates and assumptions used consider historical performance and are consistent with the assumptions used in determining future profit plans for each reporting unit, which are approved by management. If the first step results in the carrying amount exceeding the fair value of the reporting unit, then a second step must be completed in order to determine the amount of goodwill impairment that should be recorded, if any. In the second step, the implied fair value of the reporting unit's goodwill is determined by allocating the reporting unit's fair value to all of its assets and liabilities other than goodwill in a manner similar to a purchase price allocation. The implied fair value of the goodwill that results from the application of this second step is then compared to the carrying amount of the goodwill and an impairment charge is recorded for any difference.

Intangible Assets, Net of Accumulated Amortization

Intangible assets, net of accumulated amortization, primarily include exchange and futures registrations, customer relationships, trade names, and technology. The exchange and futures registrations and trade names have indefinite lives. Intangible assets with finite lives, such as customer relationships and technology, are amortized on a straight-line basis over their average estimated useful lives as follows:

Customer relationships: 10-30 years

Technology: 3-5 years

Other: 2-10 years

The estimated useful life of customer relationships is determined based on an analysis of the historical attrition rates of customers and an analysis of the legal, regulatory, contractual, competitive, economic, or other factors that limit the useful life of customer relationships.

The estimated useful life of developed and new technology is based on the likely duration of benefits to be derived from the technology. We consider such factors as the migration cycle for re-platforming existing technologies and the development of future generations of technology.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

We also give consideration to the pace of the technological changes in the industries in which we sell our products.

For finite-lived intangible assets subject to amortization, impairment is assessed when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recovered. An impairment loss is recognized when the carrying amount of the long-lived asset exceeds its fair value and is not recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset.

Intangible assets deemed to have indefinite useful lives are not amortized but instead are tested for impairment at least annually and more frequently whenever events or changes in circumstances indicate that the fair value of the asset may be less than its carrying amount. Similar to goodwill impairment testing, we test for impairment of indefinite-lived intangible assets during the fourth quarter of our fiscal year using carrying amounts as of October 1.

In conducting the 2012 annual impairment test for indefinite lived intangible assets, we first performed a qualitative assessment to determine whether it was more likely than not that the fair value of an indefinite-lived intangible asset was less than the carrying amount as a basis for determining whether it was necessary to perform the quantitative impairment test described in ASC 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events or circumstances, we determine that it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, then the quantitative test for indefinite-lived intangible assets impairment is performed for the appropriate intangible assets. If the carrying amount of the indefinite-lived intangible asset exceeds its fair value, an impairment charge is recorded for the difference.

Income Taxes

The Exchange's operating results are included in the consolidated federal income tax return and certain state income tax returns filed by NASDAQ OMX. The Exchange also files separate tax returns in certain states. For financial reporting purposes, the provision for income taxes for the Exchange is determined as if the Exchange filed separate returns.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Exchange uses the asset and liability method to provide income taxes on all transactions recorded in the consolidated NASDAQ OMX financial statements. Deferred tax assets and liabilities are determined based on differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities (i.e., temporary differences) and are measured at the enacted rates that will be in effect when these differences are realized. If necessary, a valuation allowance is established to reduce deferred tax assets to the amount that is more likely than not to be realized.

In order to recognize and measure the Exchange's unrecognized tax benefits, management determines whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the recognition thresholds, the position is measured to determine the amount of benefit to be recognized on the consolidated financial statements. The Exchange's policy is to recognize interest and/or penalties related to income tax matters in provision for income taxes on the Consolidated Statement of Income.

Comprehensive Income

The Exchange follows the provisions of ASC 220. ASC 220 establishes standards to provide prominent disclosure of comprehensive income items. Comprehensive income is the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-operating sources. Accumulated other comprehensive loss consists of net unrealized losses on pension and postretirement plan adjustments of \$12.9 million.

Share-Based Compensation

The Exchange is part of a share-based compensation program that provides NASDAQ OMX's Board of Directors broad discretion in creating employee equity incentives. As such, share-based compensation is allocated to the Exchange from the Parent. Accounting for share-based compensation requires the measurement and recognition of compensation expense for all equity awards based on estimated fair values. PHLX recognizes compensation expense for equity awards on a straight-line basis over the requisite service period of the award.

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Pension Plan and Postretirement Benefit Plan

The Exchange administers a defined benefit pension plan and a postretirement benefit plan covering substantially all employees. The defined benefits are based primarily on years of service and employee's average pay over the employee's career with the Exchange. The Exchange accounts for these plans under ASC 715, Compensation-Retirement Benefits.

3. Goodwill and Intangible Assets

Goodwill

On July 24, 2008, NASDAQ OMX completed the acquisition of PHLX. NASDAQ OMX's cost to acquire PHLX of approximately \$707.5 million (\$652.0 million cash paid plus approximately \$11.8 million of direct acquisition costs and \$43.7 million of working capital adjustments) was subject to certain post-closing adjustments.

At December 31, 2012, goodwill relating to the acquisition was \$503.6 million. There were no changes to goodwill during the year ended December 31, 2012.

The Exchange completed the required annual impairment test, which determined that goodwill was not impaired for the year ended December 31, 2012. However, events such as economic weakness and unexpected significant declines in operating results may result in goodwill impairment charges in the future. A significant impairment charge in the future could have a material adverse effect on our operating results.

Notes to Consolidated Financial Statements (continued)

3. Goodwill and Intangible Assets (continued)

Intangible Assets

The following table presents the details of the purchased intangible assets acquired in the PHLX acquisition. All purchased intangible assets with finite lives are amortized using the straight-line method.

	 Gross Carrying Amount	Weighted- Average Useful Life (in Years)
Intangible assets: Exchange and futures registrations Customer relationships Technology Trade names Total intangible assets	\$ 207.0 112.9 3.1 6.4 329.4	Indefinite 21 years 5 years Indefinite

The Exchange completed its annual impairment test during 2012 and determined that its indefinite-lived intangible assets were not impaired. Finite-lived intangible assets are assessed for impairment upon certain "triggering events" and impairment is recognized if the carrying amount is not recoverable and the carrying amount exceeds the fair value of the intangible asset. For the year ended December 31, 2012, no impairment was recorded with respect to finite-lived intangible assets.

Deferred Tax Liability

A \$5.0 million current deferred tax liability and a \$149.0 million non-current deferred tax liability (total deferred tax liability of \$154.0 million) has been set up against the \$336.8 million value of PHLX's assets using the PHLX U.S. statutory tax rate of 45.72% at the date of acquisition. As of December 31, 2012, the deferred tax liability is \$123.7 million. The deferred tax liability represents the tax effect of the difference between the estimated assigned fair value of the acquired intangible assets (\$329.4 million) less accumulated book amortization (\$26.6 million) through December 31, 2012 and the tax basis (\$0) of such assets, using the U.S. statutory tax rate of 40.85%.

Notes to Consolidated Financial Statements (continued)

3. Goodwill and Intangible Assets (continued)

The following table presents details of the Exchange's total purchased intangible assets, both finite- and indefinite-lived:

	December 31, 2012					
		Gross Carrying Amount		cumulated ortization		Net Intangible Assets
Finite-lived intangible assets			(in	Millions)		
Technology Customer relationships	\$	3.1	\$	(2.7)	\$	0.4
Total finite-lived intangible assets		112.9		(23.9)		89.0
Total finite-fived intangible assets		116.0	\$	(26.6)	\$	89.4
Indefinite-lived intangible assets						
Exchange and futures registrations	\$	207.0	\$	_	\$	207.0
Trade names		6.4		_	·	6.4
Total indefinite-lived intangible assets	_\$	213.4	\$	-	\$	213.4
Total intangible assets	_\$	329.4	\$	(26.6)	\$	302.8

Amortization expense for purchased finite-lived intangible assets was \$6.0 million for the year ended December 31, 2012. The Exchange completed its annual impairment test during 2012 and determined that its indefinite-lived intangible assets were not impaired.

The estimated future amortization expense of purchased intangible assets as of December 31, 2012, is as follows (in millions):

2013	Φ	<i>c</i>
2014	\$	5.7
2015		5.4
2016		5.4
2017		5.4
2018 and thereafter		5.4
Total		62.1
Iotal	\$	89.4

Notes to Consolidated Financial Statements (continued)

4. Property and Equipment, Net of Accumulated Depreciation

The Exchange's property and equipment comprises the following:

		December 31, 2012 (in Millions)	
Software, internally developed / acquired Furniture, equipment, and leasehold improvements	\$	36.7 17.3	
Less – accumulated depreciation and amortization Total property and equipment, net of accumulated depreciation	\$	54.0 (29.6) 24.4	

The Exchange follows the provisions of ASC 350-40, *Internal-Use Software*, which requires entities to capitalize direct internal and external costs that meet certain capitalization criteria. Accordingly, the Exchange capitalized \$3.5 million of costs during the year ended December 31, 2012, included in property and equipment, net of accumulated depreciation on the Consolidated Balance Sheet. At December 31, 2012, unamortized capitalized software development was \$3.6 million.

For the year ended December 31, 2012, capitalized software amortization expense was \$2.9 million, while total depreciation expense relating to property and equipment was \$2.5 million. These amounts are included in depreciation and amortization expense on the Consolidated Statement of Income.

5. Payment for Order Flow

As a way to attract orders from brokers, the Exchange pays brokers for routing orders to PHLX, using funds collected from Payment for Order Flow ("PFOF") fees. The Exchange administers the collection and payment of PFOF fees assessed on certain qualifying transactions. PFOF funds are made available to order flow providers at the direction of specialist units and Directed Registered Options Traders. At December 31, 2012, the Parent held total cash in the amount of \$4.6 million and the Exchange held total receivable and payable balances of \$3.7 million and \$8.3 million, respectively, related to its PFOF programs, included in receivables, net of reserve for uncollectible accounts and other accrued liabilities, respectively, on the Consolidated Balance Sheet.

Notes to Consolidated Financial Statements (continued)

6. Income Taxes

The Exchange's operating results are included in the consolidated federal income tax return and certain state income tax returns filed by NASDAQ OMX. The Exchange also files separate tax returns in certain states. For financial reporting purposes, the provision for income taxes for the Exchange is determined as if the Exchange filed separate returns. On September 1, 2010, the Exchange converted from a Delaware Corporation to a Delaware Limited Liability Company. For periods after this date, the provision for income taxes for the Exchange will continue to be determined as if the Exchange filed separate federal tax returns. However, the state and local tax provision will be determined based on a revised apportionment allocation percentage resulting from such conversion.

The Exchange's income tax provision for the year ended December 31, 2012 consists of the following amounts (in millions):

Current:		
Federal	\$	39.3
State and local	Ψ	12.0
Total current income taxes		
2 out out one moone taxes	\$	51.3
Deferred:		
Federal	Φ.	0.0
State and local	\$	0.2
**************************************		3.7
Total deferred income taxes		3.9
Total provision for income taxes	Φ	
1	<u>3</u>	55.2

A reconciliation of the U.S. federal statutory rate to the Exchange's effective tax rate for the year ended December 31, 2012, is as follows:

Federal	35.0%
State and local income tax rate, net of federal effect	6.0
Change in deferred taxes due to change in tax rates Other	1.6
Effective tax rate	(1.2)
Directive tax late	41.4%

Notes to Consolidated Financial Statements (continued)

6. Income Taxes (continued)

The temporary differences, which give rise to the Exchange's deferred tax assets and (liabilities) consisted of the following:

	December 31, 2012
Deferred tax assets:	(In Millions)
State net operating loss	\$ 0.2
Compensation and benefits	15.7
Tax credits	6.6
Other	1.4
Gross deferred tax assets	23.9
Deferred tax liabilities:	
Software development costs	(6.6)
Acquired intangible assets	` ,
Other	(123.7)
Gross deferred tax liabilities	(1.1)
Gross deterred tax habilities	(131.4)
Net deferred tax liabilities before valuation allowance	(107.5)
Less: valuation allowance	(10/15)
Net deferred tax liabilities	\$ (107.5)

As of December 31, 2012, the Exchange carries a federal tax receivable from the prior year of \$10.9 million related to a 2008 federal net operating loss ("NOL"), generated before the business combination with NASDAQ OMX. The entire NOL was carried back to 2006 and 2007.

As of December 31, 2012, the Exchange had tax credits of approximately \$6.6 million. These tax credits primarily relate to research and development credits. These credits expire in 2018 through 2027.

Notes to Consolidated Financial Statements (continued)

6. Income Taxes (continued)

A reconciliation of the beginning and ending amount of unrecognized tax benefits, as of December 31, 2012, is as follows (in millions):

Beginning balance Additions as a result of tax positions taken in prior periods	\$ 6.3
Additions as a result of tax positions taken in prior periods Additions as a result of tax positions taken in the current period Ending balance	- 1.6
Litering balance	\$ 7.9

At December 31, 2012, the Exchange has accrued no interest and/or penalties related to income tax matters.

The federal income tax return for years 2006 and 2007 are currently under examination by the Internal Revenue Service and the Exchange remains subject to audit for 2008. For the periods after July 24, 2008, the Exchange's operating results are included in the federal income tax return filed by NASDAQ OMX. NASDAQ OMX and its eligible subsidiaries file a consolidated U.S. federal income tax return and applicable state and local income tax returns. NASDAQ OMX's federal income tax returns for the years 2008 through 2010 are currently under audit by the Internal Revenue Service and the 2011 tax return is subject to examination. The Exchange remains subject to audit by state and local tax authorities for years 2009–2011.

7. Employee Benefits

Pension Plan and Postretirement Benefit Plan

The Exchange participates in a trusteed non-contributory pension plan and a postretirement benefit plan covering substantially all employees of PHLX and its subsidiaries. The Exchange provides defined benefits that are based primarily on years of service and based on an employee's average pay over the employee's career with the Exchange.

The postretirement benefit plan provides certain health care and life insurance benefits for retired employees. Substantially all of the Exchange's employees may become eligible for those benefits if they reach normal retirement age while employed by the Exchange and fulfill other eligibility requirements as specified by the plan.

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

Subsequent to the acquisition of the Exchange by NASDAQ OMX on July 24, 2008, the Philadelphia Stock Exchange, Inc. and Stock Clearing Corporation of Philadelphia Employees' Pension Plan (the "PHLX Pension Plan") was "frozen," effective December 31, 2008. As a result, future service and salary for all participants will not count toward an accrual of benefits under the PHLX Pension Plan after December 31, 2008. However the PHLX Pension Plan legally remains in effect and all of the other terms and conditions of the PHLX Pension Plan (including those governing the time and form of benefit payment) continue to apply without any change. Accordingly, the "freeze" did not accelerate the payment of benefits under the PHLX Pension Plan. The "freeze" had no effect on the PHLX Pension Plan but did result in a curtailment gain in the Postretirement Benefits Plan. The PHLX Pension Plan is currently sponsored by the Exchange and funded by the Parent.

The funded status of the PHLX defined benefit plan and postretirement benefit plan is as follows:

		— —		retirement Benefits
		(In	Millions)
Benefit obligation, end of year Fair value of plan assets, beginning of year Actual return on plan assets Employer contributions Employee contributions Benefits paid Fair value of plan assets, end of year Underfunded status, end of year	\$	49.6 32.0 3.5 3.1 (1.4) 37.2 (12.4)	\$	3.1 - 0.3 - (0.3) - (3.1)
Amounts recognized in consolidated balance sheet at December 31, 2012: Current liabilities (anticipated contributions) Non-current liabilities Net amount recognized in consolidated balance sheet	\$ \$	(0.9) (11.5) (12.4)	\$	(0.5) (2.6) (3.1)
Amounts recognized in accumulated other comprehensive loss at December 31, 2012: Unrecognized actuarial loss/(gain)	\$	16.2	\$	(7.4)

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

The postretirement benefit plan provides certain health care and life insurance benefits for retired employees.

The accumulated benefit obligation for the pension plan at December 31, 2012 was \$49.6 million, of which \$12.4 million was underfunded. The underfunded portion of the accumulated benefit obligation for the pension plan is included in the current portion of accrued retirement obligation and accrued retirement obligation on the Consolidated Balance Sheet. The accumulated postretirement benefit obligation at December 31, 2012 was \$3.1 million and is included in the current portion of accrued retirement obligation and accrued retirement obligation on the Consolidated Balance Sheet.

Weighted every	Pension Benefits	Postretirement Benefits
Weighted-average assumptions used to determine obligations at December 31, 2012: Discount rate Rate of compensation increase	4.00% N/A	4.00% N/A
Weighted-average assumptions used to determine net periodic benefit cost for year ended December 31, 2012: Discount rate Expected long-term return on plan assets Rate of compensation increase	5.00% 7.75% N/A	5.00% N/A N/A

The Exchange sets the discount rate assumption annually for its retirement-related benefit plan at the measurement date to reflect the yield of high-quality fixed-income debt instruments.

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

The Exchange's net periodic pension cost and other postretirement benefits costs include the following components:

	 Pension Benefits (In N	tirement nefits
Service cost Interest cost Expected return on plan assets Recognized net actuarial loss Net periodic benefit cost	\$ 2.1 (2.5) 0.6 0.2	\$ 0.2 - (0.5) (0.3)

The Exchange's expected long-term rate on pension plan assets of 7.75% is based on the aggregate historical returns of the investments that comprise the defined benefit plan portfolio. The investment strategy of the plan is to achieve an asset allocation balance within planned targets to preserve principal while obtaining an average 7.75% annual return for the long-term.

The Exchange's strategy is to fund its defined benefit pension plan obligations. The need for further contributions will be based on changes in the value of plan assets and the movements of interest rates during the year. The Exchange expects to contribute \$0.92 million to the pension plan in 2013; however, additional contributions may be made to improve the funded status of the plan. The Exchange's pension plan asset allocation at December 31, 2012, and target allocation for 2013 by category are as follows:

Asset Category	Percentage of Plan Assets 2012	Target Allocation 2013
Mutual funds U.S. equity securities Cash	77% 13% 10%	80% 15% 5%

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

As of December 31, 2012, all plan assets, because they have quoted prices for identical instruments in active markets, have been classified as Level 1 in accordance with the fair value hierarchy. Mutual fund investments are held in various classes of domestic, international and emerging market equity, and fixed-income securities. Asset allocations are reviewed quarterly and adjusted, as appropriate, to remain within target allocations. The investment policy is reviewed on an annual basis, under the advisement of an investment consultant, to determine if the policy or asset allocation targets should be changed.

The following assumed benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the next ten fiscal years as follows:

		Pension Benefits		irement efits
Fiscal year ended		(In	Millions)	
2013	\$	1.6	\$	0.5
2014	·	1.7	*	0.5
2015		1.7		0.4
2016		1.8		0.4
2017		1.8		0.4
2018–2022		9.9		1.1
	\$	18.5	\$	3.3

Supplemental Executive Retirement Plan

The Exchange maintains nonqualified Supplemental Executive Retirement Plans ("SERP") for certain key executives. The SERP is unfunded. The funded status of the SERP (in millions) is as follows:

Benefit obligation, end of year	\$	16.1
Change in plan assets		70.1
Fair value of plan assets, beginning of year	\$	
Employer contributions	*	1.2
Benefits paid		(1.2)
Fair value of plan assets, end of year	\$	- (1.2)
Funded status (unfunded), end of year	\$	(16.1)
Amounts recognized in accumulated other comprehensive loss:		
Unrecognized actuarial loss	\$	1.4

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

The accumulated benefit obligation for the SERP at December 31, 2012 was \$16.1 million of which \$1.2 million is included in the current portion of accrued retirement obligation and \$14.9 million is included in accrued retirement obligation on the Consolidated Balance Sheet. Weighted-average assumptions used to determine benefit obligations at December 31, 2012:

Discount rate	4.00%
Rate of compensation increase	N/A

Weighted-average assumptions used to determine net periodic benefit cost for year ended December 31, 2012:

Discount rate	5.00%
Expected long-term return on plan assets	N/A
Rate of compensation increase	N/A

The Exchange sets the discount rate assumption annually for its retirement-related benefit plan at the measurement date to reflect the yield of high-quality fixed-income debt instruments.

The Exchange's net periodic pension cost includes the following components (in millions):

Interest cost	\$ 0.7
Recognized net actuarial loss	0.5
Net periodic benefit cost	\$ 1.2

The following assumed benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the next ten fiscal years as follows (in millions):

Fiscal year ended:	
2013	\$ 1.2
2014	1.2
2015	1.2
2016	1.2
2017	1.2
2018–2022	5.9
	\$ 11.9

Notes to Consolidated Financial Statements (continued)

7. Employee Benefits (continued)

As part of the Exchange acquisition on July 24, 2008, the Exchange accrued for future tax liabilities to be incurred by certain senior executives related to future SERP payouts. At December 31, 2012, the Exchange had a remaining payable of \$8.1 million, which is included in accrued retirement obligation on the Consolidated Balance Sheet.

Savings Plan

The Exchange also participates in a voluntary defined contribution 401(k) plan that covers substantially all of the Exchange and its subsidiaries' employees. Employer contributions to this 401(k) plan were \$0.3 million during the year ended December 31, 2012, and are included in compensation and benefit expense on the Consolidated Statement of Income. The Exchange's plan was merged into the 401(k) plan of NASDAQ OMX effective January 1, 2009.

8. Share-Based Compensation

PHLX is part of the Parent's share-based compensation program that provides the Parent's Board of Directors broad discretion in creating employee equity incentives. As such, share-based compensation is allocated to PHLX from NASDAQ OMX. Grants of stock options and restricted stock, which includes awards and units, are designed to reward employees for their long-term contributions to PHLX and provide incentives for them to remain with PHLX. Restricted stock is generally time-based and vests over two to five-year periods beginning on the date of the grant. Stock options are also generally time-based. Stock option awards generally include performance-based accelerated vesting features based on NASDAQ OMX achieving specific levels of performance and also expire 10 years from the grant date. If NASDAQ OMX exceeds the applicable performance parameters, the grants vest on the third anniversary of the grant date, if NASDAQ OMX meets the applicable performance parameters the grants vest on the fourth anniversary, and if NASDAQ OMX does not meet the applicable performance parameters, the grants extend to vest on the fifth anniversary of the grant date.

PHLX estimates the fair value of employee stock options using the Black-Scholes valuation model. Assumptions used in the Black-Scholes valuation model include the expected life of the award, the weighted-average risk-free rate, the expected volatility, and the dividend yield. Our computation of expected life is based on historical exercise patterns. The risk-free interest rate for periods within the expected life of the award is based on the U.S. Treasury yield curve in effect at the time of grant. Our computation of expected volatility is based on a market-based implied volatility.

Notes to Consolidated Financial Statements (continued)

8. Share-Based Compensation (continued)

Compensation expense for equity awards totaled \$1.6 million during the year ended December 31, 2012, and is included in compensation and benefits on the Consolidated Statement of Income.

9. Related-Party Transactions

PHLX engages in related party transactions with the Parent. Third party revenues earned by PHLX are collected on its behalf by the Parent resulting in receivables from affiliated companies. Additionally, expenses incurred by PHLX are settled on its behalf by the Parent or the Parent's other wholly-owned subsidiaries and allocated through intercompany charges resulting in payables to affiliated companies. At December 31, 2012, PHLX owed \$490.8 million to the Parent, representing day to day expenses associated with operating the exchange. This balance is presented as payable to affiliated companies, net on the Consolidated Balance Sheet.

PHLX and its Parent and affiliates share certain services such as accounting, finance, legal, and other administrative support. Expenses related to these shared services are allocated to the Exchange and its affiliates through intercompany charges based on an allocation model. These expenses represent amounts related to the Exchange's proportionate share of each expense incurred. Expenses allocated to the Exchange totaled \$10.2 million for the year ended December 31, 2012, and are included in general, administration, and other on the Consolidated Statement of Income.

Occupancy costs are based on leases and adjusted for allocations to/from NASDAQ OMX based on a corporate allocation model based on usage by entity. The Exchange allocated out \$1.5 million in expenses for the year ended December 31, 2012, which is included in occupancy on the Consolidated Statement of Income.

The Exchange incurs expenses relating to equities and options contracts routed to other external and internal venues on behalf of the Exchange by Nasdaq Execution Services, LLC ("NES") and NASDAQ Options Services, LLC ("NOS"), respectively, routing broker-dealer subsidiaries of the Parent, resulting in payables to affiliated companies. The Exchange also earns transaction and access fees from NES and NOS for equities and options contracts routed to PHLX, resulting in amounts receivable from affiliated companies. PHLX assessed \$0.3 million in transaction and access fees to NOS for options contracts routed to PHLX and \$3.7 million in transaction and access fees to NES for equity shares routed to PHLX.

Notes to Consolidated Financial Statements (continued)

10. Commitment and Contingencies

A Regulatory Services Agreement exists between PHLX, The NASDAQ Stock Market, LLC, and NASDAQ OMX BX Inc. that allows one Self-Regulatory Organization (SRO) to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

General Litigation and Regulatory Matters

Self- Regulatory Organizations ("SRO") in the securities industry are an essential component of the regulatory scheme of the Securities Exchange Act of 1934 (the "Exchange Act"), for providing fair and orderly markets and protecting investors. The Exchange Act and the rules thereunder impose on the SROs many regulatory and operational responsibilities, including the day-to-day responsibilities for market and broker-dealer oversight. In general, an SRO is responsible for regulating its members through the adoption and enforcement of rules and regulations governing the business conduct of its members. A Regulatory Services Agreement exists between PHLX, The NASDAQ Stock Market, LLC, and NASDAQ OMX BX Inc. that allows one SRO to use the services of another SRO and its staff. Services are provided without cost or expense to the individual SRO.

The Exchange is subject to SEC oversight, as prescribed by the Exchange Act, including periodic and special examinations by the SEC. The Exchange is also potentially subject to regulatory or legal action by the SEC or other interested parties at any time in connection with alleged regulatory violations. The Exchange is also subject to Section 17 of the Exchange Act, which imposes record-keeping requirements, including the requirement to make records available to the SEC for examination. We have been subject to a number of routine reviews and inspections by the SEC or other third parties in the ordinary course and in connection with settlements with the SEC. To the extent such actions or reviews and inspections result in regulatory or other changes, we may be required to modify the manner in which we conduct our business, which may adversely affect our business.

FINRA provides regulatory services to the markets operated or regulated by the Exchange, including the regulation of trading activity and surveillance and investigative functions. We have a limited direct regulatory role in conducting real-time market monitoring, options surveillance, rulemaking and some membership functions through the Exchange's MarketWatch department. We refer suspicious trading behavior discovered by our regulatory staff and all other employees of the markets operated or regulated by the Exchange to FINRA for further investigation.

Notes to Consolidated Financial Statements (continued)

10. Commitment and Contingencies (continued)

The National Futures Association ("NFA") and OCC provide certain regulatory services to NFX pursuant to regulatory services agreements.

PHLX may be involved in litigation arising in the normal course of business. At December 31, 2012, PHLX is not a party to any litigation that management believes could have a material adverse effect on PHLX's business, financial condition, or operating results. Consequently, no legal reserve has been recorded or is deemed necessary as of December 31, 2012. However, from time to time, PHLX has been threatened with, or named as a defendant in, lawsuits or involved in regulatory proceedings.

Operating Leases

Rental expense was \$1.7 million for the year ended December 31, 2012 and is reflected in occupancy on the Consolidated Statement of Income. The Exchange has classified amounts totaling \$0.5 million as deferred credits at December 31, 2012. The deferred rent credit represents the tenant improvement allowance paid to the Exchange and will be amortized over the life of the lease.

The Exchange's minimum future annual rental obligations, exclusive of insurance, maintenance, and other costs, applicable to existing non-cancelable operating leases with third parties, are as follows (in millions):

Year ending December 31:	
2013	Ф 26
2014	\$ 2.6
2015	2.6
2016	2.6
2017	2.7
2018 and thereafter	2.7
2010 and thereafter	11.6
	\$ 24.8

Notes to Consolidated Financial Statements (continued)

11. Risks and Uncertainties

Our market participants operate in a highly regulated industry. The SEC and other regulatory authorities could impose regulatory changes that could adversely impact the ability of our market participants to use our markets. Regulatory changes by the SEC or other regulatory authorities could result in the loss of a significant number of market participants or a reduction in trading activity on the exchange.

The markets in which we compete are characterized by rapidly changing technology, evolving industry standards, frequent enhancements to existing products and services, the adoption of new services and products and changing customer demands. We may not be able to keep up with rapid technological and other competitive changes affecting our industry. For example, we must continue to enhance our electronic trading platforms to remain competitive, and our business will be negatively affected if our electronic trading platforms fail to function as expected. If we are unable to develop our electronic trading platforms to include other products and markets, or if our electronic trading platforms do not have the required functionality, performance, capacity, reliability and speed required by our business, as well as by our customers, we may not be able to compete successfully. Further, our failure to anticipate or respond adequately to changes in technology and customer preferences, especially in our market technology business, or any significant delays in product development efforts, could have a material adverse effect on our business, financial condition and operating results.

PHLX is exposed to credit risk related to transaction, access, and market data services that are billed to customers on a monthly basis, in arrears. PHLX's potential exposure to credit losses on these transactions is represented in the receivables, net of reserve for uncollectible accounts balance on the Consolidated Balance Sheet. PHLX customers are financial institutions whose ability to satisfy their contractual obligations may be impacted by volatile securities markets. On an ongoing basis, management reviews and evaluates changes in the status of the counterparty's creditworthiness. Credit losses such as those described above could adversely affect PHLX's consolidated financial position and results of operations.

Our business is subject to extensive regulation. Under current U.S. federal securities laws, changes in the rules and operations of our markets, including our pricing structure, must be reviewed and in many cases explicitly approved by the SEC. The SEC may approve, disapprove, or recommend changes to proposals that we submit. In addition, the SEC may delay either the approval process or the initiation of the public comment process. Any delay in approving changes, or the altering of any proposed change, could have an adverse effect on our business,

Notes to Consolidated Financial Statements (continued)

11. Risks and Uncertainties (continued)

financial condition and operating results. We must compete not only with alternative trading systems, known collectively as dark pools, that are not subject to the same SEC approval process but also with other exchanges that may have lower regulation and surveillance costs than us. There is a risk that trading will shift to exchanges that charge lower fees because, among other reasons, they spend significantly less on regulation.

12. Fair Value of Financial Instruments

The carrying amounts reported on the Consolidated Balance Sheet for cash and cash equivalents approximate fair value based on the on-demand nature. Other assets and liabilities with short and intermediate-term maturities and defined settlement amounts, including receivables, net of reserve for uncollectible accounts, tax receivable, other current assets, other assets, accounts payable and accrued expenses, accrued personnel costs, payables to affiliated companies, net, Section 31 fees payable to the SEC, other accrued liabilities, and other liabilities, are reported at their contractual amounts, which approximate fair value due to their short term nature.

13. Subsequent Events

The Exchange has evaluated subsequent events through the date the consolidated financial statements were available to be issued and has determined that there are no known events that require disclosure in the consolidated financial statements or accompanying notes in accordance with ASC 855, Subsequent Events.
